I. GENERAL INFORMATION

STATE AGENCY
The Alabama Department of Human Resources (DHR) is designated by the Governor as the Agency to administer the Social Services Block Grant (Title XX), Title IV-B and Title IV-E Programs. DHR administers the IV-B, subpart two, Promoting Safe and Stable Families plan and supervises services provided by the Department and purchased through community service providers.

The Family Services Division (FSD), with oversight from the Deputy Commissioner for Children and Family Services, and the Deputy Commissioner of Quality Assurance, has primary responsibility for the social service components of the Title IV-E plan and programs that include: A) Independent Living Services, B) the Title IV-B plan and programs for children and their families funded through the Social Services Block Grant, and C) the Child Abuse Prevention and Treatment Act (CAPTA). There is additional involvement from other key offices within the Department. Reporting to the Deputy Commissioner for Fiscal and Administrative Services, the Office of Resource Management is responsible for regulatory and residential licensure functions, procuring/contracting services for the child welfare continuum, utilization review, and family preservation/support services.

Alabama meets the Maintenance of Effort (MOE) requirement of $1,016,682 through the State Family Options program and does not supplant any state funds. The Substantial Portion of Funds requirement for Promoting Safe and Stable Families is met with the following allocation of funds for FY 2015: Family Preservation 21.4%, Family Support 28.9%, Time-Limited Reunification 28.7%, Adoption Promotion and Support 20.9%.

II. ORGANIZATION/STRUCTURE OF THE CHILD WELFARE SERVICES PROGRAM—FAMILY SERVICES DIVISION

Director – Family Services
The Director* is responsible for the overall administration of the Division with support from two Deputy Directors. A number of specific child welfare programs and initiatives are managed within the Division. In addition, there are other offices or units within the Division that provide an infrastructure to support the overall child welfare mission. The Director’s scope of responsibility includes oversight for the provision of a range of supports to County Departments in the areas of policy development, program training, foster and adoptive home recruitment and approval, consultation and technical assistance, budgeting, data analysis, and also direct client services to children and families. The Director is responsible for ensuring an infrastructure that supports service delivery and the capacity for ongoing sustainability of these systemic improvements across all 67 County Departments. Coordination with the Commissioner, Deputy Commissioners, the Legal Office, other Division Directors, and County Directors takes place on a regular basis. The Director represents the Division with other state and Federal agencies, advisory groups, legislators, Governor’s Office, and advocacy groups. Direct supervision is provided to the Deputy Directors, the Director’s Administrative Assistant (Office Administrator), the Offices of Data Analysis, and FACTS.

Deputy Directors – Family Services
One Deputy Director supervises the Managers of the following Offices: Child Protective Services, Office of Child Welfare Policy, Federal Coordination and Reporting, and the Interstate Compact on the Placement of Children. The other Deputy Director supervises the Office of Foster Care and Independent Living, which includes policy development and management of work with the initiatives supported by Casey Family Programs. This Deputy also supervises the Managers of the following Offices: Financial Resource Management, Adoption, and Child Welfare Eligibility. Recruitment activities, liaison work with child care providers, and strengthening collaboration with foster and adoptive parents and other partners are among this Deputy's responsibilities. Both Deputy Directors serve as liaisons to represent the Family Services Division in internal Agency meetings involving the Commissioner, Deputy Commissioners and the State Legal Office, and in extra-agency training, task forces, work committees, and other groups.

Office of Child Welfare Policy
As of June 1, 2017, the Office of Policy is comprised of one Program Manager, one full-time policy developer and one part-time policy developer. The Office of Child Welfare Policy (OCWP) is responsible for developing child welfare policy required by state and Federal legislation, and developing and revising all other policies as directed by each child welfare
program, (e.g., CPS, Foster Care). The Office of Policy is responsible for coordinating revisions to the **Minimum Standards for Foster Family Homes**; incorporating best practice goals and principles into policy; amending the Administrative Record Procedures Code; coordinating the review of state legislation pertinent to services for children and families; developing and submission of the title IV-E State Plan; and publishing policy interpretations. Policy development and revision processes include:

- Assessing policy needs and issues.
- Planning approaches to policy development.
- Completing state of the art literature research.
- Collaborating with experts and professional resources.
- Writing policy drafts.
- Involving relevant stakeholders (e.g., county staff, County Director’s Policy Advisory Committee, and other appropriate individuals and groups in the draft review process.
- Managing the review, comment, and final drafting process through the Department and external stakeholders.
- Securing administration’s approval of the proposed final draft.

In addition, the Office of Policy responds to county, other state partners, and national requests for information about policy; makes referrals to other Program areas as needed for case-specific consultation; and serves as back-up to Child Welfare Intake. The Office of Policy also supports QSR work in the counties, proxy work for high-level Administration, and support for ongoing initiatives/needs throughout Family Services.

**Office of Child Protective Services**

The Office of Child Protective Services (CPS) is responsible for statewide program development in child protective services. Working in conjunction with county offices, the Office of CPS provides consultation and local and statewide training to staff in the counties as well as community partners. As of June 1, 2017, the Office of Child Protective Services is comprised of one Program Manager, one Program Supervisor, five Program Specialists, two fulltime Administrative Support Assistants, and one part-time Administrative Support Assistant.

The Office continues to have responsibility for the following:

- The Basic Child Abuse Grant
- Working in conjunction with the Children’s Justice Task Force on the Children’s Justice Grant.
- Managing and conducting Administrative Record Reviews when persons allegedly responsible for child abuse and neglect do not agree with a substantiated finding. Program Specialists who have extensive knowledge in CPS practice and policy work in partnership with County Administrative Record staff to conduct the Administrative Record Reviews. These staff are responsible for reviewing all information that was used by the county in their determination that an indicated/substantiated report of maltreatment occurred. Alleged perpetrators requesting the Administrative Record Review also have the opportunity to submit any information they would like for Reviewers to consider. It is the responsibility of the State and County Reviewers to determine if there is sufficient evidence to support an indicated (i.e., substantiated) finding of abuse or neglect and whether the assessment and documentation of the information gathered supports, by a preponderance of evidence, that maltreatment occurred. Upon completion of the Administrative Record Review, it is the responsibility of the State Administrative Record Reviewers to provide feedback to county staff. The Office is also responsible for providing training to county staff on these reviews.
- The management of the Central Registry on Child Abuse and Neglect is the responsibility of this Office. Information contained in the Central Registry serves to prevent child abuse and neglect of children through the clearance of potential childcare providers, child care institution employees, day care center employees, staff in school systems, voluntary agencies, child placing agencies, and others. The entire state relies on the Central Registry to clear prospective employees or volunteers who work with children. This information bank also assists County Departments in intervention services by providing data necessary for a thorough family assessment. The Office of CPS also responds to clearance requests from other states so they are in compliance with the Adam Walsh Act. In order to ensure that accurate information is released regarding individuals having an indicated/substantiated report of abuse or neglect, CPS staff is assigned to review the actual CA/N report(s) prior to the release of any information. The number of Central Registry Clearance Requests fluctuates, and was slightly decreased in FY 2016 from 29,522 to the Office of CPS processed 27, 261 requests.
- The current Program Manager, appointed May, 2016, previously worked as the Child Protective Services Functional during the development of Alabama’s SACWIS system (FACTS), and continues to represent the Office of CPS in
resolving FACTS issues that directly impact the work of CPS, in both the State and county offices. In addition, the Manager responds to calls from county office staff on CPS and SACWIS issues, training needs and CPS policy development. Other responsibilities include: Supervision and development of Alabama’s CPS Program; working as a team member on the development of Child Protective Services policy, reviewing legislation related to child protective services, and state liaison to the Children’s Bureau, Office of Child Abuse and Neglect.

Office of Child Welfare Training
As of March 1, 2017, The Office of Child Welfare Training (OCWT) unit consists of seven trainers, a Program Manager, and a Program Supervisor. In May, 2016, this Office was transferred from Family Services to the newly formed Quality Assurance Program. The Deputy Commissioner for that Program works in close collaboration with Family Services. OCWT continues to partner with the Offices of Permanency, CPS, QA, the Office of Quality Child Welfare Practice, and Policy. Since January 2012, the Office of Child Welfare Training also trains FACTS. The training unit continues to play an important role in consulting and partnering with other units to meet overall Division training needs. The Office of Child Welfare Training serves as a “clearinghouse” for training needs within the Division. In some areas it will serve in a consulting role to help other units in the Division develop curricula that is outcomes-based and fits within the adult learning mode. In other areas, it may do more partnering by helping to deliver the training with staff. It also serves in a consulting role for the counties as they are enabled through train-the-trainer programs to produce and present some of their own training. Also see Training Plan.

Office of Quality Child Welfare Practice
The Office of Quality Child Welfare Practice (OQCWP) lies within the Quality Assurance Program led by Deputy Commissioner Gina Simpson, and they are responsible for capacity development around best practice and support to all 67 County Departments. This Office partners with the Office of Quality Assurance to support our Continuous Quality Improvement model. A team of staff from this Office conducts a 20% onsite Random Record Review six months following an onsite QA review. The OQCWP Specialist will provide completed Child Welfare Practice Review Tools and a Report of Findings to the Director and Supervisors in the County following each 20% onsite review. The Child Welfare Practice Review Tool tracks and monitors all child and family status, practice areas of the case, and recommendations by the OQCWP Specialist. The 20% Random Record Review identifies areas of Strengths and Needs. OQCWP will focus on three to four areas of need derived from the QA review and the OQCWP 20% reviews. The OQCWP Specialist will work with each County director to develop a Working Agreement around these focus areas. The OQCWP Specialist will then work in conjunction with QA and the County to develop a County Improvement Plan. This plan will serve as a guide and working document to move practice forward and achieve positive and timely outcomes for children and families. Support will be provided by OQCWP Specialist following the review to focus on the three to four areas identified. These focus areas are outlined in the Working Agreement, the County Improvement Plan and the County's Biannual Assessment. OQCWP will work towards building capacity within County Supervisors to improve casework, ensure adherence to Child Welfare Policy, and strategies for retention of staff. Supervisory Management Training was provided to all County Supervisors and OQCWP will continue to build on that training. OQCWP Specialists will work one on one with County Supervisors to enhance their understanding and use of the Electronic Reports Distribution (ERD) and how to review cases using the Child Welfare Practice Tool. OQCWP will support the importance of Unit meetings, individual supervisory meetings with staff, accountability of staff, working agreements, time management, timeframe obstacles, purposeful technical support, and self-care, among others.

The current Continuous Quality Improvement model utilizes the expertise of the Practice Specialists in areas of policy, practice, and assessment of outcomes. The Practice Specialists travel onsite to counties to assess best practice indicators and to review case files. Through this process they provide case-specific feedback and suggested next steps, with recommendations to provide improved sustainability and goal achievement outcomes in Preventions, CAN’s, ongoing CPS cases, Foster Care Cases, and Foster Family Home Records. The Program Specialists in the OQCWP are proficient in training and often support local initiatives as well as more regional and even statewide needs around capacity-development. Examples include training material developed by OQCWP and approved by the Office of Child Welfare Training to provide consistency: Individualized Service Planning; Documentation in Child Welfare; Meaningful Caseworker Visits; and others. The Program Manager and the two Program Supervisors oversee the OQCWP Specialists in their work onsite in the counties; conducting special assignments to support directives around needs for improved outcomes; and providing increased capacity-development opportunities for our practice Specialist and all OQCWP staff.

As of May 1, 2017, the OQCWP consisted of the following staff: one Program Manager, two Program Supervisors and seven Program Specialists. In addition, the Office contains one Board Certified Specialist, two Specialist Fellowship positions, and one PhD level intern. All report to the OQCWP Program Manager. In May, 2016, the Office of Quality Child Welfare Practice, formerly known as the Office of Child Welfare Consultation, was transferred from Family Services to the newly formed Quality Assurance Program. The QA Deputy Commissioner, the QA Deputy Director and the OQCWP Program Manager for the OQCWP Program works in close collaboration with Family Services.
The Board Certified Specialist (BCBA) provides training in the “Tools of Choice” Parenting Classes. The TOC courses are provided to parents, legal custodians of children with an open DHR Child Welfare case, foster parents, and DHR staff. These courses are offered as a service to teach behavior strategies with the child who exhibits challenging behaviors through an eight week classroom setting. Following the eight week classroom instruction, home visits are made by the Specialist to observe implementation of the behavior modification strategies. The work in the TOC courses was published in 2013, based on research for the time frame of 2006 – 2009. A synopsis of the data from that research, which confirms the success of keeping children in their homes, is located in Appendix 8.

The BCBA’s also respond to Individual Behavior Assessment Referrals from the County DHR Child Welfare Units. The BCBA will review all documentation in FACTS to understand social history, background, and the ISP case plan. The BCBA will then observe the child in all his/her settings to determine the level of behavior needs. The BCBA will write and implement a behavior modification plan specific to that child and provide follow up in the home and school, weekly, bi-weekly or monthly until progress is achieved. The BCBA’s have recently participated in an initiative where they have worked with over 200 children in Congregate Care. The BCBA’s will interview each child individually and privately to determine if the Behavior Plan in the facility is appropriate for that child's needs. The BCBA will review the child’s steps(levels) in the facility to determine if the steps are attainable and designed to ensure successful and timely completion of the program. The BCBA will evaluate to determine the obstacles to the child stepping down to the least restrictive environment. Once this has been completed, the BCBA and the QOCWP Program Manager will provide the results to Family Services for further intervention. The Specialists are an integral part of the QOCWP in the Continuous Quality Improvement Model, as the goal is to preserve the family unit by offering alternative methods of discipline, behavior plans for children on the Spectrum and Behavior Modification.

**Office of Constituent Services**

The Office of Constituent Services/Intake is part of the Quality Assurance Division (QAD). This unit was transferred in May, 2016, from Family Services to the newly formed Quality Assurance Division. The QAD Deputy Commissioner oversees the functions of this Office along with the Deputy Director. The Office of Constituent Services is also specifically headed by a Program Manager who supervises the Specialists of that unit. They currently have a staff of four Intake Specialists who receive and respond to state and national calls from constituents who have concerns about child welfare issues. Each Intake Specialist has an assigned group of counties. The Office accepts constituent communications by phone, emails, and letters. In addition, they address concerns received from Legislators, the Commissioner and her staff, and the Governor’s office. Upon receipt of the concern, the Intake Specialist contacts the local County Department within the proper jurisdiction. These concerns are discussed with the local County Director or a designated supervisor. Once addressed, the Office requests a 24 – hour response regarding the status of the constituent’s complaint. As a quality check, they also ensure that the constituent has been contacted by the local agency within 24 hours.

The Intake Specialists in this Office frequently access information from Alabama’s SACWIS System. Once they receive a complaint, they check the system regarding past and present investigations, removals, and basic history on the family, as well as any current service plan. They enter and track constituent information into the system as an “Information and Referral”. Once entered, the information is reviewed by the Program Manager for approval. Once approved, it is tracked by the number and type of complaint received along with the county of origin. In 2016, 494 Information and Referrals were received/documented in the Office of Constituent Services. In addition, this unit is responsible for the assignments of the Multi-dimensional Assessment Tool, (MAT) for Therapeutic Foster Care placements. The tool assists in determining the level of care/placement for behaviorally challenged children in foster care. These referrals/requests are sent from the Office of Resource Management to the Program Manager for assignments. Presently, the unit has four MAT Assessors to assist those County Departments of Human Resources where there is no local assessor. As of June 1, 2017, the data regarding MATs completed (for Therapeutic Foster Care, does not include Residential Treatment) for January – May, 2017 was as follows: Initial MAT Assessments = 195; MAT Reviews = 163.

**Office of Quality Assurance**

In May, 2016, this Office was transferred from Family Services to the newly formed Quality Assurance Program. The Deputy Commissioner for that Program works in close collaboration with Family Services. As of June 1, the Office of Quality Assurance (QA) consists of a Program Supervisor and six Program Specialists. The QA system monitors, evaluates and provides feedback to the Department on the performance of the child welfare system. Reviews are conducted to determine if the child welfare system provides services of sufficient intensity, scope and quality to meet the individual needs of children and their families. The QA system is intended to support the development, implementation and refinement of the service delivery system. In addition to examining and assessing the components of the Department’s System of Care, QA identifies needs and recommends corrective actions necessary to improve services, capacity, outcomes and conformity with Federal, State and Departmental program requirements. It also confirms strengths, identifies successful strategies, and recommends ways in which effective practice and/or system performance can be replicated and/or improved. It helps identify and provide necessary training, consultation and technical assistance to local and state
DHR staff and technical providers as well as reviewing for the implementation and effects of corrective actions where needed. The Office of Quality Assurance provides technical assistance to counties through QA Specialists by providing information and consultation. It does so in a variety of ways/areas including: training staff with QA responsibilities and local and state QA committee members; providing consultation on QA committee membership, functions and activities; reviews completed county QSR documents and enters required data; reviews and provides feedback on county biannual reports; monitors review of county improvement plans, provides measurement steps in county improvement plans; and, as needed, assists other Specialists in the Quality Assurance Division and Family Services Division (FSD) in providing instruction and guidance in practice areas identified by onsite reviews as needing improvement.

Office of Data Analysis
As of June 1, 2017, the Office of Data Analysis is comprised of a Program Manager and two Program Specialists. The Office of Data Analysis is responsible for the Program support area of the Statewide Automated Child Welfare Information System (SACWIS) – Family, Adult and Child Tracking System (FACTS), which was implemented statewide in January 2009. Staff from this Office serve as mentors to provide support in regard to the SACWIS system for state office staff. The Office is responsible for identifying the data support needs of the Family Services Division and coordinating the collection of data with the Department’s Information Services Division and FACTS Functional Staff. In addition, the Office analyzes data on child welfare outcomes and strives to present the findings in useful and meaningful ways to administration and Family Service staff, County Offices and other State and Federal Agencies. This Office also reviews Federal and State regulations to determine policy requirements that result in changes which directly affect the Caseworker Visits, NCANDS and AFCARS reporting. The Office of Data Analysis works closely with the Office of Quality Assurance and provides county safety and permanency data profiles to state QA staff before every state QA review. The Office has established a database of measurement mechanisms for State QA case reviews. The Office, in conjunction with the FACTS Functional Staff and the Department’s Information Services Division, has developed monthly, quarterly and annual data reports to assist the state and county staff in analyzing and interpreting data. This enables all employees to monitor their caseloads through access from their computer desktop. The Office of Data Analysis, in conjunction with the Office of Quality Assurance, collects data on child deaths through County Child Death Reports and Reviews. The Office has established and maintains a database, which provides history from 1997. A monthly report of child deaths due to maltreatment is provided to the Department’s administration and quarterly findings are reported to the Office of Quality Assurance.

Office of Interstate Compact on the Placement of Children
The Office of Interstate Compact on the Placement of Children (ICPC) reviews, approves/disapproves and processes correspondence concerning the placement of children for foster care and residential placement. This Office also approves/disapproves and processes correspondence for children to enter or leave the state for the purpose of adoption. Placement of children through ICPC ensures protection and consistency of services to children who are placed across state lines for foster care or adoption and also establishes orderly procedures for the interstate placement of children. This Office arranges travel for caseworkers and children for out-of-state placements. As of June 1, the Office of ICPC includes a newly-appointed Program Manager, one Program Specialist who manages the Adoption component of the work and three Program Specialists who support Foster Care. In 2016, the office completed 1, 256 referrals; processed 172 adoption referrals; 449 foster care requests; 402 relative requests; 205 parental requests, and 28 residential placement requests. In 2016, this Office also supported DHR policy training by providing 10 comprehensive training sessions to approximately 850 DHR county staff statewide.

Office of Federal Coordination and Reporting
The Office of Federal Coordination and Reporting currently consists of one Program Manager, who coordinates many of the meetings and reports related to child welfare programs and planning (includes both inter-divisional meetings, as well as meetings of Division staff with external stakeholders and Federal partners). In particular, this Office is responsible for the compilation and submission of Alabama’s Annual Progress and Services Report. This staff person also continuously collaborates with the Quality Assurance Division in planning and coordinating activities.

Office of Foster Care and ILP
The Office of Foster Care and Independent Living Program (ILP) supports focus on and improvement of permanency planning for all children in out of home care, providing specialized services and supports statewide. As of June 1, 2017, the Office of FC / ILP consisted of the following staff: a Program Manager, a Program Supervisor of the Foster Care Unit and a Foster Care Specialist. The Office of ILP has two ILP Specialists, and has been expanded to include three Fostering Hope Mentors. The position of ILP Program Supervisor is currently vacant. The Foster Care / ILP Manager also serves as the State ILP Coordinator. A plan has been proposed for some restructuring of the Office staff and is under active consideration. One of these ILP Specialists is out-based. Two vacant Foster Care Specialist positions remain to be back-filled. The ILP Program Specialists are trained and work in the areas of policy development, training, and consultation for Independent Living Services. They also perform some logical functions in the Foster Care unit.
Within this Office, the Independent Living Program Unit supports the needs and identification of services for older youth to develop skills to live independently and achieve more timely permanency. The unit consists of three Program Specialists and the Program Manager who also serves as the State Independent Living Coordinator. This unit has the responsibility of providing program development and implementation utilizing Chafee and Foster Care Funds received to support improved outcomes for youth involved with the child welfare system. This program area currently provides management of Federal funding available to support counties in serving youth ages 14-21 and development of State and local programs. The implementation of the National Youth in Transition Database, (NYTD), and monitoring of the Alabama Education and Training Voucher (ETV) Program are also responsibilities which lie within this office. The Program also provides supports to the Department of Youth Services in a referral capacity as young people exit the juvenile justice systems.

This year, the Program has assumed responsibilities related to serving children which include: screening children under six for therapeutic foster care; reviewing, monitoring and approving of out of state residential placements; approving short-term placement of youth in psychiatric hospitals for stabilization; supporting the Department of Youth Services protocol, serving liaison for the Department on the State Multi-Needs Team; reviewing and monitoring critical incident reports related to children in our child-placing and residential facilities; providing training and support related to the statewide implementation of Reasonable and Prudent Parenting Standards per the provision in PL-113-183; the development of and participation on the Alabama Human Trafficking Taskforce; providing training to Regional Human Trafficking Taskforces, FBI, District Attorneys and community partners; and the development of the State Human Trafficking Protocol, policy and procedures.

Staff training and support are key components to program success. Regional trainings for staff currently serving the Independent Living population began in January, 2017 and were held through June, 2017. The Regional Consultation training model provides an opportunity for all staff serving ILP age youth and service providers to receive targeted training related to ILP youth permanency, services, supports and the implementation of strategic planning in a small group setting; and provides a productive opportunity to receive case consultation. The ILP Networking Conference was held at the Alabama Army National Guard Center, April 4-6, 2017. This training was designed to promote partnerships among counties to develop and provide meaningful training and supports for young people from and residing in their areas. Natural mentoring was highlighted. Training focused on promoting well-being through ISP participation, and court visitation with family and siblings. Sessions were provided to promote NYTD participation and participation in the Fostering Hope Scholarship Program. County ILP staff members and congregate care providers convened to provide training regarding serving youth in congregate care settings, working with youth as they transition, placement stability, sex trafficking, preparation for higher education, appropriate placement, and building and promoting permanency for older youth. The Program also provided trainings to DHR staff, supervisors, foster parents and community stakeholders at the Permanency Conference and the Alabama Foster and Adoptive Parents Association Conferences. Two important Conferences for Supervisors will occur in July 2017.

Strategic Planning was held at the Alabama National Guard Center November 3-4, 2016 with the fifteen counties who serve 50 or more ILP age youth. The planning was held in conjunction with the State Department of Education Career Coaches and Army National Guard recruiters. ILP vendor partners were present, including: Alabama Foster and Adoptive Parents Association; the National Social Work Enrichment Program; Alabama Reach and Nsoro; Kids to Love (KTech & Camp Hope); and Children’s Aid Society. They met to identify barriers and develop strategies related to building relationships with our young people, networks of support over their lifespan and improving their well-being through enhancement of their college and career goals. There is scheduled follow-up with those counties and the ILP Coordinators to ensure that plans are implemented in the respective counties, which focus on identifying and developing permanent connections for every child via the ISP and Roundtable processes. There is focused work around academic/vocational success and participation in extracurricular activities as prescribed in the Reasonable and Prudent Parenting Standard. The ILP Team and the IL Specialists around the State will meet with the State Department of Education Career Coaches and the Army National Guard Recruiters again in FY2018.

The program area, through the support of and partnership with Children’s Aid Society, continued to work to enhance the leadership ability and self-advocacy with a focus on positive permanency outcomes of youth leaders throughout the State at our annual summer Leadership Camp the Camp, which was held July 11-12, 2016. The training for this year is completed on the Friday prior to each DREAM Council meeting and the day before each of the summer ILP Camps. The DREAM Ambassadors have assisted with the ILP Camp planning and will provide training at the sessions. DREAM Ambassadors participated in the DREAM Council meetings conducted once monthly around the state; served on youth panels for the State Quality Assurance members and all county State Quality Assurance Committee Presidents. Ninety-four youth participated in the Youth Camps/Conferences held June and July, 2016. Youth were trained regarding banking and credit reporting, human trafficking, money management, college and technical school preparation, application and support, leadership, Fostering Hope and Education and Training Vouchers, self-advocacy and ISP participation. Achieving permanency for older youth and supporting them as they transition out of foster care continues to be in the foreground of
program development. To that end, a focus on older youth permanency through roundtable consultation, higher education support through legislations regarding tuition waiver, college and job preparedness and youth participation in programming continues to be our focus. We will continue to partner with the Nsoro and National Social Work Enrichment Programs to provide pre-college experiences for high school age foster youth. Youth will continue to be encouraged to apply for Fostering Hope and Education and Training Vouchers to reduce college debt. There is additional information in the CFCIP section of the document.

**Office of Adoption**

The Office of Adoption focuses on planning for children currently in the foster care system who have a goal of adoption. Support and activities focus on determining when adoption by current foster parent is in the child’s best interest. If not, then recruiting an adoptive resource, preparing the child for a move and making adoptive placements become the focus in working to achieve permanency. Consultation is provided to the counties on issues related to children in DHR custody, to be certain that the requirements of the Adoption and Safe Families Act (ASFA), Fostering Connections to Success and Increasing Adoptions Act of 2008, and the Multi-Ethnic Placement Act (MEPA) are followed and to help focus permanency efforts for all children in care. In addition, support and policy are provided on the Putative Father Registry and the responsibility of clearing all adoption petitions through existing data systems for acknowledgement to the court to proceed with adoption. This area is served by an Intake Specialist whose role includes responding to inquiries from county staff and constituents requiring information on the laws, policies and practice impacting permanency through adoption for children.

In April 2016, the Program Supervisor in the Office of adoption was promoted to Program Manager. Two years ago, the Office of Adoption, was comprised of 13 professional staff. This included two Program Supervisors and 11 staff at the Program Specialist classification. Today, the Office of Adoption has nine (9) staff working in this Program Specialist classification. Five have responsibility for matching and placing children for adoption (Placement Specialists). All placement Specialists participate in facilitating and supporting permanency through adoption with a particular focus on identifying adoptive resources for older youth and children with special health care or developmental needs. The Specialists are accessible to assigned counties by telephone and through field visits to provide training and case consultation. In addition to their focus on permanency, the Specialists provide input on policy development and interpretation. Specialists participate in training for county staff on current issues and new policies impacting permanency. The Specialists are expected to have extensive knowledge of ASFA and MEPA, and Fostering Connections to Success and Increasing Adoptions Act of 2008 which guides the work and best practice. They are expected to provide case consultation, to conduct record reviews, and to participate in ISPs to offer guidance in cases.

As of June 1, 2017, in addition to the Placement Specialists, staff in the Office of Adoption have the following responsibilities: One (1) Specialist is responsible for adoption assistance (subsidy) and the kinship-guardianship payroll. Two (2) are funded through grants with the Dave Thomas Foundation for Adoption and implement the Wendy’s Wonderful Kid child-focused recruitment model. An administrative assistant is responsible for registering children on the photo listing web sites, in addition to receiving and routing studies from interested families. One (1) Program Specialist (the Intake Specialist) serves as the Deputy Compact Administrator for Interstate Compact Association on Medical Assistance (ICAMA) and manages the responsibility and coverage of those children who move in and out of the state with subsidy Medicaid eligibility. She is assisted by the Subsidy Specialist in the execution of these duties. The Office of Adoption also has two Administrative Assistant staff responsible for processing petitions and other adoption-related paperwork as well as putative father registry and records management.

**Recruitment/Retention Foster/Adoptive Parents**

Currently, general recruitment and retention activities are implemented primarily by County Departments with some statewide advertising and public awareness activities coordinated by the Manager of the Office of Adoption. These activities will be described later in this progress report. There has been significant discussion about the Department’s diligent recruitment needs and as a result, a request has been made to hire an additional Program Specialist. This Program Specialist would have the primary responsibility of coordinating statewide diligent recruitment efforts (both dually-approved FFH/AR homes as well as adoption-only homes), serving as a source of T/TA for county resource workers, and might also assume the child-specific web-site recruitment duties of a Program Specialist described later in this section.

The Office of Adoption has two full-time staff dedicated to child-focused activities, funded through grants from the Dave Thomas Foundation for Adoption to operate Wendy’s Wonderful Kids projects. Child-specific recruitment tasks primarily consist of web-based photo listings that feature photographs and videos of waiting children. We manage the mechanism through which available families may submit inquiries. These responsibilities are currently carried out by an Administrative Assistant III (included in the staff description in the preceding section).
The Program Manager currently has the responsibility to support and monitor contracts and agreements with Children’s Aid Society/Alabama Post-Adoption Connections (CAS/APAC); (contracts for both pre and post adoption services), AdoptUsKids, and participates in the partnership with Heart Gallery of Alabama and Kids to Love.

Based on input from stakeholders, discussions are ongoing between the Program Managers of the Offices of Foster Care and Adoption, and the Deputy Director of Family Services regarding the possibility of developing RFP’s for services such as specialized foster care homes (for children who may currently be placed in congregate care settings); therapeutic adoptive families, and homes to serve children with special health care needs and/or developmental disabilities requiring extra care. Some initial conversations have been held with the Division Director for the Office of Resource Management regarding exploring funding sources for an RFP containing a request for homes to serve children with several special health care needs and/or developmental disabilities. The 2018 RFP for TFC homes, pending imminent release, included requests for special care homes for children with special health care needs and/or developmental disabilities.

Recruitment/Retention activities occur for both foster and adoptive resources. The theme for the State’s recruitment effort is “Open your Heart, Open your Home”. Ongoing child specific recruitment efforts include featuring children on www.AdoptUsKids.org; www.heartgalleryalabama.com; and www.adoption.com websites as well as the Department’s website. The Department also features waiting children through Alabama Foster and Adoptive Parent Association (AFAPA) and Alabama Post Adoption Connection (APAC) newsletters. Heart Gallery Alabama has expanded into the area of weekly television features. These features are being done in partnership with television stations owned by Raycom Media, Inc. The features began on WBRC (Fox)-Channel 6 in Birmingham. They expanded to WSFA (NBC) – Channel 12 in Montgomery. Efforts are underway to add a feature on WAFF (NBC) – Channel 48 in Huntsville. There has also been a revitalization of the efforts to aid counties in developing diligent recruitment plans based on market segmentation information. The Manager of the Office of Adoption, who previously worked as a recruitment Specialist in the Office of Foster Care, has worked onsite in a number of counties conducting presentations on types of recruitment and then sharing with each county their demographic information and helping them compare that information to the market segmentation life group information available for their county. A map can be found to the statewide diligent recruitment plan in the appendix section of this document. The map illustrates the counties that have participated in said diligent recruitment planning sessions with SDHR.

In an effort to address the issue of foster family retention, the Department embarked on the development of a foster parent mentoring program. The project was piloted in four counties. Assessment of the foster parent mentoring program in these pilot counties indicated significant revision was needed if the program was to meet the needs of foster parents. The foster parent mentoring program is not currently being implemented in any counties.

**Office of Child Welfare Eligibility**

The Office of Child Welfare Eligibility (OCWE) was established in 1991, in response to the State’s need for accurate determinations of IV-E eligibility. The OCWE was transferred to Family Services in April 2005. This Office is responsible for administering the Title IV-E Program and Aid to Children in Foster Care Medicaid Program. In addition, the OCWE has responsibility for the maintenance of policies and procedures of the Emergency Assistance Program currently funded through the TANF Block Grant and Title XX. The primary responsibility of this Office is to determine eligibility for Title IV-E, a federally funded program that assists states in three major areas: room and board payments for children in foster care, administration, and training. Policies and procedures must be consistent with the Federal regulations and the Title IV-A State Plan that became in effect on July 16, 1996. The Office must make a determination of providers’ approval for reimbursement for Title IV-E eligibility based on the Minimum Standards set by the Department of Human Resources. The provider must be fully licensed and meet all safety requirements to claim Title IV-E reimbursement for the placement. Currently (June, 2017), the Office of Child Welfare Eligibility consists of a Program Manager, Program Supervisor, six Program Specialists, an Administrative Record Support Assistant II, and three Retired State Employees.

In FY 2016, this office completed 9,199 referrals generating over $41.5 million. Retro claiming recouped an additional $1.5 million. The Penetration Rate has been steady at 55.5% and this office processes referrals successfully within seven days of receipt.

**Office of Financial Resource Management**

The Office of Financial Resource Management (OFRM) is responsible for updating policy and training social work and supervisory staff of County Departments in the policy and claiming responsibilities for the Medicaid Rehabilitative Program and the Targeted Case Management (TCM) Program. During (FY16), the Department received an approximate gross reimbursement of $42.6 million from Medicaid Rehabilitative Services and $18.1 million from Child TCM Services. In June, 2017, the OFRM currently consists of a Program Manager, a Program Supervisor, a Medicaid Rehabilitative Specialist (Vacant), a Targeted Case Management Specialist, an Accountant/FACTS Financial Trainer (Vacant), one Administrative Support Assistant II, and one Administrative Support Assistant I (Vacant).
Training on Medicaid Rehabilitative services that qualify as medically necessary and are designed to treat and/or rehabilitate a child with a mental illness, is provided in county offices. FACTS Financial Training is a hands-on training that provides county staff with the basic information that must be in the system for Medicaid billing to occur. Training on Case Management Services that assist an individual in gaining access to needed medical, social, education and other services which are targeted to custodial children and adults receiving protective services is provided bi-monthly for all new employees at a regional training site. TCM training consists of 5.5 hours of training in a Medicaid Agency-approved curriculum. Staff are tested and must earn a score of at least 80 in order to be certified to claim reimbursement for TCM services provided to custodial children. Staff attending TCM training are eligible for 3.75 hours of continuing education units.

The objective for Medicaid Rehab and TCM training is to provide the knowledge base from which county staff can make informed decisions regarding available services, the best way in which to offer services by qualified practitioners, and how to seek reimbursement for services provided.

1. Training for Medicaid Rehabilitative services consists of a one-day session which focuses on the definition of eligible services, who is qualified to provide the service, when the services should be authorized, how to authorize the needed service, and the documentation required by the Medicaid Agency.

FACTS Financial Training reinforces the following procedures to ensure the Department is able to seek Federal reimbursement for eligible rehabilitative services:

- Reinforces the need for county staff to complete the Intake Evaluation and the Treatment Plan Review for each child in care.
- Discusses at what point in time it is appropriate to claim reimbursement; i.e., protective service and safety plan vs. an open case.
- Covers the importance of claiming reimbursement for services authorized on the Individualized Service Plan (ISP).
- Identifies which services can be claimed if not authorized on the ISP.
- Explains the importance of establishing Medicaid eligibility and understanding the impact on claiming reimbursement.
- Instructs on the need to use the correct name, Medicaid number, date of birth and gender in FACTS.
- Explains Medicaid Eligibility screens.
- Identifies the services that can be provided to an adult on behalf of a Medicaid eligible child and how to enter this information into the system.
- Explains the difference between what a reimbursable Medicaid service is and what is needed to track for other expenditures paid out of Flex Funds.
- Discusses County Reports and the need to review Rejected and Denied reports so that errors are corrected and reimbursement can be claimed.
- Reviews options for County Procedures on how to ensure that adequate Progress Notes on services provided are received from the vendor provider prior to payment of the invoice.
- Explains the need for EPSDT screening and its impact on claiming Medicaid reimbursement.
- Explains HIPAA privacy codes, number of units and unit rate of services that can be authorized.

2. Staff complete 5.5 hours of TCM classroom instruction which consists of curriculum that includes the following:

- Roles of the DHR Case Manager/Social Worker
- TCM Resource Material
- Interviewing and Communication Skills
- Confidentiality – HIPAA Regulations
- Cultural Diversity
- Case Transition/Case Closure/Case Termination
- TCM Encounters Defined – Core Services
- Documenting TCM Encounters
- Self-Determination Movement
- Freedom of Choice
- Clients Rights and Responsibilities
- Review
- Test
OFFICES SUPPORTING CHILD WELFARE EXTERNAL TO FAMILY SERVICES

Division of Resource Management

The Division of Resource Management reports to the Deputy Commissioner for Fiscal and Administrative Services. The overall mission for the Division of Resource Management is to provide technical assistance and support services to our DHR county offices, providers, and to various Divisions of DHR State Office. The Division consisted of six offices until November 2013. The Office of Resource Development and the Office of Utilization Review were merged into the Office of Utilization and Review. The other four (4) offices are: the Office of Contracts, the Office of Licensing, the Office of Fiscal Accountability, and the Office of Procurement.

The Office of Procurement provides overall direction for Department-wide procurement policies, regulations and procedures and promotes efficiency and effectiveness in the acquisition process. This Office specializes in the purchasing of services in compliance with state laws, regulations and procedures. The Office of Procurement coordinates and facilitates the acquisition of Department-wide services. The Office assists Divisions in the preparation of Requests for Proposals (RFP’s) or Requests for Information (RFI), develops RFPs or RFIs, reviews and analyzes requests, and makes recommendations for the award of contracts. This Office also provides training to Department personnel regarding procurement procedures and regulations, maintains procurement records and establishes and maintains effective working relationships with vendors, Departmental officials and the public.

The Office of Contracts negotiates, manages, and monitors the Department of Human Resources’ social services contracts. Service contracts provide programmatic services to agency clients and are rendered by governmental agencies, faith-based organizations, non-governmental public or private organizations and individuals. Services are procured per the bid law and upon selection, contracts are negotiated on the state and county level to meet identifiable needs. There are two major types of purchase for service contracts: 1) a cost reimbursement contract, and 2) fixed-rate contract. A cost reimbursement contract is the purchase of goods and services for which the contractor’s actual costs are reimbursed based on a detailed line-item budget approved by the Department. A fixed-rate contract is a contract for the purchase of goods or services for which the contractor’s costs are reimbursed on a fixed rate per unit of services.

The Office of Licensing is responsible for licensing residential child care facilities (child care facilities, group homes, shelters and child placing agencies). Licenses are issued to providers who meet the Minimum Standards for Child Care Facilities, Minimum Standards for Child Placing Agencies, Minimum Standards for Foster Family Homes and the Therapeutic Foster Care Manual. Site visits are conducted to verify providers’ compliance with the aforementioned standards and manual. Several of the child-placing agencies are licensed to provide an array of services from foster care to adoption. This Office licenses and monitors agencies that are in our contract network and some that are not. This Office conducts an average of 80 site visits per year. The Office of Licensing also provides support services, consultation, and interpretation of the Minimum Standards to prospective and existing child care providers and DHR county offices. This Office provides technical assistance and support to the county offices and providers. This Office enters therapeutic foster homes information and updates provider information in our FACTS system. The Office of Licensing coordinates the Rapid Response Team (RRT) and leads investigations into injuries and allegations of abuse and neglect pertaining to children in care.

The Office of Financial Accountability is responsible for processing monthly invoices from residential and Therapeutic Foster Care (TFC) providers and for verifying Medicaid eligibility for children in the custody of the Department. This Office maintains data regarding admissions and discharges, and is responsible for informing county offices and providers of any discrepancies. This Office monitors and analyzes budgetary expenditures of residential, TFC, and continuum contracts. The Office is also responsible for researching and processing all Board of Adjustment claims for the Division of Resource Management, auditing provider financial reports to establish escrow compliance for the Office of Residential Licensing, and assisting county workers in determining the appropriate documentation on our FACTS system.

The Office of Utilization and Review is responsible for providing support services and technical assistance to the contract providers in the delivery of services to families and children. This Office is in charge of the Multi-dimensional Assessment Tool (MAT) that is used with our Therapeutic Foster Care (TFC), moderate and intensive residential children in care. The Office conducts assessments using the MAT to determine the level of services needed by an identified child. Other activities of this Office include the monitoring of the average length of stay of children in Therapeutic Foster Care, moderate residential, and intensive residential facilities using information gathered from the providers, our FACTS system, and our county workers. This Office assists the county offices in developing in-state resources for these children. This Office assisted the Family Services Division in developing TFC with Enhanced Services. The children in these homes need additional services as they may have a chronic illness, extreme behavior issues or emotional needs that require more
services. The Department receives information about these children on a regular basis through monthly summaries submitted by the providers. This Office represents DHR as the liaison for the Department of Mental Health-Developmental Disability Division, to assist the counties in securing out-of-home waiver slots for our children with intellectual disabilities. This Office provides oversight of the family preservation and support services (FP/SS). The mission of the FP/SS programs is to implement, expand and maintain quality services to preserve, reunify, support and strengthen families. Specialists in this Office are responsible for monitoring, evaluating and providing technical assistance to providers of the Family Service Centers and Family Outcome-Centered Unification Service (FOCUS) programs funded through Title IV-B, Subpart 2, Promoting Safe and Stable Families. Specialists work with County Departments to ensure that these programs are as responsive to the needs of the county as possible, within the Federal guidelines, and ensure that they provide the highest quality of services possible.

III. FEDERAL REVIEWS

Child and Family Services Review (CFSR)

A summary of Rounds 1 and 2 of the CFSR process in Alabama is found below:

**CFSR Process – Round 1 for ALABAMA DHR**  
1. Statewide Assessment: January 2002  
2. Onsite Review (Jefferson, Shelby, Montgomery): April 2002  
4. PIP Approval Date: March 2003  
5. PIP Ending Date (approximate): February 2005

**CFSR Process – Round 2 for ALABAMA DHR**  
1. Statewide Assessment: June 2007  
4. PIP Approval Date: September 2009  
5. PIP Ending Date (approved extension): August 2012  
6. PIP Completion Date: July 2013

**CFSR Process – Round 3 for ALABAMA DHR**

Alabama is in year four (4) of the Round 3 CFSR (e.g. 2018), and will host a Traditional CFSR in July (23-27), 2018. The Department is continuing its work on building its Statewide Assessment (through the CFSP/APS), as well as continuous quality improvement (CQI – see QA Systemic Area).

**AFCARS Review**

The Children’s Bureau completed an onsite Adoption and Foster Care Analysis and Reporting System Assessment Review (AAR) the week of April 11 - 15, 2011. See Appendix 13. 2013 Update: The Department has not yet received a response (from the Children’s Bureau) to the July, 2012 submission of the State’s AFCARS Program Improvement Plan Update (AIPU). Once a response is received an update can later be provided. 2014 Update: The Department is continuing its work on the AFCARS Improvement Plan (AIP). The second AIPU was submitted to the Children’s Bureau on February 26, 2014 and a response was received March 13, 2014. 2015 Update: An AFCARS Improvement Plan Update was submitted on June 30, 2014, on October 20, 2014 and on April 20, 2015. See AFCARS Improvement Plan (in appendices) for detailed information on progress. 2016 Update: An AFCARS Improvement Plan Update (AIPU) was submitted early on 1/26/2016 and timely on 3/8/2016. The response from the Children’s Bureau was received on 9/22/2015. An AIPU was then submitted timely on 12/29/2015. See Appendices for detailed information. 2017 Update: A response of our 12/29/2015 AIPU was received 5/4/2016 with instructions to seed test cases and run a test AFCARS file to submit along with our next AIPU. Our AIPU with test case AFCARS file was submitted on 7/29/2016. A response from the Children’s Bureau was received on 11/4/2016. Our last AIPU was submitted on 2/9/2017. A conference call with the Children’s Bureau was held on 3/7/2017 to discuss our test case submission and next steps in order to complete the AIP. The next AIPU is due June 23, 2017. See Appendices for detailed information.

**Title IV-E Foster Care Primary Review**

During the week of August 31, 2015, staff from the Administration for Children and Families (Central and Regional Offices), Specialist Reviewers, and State of Alabama staff conducted a primary review of Alabama’s Title IV-E Foster Care Program. The purposes of the review were to determine if Alabama was in compliance with the child and provider eligibility requirements as outlined in 45 CFR 1356.71 and Section 472 of the Social Security Act, and to validate the basis of
Alabama’s financial claims to ensure that appropriate payments were made on behalf of eligible children and to eligible homes and institutions. The findings of the Children’s Bureau were that the Department was in substantial compliance with Federal eligibility requirements for the PUR. This was a banner review for Alabama. Alabama had zero errors. 2017 Update: Alabama’s next Title IV-E Foster Care Primary Review will be held the week of September 10, 2018.

IV. VISION STATEMENT
The Department of Human Resources (DHR), as the designated Title IV-B Agency, administers this Plan based on the philosophy that children should be protected from abuse and neglect and, whenever possible, families should be preserved and strengthened in order to nurture and raise children in safe, healthy and stable environments. Service interventions are to be based on a set of beliefs about outcome-based practice that is both strengths based and family focused, and underscore the importance of comprehensive assessments and individualized planning on behalf of the children and families that come to the attention of the Department. At the core of these beliefs are the following tenets:

- Children belong with their families whenever they can safely live at home.
- Child maltreatment is an expression of an underlying, unmet need.
- Most parents love their children and want to care for them.
- All individuals have worth, deserve respect, and are capable of change.
- All children need to experience permanency in their lives; and when children cannot continue to live at home, they still need their family as well as meaningful relationships and enduring community connections.

The Child Welfare Division’s Mission Statement is on its website and is as follows: “The Alabama Department of Human Resources will help families receive the least disruptive services they need, when they need them, and for only as long as they need them in order to maintain children in – or return them to - a safe, stable home.” The state child and family services plan for abused, neglected and at-risk children and their families is intended to operationalize beliefs through developing goal-directed services that are individualized and needs-based and designed with the following desired outcomes in mind:

- Treat families as partners in parenting and protecting their children.
- Respect parents and their children and focus on the family as a whole and on the family’s strengths.
- Services are matched to meet identified needs and vary in levels of intensity needed to keep children safe and assure their well-being.

- Services are coordinated between service provider and agencies to meet the multiple needs of children and their families.
- Services are delivered in culturally sensitive ways.
- Services are accessible to children and families.
- Address systemic barriers to accessing needed services.
- Support families through services and to strengthen families so they may safely care for their children.

The vision of the Division as it relates to priorities and connections to organizational outcomes includes:

- Agreement on vision, priorities, and plans for moving forward.
- Clarity on organizational responsibilities and mandates.
- Support the work through organizational structure and efficient processes.
- Achieve partnerships between units and with counties.
- Share a unified view of practice, program mission, and priorities.

Central to the organizational structure within the Family Services and Quality Assurance Divisions is the creation of a management team comprised of managers and supervisors from all of the offices in the Division. This team of staff members serves as the leadership body of the Division and has responsibility for carrying out the overall vision through its ownership of the goals, priorities, and desired outcomes.

V. PRINCIPLES OF OPERATION AND PRACTICE MODEL
The Department of Human Resources and its Family Services and Quality Assurance Divisions are responsible for developing, operating, monitoring, and sustaining a system of child welfare services in accordance with its goals and principles:

- Children will be protected from abuse and neglect.
- Children will live with their families whenever possible and when that cannot be achieved through the provision of services, children will live near their homes in the least restrictive environment that can meet their needs.
- Children will achieve stability and permanency in their living situations.
- Children will achieve success in school. Children will become stable, gainfully employed adults.

**Individualized Service Planning (ISP) Process**
Central to practice in Alabama is the Individualized Service Plan (ISP) which is to be developed in the context of a partnership between the children, families, and stakeholders. The ISP is designed to create a child and family planning team that participates in the development of a plan that is directed toward achieving the goals of the Consolidated Child and Family Services Plan. The Individualized Service Plan is to be based on an assessment of the strengths and needs within the family along with the behavioral and environmental conditions that need to be changed in order for the children to remain and live safely with their family, to be safely reunited, or to be provided a permanent, safe and stable living situation. The effective use of these collaborative planning processes can result in both 1) partnerships in parenting and protecting children, and 2) reforms in all levels of child welfare practice (State and counties) in accordance with the Department’s goals and principles. Moreover, the 50 Indicators of Best Practice remain a framework for assessing the level of practice and system performance, using both quantitative and qualitative measures. This collaborative System of Care can only be operationalized with the support of community-based, goal-directed services that are individualized, needs-based, culturally sensitive, and family-focused while also being accessible and well-coordinated. Family preservation and support services are an integral design of the Department’s System of Care for children and families served through the Department’s child welfare programs.

**Practice Model**
The Department’s Child Welfare Practice Model sets forth the following “Guiding Principles” for, and Desired Outcomes of, the work done with children and families:

**Guiding Principles:**
1. **Safety & Protection**
   Children’s safety is first and foremost. DHR shall promote prompt, effective intervention, and freedom from maltreatment.

2. **Permanency, Stability & Self-Sufficiency**
   DHR shall promote the timely achievement of permanency for children so that they may live with their birth/relative family, and if that is not possible, have enduring relationships living with a permanent family that preserves birth family and other significant connections, and provides commitment, stability, belonging, and smooth, successful transitions into adulthood.

3. **Well Being & Development**
   Appropriate planning promotes children experiencing love and belonging along with consistent, balanced nurturing and structure in a family environment, in order for children to experience educational, emotional, physical and developmental growth and well-being.

4. **Family-Centered & Culturally Responsive**
   Parental/child perspectives and expert knowledge of the strengths and needs of their family are valued, encouraged and used, in a family-centered, culturally responsive approach, that involves birth families as partners in planning, shapes all aspects of agency involvement with the family and seeks to strengthen parental capacities to care for their children.

5. **Individualization of Services**
   Children and families are best enabled to grow, change their behavior and overcome challenges when they are engaged, understood and treated with respect as individuals with their own unique strengths, needs and cultural identity, and receive strengths-based, individualized services and supports accordingly.

6. **Community Collaboration**
   Ongoing collaboration with the community is valued and cultivated in order to have a continuum of services and resources that are comprehensive, seamless, readily accessible, responsive to individual, unique and differing levels of need, provided in the least restrictive, most normalized environment and adequately supports parents in raising their children.

7. **Professional/Organizational Competence**
   Child welfare practice should be provided by well-trained and empathetic professional staff, who respect the dignity and worth of every individual, receive skilled supervision, are adequately trained, have appropriate caseloads, and are supported by an effectively managed child welfare agency.
Desired Outcomes:
1. Contact is promptly initiated with children who are reported to be experiencing maltreatment or an impending danger threat, and immediate safety is assessed/provided.
2. Children with whom the Department is involved are safe and safety threats do not exist or are effectively controlled/managed (either within, or outside of the birth family’s home).
3. Permanency is achieved in a timely, appropriate manner and stability for children in their living situations is maintained.
4. The significant (family, relative, community, educational, faith and cultural) connections for children and their families are consistently preserved.
5. Families have enhanced capacities to provide for their children’s needs.
6. Children in the care/custody of the Department are achieving success in school and, where necessary, are effectively supported in successfully transitioning into adulthood where they become stable, gainfully employed adults.
7. Children in the care/custody of the Department are experiencing healthy emotional and physical growth and development.

COLLABORATION
Please see assessment content under the respective outcome areas of SAFETY, PERMANENCY AND WELL-BEING, as well as the systemic area of AGENCY RESPONSIVENESS TO THE COMMUNITY.

VI. Organization of the APSR and Point of Contact
Alabama’s Annual Progress and Services Report includes information regarding child welfare services provided through Title IV-B, subparts 1 and 2, Title IV-E, Chafee Foster Care Independence Program (CFCIP), and CAPTA as required. The following acronyms are among those most used in this report:

VII. 2018 APSR - ASSESSMENT OF PERFORMANCE

The established benchmarks and 5 year goals are based on either data from SACWIS system or the QA database.

Where QA data is used, the measurement percentages reflect the frequency with which a given item was rated a STRENGTH in QSR’s completed as a component of state QA (onsite) reviews. The time frames for the FACTS / QSR data used were as follows:

- QA / DATA Baseline: 10/01/12 – 09/30/13 (FY 2013)
- QA / DATA Benchmark #1: 10/01/13 – 09/30/14 (FY 2014)
- QA / DATA Benchmark #2: 10/01/14 – 09/30/15 (FY 2015)
- QA / DATA Benchmark #3: 10/01/15 – 09/30/16 (FY 2016)

SAFETY Outcome 1. Children are, first and foremost, protected from abuse and neglect

Item 1. Timeliness of initiating investigations of reports of child maltreatment

Purpose of Assessment:
To determine whether responses to all accepted child maltreatment reports received during the period under review were initiated, and face-to-face contact with the child(ren) made, within the time frames established by agency policies or state statutes.

Data Baseline: 90.39% (FACTS Report INVS 218, for FY 2013)
Data Benchmark #1: 90.78% (FY 2014)
Data Benchmark #2: 91.77% (FY 2015)
Data Benchmark #3: 90.03% (FY 2016)
5 Year Goal: 92%
Interim Goals:
FY 2015 90.5%
FY 2016 90.75%
FY 2017 91%
FY 2018 91.25%
FY 2019 92%
Total 92%

2018 APSR ASSESSMENT
Child safety is paramount for the Alabama child welfare system. The timeframe for initiating face-to-face contact with a child who has been identified as an alleged victim of child maltreatment is based on present or impending danger and responses to all child maltreatment reports are made within the timeframes established by agency policies or state statutes, as follows:
Initial in-person contact with children identified in Child Abuse and Neglect reports as allegedly abused or neglected must be made within one of the following response times: Immediate or within 5 calendar days. Immediate contact will be made when Intake information indicates serious harm will likely occur within twenty-four hours. For situations in which immediate response is not required, child welfare staff shall respond as quickly as the Intake information warrants and no later than five calendar days. Our CPS program requires that children in the home who are not identified as “at risk” shall be interviewed no later than 15 calendar days from the date of the report. The purpose of the interviews with these children is to provide an understanding of whether they are also experiencing the alleged abuse/neglect and if they require protection or if they have information regarding the child abuse/neglect report. [Child Protective Services Policies and Procedures, CA/N Assessment, Information Collection Protocol, Required Interviews, Other Children in the Home].

The data reflects that staff have become more prompt in initiating contact with children who are alleged victims of child maltreatment. At the end of FY 2015, the average timeframe for initiating face-to-face contact with children is 91.77%. Our monitoring of the data shows improvement in face-to-face contact.

On March 1, 2017, the Department’s timeframe to complete Child Abuse and Neglect Assessments and Prevention Assessments was changed from 90 days to 60 days. Revisions were also made to the timeframe that an out-of-home (non-foster) safety can be in place without court involvement from 90 days to 45 days.
A new rule in regard to timely response to Intake calls was implemented on September 29, 2015. The new rule made any call from a hospital or physician making a report concerning a child/children an immediate response. The worker must now go to the hospital or any other location to see the child immediately. Further, any call from a parent/any other legal guardian/custodian stating they want to relinquish their child will be considered a case for immediate response. The worker is to go to the location where caller is located; assess the caller and situation and see the child immediately.

County Quality Assurance committee surveys highlighted the high priority of child safety in county practice.

SAFETY Outcome 2. Children are Safely Maintained in their Homes Whenever Possible and Appropriate

Item 2. Services to family to protect child(ren) in the home and prevent removal or re-entry into foster care

**Purpose of Assessment:**
To determine whether, during the period under review, the agency made concerted efforts to provide services to the family to prevent children’s entry into foster care or re-entry after a reunification.

| QA Baseline: | 73% |
| QA Benchmark #1: | 66% |
| **5 Year Goal:** | **75.5%** |
| QA Benchmark #2: | 87% |
| QA Benchmark #3: | 67% |
| **Measurement Goal Achieved** |

**Interim Goals:**
- FY 2015: 73.5%
- FY 2016: 74%
- FY 2017: 74.5%
- FY 2018: 75%
- FY 2019: 75.5%
- Total: 75.5%

2018 APSR ASSESSMENT
The Alabama child welfare system embraces the philosophy of service delivery in home-based or community-based settings, while maintaining the child in the least restrictive environment. Following an incident of maltreatment, decisions must be made if it is in the best interest of the child to remain with his/her family or to be placed in an alternate setting. If the child is to remain in his/her home, the variety of factors that precipitated the maltreatment must be sufficiently assessed to ensure child safety. When a child is kept in the home, he or she is able to maintain the sense of attachment to loved ones that allow for one’s sense of identity and belonging to develop. Typically, family preservation is comprised of intensive, in-home, or wrap-around services. Family preservation can be comprised of a variety of services such as: teaching parenting skills and child development instruction; assistance with emotional well-being; financial assistance; teaching budgeting skills; crisis intervention; providing “hard services” such as payment for utilities or provision of food through the utilization of flex funding; respite care; or medical services. Family preservation can also include the follow-up care provided to a family after reunification has occurred to ensure that the family remains intact.

**Promoting Safe and Stable Families - See also Appendix 9, Family Preservation and Support Services Report**
An important goal of family support services under Promoting Safe and Stable Families is to improve safety for children in families served. Another desired outcome is to improve the number of children who safely remain with their families or another identified relative or significant person. These services help them learn new skills through Family Service Centers and Family Outcome-Centered Unification Services (FOCUS) Programs (currently funded in all 67 counties throughout the state). Progress is documented toward goals established by families in their work with providers related to child safety as rated by families at regular intervals or at the end of the FOCUS intervention. Numbers are maintained of families safely remaining together at three months, to no less than 80%, at six months, to no less than 80%, at nine months, to no less than 80%, at 12 months, to no less than 80%, and at 24 months no less than 80% after intensive family preservation (FOCUS) intervention or at the same rates remaining together after the permanency/reunification intervention has been completed.

In FY2017, services provided through the FOCUS contracts and those provided through the Continuum contracts were merged into one service delivery vehicle to be known as Intensive In-Home Services (IIHS). Services are slightly expanded for both families with preservation as the goal and those with reunification as the goal. Attention is focused
on making these services much more individualized in nature, available in more areas of the state, and easier for the counties to access the specific services they need for the families and children served. Outcomes under the new contracts will be very similar to those identified in the FOCUS/Continuum contracts with better mechanisms for reporting and tracking.

It is important to ensure that community needs are met through Family Preservation and Support Services (FP/SS) Programs. A means of doing so is through utilization of feedback received from County DHR staff during reviews of individual programs. SDHR Resource Development Specialists, during their reviews of the various FOCUS programs, will elicit feedback from the county DHR offices using the program. This information will be used in giving feedback to the provider in the written report to them at the close of the annual site visit. FOCUS, as well as, Family Service Center providers request that DHR workers and families complete a satisfaction survey at the end of the intervention and this information is reviewed during the program review as well.

Family Service Center providers also complete a peer review every two years that includes staff from DHR and a consumer. They traditionally have a consumer and a DHR liaison on their advisory council which is involved in reviewing data and discussions of new program development and implementation. Suggestion boxes can be found throughout the centers and consumers are encouraged to use them. All of the above information is used in giving feedback to the provider in the written report at the close of the annual program review.

It is important to enhance, through technical assistance, the capacity of staff to utilize natural and creative resources toward the goals of family preservation and support. Resource Development and Utilization Specialists provide individualized technical assistance with planning and problem solving, and monitoring and support functions to the FOCUS programs and Family Service Centers. The SDHR Resource Management Specialists conduct regularly scheduled site visits to each program in order to provide technical assistance, consultation, and monitor progress toward goals. Providers must arrange in their budgets to provide training based upon the model used to deliver services. Training will be monitored during annual site visits. Specialists evaluate progress and utilization of each program in order to change and adapt them as needed. As site visits are conducted, the State DHR Specialists will address any concerns with the Director/Program Supervisor and/or provider. Technical assistance is provided by the Specialist to help improve utilization or address other issues.

**Family Service Centers**

The Family Service Centers are administered by the Family Preservation and Support Services (FP/SS) Programs, funded by Title IV-B, Subpart 2, “Promoting Safe and Stable Families”. Service interventions are based on a set of beliefs about children and their families that: 1) children belong with their families if they can safely live at home; 2) most parents love and want their children; 3) most maltreatment is an expression of an underlying, unmet need; 4) most people can change; 5) all children need to experience permanency in their lives; 6) and when children cannot continue to live at home, they still need family and community connections.

Family Service Center sites are located in areas of a targeted county/community where there is a high concentration of families who need services to address their safety and stability issues. They provide a broad range of home and center-based services on a continuum from prevention services to intensive intervention. FOCUS providers are encouraged to rely on the Family Service Center in their community to provide needed support services to families both during the intervention and on an ongoing basis afterwards.

Core services provided by family service centers are based on a comprehensive assessment process that results in goals identified by the families. These services include: assessment and service planning, case management; and services which support families and parents, such as preventive, educational, or respite services. For example, parents might receive in-home services to coach and teach anger management or conflict resolutions skills, or parents might attend workshops which support their self-sufficiency, etc. They also provide services which address families’ survival needs, including clothing, food, housing and transportation, among others; family focused counseling, treatment, and therapy to address family functioning. The goal of such services is to strengthen and empower families so they can meet the needs which led to the occurrence of child maltreatment.

Case management services are provided as a part of core services to facilitate access and follow-up. The Family Service Centers continue to provide many other supportive services that are not classified as core services; however, the reporting database no longer provides totals for these services. The variety of quality assurance processes in place indicates that the overwhelming majority of the Centers are meeting community needs and enabling families to become safe and stable.

**Intensive In-Home Services (IIHS)**

The IIHS programs will deliver intensive family preservation services and re-unification services across the state and implement a nationally recognized, evidence-based model of in-home service delivery that is expected to achieve a high
rate of family preservation and reunification. IIHS programs provide short-term intensive in-home interventions to help alleviate situations and conditions within families where removal of children from the home is imminent or the child is returning home after placement.

IIHS workers will provide services to a maximum of 4-6 families per worker. Providers may serve families for six to nine months and may request extensions from SDHR if additional service time is needed. The supervisor in the program helps Specialists to determine when to conclude or extend services. The decision to extend services may be largely based upon the likelihood that continued services will substantially decrease the likelihood of placement occurring. The current caseloads still allow staff to work intensively with families to reduce barriers and increase family preservation and reunification.

It is anticipated that the services being provided through IIHS ensure that no family is experiencing a lengthy wait for services to be provided. Follow-up (on services offered through IIHS) should reflect that safety for children is being maintained. The safety of the child is the highest priority. IIHS staff will respond immediately to family crises, and workers generally see families within 24 hours of referral. They meet with families in the home which allows for a more thorough assessment of safety and opportunities for effective intervention.

At the time of the referral, the referring worker will identify the factors placing the child (ren) at risk of removal. Referral guidelines regarding the intervention time-frame are clearly communicated to referring workers, who are asked to convey them to families who may be referred. Once the family is referred, the Specialist educates the family regarding the brevity of the intervention. The Specialist and the family set specific, limited goals and objectives that can be addressed within the intervention time frame and are related to reducing the risk of placement. IIHS staff will request that DHR rate safety at the beginning and end of the intervention. During the first few days of the intervention, the IIHS staff will also assess risk/safety factors and develop a service plan with the family, which will be individualized to meet the needs of each specific family member and is in conjunction with the family’s Individualized Service Plan. The treatment plan will address the factors placing the child (ren) at risk of removal from the family strengths, the goals of the intervention and how progress toward the goals will be measured. IIHS staff will also participate in developing a safety plan as needed.

IIHS staff will provide weekly consultation with DHR and immediate response in the event of health or safety issues that pose a threat to the child. IIHS staff will conduct two or more (as needed) in-home face to face contacts per week in order to provide a quick response to emergencies and to teach skills to utilize during a crisis when families are most willing to learn new behaviors. Workers are available 24/7 and work a flexible schedule to be available to families when they are experiencing difficulty. IIHS training, supervision, and ongoing monitoring and quality assurance will provide additional measures to ensure the safety of families/children. Prior to terminating the intervention, IIHS staff will connect families with other community services to reinforce gains. Programs must provide no less than 90 days of aftercare services. If there are any concerns of disruption, the IIHS staff will work with the family for a period of time in attempt to alleviate the crisis. As of March 2016, 80% of discharges from IIHS programs have been successful, i.e., a child returns to or remains with family, is placed with a relative or other significant person as identified for permanency goal for the child. Families are tracked up to 24 months post discharge from the program.

IIHS workers will assess for safety throughout the intervention and safety is always the number one goal. They document progress towards goals established by families in relation to child safety on a regular interval. SDHR maintains monthly statistical reports on families and children served. Each program submits monthly reports to the Program Manager of the Office of Resource Development and Utilization in the Resource Management Division which contains the following: the number of child/family served; DHR case number; county of origin; referral date; placement at the time of referral; current placement; discharge date, if discharged; length of service in days; discharge successful or unsuccessful; and placement post-discharge, three, six, 12 and 24 months. These statistics are then compiled into a statewide report. The goal is to fund service delivery, with expansion as need dictates and funding allows, in the Intensive Family Preservation and Family Reunification programs. The report allows us to track the increased or decreased numbers of children being served or discharged due to the intervention being unsuccessful. If the utilization falls below 80% the provider is required to submit a utilization rate plan of action to SDHR. These statistical reports are utilized as plans are made for the following fiscal year in terms of funding, staffing or other necessary programmatic changes.

As of FY 2015, no providers fell below the 80% threshold. An increase in families served is possible if providers do not have to extend services to families on a regular basis. IIHS staff will have individual and group consultation each week where they discuss progress made, safety issues and if there are any barriers to treatment. If they can reduce the barriers and modify goals then the likelihood of extending services is reduced. Success will be evidenced by reports which indicate an increase in the number served each year.
DHR has three (3) specialty programs in Jefferson and Shelby counties. Both counties have a wraparound services program that is designed to meet the unique needs of individual children and their families and to empower families to cope with daily challenges without external agency involvement. These programs consist of an array of comprehensive, intensive in-home services to children and families identified through the caseloads of the respective counties. Service delivery occurs primarily in the family home setting or other locations based on the identified needs. The programs are required to design their model around intensity, prevention, and reunification services. The third specialty program is in Jefferson County and is a Short Term Assessment and Respite (STAR) program which accesses the use of trained therapeutic foster homes. The staff and foster parents are trained to assess the children within 45 days. The provider uses their capacity to provide appropriate services to the child and family by obtaining appropriate referrals and interventions services as deemed necessary. At the end of the 45 days, the provider gives Jefferson County a complete assessment including a psychological, behavioral and educational assessments and recommendations for achieving permanency.

**SDHR Family Assistance Division – TANF**

The SDHR Family Assistance Division manages and funds programs pursuant to the Temporary Assistance for Needy Families (TANF) Block Grant. Services and benefits are provided to assist recipients find the path to self-sufficiency for themselves and their families.

The Family Assistance (FA) Program - This is Alabama’s time limited cash assistance program for needy low-income families with children. During fiscal year 2016, a monthly average of 11,320 families received assistance representing about 19,889 children and 5,664 adults. Adult recipients of FA are also served by the JOBS Program which provides services and assistance with finding and retaining employment through Integrated Work Support Programs as well as interagency agreements with other state agencies. Qualified vendors provide services to individuals who are recipients of TANF/Family Assistance (FA) benefits. Programs must incorporate a "personal responsibility" and "work first" approach and must be directed toward equipping eligible individuals to overcome barriers to employment, to increase their marketable skills and employability, to gain or retain employment and to transition from welfare to work.

Teen Pregnancy Prevention Projects – The Department also contracts with The Alabama Campaign to Prevent Teen Pregnancy (ACPTP) via the RFP process for technical assistance and training. Their mission statement is “to lead Alabama on adolescent reproductive health and teen pregnancy prevention with an emphasis on positive youth development.” ACPTP assists other groups working on this issue by providing technical assistance and training statewide. TANF funds are also granted to the Alabama Department of Public Health to provide access to birth control for low-income women. Youth participating in our annual National Social Work Enrichment Program and YAC organizations across the state participate in the AIDS and Pregnancy Prevention Program called Making Smart Choices. It is a six hour course regarding sexual health and safety and pregnancy prevention.

Domestic Violence Intervention - DHR contracts with the Alabama Coalition Against Domestic Violence to provide services to TANF-eligible clients who may be victims of domestic violence. Services are provided statewide under a program known as the Special Assessment, Intervention, and Liaison (SAIL) Project. The SAIL Project provides services to families involved with domestic violence to help them remove barriers to becoming self-sufficient in a safe manner. Services are provided through a Domestic Violence Specialist who conducts assessments, provides counseling, and assists with safety planning. Services are available as needed to all counties that do not have an on-site Domestic Violence Specialist. During FY 2016, the SAIL Project received 2,286 referrals. Those referrals came from every DHR program and from the community, with most DHR referrals coming from FA eligibility workers as a result of a domestic violence screening tool. The coalition worked with 776 SAIL participants, helped 110 participants acquire employment, and provided financial assistance to over 250 low-income individuals.

**See also: SAFETY OUTCOMES 1 & 2 – STAKEHOLDER COLLABORATION**

### Item 3. Risk and safety assessment and management

**Purpose of Assessment:**

To determine whether, during the period under review, the Agency made concerted efforts to assess and address the risk and safety concerns relating to the child(ren) in their own homes or while in foster care.

Data gathered from NCANDS 2014 and NCANDS 2015 revealed almost no maltreatment or the recurrence of maltreatment for children in foster care. Both FY2014 and FY2015 data revealed there was a 99.9% absence of abuse/neglect for children in foster care. This was above the national standard and no Program Improvement Plan was noted.

2018 APSR ASSESSMENT
Child safety is the essential focus for the CPS Intervention and is the primary concern throughout the case process. It starts at the point a report is made, and continues throughout the CA/N safety assessment to identify impending danger, and on to the point the family transfers to Ongoing CPS or Foster Care, during the treatment service provision (ISP), and at the conclusion of any CPS involvement with a family. Safety applies to settings in the child’s natural community as well as to any special care or treatment setting in which the child may be served on a temporary basis. Safety, as used here in the QSR, refers to adequate management of known safety threats to the child’s physical safety and to the safety of others in the child’s home and school settings, not an absolute protection from all possible risks to life or physical well-being. Protection of others from a child with assaultive behavior may require special safety precautions.

Counties have expressed the need for safety assessment training, particularly around identifying impending danger and safety plans. While individual counties have received general training around assessment, we are committed to offer more training statewide in response to the needs expressed. On April 19, 2017, the Office of CPS held the first of five regional sessions of Safety Assessment/Safety Plan training. The training focused on identifying present and impending danger circumstances, caregiver protective capacities and when and how to complete a safety plan. This training was provided to child welfare supervisors and the remaining four sessions will be completed by September 2017 for all child welfare supervisors statewide. Each county office will be provided the training material to take back to their county office to train current staff and new staff that will be hired in the future. We are committed to improving the caseworker’s competency level to implement an appropriate safety plan to control present and impending danger threats. To further enhance child safety during the assessment period, CPS policy was added in March, 2016, which requires a home visit at least once a month for the duration of the assessment period.

Hospital staff in the Tri-County area of Montgomery, Alabama have received training over the last eight months regarding our state’s “Safe Haven” law as well as overall CPS data, policy, and procedures. All of these local hospitals now require all new employees to take the Mandatory Reporter Training online as part of their first day and any existing staff must complete training before their next performance evaluation.

For the third year, the Director and Deputy Director of Family Services have provided CPS Policy/Procedural training to the Alabama Association of School Guidance Counselors, with focus on their status as mandatory reporters. Data was shared with them regarding numbers of annual reports; general sources of reports; children in care and other important information to assist them in ensuring the most positive school experience for children receiving our services.

Alabama State Troopers; Homeland Security staff; FBI agents and many other law-enforcement professionals identified by the Alabama Fusion Center were trained around opioid usage in DHR child welfare cases and data highlighting numbers of reports, child deaths, and other concerns around lack of treatment for those addicted to opioids. These professionals also received Mandatory Reporter training and CPS general policy and procedure. There were approximately 200 trainees from Alabama and other states (the nation of Canada was also represented) who attended the DHR/CPS component of a week-long training they received which featured the issue of opioids as a serious public health crisis.

The Alabama Department of Human Resources recently began work on the FACTS Mobile App Project which has provided CA/N Assessment workers and supervisors with HP Tablets to take into the field during the assessment process. Once all decisions are made in regard to functionality of the Application, the worker/supervisor will be able to “check out” current referrals from their workload onto the tablet so that information on referrals they have assigned to them is available to them while away from the office. The worker will be able to enter new narrative, demographical information on existing clients as well as add new clients. We are currently working to determine which screen from our SACWIS system (FACTS) will be included on the tablet. Also we are determining security issues with having a tablet which can be linked to our SACWIS system. The Department is committed to providing our staff with the best tools so they can be more efficient and provide better and timelier services to our clients. The Department is already looking at the possibility of providing all staff with the same tools.
The Alabama State Department of Human Resources recently met with Dr. Michael Taylor, Director of the Child Abuse Pediatrics Division, UAB School of Medicine, to hear his proposal to train and fund physicians to work with each Child Advocacy Center in Alabama. Dr. Taylor stated all too often physical and sexual abuse cases are not correctly identified and/or investigated due to the fact many physicians are not trained to recognize such abuse. Also there is lack of prosecution of the same due to doctors not recognizing the abuse or their unwillingness to testify in court. The Department supports Dr. Taylor’s proposal which is called ALCAMS, Alabama Child Abuse Medical System. A brief explanation of the proposal is stated below.

The University of Alabama at Birmingham (UAB) Department of Pediatrics and Children’s of Alabama (COA) in conjunction with the Alabama Network of Child Advocacy Centers (ANCAC) propose the creation of the Alabama Child Abuse Medical System (ALCAMS). The purpose of the proposed system is to establish a coordinated statewide network of qualified pediatric medical providers (physicians, nurse practitioners, physician assistants, & registered nurses [PSANE RNs]) in order to provide highly competent medical resources for evaluation and treatment of children (birth to 18 years of age) who are being assessed as possible victims of child maltreatment (physical abuse, sexual abuse, neglect, and emotional abuse). To accomplish this, the program will have a central office housed within the UAB/COA Child Abuse Pediatrics Division in Birmingham, Alabama with the Division Director serving as the Medical Director of ALCAMS along with administrative and IT support for the statewide network of providers.

There will be two components of the medical system, the medical network (MedNet) and the pediatric sexual assault nurse examiner network (PSANE). The MedNet will consist of a team of qualified medical providers (physicians, nurse practitioners, physician assistants) recruited and trained to assess those children being investigated for possible child maltreatment (with the exception of most cases of acute sexual assault). This will include both inpatient and outpatient assessments. Referrals to the MedNet will be directed through the ANCAC Centers across the state. The PSANE program is for evaluation and management of acute sexual assault victims presenting within 72 hours of an assault. Those victims are referred by one or more of the following: law enforcement (LE) agencies, the Alabama Department of Human Resources (DHR), or emergency department (ED) physicians.

**CHILD DEATHS DUE TO MALTREATMENT**

The Department has continued to monitor the cases in which child deaths occurred due to maltreatment. With the statewide roll out of FACTS, report INVS206 was developed to track this item. The Office of Data Analysis is notified by an email on any CA/N report that has a child death allegation. This information is tracked from the QA Database. In the interim the Department relies on the QA Database to track this information. DHR Staff serve on the Alabama State Child Death Review Team (ASCDRT) and the State Health Department’s Perinatal Advisory Council. Serving on these committees and others ensures that we gain information that helps guide us in areas such as premature infants and the statewide mortality rates.

**FY 2012:** In FY 2012, forty-six (46) child fatalities occurred with allegations of death due to child maltreatment. The dispositions on those CA/N reports were as follows:

<table>
<thead>
<tr>
<th>Child Fatalities w/allegations of maltreatment</th>
<th>46</th>
</tr>
</thead>
<tbody>
<tr>

Alabama State Child Death Review Team

The ASCDRT is composed of 28 Members, seven of whom are ex officio members. The ex officio members may designate representative from their particular Departments or offices to represent them on the state team. The Alabama Department of Human Resources and the Alabama Department of Public Heath are two of the Departments represented on the State Team.

The ASCDRT reviews the circumstances and underlying factors of all non-medical infant and child deaths in Alabama in order to identify those deaths that could possibly have been prevented. The State Team is responsible for coordination and efficient operation in the review process, using the following causes of death; Sudden Infant Death syndrome; Motor Vehicle Involvement, Fire Related Deaths, Suffocation-Related Deaths; Fire/Weapon Related Deaths. Local Teams do not make a decision as to any child maltreatment cause of death. Child maltreatment fatalities reported to NCANDS are those children for which the Department has investigated the child death. The circumstances of the child fatality are entered into our SACWIS system as a CAN report and Multidisciplinary Teams confer during this process. Coroner, LEA and Medical Examiners are legislatively mandated reporters. State DHR staff, as well as county DHR staff, also participate in the child death review teams.

In addition to the state team, each county has a Local Child Death Review Team. The local District Attorney leads the local teams. A representative from the Department team is included in the local team. The local teams throughout the state are responsible for an in-depth analysis of the cases assigned to them by the State Team. Local Representatives share any information the Department may have regarding child maltreatment deaths.

The State Child Death Review Chairman serves on the Alabama State Quality Assurance Committee. In prior years, the State Child Death Committee traveled to assist any counties who did not have local teams in working with their county District Attorneys to re-establish their local teams. We are pleased that, at this time, all Alabama Counties have a local Child Death Review Team. In 2017, the Office of Alabama Child Death Review will conduct two training sessions on child death investigations involving alleged SIDS and SUIDS. The targeted audience for these trainings will be law enforcement and coroners. The Office of Alabama Child Death Review will also hold the 2017 Child Death Review Conference and a representative from the Office of CPS will attend.

Populations at Greatest Risk of Maltreatment

Targeted Services for at-risk children in Alabama are accessible both within the organization and through partners across the state. Through the Department’s Individual Service Planning process, services to address family needs are identified and referrals made accordingly to programs and opportunities provided by DHR. Internal targeted services and strategies to serve at risk children include:

- ISP;
- Flex Funds;
- Information and Referral to other agencies/entities;
- Maintain Central Registry
- Family Services provide Case consultation services;
- Intensive In Home Services (IIHS)

Following are some of our partners who partner with us around identification of vulnerable populations. We work closely with them, and they have provided the Department with critical information regarding this group of children:

1.) Quarterly meetings with Early Intervention
2.) Participation with Perinatal Substance Council
3.) The Children’s Trust Fund
4.) State Child Death Review Committee
5.) Development of Training Curriculum on Family Violence Assessment and Intervention in Child Protective Services to provide information for Community Partners
6.) Each county also has created their own network of local providers in identifying children in this age group
7.) Domestic Violence Coalition
8.) One Place Family Justice Center
9.) Public & Private Schools.
10. Child Advocacy Centers
11. Children’s Justice Task Force
Definition of Children at Greatest Risk of Maltreatment*

Risk Factors for Victimization
Individual Risk Factors

- Children younger than four years of age.
- Special needs that may increase caregiver burden (e.g., disabilities, mental retardation, mental health issues, and chronic physical illnesses)

Risk Factors for Perpetration

Individual Risk Factors

- Parents’ lack of understanding of children's needs, child development and parenting skills
- Parents’ history of child maltreatment in family of origin
- Substance abuse and/or mental health issues including depression in the family
- Parental characteristics such as young age, low education, single parenthood, large number of dependent children, and low income
- Non-biological, transient caregivers in the home (e.g., mother's male partner)
- Parental thoughts and emotions that tend to support or justify maltreatment behaviors

Family Risk Factors

- Social isolation
- Family disorganization, dissolution, and violence, including intimate partner violence
- Parenting stress, poor parent-child relationships, and negative interactions
- Limited, unknown, or no access to individuals who can provide protection.

Community Risk Factors

- Community violence
- Concentrated neighborhood disadvantage (e.g., high poverty and residential instability, high unemployment rates, and high density of alcohol outlets), and poor social connections.

*Language and context suggested by the Centers for Disease Control and Prevention

Alabama has strong policy in place describing vulnerable/at-risk children, which is available for review as needed. Policy particularly addresses children who have been brought to the Agency’s attention, but we recognize the maltreatment risks noted above throughout our policy, training, and consultation support to counties.

Excerpt from Glossary: Vulnerability Defined in SDHR Policy

Refers to (a) a child’s capacity for self-protection; (b) the type and extent of access a child has to individuals who are able and willing to provide protection; and (c) the child’s susceptibility to experience severe consequences based on age, health, size, mobility, or social/emotional state.

SAFETY OUTCOMES 1 & 2 - STAKEHOLDER COLLABORATION

The strong relationships DHR has made with other agencies have proven to be positive in terms of collaboration around child welfare issues. This includes the Domestic Violence Programs who continue to help us in identifying cases involving child welfare and domestic violence. The Department and the Alabama Coalition against Domestic Violence have completed the Development of a two-day training on Domestic/Family Violence that is open to DHR Staff; Domestic Violence Assessors, and other community partners. This training will continue to be provided four times a year for 25-30 attendees. Domestic Violence Intervention - DHR contracts with the Alabama Coalition Against Domestic Violence to provide services to TANF-eligible clients who may be victims of domestic violence.

The staff from the Alabama Department of Rehabilitation Services, Early Intervention, continue to meet with the Department and they also present workshops at our annual Supervisors Conference.

Alabama Department of Child Abuse and Neglect Prevention (ADCANP) / Children’s Trust Fund

The Alabama Department of Child Abuse and Neglect Prevention (ADCANP) Children’s Trust Fund continues to provide funds for the “Cribs for Kids” project in Jefferson, Mobile and Morgan Counties, which will enable new mothers to have safe sleeping surfaces for their infants. The Alabama ADCANP/Children’s Trust Fund reported that over the life of the Jefferson County Cribs for Kids project, over 2,177 cribs have been provided to new mothers. Each new mother who receives a crib
also receives training on safe sleep, abusive head trauma, child development, etc. The program has expanded to Tuscaloosa, Walker, Dallas, and Talladega Counties.

All ADCANP funded programs have updated their mandatory reporting policy and have trained all staff members on the new (Mandatory Reporter) legislation. All ADCANP grantees continue to be required to receive and incorporate the Protective Factors training into their community-based work. For the 2016-2017 program year, ADCANP (Children’s Trust Fund) funded 115 programs for the maintenance expansion, and enhancement of at-risk youth and family support through the Children’s Trust Fund for a total of $3,907,295. At-risk youth programs serve individuals age 8-17 who are experiencing factors that have brought them to the attention of school systems, courts and county facilitation teams. Family Support programs are used to continue or expand Family Resource Centers and programs. Also, the Alabama Department of Child Abuse and Neglect Prevention continues to work closely with Children’s Policy Councils to examine the placement prevention programs in underserved areas and populations. We are working with Children’s Policy Councils in the implementation of Erin’s Law to prevent child sexual abuse.

**Alabama Children’s Justice Task Force**

The Alabama Children’s Justice Task Force has also recognized the need for continued training in areas that were identified as needs for all CPS staff. Those areas include Family Violence and Safety in Child Protective Services (CPS), and Multidisciplinary Team Building Training.

Children's Justice funds are awarded to counties applying for funds for Multi-disciplinary teams to attend the International Symposium on Child Abuse in Huntsville, AL. Some counties will instead arrange for and conduct regional conferences. The information provided for estimated total costs are the estimated compilations of both the counties sending participants to the International Symposium and those conducting regional conferences.

**Family Violence and Safety in CPS** is a curriculum that was offered for the first time in FY 2014 and will continue to be offered in FY 2018. Each of the 2, two day training sessions will focus on providing basic information on the complex dynamics of Family Violence and a basic understanding of how domestic violence impacts children’s lives & what that means for CPS intervention. The two day training is provided for County Multidisciplinary Team members, Other State Agencies, DHR State Office Staff & County Staff.

**Multidisciplinary Team Building Training** is a training that is being planned for FY 2018. It is a one-day training that is planned to be delivered at four (4) training sites across the state. County DHR Multidisciplinary Teams on Child Abuse will be invited to attend the training sessions. The goals of the training are to strengthen the relationships among team members and increase the effectiveness of the teams.

Former Alabama Governor, Robert Bentley, and the Department of Human Resources Commissioner, Nancy T. Buckner supported the development of a successful interactive online training for individuals who are Mandatory Reporters of Child Abuse and Neglect. The training is on the DHR website @www.dhr.alabama.gov.

**Solicited Input – Surveys**

In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal, or positive outcomes), the average rating for Safety, was 5.25 (cf to 2016 – 5.33; 2015 – 5.32; 2014 – 5.25; 2013 – 5.23; 2012 – 5.20; 2011 – 5.21; 2009 – 5.19).

**See also Appendix 10: Feedback from State QA Committee and CWCI Team**
**CAPTA UPDATES**

I. **Alabama State Liaison Officer (SLO)**
   Harold Brown, Program Manager, Child Protective Services  
   State DHR - Family Services Division  
   50 Ripley Street  
   Montgomery, AL 36130  
   334.242.9500  
   Harold.Brown@dhr.alabama.gov

II. **Data Updates**

A. **Number of Children Referred to CPS under Policies and Procedures Established to Address the Needs of**

   Infants born with and Affected by Illegal Substance Abuse, Withdrawal symptoms or a Fetal Alcohol Spectrum Disorder (number of children with each of the identified symptoms/allegations who were subjects of a child abuse/neglect report received by the Department). Data and time frames are provided below for the number of children in CAN reports received by allegation, for the following allegations (Note: Referral Intake date was the method used to “assign” children to the yearly cohort groups):

   - Chemical Endangerment (methamphetamine)
   - Positive for Drugs at Birth / Drug Withdrawal
   - Positive Test for Alcohol at Birth / Fetal Alcohol Syndrome

<table>

   2016: *452 unique children (6 children had two allegations)  452 of 452 Children Received Services after Initial Assessment  100% Received Services.

   * 436 unique children, as 6 children had two allegations. Of the total, 99% were opened to services.

   The Office of CPS has requested assistance from the Children’s Justice Task Force to provide training on the assessment of substance abuse in child welfare cases. One of the goals of the training will be to improve the accurate assessment of substance abuse involvement in child abuse cases. There has been a steady increase in the total number of children born positive for drugs over the past several years and the Office of CPS believes that this training will be very beneficial for child welfare staff as they assess cases where substance abuse might possibly be an issue contributing to abuse or neglect. The Children’s Justice Task Force plans to research, develop and conduct this training in FY 2018.

B. **Number of Families that received a Differential Response as a Preventative Service during the Year:**

   The data for Prevention reports received is as follows: Approximately 10,086 Prevention Assessments, involving 15,519 children, were received in FY2012. Approximately 10,300 Prevention Assessments involving 15,742 children were received in FY2013. During FY2014 the state conducted 10,823 Prevention Assessments.
involved 16,356 children. For FY2015, 11,054 Prevention Assessments were received involving 16,566 children. For FY2016, 11,529 Prevention Assessments were received involving 17,048 children.

III. Updates to Use of Grant Funds Section of 2011 CAPTA Plan (only those sections with updates are included):

Use of Grant Funds

A. The primary plan for CAPTA funds continues to be maintaining the CAPTA Due Process Requirement through the Administrative Record review process. This program improves the child protective services system by establishing procedures for appeal and responding to appeals of substantiated/indicated reports of abuse and neglect. CAPTA Funding has been the cornerstone of many of the projects that continue to grow as we protect children. This includes the Central Registry /Adam Walsh Act. Importantly, due process for those individuals with indicated/substantiated child abuse/neglect reports is one of the largest services we provide.

- Five Program Specialists
- Two full time Administrative Support Assistants
- One part-time Administrative Support Assistant

1. Intake, assessment, screening and investigation of reports of child abuse or neglect and procedures for appealing and responding to appeals of substantiated reports of child abuse or neglect.

The Administrative Record review program is a joint partnership between the county Departments and the state office. State office Administrative Record Reviewers and the County Director or designee review the case record and any information submitted by the alleged perpetrator to determine if the record supports a finding of abuse or neglect. The alleged perpetrators are given written notice of their right to an Administrative Record review. They are informed that the review process will be completed by a DHR independent panel, members of which are not directly involved in the case and have authority to overturn the decision of the worker/supervisor if the record does not support the finding of abuse or neglect.

The role of the Central Registry Program Specialist is to review Child Abuse/ Neglect reports that have an “indicated/substantiated finding of Child Abuse/Neglect” that were received prior to the June 1, 1999 implementation of the CAPTA Due Process Requirement. There must also be a pending request for a Central Registry Clearance. Once the case review is completed by the Central Registry Program Specialist, a determination is made regarding the release of the information. The State Central Registry on Child Abuse and Neglect continues to be widely used by potential employers who work with children to screen applicants for employment and for the screening of foster and adoptive parents. CPS staff continues to assist in providing accurate information to other states who are requesting Adam Walsh Clearances so pending placements can be completed timely. In FY 2015, CAPTA funds were utilized for salaries for five Central Administrative Record Review Program Specialists and a Central Registry Program Specialist. These six positions are essential for the timely completion of Due Process in child abuse and neglect reports and the release of information from the Child Abuse/Neglect Central Registry. This is a critical position that requires balancing child safety with liability issues.

Salaries and benefits for the five Administrative Record Program Specialists, one part time Administrative Assistant and two full time Administrative Assistants are paid by funds from the CAPTA Grant. The total expenditure is estimated at $ 495,177.54.

In addition to the normal job duties of the Administrative Record Program Specialists and the Central Registry Specialist, they are involved in a team approach model to assist counties in improving their child protective services program. They work closely with Specialists from within Family Services by providing support and helping identify strengths and needs in the counties’ CPS programs and providing specialized training to counties as needed.

2. Enhancing the general child protective system by developing, improving, and implementing risk and safety assessment tools and protocols, including the use of differential response.

The Department continues to recognize that supervision is crucial to good social work practice. Efforts are underway to begin working toward increasing the capacity of line supervisors to assist their staff in making sound decisions around safety planning; case planning and using the comprehensive assessment to improve case practice and case outcomes. Within the last five years, technical assistance was provided by the National Resource Center for Child Protective Services. Funding for that Comprehensive Assessment Project Grant was
completed effective September 30, 2013. The Department currently utilizes a prevention track as a differential response, in that reports taken as preventions are assessed as not rising to a level of a child maltreatment report, and yet a safety assessment by Department staff (using defined initial contact time frames) is still conducted.

3. The services to be provided to individuals, families, or communities, either directly or through referrals aimed at preventing the occurrence of child abuse and neglect.

The Administrative Record Review Program is the service set provided directly to individuals using CAPTA Grant money. See #1, Use of Grant Funds noted above. The Department continues to support Alabama’s Parenting Assistance Line (PAL). The Parenting Assistance Line (PAL) is a collaborative service of the University of Alabama Child Development Resources and the Alabama Children’s Trust Fund. When citizens call the toll-free number, 1-866-962-3030, a parenting resource Specialist provides helpful information and support. Callers can also request free literature. The PAL website can be accessed at http://pal.ua.edu/. CAPTA funding was utilized for the CPS Program Manager to attend the Mandatory Conference in Washington, D.C. in 2015. The Program Manager and the Program Supervisor attended the same conference in Washington, D.C. in 2016.

B. Referral Of Infants And Toddlers (under 36 months) To Alabama’s Early Intervention System (AEIS). Child welfare staff, under provisions in Child Abuse Prevention Act (CAPTA), shall refer all infants and toddlers from birth to 36 months, with indicated abuse/neglect reports received on or after June 25, 2004 to AEIS. AEIS, a Division of Alabama Department of Rehabilitation Services, is funded under Part C of the Individuals with Disabilities Education Act (IDEA). Early Intervention Services identifies through evaluation infants and any toddler with a 25% delay in the major areas of development (e.g., physical, social, adaptive, cognitive, or communication skills) or a diagnosed condition likely to lead to delay, and provides early intervention supports and services to eligible children.

AEIS-DHR CAPTA referral form is required for all children who meet eligibility requirements (i.e., must be under 36 months at time of indicated disposition). FACTS generates the AEIS-DHR CAPTA Referral Form (DHR-FCs-2121) from case participant information for children under 36 months with an indicated disposition. Due process requirements must be completed for the person allegedly responsible for abuse/neglect before disposing of a CA/N assessment and before sending the DHR-FCs-2121 to Child Find. Referrals are sent directly to the attention of ADRS/EI, 602 South Lawrence Street, Montgomery, Alabama 36104, or faxed to (334) 293-7393. AEIS staff may contact the DHR caseworker for additional information needed to process the referral. Under Code of Alabama 1975 § 26-14-8 (c) (9) child welfare staff can share information with AEIS. Refer to Child Protective Services Policies And Procedures, Central Registry, E. Use And Disclosure Of CA/N Information. Referrals to AEIS are documented in the service case record. Parental consent is not required when making referrals to AEIS, but the referral should be discussed with the parents or primary caregiver. AEIS assumes responsibility for obtaining written parental consent needed before AEIS can conduct an evaluation for referred infants/toddlers not in the custody of the Department. Child welfare staff shall pursue parental consent only when the referred infant/toddler is in the custody of the Department.

Note: Part C of Individuals with Disabilities Education Act (IDEA) recognizes foster parents as surrogate parents eligible to give written consent for evaluation when an infant/toddler is in foster care. Child welfare staff are not recognized as surrogate parents under Part C and therefore cannot give written parental consent for children in foster care even if DHR holds custody. In order to satisfy both AEIS and Departmental consent requirements for children in our care, both the foster parent(s) and child welfare worker must sign the consent forms. The SACWIS report to generate data on this item is still under development. In all CA/N Reports where there is a child victim under 36 months who is also indicated for abuse and neglect, the referral is required before the CA/N can be disposed.

The following is data obtained from the Alabama Early Intervention System State Office
As of the data received from EI on 06/29/17, the following information is provided regarding referrals from FY 2015. Of the 707 referrals made in FY 2015, there were no concerns of the child having a 25% delay in 585 referrals. Nine (9) children were activated as a referral by the DHR caseworker as action needed, and twenty-one (21) children were already in the system. Two (2) children were activated for a Child Find Alert. Twenty (20) referrals were closed by Early Intervention with no further action and fifty-six (56) were closed due to unsuccessful contact. There were eleven (11) sent to EI that were over the age of three years and three (3) that were from another state.

As of the data received from EI on 06/29/17, the following information is provided regarding referrals from FY 2016. Of the 829 referrals made in FY 2016, there were no concerns of the child having a 25% delay in 670 referrals. One (1) child was activated as a referral by the DHR caseworker as action needed, and forty-two (42)
children were already in the system. Twelve (12) children were activated for a Child Find Alert. Seventeen (17) referrals were closed by Early Intervention with no further action and eighty (80) were closed due to unsuccessful contact. There were five (5) sent to EI that were over the age of three years and two (2) that were from another state.

The Department worked in conjunction with Early Intervention to develop a screening tool to be used by the social worker when making referrals to Early Intervention. This screening tool can be used for children under 36 months of age who are living in the home where a report of abuse/neglect has been determined to be indicated. The tool requires specific information about the infant/toddler being referred; child’s current living situation; a statement of concerns about the child’s cognitive; physical; communication; social/emotional or adaptive development and referral source information. Early Intervention assesses the infant/toddler’s needs and contacts the social worker; parent, legal guardian and/or foster parent to arrange services when needed. The Department’s Individualized Service Planning Policy provides guidelines and procedures which result in the development of an individualized service plan (ISP). The ISP, as developed in partnership with the child and family planning team, is the actual case plan that is designed to achieve the desired case outcome. Comprehensive assessments are essential to the development of successful ISPs and overall well-being. Assessment is to begin at initial contact and continue until the family’s case is safely closed. Information is to be gathered from and about all children and family members in order to gain an understanding of the needs to be addressed and to evaluate progress toward meeting those needs. As the information is analyzed and conclusions are reached, a basis can be created for informed decision-making and the development of the family’s ISP.

This policy applies to all children and their families who are referred to the Department including those with illegal substance withdrawal symptoms and Fetal Alcohol Spectrum Disorder (which is an automatic eligible diagnosed condition for EI services). Services are to be identified and referrals made based on the individual needs of each child. The same procedure is to be followed if the child stays in the home with the parents; is placed with relatives; placed in foster care; or is being reunified with their family. There are occasions where the required referrals for a child have been made by medical professionals, Early Intervention, or others prior to the ISP meeting, but those referrals are to be then incorporated into the ISP Plan and monitored by the ISP Team.

The Department continues to work closely with the Alabama Early Intervention System to insure that children are appropriately referred for services. The two agencies believe that it is important to heighten the awareness of line supervisors about the need for appropriate referrals to the Early Intervention Programs and increase awareness of services available to benefit children who are victims of child abuse/neglect who may also have a developmental delay. We have several potential venues for such opportunities over the next 12 months and will plan accordingly.

C. Policies and procedures regarding the use of differential response, as applicable.

Code of Alabama 1975 § 38-2-6 (10) mandates that DHR seek out and aid minor children in the state who are in need of its care and protection. Furthermore, Code of Alabama 1975 § 26-14-2 clarifies the legislative intent that protective services shall be made available in an effort to prevent further abuses and neglect, and to safeguard and enforce the general welfare of such children. Child protective services’ primary role is to intervene when suspected child abuse/neglect reports are received; however, there are situations when individuals contact DHR to report what they consider abuse/neglect, but the information they provide:

- does not rise to the level of child abuse/neglect according to statutory and Departmental definitions; or
- is insufficient to determine whether a CA/N report exists.

When these situations occur and the Intake information reveals the children may be at risk of maltreatment, the information is considered a CPS Prevention referral and an evaluation of the child/family situation is needed. The evaluation process is known as CPS Prevention assessment. Risk of maltreatment is defined, for purposes of this policy, as “family conditions or circumstances that, if left unchanged, can cause child abuse/neglect.” The CPS Prevention process is designed to determine whether ongoing protective services are needed to prevent child maltreatment. At any time safety threats or abuse/neglect are discovered during the CPS Prevention process, child welfare staff must follow CA/N Assessment Policies and Procedures.

D. Guardians ad-Litem

The staff at the Administrative Office of Courts (AOC) has conducted GAL certification and recertification training sessions since grant year 2003-2004 in order to fulfill the requirements of 42 U.S.C.A. Section 5106a(b)(2)(B)(xiii) and Ala. Code 1975, § 12-15-304(c) that all guardians-ad-Litem must be trained as to their role. The Federal law conditions the Department of Human Resources’ receipt of Child Abuse Prevention and Treatment Act (CAPTA) monies on an assurance in the form of “certification” by the Governor that the State has a state law OR a program
including the items listed in Section 5106a(b)(2)(B) which includes that GALs in these cases be trained in their role. This training requirement is just for GALs who wish to represent children in dependency and termination-of-parental rights cases and not for GALs who may be appointed in domestic relations, probate or other type cases.

2015 Update: AOC continues to provide trainings for GAL certification and recertification. In 2015, AOC held three (3) certification courses and three (3) recertification courses that provided mandatory training for an attorney to be certified or to maintain their certification. Staff from State DHR frequently provide required sessions at these trainings where the issues of child development and many other concerns are presented. Current GALs have the option of AOC’s online recertification course as well as a live session. At the end of the calendar year, AOC had an active list of 1,256 certified GALs.

2017 Update: AOC continues to provide training sessions for GAL certification and recertification. In CY 2017, AOC has conducted or will conduct a total of seven (7) certification courses and six (6) recertification courses that provide mandatory training for an attorney to be certified or to maintain their certification. Staff from State DHR frequently provide workshops at these training sessions where the issues of child development and many other concerns are presented. Current GALs have the option of AOC’s online recertification courses as well as live sessions. As of May 15, 2017, there are 1,198 attorneys on the master GAL appointment list.

IV. Child Fatality and Near Fatality Public Disclosure Policy
Family Services Administrative Letter No. 7452, dated March 19, 2015, addresses the reporting and public release of records in cases of child fatality or near fatality. It was released to County Directors of Human Resources on March 30, 2015, for immediate implementation. The DHR Guidelines for reporting child deaths and near fatalities included guidance on the composition of CHR child death review committees, and procedures for child death reviews. It includes:

- Cause, date (of death / near fatality) and circumstances regarding the child fatality or near fatality.
- Age, gender, and race of the child.
- Child welfare involvement with the child/family during the 12 months prior to the date of the child’s death or near fatality incident. Identification of other pending referrals / open cases on the child / family at the time of death or near fatality.
- A description of any other child welfare involvement with the child / family during the 12 months prior to the date of the child’s death or near fatality incident.
- The review process will consist of an objective discussion by the Review Committee of DHR’s involvement with the family and an analysis of the Department’s performance as it relates to policy, procedures, services, best practices etc.

Upon request for disclosure, information regarding Child Fatalities or Near Fatalities will in turn be provided by the Office of Data Analysis.

V. DEMOGRAPHIC SUMMARY FOR PROGRAM EFFORT (PE) CODES 03 and 53 EMPLOYEES AS OF PAY PERIOD ENDING 03/31/17.

The total of 1471 employees listed below represents 90.3% of child welfare staff.

GRAND TOTAL 1471
VI. Degrees, Certifications, Salaries, Positions

See (separately attached) supervisor and worker classifications document for the following positions:

- Service Supervisor (50223)
- Senior Social Work Supervisor (50224)
- Social Worker (50248)
- Social Service Caseworker (50246)
- Senior Social Worker (50221)

VII. Training Provided to New Child Welfare Workers

See information provided in the 2017 Training Plan.

VIII. Caseload Size

The following caseload standards have been set out for child welfare caseloads:

- New Reports alleging abuse/neglect (CANs): 12 reports per worker per month
- Ongoing child protective service cases (families): 18 per worker
- Foster Care cases (children): 18 per worker
- Adoption cases (children in adoptive homes): 22 per worker
- Foster/Adoptive Resource Families: 40 per worker

These standards establish a maximum number of cases per worker based on the type of case, giving consideration to the responsibilities that are inherent to particular staff positions. There is also a standard for the staff position that involves handling the incoming cases, inquiries, and reports of abuse and neglect from the community that is typically referred to as Intake. Each county is allocated one full time staff position for the Intake function, with selected counties having additional staff resources for Intake based on county size. Additional staffing resources are allocated to counties to fulfill resource development and quality assurance functions in each County Department. These positions along with the caseload standards are designed to provide the program and Administrative Record support to counties in accordance with the Department's/Division's goals and principles. The implementation of caseload standards marked a significant reform in child welfare operations in Alabama that provided a framework for supporting quality child welfare practice.

IX. Staff additions, separations, recruitment and selection

The Program Support Workforce information shown below was obtained from the following SDHR Divisions: Field Administration, Personnel, and Management and Fiscal Analysis.

Information on Child Welfare Staff Additions / Separations

The data for Field Placement Students (FPS) includes the total number of FPS (by year), along with the number (of FPS) hired and the total number of hired FPS that received a Title IV-E Stipend (with a breakdown by BSW and MSW). The data for total child welfare additions is approximate and consists of staff joining the county child welfare work force through 1.) new hires; 2.) transfer from State DHR; 3.) transfer from another agency; 4.) transfer from the CW staff of another county; and 5.) program effort code changes to child welfare. The information on child welfare separations is also approximate and includes: 1.) separations; 2.) transfer to state office; 3.) transfer to another agency; 4.) transfer to the CW staff of another county; and 5.) program effort code changes from (out of) child welfare. NOTE: the inclusion of CW transfers (# 4 in both additions/separations) reflects worker movement within the workforce, as opposed to joining/leaving the work force.

2005:
- Total # Field Placement Students: 126
- Total # of FPS employed: 73
- Total Employed FPS that received Title IV-E Stipend: 36 (21 BSW, 15 MSW)
- Total CW additions: 463
- Total CW separations: 443

2006:
- Total # Field Placement Students: 137
- Total # of FPS employed: 64
- Total Employed FPS that received Title IV-E Stipend: 30 (20 BSW, 10 MSW)
- Total CW additions: 467
- Total CW separations: 427

2007:
- Total # Field Placement Students: 116
- Total # of FPS employed: 57
Total Employed FPS that received Title IV-E Stipend: 28 (15 BSW, 13 MSW)
Total CW additions: 378
Total CW separations: 373

2008:
Total # Field Placement Students: 155
Total # of FPS employed: 64
Total Employed FPS that received Title IV-E Stipend: 36 (28 BSW, 8 MSW)
Total CW additions: 336
Total CW separations: 385

2009:
Total # Field Placement Students: 123
Total # of FPS employed: 37
Total Employed FPS that received Title IV-E Stipend: 14 (10 BSW, 4 MSW)
Total CW additions: 203
Total CW separations: 249

2010:
Total # Field Placement Students: 114
Total # of FPS employed: 16
Total Employed FPS that received Title IV-E Stipend: 5 (4 BSW, 1 MSW)
Total CW additions: 215
Total CW separations: 251

2011:
Total # Field Placement Students: 147
Total # of FPS employed: 24
Total Employed FPS that received Title IV-E Stipend: 5 (5 BSW, 0 MSW)
Total CW additions: 170
Total CW separations: 244

2012:
Total # Field Placement Students: 139
Total # of FPS employed: 28
Total Employed FPS that received Title IV-E Stipend: 9 (5 BSW, 4 MSW)
Total CW additions: 177
Total CW separations: 257

2013:
Total # Field Placement Students: 122
Total # of FPS employed: 46
Total Employed FPS that received Title IV-E Stipend: 9 (7 BSW, 2 MSW)
Total CW additions: 195
Total CW separations: 229

2014:
Total # Field Placement Students: 114
Total CW additions: 302
Total CW separations: 288

2015:
Total # Field Placement Students: 122
Total CW additions: 311
Total CW separations: 303

2016:
Total # Field Placement Students: 138
Total CW additions: 504
Total CW separations: 437
Note: For FY2015, Staff assigned Prevention Assessments are not included in the staffing count. Alabama does not yet include Alternative Responses in our NCANDS Child File. Source: FY2015 NCANDS Agency File – Staffing for CPS Functions.

</tbody>
</table>

Alabama determines staff need based on a six or twelve month average of different case types. Intake is one worker per county and for larger counties, more than one based on population. CA/N reports are counted at a 1:8 ratio for sexual abuse; 1:10 for children who enter foster care; 1:12 ratio for all other maltreatment types; Child Protective Service On-Going Cases are staffed at a ratio of 1:18 cases. Therefore, Alabama's total Child Protective Staff for FFY2016 was Intake = 85; CA/N = 206; CPS = 275; Total 566.

| WKSI | Number of Staff Responsible for the Screening and Intake of Reports During the Year | 84 | 85 | 1.2% increase |

Intake is one worker per county and, in larger counties, more than one, based on 2010 population data.

Information on Staff Recruitment - The staff person that serves as the Department Recruiter visits colleges all over the state (especially the ones with a social work program), and also participates in career fairs. Additionally he visits with graduating social work classes to inform them of the different types of job opportunities DHR has to offer and how to apply for those jobs. Information on the three (3) main child welfare classifications is posted on the career services websites of different schools. Finally, DHR has an email address that is specific to recruitment (recruitment@dhr.alabama.gov) and the staff recruiter receives all the emails that are sent to this email address. The three (3) child welfare job classifications for which recruitment efforts are made, along with the necessary qualifications for each, are as follows - see also the (separately attached) worker classifications document for information related to the below positions:

1. **Senior Social Worker** - this classification requires a Master of Social Work from a program that is accredited by CSWE and for the individual to be licensed at the LMSW level or higher. A person can be hired without being licensed, but licensure must be obtained within the probationary period in order to obtain permanent employment.

2. **Social Worker** - this classification requires a Bachelor of Social Work from a program that is accredited by CSWE and for the individual to be licensed at the LBSW level. A person can be hired without being licensed, but licensure must be obtained within the probationary period in order to obtain permanent employment.

3. **Social Service Caseworker** – this classification requires a Bachelor’s degree in a social science or a degree in any major with at least 30 semester or 45 quarter hours in social or behavioral science courses. There are no licensure requirements for this classification.

Additionally the DHR Recruiter typically receives hundreds of phone calls every year in response to the following information on the DHR website:

“The Department of Human Resources offers a variety of career opportunities throughout the State of Alabama. DHR employs individuals in the classifications of Social Service Caseworker, Social Worker, Senior Social Worker, and Financial Support Worker. The department also offers positions in the areas of information services, accounting, clerical, and other classifications. To obtain information regarding these employment opportunities, please email the DHR Recruiter at recruitment or contact the DHR Personnel Division at 334-242-1780 to speak with the recruiter.”

Information on Staff Selection - The selection process of eligible applicants is based on an employment certification provided by the State of Alabama Personnel Department in which the applicants are scored and ranked based on an approved testing method. The top ten scores for each merit system classification are provided by the State Personnel Department to the agency filling a vacancy in the respective classification. Each applicant on the employment register is then contacted by mail, phone or both in order to determine availability for the vacant positions. Candidates expressing
interest and availability in the vacant position are then interviewed for consideration.

**ALABAMA STATE DEPARTMENT OF HUMAN RESOURCES - CAPTA ADDENDUM HIGHLIGHTS/CLARIFICATION**

The Alabama Department of Human Resources is currently working in several areas to ensure that the population of newborns to five (5) years old are protected and/or receive adequate treatment and/or services as needed.

Throughout CY2016, Family Services conducted policy training for all workers and supervisors. Under the direction of our Commissioner, this training was mandatory and every worker and supervisor were required to attend at least one training session offered at various locations around the state. Feedback from participants attending this training has been positive.

The Department has also developed Mandatory Reporter Training for all individuals who are deemed, by state law, to be mandatory reporters. This training is online and ongoing. This training can be accessed by any citizen regardless of whether they are a mandated reporter. During CY 2016, a large number of stakeholders were refreshed around Mandatory Reporting. Those stakeholders included over 500 law enforcement staff; approximately 50 workshop participants from the Alabama Association of School Guidance Counselors; and physicians, nurses, and other medical professionals in the greater Montgomery area.

The Department of Human Resources is teaming with the Department of Public Health to promote public awareness of the ABC’s of Safe Sleep through public service announcements and other avenues where the public will come in contact with the information. The Campaign highlights the ABC’s of Safe Sleep as: “A is for Alone: Always let the baby sleep alone, never in a bed with another person where the baby could be smothered. B is for on the baby’s Back: An infant should be placed to sleep on his or her back, not on his or her side or stomach. C is for Crib: Always put your child to sleep in a crib with only a firm mattress and tight-fitting sheet.”

Child Protective Services staff are working in select counties to complete a 100% review of all cases in an effort to strengthen practice and ensure that our clients continue to be safe and receive any needed services. Reviewers recommend training or further consultation in areas which are found to need improvement. Reviewers will be prompted to pay particular attention to Plans of Safe Care.

The Alabama Department of Human Resources was selected in 2016 by the National Governors Association (NGA) as one of eight states to participate in the Three Branch Institute, an 18-month technical assistance effort focused on improving safety and preventing fatalities within the child welfare system. The purpose of the Three Branch Institute to Improve Child Safety and Prevent Child Fatalities is to help participating states develop an integrated and comprehensive plan by aligning the executive, legislative and judicial branches of state government.

Alabama has utilized this opportunity to build upon ongoing work with technical assistance from partners and national experts. With a core team which includes a State Senator; State Representative; Judiciary; and DHR/Department of Public Health, we had an opportunity to mobilize staff capacity and other organizational assets from all three governmental branches to achieve an integrated approach, providing for the safety and prevention of fatalities and near-fatalities of those within or at risk of entering the child welfare system. The work of the Three Branch Team and the availability of TA around safe sleep and other causes of death due to abuse and neglect integrate well into the requirements of CAPTA. We will inform all partners of policy around Plans for Safe Care.

The Alabama Department of Human Resources accepts reports on infants who test positive for alcohol or drugs (and/or withdrawal symptoms) at birth. Reports are also accepted on infants who exhibit signs of fetal alcohol syndrome. Infants who have an excessive amount of prescribed medication or over the counter medication in their system are also assessed by the Department. DHR child welfare staff are required to develop a Plan of Safe Care for these infants, which could be a part of a broader safety plan. The Plan of Safe Care will provide for the safety of the infant, unless it is determined through thorough assessment, that the family will be able to provide for the care and safety of the infant without an agency-developed plan. When a Plan for Safe Care is developed, appropriate referrals for services are made for the infant and mother and are then written into the safe care plan for the infant. The Plan of Safe Care includes the monitoring methods and follow-up steps that will be in-place.

When the report is received prior to the infant’s discharge from the hospital, child welfare staff make contact with the mother, child and hospital staff prior to discharge. A home visit is made within 12 hours of the infant’s discharge from the hospital. If the report is received after the infant’s discharge from the hospital, child welfare staff make a visit to the home in no later than 12 hours. The Department recently directed counties to remind health care professionals of their responsibility to refer cases involving substance-exposed infants (including those demonstrating withdrawal symptoms due to exposure to legally prescribed medication) to the Department. The Hospital Association was notified of these mandates and they were
asked to share statewide. In addition, a letter was sent to all county directors instructing them to provide training as needed to local health care providers.

Alabama’s Child Welfare staff collect and assess information about the following:

- Conditions and circumstances related to the substance use/misuse (e.g., type, frequency, duration, underlying conditions);
- The presence of any other individuals (e.g., household members, friends) in the home who may also be using/misusing substances or influencing the parent’s substance use/misuse;
- How the parent’s substance use/misuse is impacting caregiving knowledge and skills;
- The parent’s ability to meet the infant’s unique needs;
- Adequacy of living arrangements and means of financial support; and
- Whether the mother has other children who are not living with her; if so, the whereabouts of those children, as well as their current living arrangement and legal status will be determined.

In all situations, child welfare staff specifically assess whether there are safety and permanency needs (e.g., mother left child in an inappropriate or unsafe setting) in these children’s current living arrangement. If there is any indication that child safety is or was a concern for these children (e.g., parental rights terminated), consideration is given as to whether the same or similar circumstances and safety issues may occur with this infant. If the case is opened for services, an Individualized Service Plan (ISP) is developed in partnership with the family and others. Appropriate referrals for the infant and mother must be addressed in the plan, and a determination is then made as to whether a Plan of Safe Care will be included as a component of the ISP (if so, the monitoring and follow-up strategies are included). It is the role of Child Welfare Staff to that the steps of the Individualized service plan are monitored and changed with the changing needs of the infant and family. In addition, all infants and toddlers from birth to 36 months with indicated abuse/neglect reports received on or after June 25, 2004 are referred to AEIS (Alabama Early Intervention Services). Early Intervention Services identifies, through evaluation, infants and toddlers with a 25% delay in the major areas of development (e.g.; physical, social, adaptive, cognitive, or communication skills) and provides early intervention supports and services to eligible children.

**POSITIVE TEST FOR ALCOHOL AT BIRTH/FETAL ALCOHOL SYNDROME**

**Definition:** Child tests positive at birth for alcohol and/or exhibits symptoms of fetal alcohol syndrome. Fetal alcohol syndrome is associated with growth, mental, and physical problems (e.g. low birth weight, facial abnormalities, organ dysfunction, etc.) that occur in a baby when a mother consumes alcohol during pregnancy.

**Additional Verification:** Written or verbal statement from a medical professional.

**POSITIVE TEST FOR DRUGS AT BIRTH/DRUG WITHDRAWAL**

**Definition:** Infants who test positive at birth for illegal drugs are considered to be abused/neglected. Infants who test positive at birth for prescription medication or over the counter medications due to the mother’s consumption and misuse of prescription medications or over the counter medications are considered to be abused/neglected. Misuse of prescription medications or over the counter medications is defined as an excessive amount of the medication in the infant’s system as determined by a medical professional.

**Additional Verification:** Written or verbal statement by a medical professional.
**PERMANENCY Outcome 1.** Children have permanency and stability in their living situations

### Item 4. Stability of foster care placement

**Purpose of Assessment:**
To determine whether the child in foster care is in a stable placement at the time of the onsite review and that any changes in placement that occurred during the period under review were in the best interests of the child and consistent with achieving the child’s permanency goal(s).

**2018 APSR ASSESSMENT**

The number of placement moves has reduced slightly each fiscal year since FY2014, with an average number of placement moves dropping to from 4.18 to 4.17 and 4.10 yearly; FY2014 through FY2016 respectively. This reduction in placement moves comes despite a steady increase in youth in foster care in those same fiscal years. The average time youth spend in foster care prior to achieving positive reunification has improved markedly as well. In FY2014 the average time in foster care was 25.68 months, 23.64 months in FY2015 and 21.86 months in FY2016. The number of placement moves is closely linked to the length of time spent in out of home care, as placement moves impact the complexity of the trauma youth experience - often extending their time in foster care. The data related to re-entrance into foster care has also reduced slightly over the course of the fiscal years noted. In FY2014 the percentage of young people re-entering foster care was 6.35, in FY2015 that percentage decreased to 5.6. and declined again in FY2016 to 5.4%.

The Department’s focus on providing specific training to staff, vendor/providers, foster parents and the community regarding the impact of trauma and the vital importance of serving and stabilizing our youth has promoted stability for children in care, thereby decreasing their probability of re-entry. Renewed focus and training related to the use of kinship guardians has produced positive permanency outcomes related to the reduction of placement moves and time spent in out of home care. Changes to the In-Home Intensive Services have also positively affected how our young people experience foster care through positive permanency outcomes, decreased length of stay and a decline in re-entry as many barriers related to placement and length of services have been removed via the new IIHS provision of services.

Cases continue to be reviewed randomly through State Quality Service Reviews to assess compliance and quality of foster care resource. A specific review tool is used for consistency. This has already provided a snapshot of areas for focusing efforts with regard to training and policy development.

To increase the education/training opportunities and support for out of home care providers, the Department continues to contract with the Alabama Foster and Adoptive Parent Association (AFAPA). This partnership was key to our ability to provide Reasonable and Prudent Parent Training to 2246 participants statewide during the fiscal year. State Office personnel, in collaboration with AFAPA, provided this training in a co-training model for foster parents, child-placing agencies and providers. This organization provides additional training for foster and adoptive resources and develops them to be trained parent advocates. These identified advocates receive increased training around policy and practice to serve as advocates and empower foster/adoptive resources in supporting the children and their needs. In addition, regional foster/adoptive representatives are identified through AFAPA to help provide support and training and offer resources in the specific region. In many instances, there have been more stable foster home placements with improved training and partnerships with our foster parents as well as improved assessments and supports of children placed in care. The training and consultation provided focused on assessing resources for children with special needs to promote better initial matching of the child’s needs with a provider’s strengths and capabilities. The goal is to conduct early assessments to identify needs to secure a placement with appropriate support services to eliminate the need for additional moves and/or disruptions.
State Legal. The Office of Foster Care and ILP and the Office of Adoption partnered to draft required legislation, develop the policy, and train Alabama’s Reasonable and Prudent Parent Standard assisted by AFAPA. The training began in October 2016 and concluded in April 2017 and provided training to foster parents, child placing agencies and residential facilities in all 67 counties, resulting in the Office of ILP being featured at the Strategic Planning meeting in partnership with the Alabama National Guard.

The Office of Foster Care and ILP have participated in the quarterly meetings with Alabama Association of Child Care Agencies (AACCA) and the Foster Family-based Treatment Association (FFTA) in an effort to partner, and provide needed support and information. In FY2016, the service providers were trained to better support youth as they participate in their ISPs, the results of the unit’s first Congregate Care Study, PL-113-183 and the state’s Fostering Hope Legislation.

The Office of Foster Care and ILP has continued and strengthened the partnership with the Office of Quality Child Welfare Practice around the issues of placement stability and support. This collaborative work has already had an impact on the number of placement moves, as they have steadily decreased. We are confident that this level of collaboration is contributing to better outcomes.

The unit will continue to promote placement stability with a goal of minimizing placement moves. The units partner specifically around case consultation about moving children and youth to more restrictive placements, approval of out of state residential placements, and therapeutic foster care placements for children age six and younger. The information gathered will be used to craft services and to provide access to additional supports in efforts to promote placement stability. The unit steadily provides the counties with case consultation and support to ensure placement in therapeutic and out of state residential treatment facilities be placements of last resort. As noted previously, the Department’s service contracts for FOCUS and Continuum of Care have been blended into an Intensive In-Home Services model based on prevention and reunification for youth falling into those categories of need. The narrative has been amended to expand the length of time for service and expanded eligibility to anyone providing care for our children, whether birth, adoptive or traditional foster family home. Training was provided at the 2016 Supervisors Conference promoting appropriate foster care placements and placement stability.

The psychotropic medication and monitoring protocol will provide additional insight, and began in October 2016 in a continued effort to minimize placement moves and reliance on psychotropic medication as a behavioral control. The project began with an introductory training for seven pilot counties, as follows: Montgomery, Autauga, Elmore, Macon, Bullock, Russell, and Lee. The Alabama Psychotropic Medication Review Team consists of a part-time Child Psychiatrist, a Nurse Practitioner, and two Board Certified Behavioral Analysts. The APMRT Team will review monthly medication data provided through a partnership with the Alabama Medicaid Agency; identify young people who are too young to be prescribed psychotropic medications, prescribed too many medications of the same or similar classes and too many medications, per set criteria. They will contact the county office, share their concerns and begin consultation to decrease reliance and use and provide behavioral support as a mechanism to safely reduce use of medications, when appropriate. The addition of the new TIPS foster parent training will provide foster parents with trauma-informed training materials that will offer them additional tools to serve the specific needs of foster youth.

The Office of Foster Care and ILP conducted a study of 25 of young people who were in moderate-level congregate care settings, visiting 16 counties and 15 congregate care facilities. The project began on October 30, 2015 and ended on February 2, 2016. By the project’s completion, 25 young people had been interviewed as to appropriateness of placement. This was done in conjunction with record reviews and discussions with more than 40 service providers and over 50 DHR staff members, supervisors and directors. A standardized list of questions was developed and used by the Office of Foster Care and ILP to facilitate the conversations with youth, providers and DHR staff. There were several trends noted; however, four prominent themes were identified which have a significant impact on Departmental practice and the youth served. Those are: The lack of availability of more appropriate family-like placements; congregate care providers’ struggles related to providing individualized services based on the needs of children referred and served; lack of training for staff and providers to equip them regarding engaging and supporting older youth; and ISP and treatment planning at the facilities being dissimilar in content.

The congregate care study has been expanded to include 53 additional youth: for a total of 78 youth interviewed, as of this writing. The interview has remained consistent and the Office of Quality Child Welfare Practice has joined the Office of Foster Care in conducting the interviews, providing case consultation and processing the data. The trends related to positive permanency are encouraging as 30 youth have stepped down to less restrictive placements, post our initial contacts. There are concerns related to the five youths who have required more restrictive placement. The Office of Foster Care and ILP and the Office of Quality Child Welfare Practice will continue to work jointly to safely facilitate appropriate transitions for these young people. We will continue to monitor the progress of our youth in congregate settings and will expand the process to youth currently in intensive residential placement.
The focus on these issues with regard to this population, and improving outcomes for them, will promote positive partnering with birth families, foster families and vendor/providers, collaborative planning with the ISP Team and realistic goal-setting for the young people with a renewed focus on the importance of living in a family-like setting. Efforts have been expanded regarding training and worker support and consultation, training for our providers and older youth regarding the new Reasonable and Prudent Parenting Standards and other elements of PL 113-183. Workers were informed at the Annual Permanency Conference in February, 2016 about the results of the Congregate Care Study and provided with information regarding the tools to improve outcomes. Foster parents received training regarding the law and new requirements during the annual AFAPA Conference in May, 2016. Children’s Aid Society partners have developed a series of trainings based on the needs identified by young people and the requests of staff and providers. Our Children’s Aid Society ILP Team has provided specific trainings to providers and youth in foster care and those receiving Chafee services in their homes. Regional trainings to staff, providers, GALs, and foster parents commenced in August 2016 along with DREAM Council meetings which focus on youth participation in ISPs, GAL engagement, strategic planning regarding conflict resolutions, development of services and supports to birth, foster and adoptive parents with an emphasis on enhancing and developing community partnerships on the local level.

The State Conflict Resolution Team receives referrals when an issue cannot be resolved at the local level. This Team consists of representatives from the Office of Permanency, County Directors and AFAPA representatives. Some examples of concern might include: problems in communication between line worker and foster parent; a lack of responsiveness to requests; or removal of children without due notice according to policies. This process has specific timeframes given to counties to ensure prompt research and resolution to the issues. The Program Specialist for the Office Foster Care serves as the Family Services liaison to the Committee and assists with recommendations and decision-making through the process. In 2016 there were two cases referred to the CRT process. Revised policy related to the Conflict Resolution Process was submitted to counties via Administrative Record Letter No. 7405 in November 2012. There was only one State CRT conducted in FY2016.

In (approximately) 106 survey ratings completed by county QA committee members in 2017, on a scale of 1-6 (6 being optimal, or positive outcomes), the average rating for Caseworker Visits with Foster Parents, was 5.33, compared to 5.23 in 2016. Visits in-home with the foster parents may also be contributing to placement stability. Workers note positive contacts with foster parents and solicit information, provide service and support option to improve outcomes related to well-being. Foster parents have related positive interactions with county staff resulting in positive outcomes for young people.

MEPA

In compliance with the Multi-Ethnic Placement Act and the Inter-Ethnic Provisions, placement of a child is not to be delayed or denied due to race nor are applicants/resources denied placement based upon race. Placement Specialists are expected to maintain a log in the child’s record identifying families that are considered for a particular child, noting the reason a family is not selected. The In-Office Staffing Team Review process that has been in place for several years allows the placing Specialist to receive input from at least two other peers and a supervisor on the suitability of the potential family to meet the child’s needs and to identify the family’s strengths and needs, prior to an Adoption Staffing. This staffing which includes, at a minimum, the review team members, the child’s worker and the potential resource family’s worker, is used to provide full discussion of the issues that may impact the success of the placement, so that services can be put in place and specific recommendations made to address needs. The adoption placement Specialist staff are seasoned professionals who have been trained on MEPA compliance in their practice. Workshops on transracial placements have been presented at different conferences and meetings over the course of the last five years including the 2014 Permanency Conference held in May of that year. Alabama has seen an increase of transracial placements over the last five years.

**Item 5. Permanency goal for child**

**Purpose of Assessment:**
To determine whether appropriate permanency goals were established for the child in a timely manner.

**Permanency Goal for Child**

The continual assessment of appropriate permanency goals for children in care has positively contributed to the trends toward shorter times spent out of home. Supervisors and workers are closely monitoring goals and making positive placement moves in a timelier manner, and developing and managing concurrent plans, which are leading to more timely permanency achievement. Note trends below which reflect the length of time in continuous foster care (based on the most recent admission to FC). Data is point in time for children in care at the end of the fiscal year and reflects data for the most recent foster care episode:

<table>

**Training and Policy**

The Adoption Policy Manual contains a section on “DHR placements”. The decision to place a child for adoption is considered in various ways. If the goal for a particular child is to be adopted by his or her current foster parent, the policies outline things to consider in determining if it is in the child’s best interest to be adopted by their current foster parent or to have a goal of ANIR (Adoption No Identified Resource) and to thus be referred for recruitment. This decision is made by the child/family service planning team. If the child is not going to be adopted by the current foster parent and thus has a goal of ANIR, they are referred for recruitment. Home studies for both in- and out-of-state families are considered. If the placement Specialist for a particular child/sibling group identifies a potential family, information on the family (home study document) and the child (non-identifying background summary) are reviewed by a state-level adoption staffing team. A team staffing meeting is held, which includes the county/agency worker for both the child/sibling group and the family. Strengths and needs of the potential placement are identified and weighed at length, then a decision regarding how (or if) to move forward is made. After the team staffing meeting, the family’s resource worker and the adoption placement Specialist will provide additional information to the family and a mutual decision is made regarding how to move forward with pre-placement activities. When families could use assistance in this process, they are given a referral to APAC for helpful pre-adoptive services.

The Office of Adoption staff partners with APAC therapists during the matching/staffing process, on an as-needed basis, to better inform families as to what the child’s diagnoses mean, how the behaviors can impact family life, and assist with a plan for managing the behaviors. During the 2016 reporting period, the (then) Program Supervisor responsible for the post-adoption services contract, examined information about placements and disruptions during fiscal years 2014 & 2015.

Of the 13 families that disrupted, nine had no previous foster or adoption experiences; two had previous adoption experience and two had previous foster experiences.

The examination revealed that families prepared & studied through the special needs adoption contract with CAS/APAC experienced disruption at a higher rate than did families prepared/studied by county DHR offices. The families studied and prepared through this contract have no foster care experience. Leadership for the Office of Adoption met with leadership of CAS/APAC in January 2016 to review this information and to hear ideas from CAS/APAC to provide extra levels of support and training to the families prepared and studied by their agency. CAS/APAC has submitted an amendment (narrative and budget) to their post-adoption contract (currently pending approval by the Resource Management Division). The proposal included assigning a Family Advocate to all “Waiting Families” and then a “Family Coach” (Counselor) to all families once they are matched. Individual plans will be developed for each family with services customized for the parents as well as
birth children that may already be in the home. It was hoped that this extra support would reduce the number of disruptions. An examination of the placements made in FY 2016 reveals that disruptions (for state-placed adoptions) are down overall. The rate for families trained and studied by APAC is still about 10% higher than those trained and studied by county DHR staff. We are actively working to research the reason for this discrepancy.

The Office partners with OQCWP Behavioral Analysts, on an as-needed basis, to observe children and work with families toward a behavioral management plan from the beginning of pre-placement visits. These partnerships assist families in making informed decisions that are best for the children and the prospective families.

Alabama continues to review and, as needed, revise policies that aid in expediting permanency for children waiting for an adoptive resource. This includes recruitment, home approval and matching policies. In some cases, specific timeframes are waived to aid in expediting adoption for children with special needs. The legal process of adoption in Alabama includes the Adoptive Home Placement Agreement being entered into between the adoptive resource and the Department. The Consent to Adopt is usually issued in Foster Parent Adoptions immediately, while in non-foster parent adoptions there is a three-month post placement supervision period before the Consent to Adopt is given. The Petition to Adopt can then be filed in the Probate Court, along with a report from the County Department. The Court issues an Interlocutory Order pending the post placement report and a dispositional hearing is held and the final decree issued.

During FY 2011, the approval policies for foster family homes were released and later revised to provide for dual approval of foster family homes/adoptive resources. The intention is to expedite permanency through adoption by current foster parents so that foster family studies no longer have to be converted to adoption studies in order for adoption by foster parents to move forward.

### Children in Foster Care < Age Five: Reducing Length of Stay & Providing Developmentally Appropriate Services

In FY2016, 1527 children under the age of five entered the foster care system. This represents a slight decline from the previous fiscal year in which 1541 children less than 5 years old entered foster care. Although the number of children entering care decreased, the primary entry reason (parental substance abuse) increased from 38.5% in FY2015. Foster children in the under-five population spent an average of 11.95 months in foster care in FY2014. That number slightly decreased to 11.15 in FY2015. We believe that, through our ongoing partnership with the Administrative Office of Courts (AOC); the expansion of Family Drug Courts around the State; the development of a trauma assessment tool; the continued development of the Psychotropic Medication Oversight and Monitoring Project through our partnership with Auburn University; and our recent changes to the requirements related to our FOCUS and In-Home Intensive service model should result in a decrease in foster care numbers.

The Office of Foster Care has a 15 member community partner stakeholder group to address the specialized needs of foster children under the age of five. This group held its initial meeting on May 13, 2016 and continues to meet monthly to address the complex needs and trends of this population. The group was divided into two teams: services and research. The group’s overall purpose is to work together with the common purpose of helping children and families reunify in a timely manner. The group is comprised of a pediatrician, child psychiatrist, licensed professional counselors, traditional foster parents, Specialists, early learning center director and foster home providers both traditional and therapeutic. A drug court Judge was added to the team based on the State’s current demographics related to this special population of children in foster care. The group’s monthly meetings include dialogue to establish and discuss desired outcomes, review current research and data regarding the needs of foster children zero to five and offer procedural state-wide improvements. The stakeholder group has provided feedback to the State Office liaison regarding assessment tools and suggested protocols to aid in reducing the length of time children under five are in foster care. An in-house assessment tool has been developed to look more closely at how the department can strengthen its efforts in developing a more trauma-informed System of Care. The Stakeholder group has also suggested a pilot research project to assess the current services provided to families with youth five and younger to determine what service would yield expeditious permanency. The Stakeholder group made the following proposal:

The DHR treatment group would include three sets of parents whose children were removed during approximately the same quarter. Group (1) would include a child placed in a traditional foster home, Group (2) would include a child placed in
a therapeutic foster family home and Group (3) a child whose parent has voluntarily signed up to be a part of a drug court program.

All available family history from the department will be reviewed by the worker. The worker would use a detailed and thorough parent history form that will be provided by the Office of Foster care. This tool would help with better case planning and more appropriate individualized services for the family. The worker and current traditional foster parents would go through TIPS training together. The Worker, Foster Parents, and Biological parents would then go through a typical development training course. Tabitha Perry; a stakeholder from Early Intervention-would conduct the training which would be about 1.5 hours long to discuss typical vs atypical development.

The assigned worker would conduct ISP meetings every three months instead of every six months to strengthen case planning, build rapport with family, and have better quality planning within the twelve months.

The outcomes that will be assessed in this treatment group will help determine which service providers move our under five youth to permanency in a more timely manner. It would also help identify which of our current service providers are offering evidenced based outcomes such as: timeline the child is in care, total number of placement moves while in care and percentage of parents’ involvement in ISP meetings, medical appointments, visits and developmental trainings.

It is the group’s continued goal to decrease the number of young children entering the foster care system by enhancing current services and supports, developing additional services and supports based on current evidence-based practices and limiting the time between foster care entry and exit to positive permanency.

Family Services Office of Foster Care developed a 15-question placement request tool for counties to utilize when seeking therapeutic foster care services for children under five. This tool describes what children are eligible for this level of care as well as ensures they have a Diagnostic and Statistical Manual V-diagnosed mental illness or are identified by a mental health professional as having at least moderate emotional and /or behavioral problems and is in need of treatment. The office of foster care is responsible for reviewing these requests and providing approval when the above therapeutic interventions are warranted. This office provides a written approval to each county staff with a request for a thirty day follow-up. The office of foster care maintains a monthly spreadsheet of the number of requests granted and denied. For FY 2016, 30 youth under age 5 were approved for therapeutic foster care. This placement tool has been helpful when assisting staff with resources such as an in-home Specialist observation, in-home wrap or crisis intervention and respite care.

Family Services has developed partnerships with specific state level organizations who serve this particular population, such as: The Alabama Department of Child Abuse and Neglect Prevention, Early Intervention through the Department of Rehabilitative Services, CWCI Team members, and work is underway to strengthen our partnership with the State Department of Education and the Office of Child Care Services. The Family Services Division is also working to determine the best mechanism to track these efforts by its review of FACTS data and possibly by information received in QA reviews. Family Services addressed the under-age five population in an Administrative Record letter distributed to the counties in February, 2013. The Quality Assurance process reviews the under-age five group during QSR debriefs to note psychotropic medication usage and monitoring. The Family Services Division will continue to frame its services to meet the needs of the under-age five populations by ongoing review of ISP’s to ensure permanency is obtained timely. The Division will review data more frequently (quarterly) to note any significant changes in the under-age five group. Family Services will continue to coordinate resources and make referrals to the following Alabama agencies that focus on the under-age five children, such as:

- Head Start Child Development and Early Learning
- Women, Infants and Children, WIC (supplemental nutrition program for pregnant women and their young children)
- Department of Child Abuse and Neglect Prevention/Children’s Trust Fund- Programs: Cribs for Kids, Mentoring New Moms, and Jefferson County Pilot Project to Prevent Child Maltreatment
- Early Intervention (reviews developmental needs by utilizing a checklist for children from birth to age five)
- Wendy’s Wonderful Kids (recruits for an appropriate match for foster care children under age five)
- Alabama School Readiness Alliance (receives appropriations for pre-K programs);
- Individual Service Plans
- Behavioral Analysts supports and assessments
- Protective Service Daycare
- Information and Referrals

Family Services and counties routinely work in partnership with the organizations/agencies listed above. These ongoing key services will be used to assist the under-age five group and our Agency will continue to keep that population’s individual needs and concerns at the forefront as we address the guidelines in the public law.
Goals for 2015-2019 (Children Under the Age of Five)
Implement policy for the age group under five to specifically address the timeliness of permanency and the resources available to assist this population.

- Continue to assess, with the Office of Child Welfare Training, training needs for new/current staff and/or resource parents in working with the under-age five population.
- Beginning with FY 2015, analyze data quarterly from FACTS, QSR, and AFCARS to seek information on and develop/implement improvement plans for the five year and under age group so comparisons by race, length of time in care and timeliness of permanency can be evaluated to note differences when compared to overall foster care youth.
- Utilize data gathered by the Services to Foster Youth Under Five Stakeholder Group to inform and develop policy and practice strategies.

Permanency Roundtables
The Permanency Roundtable Consultation Model was expanded statewide in FY2014. All 67 counties have been trained with regard to using this model to monitor and support positive permanency outcomes. Though the county offices were encouraged to use the consultation model, the continued implementation is purely voluntary. There is a statewide initiative through the Division of Field Administration that also conducts permanency reviews.

Item 6. Achieving Reunification, Guardianship, Adoption or OPPLA

Purpose of Assessment:
To determine whether concerted efforts were made, or are being made, during the period under review to achieve reunification, guardianship, adoption, or other planned permanent living arrangement.

**2018 APSR ASSESSMENT**

The QSR data used for reporting progress in this area indicates the percentage of cases reviewed by State QA where working toward achieving the stated permanency goal is reported as a strength or for APPLA cases, if the permanency goal can be considered achieved. Achievement of the goal of APPLA is viewed as (1) court-approved and (2) the youth is living in what can be considered a permanent living arrangement, preferably with a signed APPLA agreement in place. Generally that occurs with youth who are in foster homes with foster parents verbalizing their commitment to the youth. This is not rated a strength for youth in residential treatment or any facility that is not planned or intended to be permanent. There was a decrease in the state’s foster care population 2011-2013, with noticeable improvements in completed adoptions. The number increased slightly at the end of FY 2014, and the data indicates that nearly 5000 children were in care at the end of each month in FY2015. With a shift in policy related to positive permanency outcomes, the Office of Foster Care and ILP and the Office of Adoption have refocused efforts related to permanency. The Division is making every effort to encourage, support and train child welfare staff regarding the importance of being trauma-informed and permanency-focused from the point of first contact with children, youth and their families. The Department has launched a new provider training, detailed in another section of the report, which is based on a trauma model throughout the curriculum. There is also new basic Child Welfare worker training, Striving Toward Excellent Practice (STEP) being piloted. There are plans to continue to provide training and support to our staff also.

Permanency trainings, direct consultation, judicial summits, expanded drug courts, and re-education related to kinship guardianship have had a positive impact with regard to shorter times spent in foster care and a reduction in placement disruption/change and re-entries into foster care. The Office of Foster Care and ILP, the Office of Adoption and the Office of Quality Child Welfare Practice have partnered with the Office of Resource Management in a focused effort to improve how children experience foster care in the state, via scheduled meetings, cooperative consultation and individualized service planning with counties to promote permanency and stability while in foster care. There is a renewed focus on
congregate care and a safe and thoughtful transition for those youth which has been integral in the success of our congregate study. With changes to Federal law related to APPLA, staff have been provided coordinated consultation with the Office of Foster Care and the Office of Quality, specific trainings at our Annual Permanency Conference, Annual Supervisor’s Conferences, regional Judicial Summits, Regional ILP trainings and Adoption Market Segmentation Trainings to relentlessly pursue permanency for all children in foster care. This has resulted in the number of young people in foster care for more than 72 months or more going from a high of 480 at the end of FY 2014 to 346 in FY2016, a 28% decrease in the number of placements while in foster care and an increase in the number of young people experiencing positive permanency outcomes.

There are currently 13 drug courts around the state. The continued expansion of our drug courts to serve the entire state, the continuing work of the Alabama Psychotropic Medication Review Team, specialized recruitment for families to serve our young people with autism, severe mental health issues, intellectual disabilities and complex medical issues and older youth will continue to be the focus of our work.

### Reunification, Guardianship, and Placement with Relatives

Alabama continues to support foster, adoptive and, most recently, kinship caregivers, especially through collaboration with the Alabama Foster and Adoptive Parent Association (AFAPA). In FY2010, Alabama passed Kinship Guardianship Legislation which provides for certain children to be eligible for subsidy assistance in cases where the court ordered kinship guardianship. Policy was developed and became effective October 2010. At the 2016 Child Welfare Permanency Conference, during a town hall formatted section, a foster care worker from Madison County presented strategies implemented by this county in the area of Kinship Guardianship. Madison County has the largest number of Kinship Guardianship families receiving GAP. The KIN002 report gives information about Active Kinship Guardianship Cases. The initial data on number of providers and children available is dated April 1, 2013. At that time, GAP payments were provided to 28 providers for 60 children. The most recent report, dated June 1, 2016, indicates growth in the program as 79 providers are now receiving GAP for 182 children. Continuous training will be offered by Family Services Division or AFAPA as needed to educate foster parents as well as relatives on Kinship Guardianship. The Offices of Foster Care and Child Welfare Policy Specialists continue to answer questions and consult with counties as questions arise.

As of April 1, 2017, there are 207 young people receiving kinship guardianship assistance. This represents a 16% increase in the number of young people and their families receiving the assistance from the prior program year. The current barriers appear to be lack of knowledge regarding what is required of kin to become kinship guardians: the need for kin to meet the exact standards of traditional providers; the requirement for at least one parent to approve the arrangement; and the continued use of informal relative placement as a method of keeping children out of foster care. Kinship training was provided to staff who attended the Annual Permanency Conference and at the Fall Judicial Summit in October 2016. The Department is reviewing options regarding the standards required. The Department will continue to provide consultation to the counties regarding removing barriers to Kinship. Training specifically related to Kinship was presented at the Annual Judicial Summit in September 2016. The Department has engaged Casey Family Programs for assistance in improving our Kinship outcomes. There are currently 257 young people eligible with 216 currently placed with their relatives. We will be concentrating our efforts in our work with Casey to remove barriers for these families to determine if Kinship Guardianship is an appropriate permanency plan for these young people.

### Services to support Reunification/Relative Care

**See Also Information on FOCUS / IIHS Programs, Under Item 2**

The Family Outcome-Centered Unification Services (FOCUS) Programs deliver intensive family preservation services and re-unification services across the state.

### Services to support Kinship Care

With the passage of Kinship Guardianship legislation a few years ago, the Department now provides Guardianship Assistance Payments (GAP) to families who are awarded kinship guardianship of children in foster care. To be eligible for GAP, the family must become a licensed related foster family home and the children must be IV-E eligible. The Out of Home Care policies and procedures manual was revised to include policies on the permanency goal of kinship guardianship and outlines the legal and payment assistance processes. Several years ago the Alabama Foster and Adoptive Parent Association decided to include relative caregivers (including those with Kinship Guardianship) as members of the association. This allows them to get the same services and supports through the Association as do foster and adoptive parents.

### Services to support OPPLA (APPLA)

**See Also Information on CFCiP, Serving Youth of Various Ages and Stages of Achieving Independence.**

Another Planned Permanent Living Arrangement is typically used as a permanency plan for youth who are older than 16, per PL113-183, who cannot be safely returned to their biological families and do not wish to be adopted. The primary goal for this group of young people is to develop systems of support and improve skills to ensure successful transitions, with
additional emphasis for both the young people and the professionals who serve them to focus on long-term connections to birth families and formal and informal networks of support. County child welfare staff, foster parents, and vendor providers have been trained to encourage the development of natural mentor relationships, improve social worker-child relationships, and keep safe connections with birth families and siblings as strategies to improve positive permanency outcomes. With the additional instructions regarding PL113-183, counties have been trained in ILP Regional trainings conducted in FY2015, 2016 and 2017, Supervisors and Permanency Conferences in FY 2015, FY2016 and FY2017. These have focused on continuing and relentless efforts to locate family and non-relative permanent connections. Continued support related to “Unpacking the No” regarding young people who have expressed they are not interested in being adopted will be shared at the Annual Summer ILP Youth Camps. Specific training regarding this issue of older youth permanency was addressed at the 2016 Judicial Summit. Consultation with counties regarding difficult permanency issues began in earnest following the enactment of PL-113. Counties are encouraged to review permanency often and solicit the input of older, age appropriate youth at every opportunity. Increased focus on youth centered planning, services and supports are goals of both the ILP Program and the 2016 DREAM Council Leaders

Continued support of their educational and vocational goals will equip our young people to provide for themselves financially through education and support regarding their mental health needs, housing services and physical health services. Consultation regarding real experiences for these young people will allow them to demonstrate their ability to be age-appropriately independent. The ILP Specialists have specific county assignments and that affords the ILP Program opportunities to provide specific training for staff, supervisors, vendor/providers and stakeholders regarding the extraordinary needs these young people have to be connected to their communities and to caring, positive adults. These young people receive group and individualized supportive services in placement settings which vary from their own apartments to traditional foster homes. Emphasis is placed on the monitoring and support of the individual goals of these youth. There are a number of available and important services and supports for APPLA Youth in Alabama. Permanency review/planning processes in counties help to identify permanent connections. Annual Independent Living Conferences which provides ILP training and education around ETV, NYTD, basic living skills, healthcare, Medicaid, preparing for college and leadership. Monthly DREAM Council meetings are held in a different county each month, providing peer training to youth across the state. Local ILP meetings held in each county include trainings based on the needs of the youth from and placed in the counties. Those services also include field trips to local Health Departments, college tours and other opportunities. Participation in the Annual Daniel Memorial Conferences gives APPLA Youth an opportunity to receive training from nationally recognized experts and to meet and network with like-minded youth. The Alabama Reach Program provides services and supports to youth in college at the University of Alabama, Shelton State Community College and Stillman College in the form of monthly meetings, service projects, and assistance with housing, food and gas. The students also receive support regarding their educational goals and access to host families. The National Social Work Enrichment Program (NSEP) offers rising juniors and seniors in high school an opportunity to have a six-week, on-campus college experience. NSEP was held at Alabama State University and the University of Alabama in 2016. There are 31 participants for 2017, and they are all at the University of Alabama. Children’s Aid Society employs two former foster youth to design and provide trainings across the state to youth, staff, community providers and community stakeholders.

**Every Student Success Act (ESSA)**

The Department continues to collaborate with the State Department of Education with the recent Federal reauthorization of the McKinney- Vento Homeless Assistance Act and the Every Student Succeeds Act (ESSA), replacing No Child Left Behind. The Department has revised the Education Policy in Out of Home policy. Information regarding working agreements and memorandums of understanding have been provided to all county directors in order to facilitate productive partnerships with school districts across the State. ESSA training was provided to staff attending the Annual Permanency Conference in April 2017. The Department of Education was provided a list all DHR liaisons for ESSA collaborations and all contacts are available on both Departments’ websites. Training material was developed and disseminated in partnership with the Department of Education. The Office of Foster Care Program Supervisor also co-trained at two Homeless Liaison/Foster Care training sessions provided by the Department of Education fall 2017. ESSA information was also shared at the Reasonable and Prudent Parenting Training sessions held throughout the state. There will also be ongoing trainings provided during summer, 2017, at Annual Supervisors Conferences, the Birmingham City Schools and at the Title I Summit.
Though our foster care outcomes appear to be improving, the number of children in out of home care is steadily increasing. As indicated in the chart above, the number of children in out of home care is continuing to increase. The impact of multigenerational drug use has dramatic impact on our out of home population. We have a much higher population which is having a serious impact on our ability to serve families and children. We will continue to pursue additional preventive/supportive services to biological families, focusing on the drug court model and seeking out innovations related to treating opioid addicted family systems and increase the use of kin care in order to safely reduce the number of children in out of home care.

Since October 1, 2008, 4,084 children have found permanency through adoption from Alabama’s foster care system. These placements include youth from institutions and congregate care facilities. Although the overall number of children over 14 placed for adoption has declined in the last three fiscal years, the Department has been successfully placing older children and children with more significant special needs.

Successes include a 20-year-old with Cerebral Palsy, a 19-year-old African American male who had lived in group homes since 2005 and children with severe developmental disabilities. Since FY 2015, we have placed multiple children for adoption who have previously living in skilled nursing facilities the majority of their lives. Services and supports which were accessed for families through the Alabama Community Transition Waiver have made these placements possible. As a Wendy’s Wonderful Kids grantee, we have embraced the concept of “Unadoptable is Unacceptable”. At the 2017 Permanency Conference, leadership of the Office of Adoption and the child-specific recruiter from one of our contract agencies did a presentation on creative means for achieving permanency through adoption. The presentation included photos and information on several of the children successfully placed through the Wendy’s Wonderful Kids Project at the APAC Pre-Adoption Services Child-specific Recruitment Project.
See the chart below for statistical information on children 14 and older who realized finalized adoptions.

In FY 2007, the median length of stay from entry into care to final adoption was 40.3 months. As of December 2013 the median length has decreased for FY 13 to 32.08 months. The Median Months from Entry to Care to Adoption for FY 2016 was 29.0 months. It should be noted that Alabama had an increase in older youth adoptions which may impact the data reported as these youth tend to have been receiving foster care services for a longer period of time. It has been noted in the past that the greatest delays are between the time of entry into care and TPR and from TPR to actual placement.

**Termination of Parental Rights**

The State’s SACWIS system (FACTS) is interfaced with the Administrative Office of Courts, which aids in accessing court information that is significant as TPR is pursued in cases. As a result of the Department’s collaboration with the Court system, training and emphasis has been provided to judges and court personnel on the importance of TPR trials being given priority over other nonjury trials pursuant to Rule 16(D), Alabama Rules of Judicial Administration. See also Alabama Code Section 12-15-320 (a). In 2013 “The Best Interests of the Child Act,” Alabama Act 2013-157 was signed into law by the Governor effective April 25, 2013. This legislation requires the Department to file a petition to terminate parental rights of a parent(s) of a child who has been in foster care for 12 of the last 22 months instead of the current 15 out of 22 months in statute unless there is a compelling reason(s) identified. The legislation also gives judges a maximum of 90 days to hear a termination of parental rights petition case once service of process has been perfected and final TPR orders must be entered within 30 days of completion the trial. Effective April 8, 2014, Act 2014-350 amended Alabama Code 1975, § 12-15-114 to provide that the juvenile court shall have exclusive, original jurisdiction over all actions for the termination of parental rights.

**Inter-jurisdictional Placements**

Placements are made across county lines within the state as well as inter-jurisdictional placements through Interstate Compact on the Placement of Children (ICPC). Adoption studies on out-of-state families continue to be received for families who see our children on www.AdoptUSKids.org, www.heartgalleryalabama.com, www.adooption.com and www.dhr.alabama.gov sites, resulting in a number of out-of-state placements. The Office of Adoption reported that in terms of state-placed adoptions (adoptions done by consultants in the Office of Adoption, which may not include all out-of-state adoptions), of the 55 total placements made in FY 16, 11 of them (20%) were with out-of-state families. As of 05/31/17, in FY 17, there have been a total of 39 state-placed adoptions, with 15 of them (38%) being with out-of-state families.

With increased recruitment efforts and matching to Alabama families, a higher percentage of placements are being made in the state as well. When a child is potentially matched with an out-of-state family, placements are made through the public or private adoption agency working with the family. When a resource is identified, in an effort to facilitate a successful placement, the Specialist and the child’s planning team determine the number of pre-placement visits necessary for the child and the out-of-state resource to feel comfortable in making the transition to a successful placement. If the visits go well, a placement date is scheduled on which the Specialist travels with the child to make the placement. The Office of Adoption has increased efforts to identify and develop in-state resources for placement of waiting children to assist in expediting permanency for these children.
Children / Services for Children Adopted from Other Countries (Inter-Country Adoptions)

In terms of inter-country adoptions, the Department tracks and reports only those children adopted from other countries who enter state custody. Alabama has two private licensed child placing agencies that have received Hague accreditation status. These agencies provide adoption services in Inter-country adoption cases involving the United States and Hague convention countries. The Inter-country Adoption Act (ICAA) of 2000 (P.L. 106-279) was signed into law October 6, 2000. As of June 1, 2017, one child adopted from another country had entered foster care in FY 2017.

APAC’s post-adoption services, including counseling and Adoptive Family Groups (AFG’s) are open to all adoptive families. This includes families who have adopted from the foster care system as well as families that have adopted through private means. Families that have adopted domestically and internationally can receive services from APAC. The only restriction on APAC’s services is related to the post-adoption camp. Families who adopted children from private means may only participate in camp once the applications (and waiting list) for children adopted through DHR have been served.

Services to support Adoption (See also Post Adoption Service & Supports, located under PERMANENCY OUTCOMES 1 & 2 - STAKEHOLDER COLLABORATION)

Currently, adoption services are provided by the Department of Human Resources through the Office of Adoption on behalf of children in permanent custody who cannot return to their biological family and are in need of a permanent adoptive family. These services include: recruitment and preparation of prospective adoptive families, placement of children, supervision of children in placement and other post-placement services, legal services, administering the state and Federal adoption subsidy programs, clearing Petitions to Adopt and acknowledging the receipt of the petition and documenting the findings in an acknowledgment letter to the court as mandated by the Adoption Code; providing public information on adoption, administering the Interstate Compact on Adoption and Medical Assistance (ICAMA), and maintaining the Putative Father Registry. Adoption services are provided to adult adoptees requesting background information. However, as this update is being prepared, the task of adult adoptee services is not assigned. Adoption services also consist of providing...
supervision of the post adoption services program and providing training forums for building staff capacity and understanding. The Manager of the Office of Adoption is currently working with unit staff to revise the method by which higher rates of subsidy are negotiated and approved. The Family Service Division Deputy Director with responsibility for supervision of the Office of Adoption obtained clarification from the Children’s Bureau Regional Office regarding paying higher rates of adoption subsidy based on what a child was receiving in board payment or what the child would be eligible for if they remained in foster care. Based on this guidance, children may now be paid a higher therapeutic rate of adoption assistance, if they were receiving traditional foster care, as long as they met the eligibility criteria for TFC.

**Putative Father Registry**

The Office of Adoption continues to maintain the Putative Father Registry. When an adoption petition is received, names are checked against the Putative Father Registry and the court is notified if a putative or adjudicated father not included on the petition is listed. By law, the Department should receive a copy of all petitions filed in the state and respond within 30 days as to whether there is information that needs to be shared with the court. The Office of Adoption has developed and disseminated via LETS a power point presentation for county staff that provides information on the purpose and utilization of the Putative Father Registry. This training is mandatory for all new Family Services workers. The presentation is used during conferences and the Department has produced a brochure on the Putative Father Registry that is believed to be family friendly and readable for the community and has been distributed to local offices and agencies. The DHR website has a link to Putative Father Brochure and all forms associated with registering so the public can easily access the information and start the registration process.

Putative Father Registry activity is among the Specialist activities now being tracked. Below is information about the registrations and searches conducted of this registry, thus far in FY 2017

**Adult Adoptees**

Adult adoptees are served each year by providing non-identifying background information on their birth families and the reasons for their placement. Until May 2016, a Program Specialist/permanency Specialist was assigned to serve and respond to inquiries from adult adoptees. This Program Specialist transferred to the Resource Management Division, and these tasks were assigned to the Program Specialists with responsibility for state-placed adoptions. Searches for birth parents are initiated if the Department is appointed as an intermediary by the court or if birth parents have previously written the Department and given consent to be contacted. In cases where siblings were placed for adoption by the Department in separate adoptive homes, a search for siblings is initiated at the adoptee’s request without a court referral and a reunion facilitated if a sibling is located. A court order is required for birth parent searches as a reunion search is not a mandated service. The ability of the Department to assist with searches has decreased with fewer to no free Internet search sites. At the same time, as older child adoptions are being completed, the adult adoptees are able to search the Internet for themselves as they remember their birth family’s identifying information.

Numbers of adult adoptees served are tracked manually by the Specialist providing the service. In FY 2015, 57 requests were received from adult adoptees. In FY 2016, requests for information were received from 15 adult adoptees. Through March 31, 2017 nine requests have been received. Since 2000, adult adoptees born in the state of Alabama are permitted to obtain a non-certified copy of their original birth certificate through the State Department of Public Health. Birth parents are also permitted to complete a Contact Preference Form to be filed with the original birth certificate that can be forwarded to an adoptee if the original certificate is requested. (This form can be completed years after the adoptee’s birth). The Department often refers both adoptees and birth parents to the Department of Public Health to utilize this service.

2018 APSR ASSESSMENT
Attention to sibling placement and connections has been a focus of the Office of QCWP; Foster Care/ILP; Adoptions; Training, and Policy for years. The curriculum for formal training, the policy that supports practice, and best practice in the field focus on the fundamental needs of children to be with, nearby, or connected to their siblings. When QSR or other review activities occur, counties are given feedback about placements, and data regarding sibling placements is discussed/monitored at the supervisory level in the field as well. OQCWP has continued in 2014/2015 to support counties through record reviews, and sibling placement is one of the review items. Feedback is then provided directly to the county as needed.

Managers from the Office of Foster Care and Adoption have become increasingly concerned about the number of siblings that appear to be separated in cases where technical assistance or consultation is provided to counties by the State DHR office. During on-site reviews by State Quality Assurance, appropriateness of separation is measured. It was our desire to have a better understanding of the actual number of sibling groups that are separated. The Office of Data Analysis was asked to pull together this information through a special query. A report of the children in care was sorted by case number in an effort to identify the sibling groups. The sibling group information was then sorted by provider numbers so that we could tell which groups were together. The chart below provides this information:

<table>
<thead>
<tr>
<th>REPORTING PERIOD</th>
<th>TOTAL NUMBER OF SIBLING GROUPS</th>
<th>TOTAL NUMBER OF GROUPS PLACED TOGETHER</th>
<th>PERCENTAGE OF GROUPS PLACED TOGETHER</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY 2016</td>
<td>1,272</td>
<td>597</td>
<td>47%</td>
</tr>
<tr>
<td>10/1/2016 – 03/31/2017</td>
<td>1,312</td>
<td>630</td>
<td>48%</td>
</tr>
</tbody>
</table>

This information is exactly consistent with the data demonstrated in the QSRs conducted during FY2016, which noted that 47.3% of the young people in care were separated from their sibling in foster care. A new initiative is in place to partially address the issue of sibling connection. CAMP HOPE is an outreach program of the Kids to Love Foundation a 501(c)(3) nonprofit organization. Camp Hope Alabama (CHA) is dedicated to providing a haven for children, reuniting siblings who are separated in foster homes and educating the general population about the foster care system and the needs of youth in foster care. Camp Hope is a weekend camp that will give foster children a “home” atmosphere filled with fun activities, but mostly an opportunity to build and maintain their sibling bond. Information about this program can be found at [http://www.kidstolove.org/camp-hope-alabama](http://www.kidstolove.org/camp-hope-alabama). In FY 2016 110 children were served by CAMP HOPE. Specialists will continue to assess reasons for separations in an attempt to reduce them overall.

Item 8. Visiting with Parents and Siblings in Foster Care

Purpose of Assessment:
To determine whether, during the period under review, concerted efforts were made to ensure that visitation between a child in foster care and his or her mother, father, and siblings is of sufficient frequency and quality to promote continuity in the child’s relationship with these close family members.
In addition to the strategies and actions in place as described above in terms of best practice, Judicial or Administrative reviews occur to assess visitation. During the administrative review, progress is evaluated to ensure that necessary services are being provided to the child and natural family, and a treatment plan, including visitation, is formulated with accompanying time frame.

Consistent parental visitation is a key component to safely and timely returning children to their parents care and per ASFA guidelines. Visitation plans are developed at each family’s ISP meeting. Visitation is increased or decreased based on family participation, progress and the continual assessment of child safety. The Camp Hope also facilitates sibling visitation. The Department works closely with foster parents and child placing agencies to encourage creative planning related to parental and sibling visitation. Workers have been provided training at the most recent Permanency Conference trainings to facilitate parent’s visitation with their children in group home settings. Young people are encouraged to maintain contact with their siblings, when they are separated, using social media and Skype, when it is available. The Quality Service Review data notes 5 or 6 rating in 47% of the cases reviewed in FY 2016. There are no additional reliable quantitative data elements available at this time related to this item. The Department will continue to encourage the use of community resources, therapeutic visitation, Camp Hope, case aides and volunteers to support and promote improvements regarding maintaining family connections.

Solicited Input – Surveys
In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for the Visits between Children & Families, was 5.12 (cf to 2016 - 5.0).

Item 9. Preserving connections

Purpose of Assessment
To determine whether, during the period under review, concerted efforts were made to maintain the child’s connections to his or her neighborhood, community, faith, extended family, Tribe, school, and friends.

2018 APSR ASSESSMENT
Alabama has in place a “Foster Parent Bill of Rights” as well as delineated Birth Family Rights which are shared during Individualized Service Planning meetings and at other points during casework with families. Connections are a major part of these rights, and reviews to assess the preservation of connections have been conducted by the OQCWP; Permanency Roundtables for APPLA and other teens occurred in 2013 and 2014, then some follow-up with counties to monitor how well those established connections have lasted. Preserving family connection for our youth in foster care has been a focus of training at the annual Permanency, Supervisors and ILP conferences. Staff has been provided training regarding using volunteers, community partners, therapeutic visitation and intensive in-home services to promote and strengthen family connections. In the QSRs conducted during the fiscal year, Maintaining Family Connections, was noted as a strength, receiving a 5 or 6 rating in 71% if the cases reviewed.
**Item 10. Relative placement**

**Purpose of Assessment:**
To determine whether, during the period under review, concerted efforts were made to place the child with relatives when appropriate.

<table>
<thead>
<tr>
<th>QA Baseline: 81%</th>

<td></td>
</tr>
<tr>
<td><strong>Total</strong>: 84%</td>
<td></td>
</tr>
</tbody>
</table>

**2018 APSR ASSESSMENT**

1,292 children exited foster care to placement with relatives during the reporting period. That number represents 37% of the young people discharged for the fiscal year. It also represents a steady increase in the number of children exiting to relative care over that past three fiscal years. In FY2014 31% exited foster care to relative and 34% in 2015. Staff and supervisors encourage relative placements for children at the time of home removal and along with the Courts work to solicit relative placement information prior and subsequent to home removal. With a renewed focus on benefits of kinship guardianship, the Department will continue to improve this outcome area.

**The KinShare Program (TANF)**

This kinship care program provides services to certain vulnerable families who are caring for related children other than their own in order to facilitate, maintain, or stabilize the child’s living arrangement with the ultimate goal of reducing the need for the placement of children in foster care. Because of the nature of the program, services are specific and short term and are not designed to provide long-term, routine assistance.

**Kinship Guardianship**

The Kinship Guardianship program has been in place since the legislation passed in 2010. The program pays Kinship Guardianship assistance payments to relatives who become approved as a related foster family home (meeting the same criteria as unrelated foster families), once the IV-E eligible child has been in the home for a minimum of six months. Kinship Guardians must also name a successor guardian so that in the event the kinship guardian is no longer able to meet the need of the child, the child does not have to re-enter foster care.

**Reporting Period**

</tbody>
</table>

*point-in-time, not cumulative for the entire reporting period.

**Item 11. Relationship of child in care with parents**

Dramatically Increasing the use of Kinship-Guardianship as a permanency goal has been discussed with the Three Branch Committee and is a statewide goal through the Court Improvement Program as well. Alabama is currently researching the reasons for the low numbers of Kinship, and may be in a position to have new eligibility criteria in place depending on findings.

As noted above parental involvement is key to safely returning children to their parents timely. Parents are encouraged to attend medical and school meetings regarding their children in care. ISP meetings denote regular parental visitation. The number of children safely returned to parents has declined from the previous fiscal year; 40% of young people were able to safely return to their parent(s) in FY2015, that number slightly declined to 39% in FY2016. *Family Progress Towards Independence* also reflected a 40% strength rating in the Quality Service reviews conducted. We will continue to monitor this outcome and address any barriers noted related to timely reunification.
Purpose of Assessment:
To determine whether, during the period under review, concerted efforts were made to promote, support, and/or maintain positive relationships between the child in foster care and his or her mother and father or other primary caregiver(s) from whom the child had been removed through activities other than visitation.

2018 APSR ASSESSMENT

Alabama Fatherhood Initiative
The foundation of the Alabama Fatherhood Initiative (AFI) has over six projects statewide that are funded through a partnership with the Family Assistance and Child Support Divisions of DHR and the Alabama Department of Child Abuse and Neglect Prevention/The Children’s Trust Fund that provide a variety of services to noncustodial fathers. The AFI encompasses these groups and others to form a network of public, private, non-profit, and faith-based organizations that work together to help non-custodial parents (mostly fathers), develop positive relationships with their children and to enhance their ability to support their children by providing counseling, education, and employment opportunities.

ASSESSMENT – PERMANENCY OUTCOME 2

<table>
<thead>
<tr>
<th>STRENGTHS</th>
<th>CHALLENGES</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Permanency roundtables have been introduced and trained in all 67 counties.</td>
<td>1. Although the number of caseworker visits with children in the home is within the national standard, we are uncertain of the quality of those visits.</td>
</tr>
<tr>
<td>2. Kinship-Guardianship legislation is now in effect. The number of children and providers receiving kinship guardianship assistance has increased annually. Facilitating an even greater increase is being explored with assistance from the Court Improvement Program and Casey Family Programs.</td>
<td>2. We are not currently tracking caseworker visits with parents/family.</td>
</tr>
<tr>
<td>3. Training has been provided at Permanency Conferences, Supervisory Conferences, Judicial Summits, County Director Forums and the Education/Court/Child Welfare Summit.</td>
<td>3. Permanency round tables for older youth did not include participation on the part of the young person. We need training an opportunities for youth to participate in youth-centered roundtables.</td>
</tr>
<tr>
<td>4. See the chart below that provides data currently available on caseworker visits.</td>
<td>4. Counties continue to underuse the permanency goal of Kinship-Guardianship.</td>
</tr>
<tr>
<td>5. When children on the Adoption No Identified Resource (ANIR) waiting list are part of the Wendy’s Wonderful Kids or other Child-specific recruitment, and a part of separated sibling groups, the recruiters focus efforts on visits and connections between sibs as an assessment and recruitment strategy.</td>
<td>5. When it is in the best interest of siblings to be separated, the Agency needs to continually assess the need for on-going separation.</td>
</tr>
<tr>
<td>6. When children on the ANIR waiting list are part of a sibling group, adoption planning and placement efforts focus on reuniting these children in adoptive placements. There have been some instances where large sib groups separated in FC placements have been placed together for adoption.</td>
<td>6. Services need to be put in place that address the need for the separation.</td>
</tr>
<tr>
<td>7. Camp Hope is a new program providing an opportunity for separated siblings to connect and bond with one another.</td>
<td>7. While FACTS has the capability to track sibling visits, the fields on the FACTS screen are not being consistently documented by users. The Department needs to strengthen, clarify and better monitor FACTS data entry for this area of policy and practice as well as incorporate into county training.</td>
</tr>
<tr>
<td>8. Alabama’s Kinship Guardianship numbers are significantly lower on a percentage-basis than other states in the region.</td>
<td>8. Alabama’s Kinship Guardianship numbers are significantly lower on a percentage-basis than other states in the region.</td>

PERMANENCY OUTCOMES 1 & 2 - STAKEHOLDER COLLABORATION

Solicited Input – Surveys
In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for the Timely Achievement of Permanency, was 4.79 (cf to 2016 - 4.75; 2015 – 4.67; 2014 – 4.61; 2013 – 4.71; 2012 – 4.70; 2011 – 4.57; 2009 – 4.95). See also Appendix 10: Feedback from State QA Committee and CWCI Team

AdoptUsKids
AdoptUsKids is operated through the National Adoption Exchange and one of their most popular services is a web-oriented nationwide child photo listing that can be viewed by potential adoptive families all over the world. In addition to their main photo listing, AdoptUsKids maintains the state-partner pages for public and private agencies. Through this service, AdoptUsKids is featured on the Alabama DHR page. This page includes only children legally available and waiting for adoption in Alabama. In addition to photos, profiles and biographies, the site also provides a mechanism for posting video footage of the children. Alabama DHR has an agreement with Heart Gallery of Alabama to provide a link to their videos from the AdoptUsKids and DHR sites. During fiscal year 2014, the Recruitment Unit within the Office of Adoption added an additional Program Specialist who has the day-to-day responsibility of coordinating photo shoots, gathering completed recruitment packets and working to register available children (TPR and goal of ANIR) on the four photo listing sites utilized by the Department. This Specialist was also responsible for receiving and processing all inquiries from both in-state and out-of-state families as well as receiving out-of-state studies and routing them to the placement staff for review and consideration. This Specialist’s role changed at the end of FY 2016 and they are now a placement Specialist. An administrative assistant in the Office of Foster Care is now responsible for obtaining recruitment material from the Program Specialist with placement responsibilities. The administrative assistant is also responsible for responding to inquiries, receiving and routing home studies to staff with placement responsibilities. She also keeps the stakeholders who aid in recruitment informed of any changes in availability status of the children with TPR and a goal of adoption. A request has been made for a Program Specialist who would serve as a Diligent Recruitment Specialist. If so, the web site responsibilities may be transferred to them.

Heart Gallery of Alabama
Heart Gallery of Alabama continues to photograph new children as they become available. They also do photo and video updates annually on children previously photographed, but still waiting for adoption. Heart Gallery of Alabama (HGA) no longer has funding from Casey Family Programs. However, they continue to conduct exhibits throughout the state. The Department entered into a contract with HGA in February 2012. The purpose of the contract is to provide funding for staff to respond to families that inquire about children on the HGA web site and exhibits. During FY 2014 HGA took 103 portraits, 72 were of new children and 31 were updates. During FY 2015 109 portraits were taken. These included 77 new children and 32 children had their portrait and/or videos updated. In FY 2016 they took 199 portraits (86 new and 31 updates). For FY 2017, stats for the end of March indicate 58 portraits (36 new and 22 updates). HGA’s current database was put into place five years ago. Heart Gallery is dependent upon reports from DHR regarding goals, custody status, placements and/or finalizations for the children they photograph. They estimate, since the current data base was established, 516 (60.4%) of children photographed have been placed for adoption by State Specialists, or their foster parents adopted them following a photo shoot. Including children they photographed prior to establishing the data base, they estimate a total of 550 children placed or finalized. During FY 2014 they responded to 2,555 inquiries from 1,666 unique families (some families inquire about multiple children. Heart Gallery Alabama responded to 3,204 inquiries from 1,908 unique individuals during FY 2015. In FY 2016 HGA responded to 3,332 inquiries from 2,117 unique individuals. From 10/1/2016 through 03/31/2017 they have responded to 1,304 inquiries from 819 unique families.

Heart Gallery Alabama has also developed partnerships with several media outlets that promote both general awareness and child-specific recruitment for our children. They produce an electronic newsletter that is broadcast through their web site, social media and constant contact e-mail distribution. They also provide child-specific features to television stations in the Birmingham metro market. They currently enjoy partnerships with the FOX affiliate in Birmingham (WBRC Channel 6) and the NBC affiliate in Montgomery (WSFA Channel 12) to feature a different child/sibling group in a weekly Heart Gallery features. During the early months of FY 2017 they added another Raycom station to their list of television partners (WAFF-NBC in Huntsville). Work is on-going to develop a similar partnership in the Mobile metro-area.

The following exhibits were held during FY2016.

Post Adoption Service & Supports
Post-adoption services in Alabama are provided through contract with Children’s Aid Society via a program known as Alabama Post Adoption Connections (APAC). APAC is a collaborative effort between the Office of Adoption and Children’s Aid Society to promote adoption. Its specific post adoption mission is to support, strengthen, and empower adoptive families. APAC post-adoption services continue to grow in visibility and use by adoptive families. The Pre-Adoption service component was added in 2008, and has increasingly provided adoptive family resources for waiting children. The State’s contract for services was last renewed in 2012 to provide additional support for both adoptive families and the professionals working with them. The current contract extends through FY 2017 for both pre and post adoption services.

1. **Pre Adoption Services**
The pre-adoption services contract provides funds for recruitment, training and completion of home studies for families interested in adopting children that meet the special needs definition. Counseling support has been expanded to include more counseling services to PRE-adoption families when a family is the identified resource for a waiting child and the child is in the home. This pre-adoption work is increasingly utilized by DHR staff, both county and state levels, to assure both child and family are well prepared for the transition into adoption. The original intent was to improve early communications within the family, increase parent confidence in parenting children with difficult behaviors, and decrease the risk of adoption disruption, and it appears this is helping when utilized. APAC is currently reviewing their ETO system to see how they can better analyze this and articulate it in a more statistical manner.

- **Post Adoption Services**
In 2010, Alabama was named by the Evan B. Donaldson Adoption Institute as having one of the top 5 post adoption service models in the country which can be attributed to the support under the current contract. Also in 2010, Alabama was recognized by Harvard’s Kennedy School as the recipient of a “Bright Idea” award, noting that the partnership between the state (DHR) and a non-profit (Children’s Aid Society), and a volunteer agency (Heart Gallery Alabama) had resulted in an effective partnership that positively impacted state recruitment, training and preparation of adoptive resources and matching of children into adoptive homes. In 2011, APAC was nominated for an Adoption Excellence Award at the national Adoption Managers Conference in Washington, DC. In 2012, APAC joined in partnership with Heart Gallery Alabama to share the hiring and supervision of an AmeriCorps member to assist in the pre-adoption services recruitment of adoptive families for waiting children. In 2014, the partnership between Alabama DHR & APAC was recognized in a national forum hosted by AdoptUSKids and NACAC as a leading model for linking diligent recruitment and post adoption services. In June 2015, APAC was invited to present at the first national conference on Post Adoption Support, held in Nashville, Tennessee, showcasing Alabama’s successful model to other states around the nation. In January 2016, APAC staff presented a national webinar on Family Violence and its Impact on Foster and Adopted Children.

APAC consumers are asked for specific feedback related to the individual services they receive. This feedback is obtained by anonymous surveys for most services and direct questions and documentation of responses for others. This information, as well as other consumer feedback is always reviewed by APAC staff regionally and statewide during staff meetings and shared with the Office of Adoption. In addition, APAC’s Pre-Adoption Services team distribute surveys after families attend GPS classes, and also Post Placement surveys to APAC families who have had a child.
placed in their home. Many changes have been made based on consumer feedback in one or more of these forums. Beginning with (2013), regular meetings were established between SDHR and APAC program staff to continuously monitor outcomes and review areas of concern.

The post-adoption services contract provides for the following services:
- Adoption Information & Referral
- Lending library of print and video materials.
- Educational Trainings (On-site, live webinar, and other training and conferences) – for parents and professionals
- Adoptive Family Advocacy
- Counseling (includes a crisis hotline 24/7)
- Trained therapist network – available to adoption professionals and families
- Annual Summer Camp for children/youth who have been adopted.

In January, 2014, APAC’s Program Coordinator and the Program Supervisor from the Office of Adoption were invited to attend a two-day meeting in St. Louis, Missouri to share expertise in the areas of diligent recruitment and parent support. The link between pre-adoption and post-adoption services and support were discussed. Alabama was the only project invited that was not also a recipient of a diligent recruitment/adoption opportunities grant. Both the coordinator and supervisor have participated in the development of a publication entitled, “Effective Support Services for Adoptive, Foster and Kinship Care Families” and they shared their skills, knowledge and expertise with the AdoptUsKids Integrated Diligent Recruitment and Parent Support Team. Both were among the key speakers during an important webinar, produced by NRCDR in August, 2015, highlighting Alabama’s pre and post adoption services mode.

**General**

Quantitative QA Reports from APAC noted the following services and trends regarding consumers served through the contract over the last few years.

</tbody>
</table>

**A. Information and Referral**

APAC continues to provide Information and Referral Support to anyone who desires information about adoption related issues. In FY 2013, APAC provided 552 units of Information and Referral to 467 individuals coming from 339 families. In FY 2014, APAC provided 716 units of Information and Referral to 667 individuals coming from 418 families. In FY 2015, APAC provided a combined 1,028 units of Informational and Referral to 708 individuals coming from 529 families. In FY 2016, the post-adoption team provided 801 units of Information and Referral to 740 individuals coming from 531 families. Additional Information and Support services were provided to PRE-adoptive families (716 units of service involving 182 consumers from 119 families). During the first six months of FY 2016-2017 (10/01/2016 – 03/31/2017), the post-adoption team provided 405 units of Information and Referral to 372 individuals coming from 237 families. Additional Information and Support services were provided to PRE-adoptive families (665 units of service involving 135 consumers from 86 families).

**B. Lending Library**

A Lending Library on adoption-related topics continues to be available for both foster and adoptive families and the professionals who work with this population. Books, DVDs, Videos, recorded APAC webinars, journals, E-books, and printed materials are available for loan with free mailing. Resources are available via website, phone, email, or on-site office check-outs. Consumer feedback continues to guide the resource topics and formats that APAC selects for the library. In FY14, 1764 check-out sessions were made to 491 consumers (354 families). In FY15, 2,512 check-out sessions were made to 553 consumers (381 families). In FY16, 4555 resources were checked out by 769 clients from 504 families. The dramatic library service increases is due to counting resources individually rather than just by check-out sessions, as well as arranging archived APAC webinars to be available by library check-out. During the first six months of FY 2016-2017, 2347 resources were checked out to 454 consumers and 304 families.

**C. Educational Trainings**

APAC coordinates an annual “Permanency Conference” for DHR direct line child welfare workers. Approximately 200 DHR staff attend the conference each year, which draws national speakers and experts in the child welfare arena. This Permanency Conference is provided to supplement the DHR County Directors’ meetings and the DHR Supervisors...
Conference, assuring that similar overviews and targeted trainings are provided to leadership and direct line staff, providing up to 13 professional CEUs for participants.

APAC continues to provide on-site group trainings to foster and adoptive parents, DHR staff, therapeutic and child-placing agencies, and other related organizations upon request. The “Trained Therapist Network” provides two national speaker tours each year, providing both foundational and advanced clinical information to professionals working with foster and adoptive families (see below). The more recent use of computer webinar trainings has been another successful method of educating the professional community on adoption topics. The use of webinars has provided easier access for many clinicians (and parents) who may have otherwise faced time or travel barriers to attend an onsite workshop. Examples of APAC webinar topics have been “Bullying”, “Parenting the ‘Net’ Generation”, “The Impact of Trauma on Child Development”; “The Impact of Secondary Trauma”, Stress Management; Understanding Sexualized Behaviors in Foster/Adopted Children; Sibling Rivalry; The Voice of the Adopted Child; Sleep Disturbances in Foster/Adopted Children; Lying, Cheating and Stealing ; “Holidays with our Foster and Adopted Children”; “Transracial Adoption”; “Practical Play Techniques”; “Working with Adolescents”; “Importance of Healthy Attachments”; “Family Violence and Its Impact on Foster and Adopted Children”; and more. Not including the Permanency Conference for DHR staff, more than 4,000 training services are provided by APAC each year, with more than 14,000 live webinar service units since APAC initiated webinar trainings.

D. Adoptive Family Groups (AFG’s), Special Events, Adoptive Family Mentoring and Support

Through the APAC contract, Adoptive Family Support Groups (AFGs) are offered throughout the state. The AFG’s include activities focused on parents as well as a children’s component for the adoptee and/or siblings. Each AFG has a parent support group, a children’s (and/or teen) support group, as well as a childcare socialization group for younger children unable to benefit from a support group. They meet in locations and times most accessible to the families, and topics discussed are driven by parents within each group. Adoptive family groups provide educational and emotional support for adoptive family groups to reduce the risk of disruption and maintain permanency. In FY 15, 3116 AFG sessions were provided to a total of 721 adoptive family members (193 families). In FY 16, 2555 AFG sessions were provided to 867 adoptive family members (169 families). The informal networking generated through participation in Adoptive Family Groups is invaluable; however, the number of participants is dropping in spite of continued recruitment efforts.

One way of increasing the friendships and support gained through these relationships outside of group sessions is to provide occasional special events for these groups that will lead to increased interaction and friendships outside of the group setting. In FY15, 458 special event services were provided to 420 adoptive family members coming from a total of 145 adoptive families. In FY 16, 646 special event services were provided to 584 individuals from 180 adoptive families. During the first six months of FY 2016-2017, special event services were provided to 312 adoptive family members from a total of 63 adoptive families.

In 2013 an Adoptive Family Mentor Service was initiated as another support option for adoptive families. This service pairs an experienced adoptive parent with a newer adoptive parent who seeks individual adoptive parent phone support. Rural areas were targeted for marketing the service, since Adoptive Family Groups were not available in most of the less populated rural counties who also had fewer resources in general. We surmised that, in addition to or in lieu of support groups and counseling, some adoptive parents wish to just talk with and gain support from other adoptive parents who have walked a similar adoption path. Only a few have followed through with having an “official” mentor assigned to them for support, but the service continues to be marketed through Pre-Adoption services as well as Post services. In an effort to continue to reach adoptive families that may not be interested or able to participate in monthly AFGs, APAC created a Closed Adoptive Family Facebook Support Group in October of 2014. It is administered by an adoptive parent who posts new material at least five times a week and responds as appropriate to support parent posts. In FY 16, there were 235 adoptive parents participating in the online support group. Now there are over 320 adoptive parents receiving support through this online support group. Additionally, anonymous consumer feedback tells us that adoptive resource families desire more communication and support after licensing approval and before adoptive child placement. A private Facebook Support Group for APAC pre-adoptive families was set up in December 2016 to help fill this gap. At this point, there are only 15 families actively participating, but more are anticipated now that the service is officially launched. In addition, a Family Advocacy Service was initiated in an effort to further support adoptive families. (See E. Family Advocacy below)

As a part of the matching process, State adoption staff work with families (prior to placement) to make sure they are aware of programs/services that can meet the needs of the children they are adopting. These include post-adoption services provided by CAS/APAC, but also community resources and programs. Depending on the needs of the family, this could include the crisis hotline provided through APAC, how/when to call or seek treatment at local emergency rooms or even when/how to call local law enforcement.
E. Family Advocacy
As increasing numbers of families adopt “waiting children”, it has become clear that there are additional challenges faced by these children and the families who adopt them, and that the risk of disruption is greater for “waiting children” than most of those served, stabilized, and ultimately adopted by their foster parents. To address this gap, a Family Advocate service was implemented by APAC to support APAC-prepared adoptive resources once they became approved adoptive resources. The service includes helping the family further identify their strengths and needs, gain education and confidence in areas of need, increase their support networks which include networking with other adoptive families, participate in adoptive family counseling when presented with child background summaries considered for match or times of concern after placement, connect with resources if needed to support the family/child needs, etc. The services are provided in office, in home, or as needed within the community with the family. Some families have been hesitant to take advantage of the service, but once their home is being considered as a possible match for a child (by DHR), the families are eager for this support. And when child placement occurs, the families have exhibited increased desire for more intensive support. This service was fully launched by October 2016. The first three months (October – December 2016), there were 303 family advocacy service units provided to 54 consumers (32 families). During the second quarter of service of FY 2016-2017 (January – March 2017) there was a total of 759 family advocacy service units provided to 78 consumers and 44 families.

F. Counseling Services
APAC services also include a counseling component which was initiated in 2005 to help adoptive families through adjustment issues and crisis times throughout their adoption journey. Initially, adoption counseling was provided after a referral was received from the county worker, state adoption worker or self-referral by the parent. Over time, the counseling component has become more flexible. There have been instances where state adoption workers have referred families potentially matched with waiting children to counselors at APAC to review the child/sibling group’s non-identifying background summary to help the potential family better understand the needs of the children and to discuss potential parenting strategies, etc. Also, the families recruited and trained through the APAC Pre-Adoption Services team are now routinely asked to participate in counseling at agreed upon stages: upon home study approval, upon potential child match and placement, three months post placement, prior to finalization, and beyond as needed. As adoption of “waiting children” increased, it became clear that more intensive counseling services were needed to reduce the increased risks of adoption disruptions. Subsequently, in FY 13, APAC counseling services were increased to include 24/7 phone availability, more extensive in-home family services and more than just brief, short-term therapy. Many families receiving APAC Counseling could actually be considered in crisis throughout many phases of their counseling, but those are not documented as “crisis calls”.

FY 13
321 adoptive family members received 1,286 counseling sessions. Plus: 16 individuals (11 families) received crisis counseling sessions.

FY 14
428 adoptive family members (170 families) received 1,299 sessions. Plus: 39 individuals (10 families) received crisis counseling sessions.

FY 15
393 adoptive family members (161 families) received 1,175 sessions. Plus: 17 individuals (8 families) received 14 crisis counseling sessions.

FY 16
369 adoptive family members (162 families) received 1060 sessions. Plus: 21 individuals (10 families) received 53 crisis counseling sessions.

FY 17 (10/1/16-3/31/2017): 262 adoptive family members (126 families) received 518 sessions. Plus 15 individuals (9 families) received 46 crisis counseling sessions.

Of the 10 families receiving crisis intervention in FY16, five were finalized adoptions, three were pre-adoptive, and two were international. One out of the 10 families disrupted, when that one family already determined to place their child in a treatment facility prior to APAC involvement. In the first six months of FY17, out of eight families, six were finalized adoptions and two were pre-adoptive (one DHR trained and one APAC trained). Both pre-adoptive families disrupted. Our goal is that more recently trained pre-adoptive families will have improved stability outcomes with Alabama’s new trauma informed TIPS preparation training and APAC’s Family Advocacy and online support services.

G. Trained Therapist Network (TTN)
The APAC contract expanded several years ago to include education of the Alabama clinical community who work with foster and adopted children and families. This service, referred to as the Trained Therapist Network, has resulted in
multiple all day workshops by well-known authors and adoption experts. The intent is for this clinical community to provide more appropriate services to adoptive family members based on their increased understanding of adoption issues. These services are free to participants, which include social workers, counselors, probation officers, residential/therapeutic providers, and other interested professionals. DHR staff also attend through slots approved for mileage support by DHR.

- **FY 14**: 725 individuals attended the TTN workshops.
- **FY 15**: 842 individuals attended the TTN workshops.
- **FY 16**: 692 individuals attended the TTN workshops.

As a part of the post-adoption services contract for 2013-2014 with APAC, a community resources directory was developed. The directory provides information supplied by counselors, therapists, mental health professionals, and others as they have attended training sessions through the Trained Therapist Network, which is also a part of the post-adoption services contract.

**H. Annual Summer Camp**
The APAC Camp service continues to provide support for children and families adopting through the DHR system. The first Camp APAC (2004) involved 50 campers, then was increased to 100 campers, and then to 140 campers in 2012. A minimum of 140 children are served each year in a four day/three night camp that helps them better understand adoption, normalizes their adoption experience, provides lifelong friendships with other adopted youth, and also provides the adoptive parents a respite opportunity. Year after year, 98-100% of the parents with youth attending Camp APAC share that the camp experience provided life-changing positive support relative to the adoption experience.

**I. Group Preparation and Selection (GPS)**
Hundreds of families have now been recruited by APAC, trained in 10 week GPS (Group Preparation and Selection classes), had home studies prepared, and we have provided assistance to DHR adoption placement Specialists for the matching of waiting children with these waiting families. GPS classes were 10 week, 3-hour training sessions to prepare families interested in adoption. The Department (see Training Section) has launched a new training for foster and adoptive parents, known as TIPS. The core curriculum is trauma-informed, but the processes remain the same relative to selection. Once training is completed, the families who did not "select out" are then assessed as potential adoptive family resources. The completed home studies are then submitted to the Office of Permanency for review and approval. The Recruitment efforts between DHR and APAC have resulted in hundreds of new adoptive family resources and matches of children with these families.

- **FY 14**: 1,825 inquiries on fostering/adoption were provided information
  - 252 consumers received APAC orientation recruitment services
  - 158 individuals attended GPS classes (93 families)
  - 59 individuals (32 families) were approved as adoptive resources
  - 27 children were matched with 19 “APAC” families

- **FY 15**: 1,484 inquiries on fostering/adoption were provided information
  - 210 consumers received APAC orientation recruitment services
  - 143 individuals attended GPS classes (84 families)
  - 73 individuals (43 families) were approved as adoptive resources
  - 13 children were matched with 10 APAC families

- **FY 16**: 1124 Inquiries on fostering/adoption were provided information
  - 273 individuals received APAC orientation recruitment services
  - 164 individuals attended APAC GPS classes (92 families)
  - 85 individuals (46 families) were approved as adoptive resources.
  - 19 children were matched with 15 “APAC” families

- **10/16 – 03/17**: 524 inquiries on fostering/adoption were provided information
  - 112 consumers have received APAC orientation recruitment services
  - 557 individuals have attended GPS (66 families)
  - 37 individuals (21 families) have been approved as adoptive resources
  - 12 children have been matched with three APAC families.
**Alabama Foster/Adoptive Parent Association**
The Department continues with the strong partnership and contract with Alabama’s Foster/Adoptive Parent Association to support improved outcomes for children through joint training sessions, regional meetings, and various recruitment and fundraising activities. The association has Nine Regional Representatives who serve as trained advocates and liaisons with the Department. The AFAPA representative is a significant member of Conflict Resolution Teams statewide whenever foster parents have grievances or concerns regarding certain actions taken or not taken by the Department. The process utilizes various individuals and groups that can help the county and the foster parent(s) work through and resolve problems and conflicts. All of these will consider applicable policies related to the problem. They will offer guidance to all parties through a process in which they discuss the issues, options and design their own agreement to resolve the dispute. The intent of this process is not to remove the authority from the local DHR office to handle problems within the county or to be punitive in nature. This process gives foster parents and the local office an opportunity to be heard when problems arise and when all parties cannot come to an agreement or acceptable resolution to the problem. The AFAPA has a very comprehensive website with guidance around this and other areas of advocacy for foster/adoptive parents. The Foster Parent Bill of Rights is posted as well for convenience of our partners in caring for foster/adoptive children. See [https://afapa.org/](https://afapa.org/) for more information.

**Court Improvement Program**
DHR staff works closely with the AOC staff to address policies and practices of both the court system and the child welfare system. AOC was a key partner in implementation of Alabama’s PIP through assisting in identifying and implementing steps to improve dependency case flow management, and educating judges and guardians-ad-Litem. AOC staff provided input and assistance in drafting Alabama’s Kinship Guardianship Subsidy Act which passed in the FY 2010 Legislative Session and assisted in organizing video conference training on several legal topics for attorneys, court employees, and child welfare staff. In addition, DHR staff continues to partner with AOC staff to monitor the timeliness of permanency hearings and other timeframes in the dependency and TPR case process through sharing of data which will be used to develop future trainings. Discussions have been held with AOC and internal Legal staff regarding training. Local onsite trainings have occurred in some counties, and the State Legal Office has been closely involved with adoption cases throughout the state; conducting onsite reviews, having discussions with local attorneys and with some judges. The Legal office has been a significant source of support and action for the counties around permanency in general and adoption in particular. DHR staff continues to represent the Department on the Probate/Juvenile Subcommittee on adoption issues of the Court Improvement Program, which was formed to bring juvenile and probate court judges together to discuss issues that may arise in processing adoption cases. This sub-committee had begun planning an Adoption Conference for May of 2015, but, with the assistance of Casey Family Programs, decision was made to conduct Judicial Summits across the state. Four have already been hosted; one in October, 2014, the second in April, 2015, the third in November, 2015, and the most recent in October, 2016. Significant information about child development, child welfare Federal and state laws, our Individualized Service Planning process, and a focus on permanency were highlighted. Judges, County Directors, and a representation of supervisors and line social workers attended, along with some parent’s attorneys and Guardians-ad-litem. Casey Family Programs has been a generous partner in the development and success of these Summits.

**Lifeline Family Services**
Since January 2012, Lifeline Family Services has assisted in offering GPS and home studies to potential adoptive families interested in adopting from the foster care system. Alabama DHR Offices of Child Welfare Training and Permanency worked with Lifeline to train GPS co-leaders and Lifeline offered an employee to be approved to conduct co-leader training and this helps DHR by having an additional trainer to turn to for this service. During FY 2016 Lifeline proposed a change to their traditional foster family home recruitment/approval model. They will continue to recruit, prepare, assess/study families and then transfer the family to the applicable County DHR office for approval and ongoing support and supervision. Applicable counties were identified and a group meeting was held at which time a plan for transitioning existing approved Lifeline families to county Departments was developed.

**Wendy’s Wonderful Kids**
The Office of Adoption has two positions dedicated to child-focused recruitment through the Wendy’s Wonderful Kids Grant through the Dave Thomas Foundation. These positions were approved due to the success experienced in the initial grant period. This service is now available to the Jefferson, Shelby and Tuscaloosa County areas where a majority of Alabama’s waiting children reside. Each of the two positions has a caseload of up to 16 children who have lingered in the system and have no identified adoptive resource. This method of recruitment has been successful in achieving the annual goal of identifying potential families for a number of children re-negotiated annually with the DTFA as the grants are renewed. The WWK project in southwest Alabama renews each year in January. The Jefferson County WWK grant renews annually in July. The chart below (next page) shows the number of matches and finalized adoptions in each of the project years. Some children may be matched more than once. Not all matches move to placement and finalization after pre-placement activities begin.

A child-specific recruitment packet has been developed that identifies the information that must be submitted to the State to ensure timely inclusion of a child into recruitment activities. There continues to be a need to address the capacity to respond to the Hispanic culture. Currently there is limited capacity to translate materials into Spanish and the State is exploring more effective translation resources. There continues to be effort to explore recruitment of resources to support the training and support of this population. Additional funding has been dedicated from Adoption Incentive for increase and support of statewide recruitment efforts. With the assistance of an adoptive parent of Hispanic heritage, one of our radio public service announcements was recorded in Spanish this year and distributed to Spanish language radio stations through the Alabama Broadcaster’s Association’s Public Education Program.

Through the continued work of our Wendy’s Wonderful Kids recruiters we are matching and placing children with more significant physical and developmental disabilities. The Alabama Department of Senior Services is now the lead agency in an ACT (Alabama Community Transition) Waiver that assists in moving children with severe developmental delays from an institutional setting to a family setting by providing respite, skilled nursing, personal care services, medical supplies and equipment. In FY2014 we finalized an adoption of a child with microcephaly and profound developmental disabilities with an adoptive resource who is also a teacher’s aide at the special school he attends utilizing the waiver to remove the barriers. As a result of the success of realizing permanency for the child with significant developmental disabilities Jefferson County has turned to the adoption placement staff as they (Jefferson County) have been preparing for TPR trials involving children with similar significant developmental disabilities and residing in a similar type of facility. They asked that the adoption placement staff serve as an expert witness during TPR trials. The adoption placement staff testified to recruitment methods and use of the waiver as a means for achieving permanency for children traditionally thought to be “unadoptable”. We received ICPC approval for another child with significant special health care needs who had spent most of his life in a skilled nursing facility for children. The receiving state for this child does not have the ACT waiver, but the placement Specialist for said child worked with staff in their Medicaid Waiver Office to get the child on the state’s waiting list for their Home & Community-Based Waiver and self-directed services through this waiver combined with services already available through regular Medicaid are meeting this child’s needs.

**Adoption and Legal Guardianship Incentive Funds – 5 Year Goals:**

Alabama has consistently been awarded Adoption (and Legal Guardianship) Incentive funds for moving children to permanency. This money is used to provide adoption focused training for state and county staff, foster and adoptive parents, therapists and counselors as well as removing barriers for children to be adopted. As a result of the Fostering Connections Bill, Alabama’s baseline was changed to FY 2007 for which Alabama reported finalizing 328 adoptions. The 2013 Adoption Incentive Funds final award as of March 13, 2014 (2013-2015 funds) is $1,540,000. The 2014 award (2014-
2016) was $984,764. The total 2015 award of Adoption and Guardianship Incentive Funds is $1,572,250. Adoption and Legal Guardianship Incentive Funds have been utilized to support training, to support and strengthen staff and stakeholder capacity and to achieve permanency through adoption. In addition, funds have been used for expanding the pre- and post-adoptive services to families and enhance statewide recruitment efforts. The flexibility of the funds provides increased opportunities to obtain and provide needed services to staff, children and families. Some uses of the funds are outlined below:

1.) Continue to increase post adoptive services by expanding current contract with Children’s Aid Society which currently provides post adoptive services in/to the larger and surrounding counties. These services are also available to related caregivers.

2.) Increase awareness and recruitment through funding initiatives with Heart Gallery of Alabama. As noted earlier, this organization has partnered with Alabama in photographing waiting children and maintaining a website to see and hear from waiting children;

3.) Increase capacity for the delivery of/accessibility to the Group Preparation and Selection Process (GPS): ALGIF were utilized this year to purchase the new TIPS (Trauma Informed Partnerships in Safety) curriculum. Provide projectors and laptops to enable counties to fully implement the slides and videos used in the new curriculum.

4.) Continue partnership agreement with AdoptUsKids through annual fees;

5.) Purchase equipment that would enhance staff ability to manage the work needed to conduct day to day tasks more efficiently; and,

6.) Provide opportunities for adoption and ICPC staff to attend adoption specific workshops, trainings and conferences to increase knowledge and capacity to prepare, match and place waiting children. Funds have also been utilized to implement a statewide recruitment plan in an effort to identify, train and approve adoptive resources.

All counties received an allotment of Adoption and Guardianship Incentive funds to use for local adoption recruitment and training efforts. Additionally, county and state office staff have used the funds to remove child/case specific barriers to permanency through adoption including but not limited to: counseling, diagnostic testing that could not be paid for through other avenues, behavioral management services, and items to help the child integrate into placement, etc. If a county’s allotment is exhausted or obligated, a protocol is in place to ensure they are able to secure more funds through the Office of Adoption. The State Office utilizes a large portion of the Adoption and Legal Guardianship Incentive Funds to pay for a number of recruitment and public awareness activities. Heart Gallery Alabama’s contract is funded with Adoption & Legal Guardianship Assistance Funds. The contract for CAS/APAC’s pre-adoption contract, which provides for recruitment, training/preparation and home studies for families interested in adopting children meeting the Department’s Special Needs definition, is paid for through these funds. Both of these agencies, as do the County Departments, focus a substantial amount of the recruitment activities in Faith-based settings. Information provided earlier in this report demonstrates that over 30% (seven of 23) of the exhibits coordinated by Heart Gallery Alabama were displayed in various communities of faith settings. CAS/APAC reported the following Faith-Based recruitment activities.

In addition to the activities illustrated above CAS/APAC’s Pre-adoption Program has ongoing partnerships with the following faith-based groups.

- **Dothan:** Partnership to conduct orientations and trainings approximately 3 years
  - Calvary Baptist Church
  - 901 Montezuma Avenue
  - Dothan, AL 36303

- **Huntsville:** Partnership to conduct orientations and trainings approximately 4 years
  - Mayfair Church of Christ
  - 1905 Carl T Jones Drive Southeast
  - Huntsville, AL 35802

- **Montgomery:** Partnership to conduct orientations and trainings since 2015
  - Frazer United Methodist Church
  - 6000 Atlanta Highway
  - Montgomery, AL 36117

- **Tallassee:** Partnership to conduct orientations and trainings since 2016
  - East Tallassee Baptist Church
  - 314 Central Blvd
  - Tallassee, AL 36078

- **Birmingham:** For Panel on 6/6/16 only
  - Baptist Church of the Covenant
  - 2117 University Blvd. Birmingham, AL

- **Birmingham:** Homewood Church of Christ hosted Panel for 1st 2017 Birmingham GPS
  - 265 W Oxmoor Rd.
  - Birmingham, AL 35209

In addition to Faith-based recruitment, Alabama DHR entered into a new partnership with Digital Boostr. Digital Boostr provides video table advertising in basketball arenas. During the first year in existence, Digital Boostr’s presence was primarily in Alabama’s two-year (Junior) college system. Near the end of the season a number of Historically Black Colleges (HBC) were also participating.

The following is the current list of participating colleges and universities:

- University of North Alabama
- Alabama A&M
- University of Montevallo
- Tuskegee University
- Alabama State University
- Faulkner University
- Alabama Southern Community College
- Bishop State Community College
- Chattahoochee Valley Community College
- Enterprise State Community College
- Gadsden State Community College
- Faulkner State Community College
- Shelton State Community College
- Southern Union State Community College
- Lawson State Community College
- Jefferson Davis Community College
- Wallace State Community College (Selma)
- Wallace State Community College (Hanceville)
- Lurleen B. Wallace Community College
- Snead State Community College
- Marion Military Institute
Sports have historically been an important part of Alabama’s culture, and a ripe source for recruitment or other information-sharing. We entered into agreements with Crimson Tide Network Sports (Learfield) and Auburn/IMG sports (now Auburn/Fox Sports Marketing) to purchase radio advertising during the 2015-2016 Regular Season. Auburn University Athletic Director Jay (and his wife Angie) Jacobs are foster parents for Alabama DHR. He is the spokesperson for the radio spot that runs on the Auburn Network. Former University of Alabama & Washington Redskins player Bobby Humphrey is the voice of the Alabama spot. Mr. Humphrey pursued a social work major while he played at Alabama, and his mother is an LPC who frequently worked with children and families with whom DHR was involved. As we prepare this report we are releasing new television and radio spots that feature Alabama Head Football Coach, Nick Saban.

For the 2016-17 regular season, the University of Alabama and Auburn University have included some basketball, men’s baseball & women’s softball on-site marketing. We had an on-site presence at one game per month during the men’s basketball season and one game each men’s baseball and women’s softball, and we selected games with other in-state rivals so that the audience was primarily Alabama residents.

During November, 2015 (National Adoption Month), Alabama DHR secured statewide advertising services from Screen Vision, Inc. During that month the “Open Your Heart, Open Your Home” video Public Service Announcement aired just prior to the “coming attractions” segment of movies shown in 27 multiplex theaters throughout the state.

**Extension of Adoption Incentive Funds through PL 113-183**

In accordance with PL 113-183 and the provision to expand Adoption and Legal Guardianship incentive funds to kinship care placements, the Office of Data Analysis, Adoption, Foster Care, and Child Welfare Policy are examining our current data collection methodology to determine how to best identify and report to the Children’s Bureau information on the children for whom Guardianship Assistance Payments are made until such time that AFCARS edits are completed.

**CHAFEE FOSTER CARE INDEPENDENCE PROGRAM (CFCIP)**

**Program Design and Delivery**

Alabama Department of Human Resources, Family Services Division is implementing the Foster Care Independence Act of 1999 by operating a statewide Chafee Foster Care Independence Program. The Education Training Voucher Program was implemented in 2004. Direct and indirect services are provided to youth for whom the Department holds custody and planning responsibility. Alabama’s Independent Living Program is a state-administered, county-managed program. As such, the Alabama Department of Human Resources, Family Services Division through the Office of Foster Care and ILP Services, administers and supports the programs and services carried out by the 67 County Departments of Human Resources under the Act. Thus, each county DHR office is able to create and maintain its own Foster Care Independent Living Program. Services are provided through group programs and individual services and several also offer experiential activities. The programs are to provide services to assist a youth in improving education and career opportunities and to decrease high-risk activities and the potential for incarceration, non-marital childbirth, dependence, and homelessness.

The mission of Alabama’s Independence Program is to assist Alabama’s eligible foster youth and former foster youth in attaining the skills, education, and character needed to become healthy adults who will contribute to their community. The role of the State team is to provide services, supports, training and consultation to the counties, assisting them in the development of group and individual services and supports to youth in foster care. We partner closely with Children’s Aid Society to focus on leadership development in the DREAM Ambassadors and DREAM Council.

The partnership with Children’s Aid has expanded over the past three fiscal years and employs one former foster youth and one MSW who has extensive experience with this population of young people as a foster care worker and licensed counselor. The Team also employs an ILP Coordinator and a Media Specialist. The CAS ILP Team serves youth, foster parents, congregate care providers and community stakeholders statewide. Our supports and services are enhanced through direct services and trainings provided monthly by our Youth Leaders and annually at the State and national conferences for our youth age 14-21 and county and state staff - See also system factor, “Agency Responsiveness to the Community”, Older Youth Input.

Strategic planning is a key component to the successful delivery of services to our youth in care. Each year the state staff, county staff, former foster youth, community care providers, foster parents and community stakeholders convene to share successes and challenges and develop networks of support to ensure that our young people receive appropriate services related to their health, education, employment opportunities, financial management, housing and mental health so that they may become self-sufficient, interdependent adults with strong and supportive ties to their communities. The development of the current service plan was in collaboration with current and former foster youth, community providers, congregate care providers and county and state staff from both the foster care and Independent Living programs. DREAM Ambassadors work closely with their peer foster youth in their monthly meetings to develop relevant services and supports. They are
currently working on a Foster Youth Bill of Rights. They are also an integral part of our training model, providing training to judges, community members, Quality Assurance Committees, foster care training classes, Tribal members and others. The Independent Living Program, in partnership with the CAS ILP Team, Alabama Reach, the National Social Work Enrichment Program and the Alabama National Guard provides Regional Consultation Trainings to line staff, supervisors, County Directors, and providers to share strategies and challenges related to serving this group of young people.

The work moving forward into FY2018 will include the statewide training, implementation and support of the Reasonable and Prudent Parenting Standard, Serving Youth in Congregate Care and youth participation in court and their Individualized Service Plans. Training regarding these issues has been provided to the staff and foster parents, service providers and stakeholders at the Annual Foster and Adoptive Parent, Permanency and ILP Networking Conferences. Education and training will be provided to youth at the Annual ILP Camps held in June and July 2016. The Program has provided support to staff, young people and providers at Individualized Service Plan meetings, promoting youth empowerment, involvement and preparation. As a result of the Congregate Care Study, the Program will provide monitoring and consultation to the young people, staff and providers involved on a quarterly basis to continue to promote positive permanency.

Training was provided to line staff at the Annual Permanency Conference related to serving LGBTQ youth in foster care. That training will be repeated at the Annual Supervisors Conference. There are limited services currently available to LGBTQ youth in the State. Consultation is provided to counties regarding services available to these young people. There is a support group for LGBTQ youth in our largest county. Services are provided to all young people without regard to their sexual orientation. Training has been provided regarding appropriate placement for all young people to staff at our annual Permanency Conference. The new foster parent training model Trauma Informed Partnering for Safety (TIPS) will provide additional instructions and support so that our foster parents will be better equipped to serve these youth. We recognize the needs of this growing population of youth and know that more discussion must occur around best practices and service development.

**The National Youth in Transition Database (NYTD)**

The information received from NYTD has been important to our understanding of the lives and well-being of youth after leaving our care. The data has been shared with providers and community stakeholders, staff, Tribal partners and our young people since the initial results collection was released in 2011. The NYTD information was shared in a series of trainings, consultations and presentations. Alabama did reach the benchmarks set, but we remain concerned about the outcomes for youth who have exited the System of Care and the reluctance of our foster care alumni to participate in the survey. Though we met the benchmarks required for the first 21-year-old baseline group, we have concerns regarding our ability to meet the benchmarks moving forward in light of the too-often transient nature of our young people and their unwillingness to participate in the NYTD survey once they have left foster care.

In fiscal year 2017, a new group of 17 year olds were surveyed. We will work with our current DREAM Council and youth participating in our DREAM Council meetings and summer camps and conferences regarding the importance of NYTD. We will continue work with our young people to develop strategies to ensure that youth are aware that they are required to participate at age 19 and at age 21. Incentives are provided. We have requested additional staff in this program to ensure that the data is properly collected and utilized to improve services and supports to older youth in foster care.

Though the NYTD data is collected to inform and craft services, we continue to struggle regarding youth participation once they have exited the foster care system. The young people seem extremely resistant to any contact with the Department, whether they have located permanent connections and are doing well or if they are struggling in achieving successful interdependence. Therefore, use of the data proves challenging. Participation in the NYTD survey will continue to be encouraged, and will be discussed at length with the federal team during the upcoming NYTD audit, scheduled for August 22-25, 2017.

**Serving Youth across the State**

All youth in our System of Care are considered Alabama’s children. In an effort to ensure that all young people receive the same level of support and services, the Program has gone to great lengths to provide training directly to youth by DREAM Council Ambassadors and community providers in the counties all over the state. We are currently strengthening our partnership with the Poarch Band of Creek Indians to provide training directly to their Youth leaders. Our Youth presented training to their young people on June 28, 2016. This training will occur yearly. All available services and supports are offered to all foster youth in Alabama. Youth and their caregivers and social workers can access information regarding ILP policy, NYTD, camps, conference, services, job opportunities, health services, Medicaid and trainings at our website, www.ilconnect.org. Services to our foster youth and those youth being served in their own homes are individualized to meet each youth’s unique needs. Smaller counties often struggle with placing youth in their home counties, as there are a limited number of resources in our rural counties. We are working with our Resource Management Division and Foster Care Recruitment and Retention and Alabama Foster and Adoptive Parents in order to develop and train foster homes.
Serving Youth of Various Ages and Stages of Achieving Independence

The focus of our Independent Living Program is to provide services and supports to promote healthy interdependence. Our young people enter care at various stages and levels of maturity. Because of the unique nature of their circumstances, proper assessment and youth engagement are key when serving this age group. Our ILP Partner, Children’s Aid Society, developed transition toolkits based on levels of maturity and competence identified by the Individualized Service Planning (ISP) team. We will continue to focus on and provide training to staff regarding the appropriate use of the Daniel Memorial Assessment in the development and delivery of identified needed services and supports. More importantly our focus will be on identifying and facilitating authentic permanent connections. The provision of service is crucial, but without familial support our young people will continue to struggle post foster care. Breaking down the myths regarding the needs of older foster youth, addressing their unique mental health needs related to trauma, abandonment and loss and empowering them to develop and retain lifelong relationships will be important to breaking down the barriers that often lead to homelessness, mental health facilities and jail. We began a partnership with the Alabama Department of Public Health in 2012. They have provided several of our young people across the state with relationship training focusing on abstinence, safe relationships, safer sex practices and pregnancy and sexually transmitted disease prevention. We will continue to offer this support to our young people.

Youth 14 to 21 are able to participate in all Independent Living activities provided by the counties and state. There are no age restrictions. Youth have participated in trainings geared toward their specific age group annually in summer or fall conferences/camps. Those youth aged 14-16 participate in a camp which provides introductory training regarding what they are eligible for as a foster youth, how to effectively participate in their in ISP’s, basic NYTD, social media safety, money management, preparing for college by successfully completing high school, sex education and human trafficking. The older youth aged 17 to 21 participate in more detailed trainings focused on college, technical and trade school success, credit reporting, household management, permanency pact, sexual safety, NYTD, internet safety, health and fitness, and Medicaid to 26. All youth in the System of Care can participate in state and county trainings. ILP age youth in our protective service caseloads are encouraged to participate in ILP activities, but there are no incentives offered for their participation. Unlike many states, Alabama allows youth to remain in foster care until they reach age 21. There are no additional supports specific to those young people outside of existing services detailed in policy. However, services are intensified to promote a smooth transition into adulthood concurrent with a concentrated focus on the need for each youth to be connected to a caring and capable adult.

Providing personal and emotional supports to young people exiting care due to their age through mentors and promoting positive interactions continues to be a focus. True permanent connections developed through safe interactions and potential reunification with biological families, the use of the Permanency Pact, the development of host families through our partnership with Alabama Reach and the development and enhancement of foster and adoptive homes to serve older youth are strategies we will continue to employ to ensure that our older youth have the best possible opportunities to achieve legal permanency. Encouraging our youth to develop natural networks of support and to allow themselves to be open to familial relationships has been supported through the Permanency Roundtable Process as well. We will continue to develop and enhance these efforts through the continued use of the Permanency Roundtable process and the expansion to the Youth Centered Roundtable process. We continue to explore best practices and skills development around support for discussion of life-altering decisions made by our youth relative to adoption.

Our Children’s Aid partners developed and distributed toolkits geared toward the varying stages of youth development and shared them at DREAM Council meetings and other locations based upon staff requests. Our Finance Division ensures, through monthly monitoring, that no more than 30 percent of our allotted Federal CFCIP funds are expended for room and board for youth who have left foster care after 18 and have not yet attained 21 years of age. Young people are made aware at the time of discharge that they are still eligible for services and supports post-foster care.

Alabama offered foster care to youth up to age 21 prior to the national Title IV-E foster care extension. There are provisions regarding school attendance or employment in our current policy in order to access Title IV-E funding. Young people may remain in foster care continuously past their 18th birthday without re-entering care through request and signature. They remain eligible for all services and supports until they reach age 21. Youth who have left foster care after attaining 16 years of age continue to be eligible for and participate in our adoption subsidy and kinship guardianship supports. Young people reside in all levels and types of foster care placements post 18, ranging from traditional foster homes to Independent Living apartments and college dorms. We are working diligently to offer services and supports and foster home placements for young people so that they can remain in foster care in their home counties as needed. There are programs, supports, services and placements available to assist all special needs populations to include substance using or addicted youth, pregnant and parenting young people, and those with mental health needs. We are working with a

Alabama National Guard

National Social Work Enrichment Program, NSORO, and the Alabama Reach Program
A good education is the great equalizer for our young people. We have developed strong partnerships with the NSORO and the Alabama Reach Program to promote post- secondary education. Because of these partnerships, we have more young people graduating high school and receiving GEDs and more attending two and four year colleges and universities, technical and training schools. We will continue to work with these community partners and work to expand our partnerships with Job Corps and the high school systems, the United States Armed Forces and the Department of Youth Services to promote graduation and dual enrollment programs that are being offered in high schools across the state.

Alabama Reach
The Reach Program is currently housed at the University of Alabama with support from the University. Alabama Reach provides group sessions, access to host families, year round dorm access, financial support, training, and volunteer opportunities for any youth identifying themselves as current or former foster youth. The program supports all foster care youth at the University of Alabama and at Shelton State in Tuscaloosa. We conducted preliminary program meetings with Alabama State University in Montgomery. That program successfully launched in Fall 2014 through that university’s Social Work Department. Reach provides group sessions for foster youth on the campus of Alabama State University on a limited basis. It is their goal to serve all foster youth in the seven of the two and four year colleges and technical and training schools in the area. Alabama Reach will continue to work with the Department to expand their programs to other colleges and universities in the State. Our young people are grateful to participate in the ETV Program, but as college costs increase, their ability to remain in college, technical, and training programs is seriously challenged.

Fostering Hope
The Fostering Hope Bill passed in April 2015. Since the passage of the scholarship bill, 157 young people across the state have participated. It has provided $805,875.50 in funding to young people attending 32 in-state two and four year colleges and universities. The scholarship provides tuition and required fees for all youth in foster care at the time they graduate high school and all youth adopted at age 14 and older. An additional $3.5 million was allocated for the 2017-2018 school year. There is current state legislation pending to expand the program to include more former foster youth. The bill also provides for DHR staff who will act as mentors to youth in college. The Fostering Hope Mentors are required to meet with each young person face to face at least one time per semester to ensure that they are meeting educational requirements, are having their emotional and physical needs met, and are linked to appropriate services and supports on their campuses. The Mentors further serve as a liaison for the Department with the universities, should our young people experience difficulties. The Mentors work closely with county staff, if participants remain in foster care. Our ETV contract with Foster Care to Success was expanded to include young people applying for Fostering Hope. This facilitates streamlining the process and maximizing the funding available for our young people. The application is accessed on the same web portal.

Kids to Love/KTech/Camp Hope
Kids to Love provides services to foster youth and families throughout the state. The services range from providing Christmas gifts to providing training, education and housing support for former foster youth. KTech is a 16 week training course for young people exiting care due to their age. Upon completion, the young people are Siemens certified and have earned six credits toward a two year college certification in automotive technology. They may also go to work for the automotive industry with the Siemens certification. Kids To Love supported 48 current and former foster youth and those adopted from foster care through their college scholarship program. They have provided support to the Department promoting sibling visitation through Camp Hope. Those services were also expanded this year to provide one on one contact for children available for adoption and their potential adoptive parent(s). Additional services and supports included:

51 families/children received emergency assistance through our wardrobe warehouse
110 children served Camp Hope
152 requests for foster/adoptive parenting information
20 completed GPS through our APAC partnership
25 children profiled for adoption
13 KTECH graduates (3 were former foster/adoptive children)
48 foster youth received college scholarships
1,254 children received full Christmas wish lists across 25 counties in Alabama, Tennessee & Mississippi
428 “See Meth Stop Meth” phone and web tips / 208 reporting children at risk in 28 states.
The Alabama Department of Human Resources entered into a Memorandum of Agreement with the Army National Guard in June 2016 establishing a partnership to improve outcomes for children in foster care, specifically helping youths aging out of care who have limited connections to their community and minimal job skills. The focus of the partnership involves working with the Alabama National Guard to share job and mentorship opportunities for our young people. The Alabama National Guard provides recruitment and retention personnel that provide marketing products, subject matter experts, client counseling and recruitment information to DHR representatives. DHR makes available opportunities for the Guard to attend, instruct and host events that will cultivate potential job opportunity training. On December 6, 2016, based on this partnership which demonstrated strong community relationships, the Alabama Department of Human Resources, was recognized at the Army Community Partnership Award ceremony in Washington DC.

Room and Board
Counties often need to know how board payments are to be used to meet a child’s needs. Board payments vary according to the age of a child and the core rate does not include difficulty-of-care payments. The maximum monthly core board payment should be used according to the following breakdown. These percentages are used as a guide and may vary according to a child’s specific needs. Note: Incidents include purchases for a child such as school supplies, movie tickets, etc.):

- Room and Board 85.0%
- Clothing 7.5%
- Medicine Chest Supplies 2.0%
- Incidents 5.5%

Data on Youth Over the Age of 18
As of March 31, 2017 32% of our young people had chosen to remain in foster care. This percentage has remained consistent for the last two fiscal years. As stated in the current APSR, they reside in every type of placement from traditional foster home to college dorm rooms and apartments. All young people are eligible to receive training and employment support. Young people all over the state have access to local employment services, and receive training regarding resume’ writing and interview techniques. All youth exiting foster care receive the $1000 aftercare payment and services and supports three months post their exit from foster care to ensure smooth transitions. There are two counties, Montgomery and Madison, which have specific staff designated to provide intensive ILP services to youth who are 20 years old and other youth per the workers’ requests. Per the current information received, our 18 to 21 year old youth reside in every type of placement setting available ranging from traditional foster homes to their own apartments. Thirty-three percent of our young people over 18 reside in traditional and Therapeutic Foster Care settings and 28% percent reside in congregate care settings. Young people, without regard to age, receive the placement setting services deemed most appropriate by their ISP teams.

Credit Reports and Health Care Proxies

Credit reports are requested by county staff each year upon each youth’s 14th birthday, per PL-113-183. The results are shared with the young person and documentation of the results is recorded in their files. Social workers, county directors, foster parents and vendor/service providers have been advised at the Annual Permanency Conference, the Annual ILP Networking Conference, at meetings with the ACCA and FFTA groups. during ILP Regional Consultation and at the annual AFAPA Conference of the new provisions regarding the credit reporting and documenting efforts to resolve any issues on the youth’s credit reports. Youth are also provided training regarding the importance of maintaining good credit and responsible fiscal management. The youth were trained regarding how to achieve and maintain good credit and had opportunity to request their own credit reports during the 2016 Camp Life, summer youth conferences. Health care proxies are a new area of focus for the Department. They are encouraged with youth who have not identified permanency resources to speak on their behalf, should they become incapacitated. Individualized consultation regarding this matter will continue to be provided to staff.

Collaboration with other Private and Public Agencies

There have been several initiatives related to private and public agencies which will continue. The Independent Living Program works closely with Children's Aid Society to provide services and supports to older youth in foster care. We have developed great collaborations with the Alabama National Guard, Alabama Adoptive and Foster Parent Association, Alabama Department of Education, Alabama Reach, the Alabama Medicaid Agency, Alabama Department of Youth Services, the Child Welfare Collaborative Initiative, the National Social Work Enrichment Program, Foster Care to Success, Alabama Department of Public Health, Casey Family Programs and NSORO. These collaborations have yielded improved outcomes with regard to adoptions of youth, age 14 and older, improved educational outcomes, college retention and matriculation, an improved knowledge of psychotropic medication use and trauma-informed practice, and a focus on ensuring that older youth re-enroll in the Medicaid program. We have had the opportunity to coordinate services with Department of Youth Services crossover youth, provide training and education to our Tribal partners and Court Improvement Program staff regarding older youth issues. We have also had an opportunity to utilize a new permanency consultation model and prepare our young people for academic life beyond high school. We will be working to develop more comprehensive collaborations with Job Corps, the United States Armed Forces, the Department of Mental Health and the Alabama Department of Labor. A stronger and more defined partnership with Alabama Department of Mental Health regarding smooth transition would improve outcomes for our youth with serious mental health issues, reducing the numbers needing to be hospitalized and at risk of being homeless adults. Our work with the Armed Forces, Job Corps and the Department of Labor is meant to improve and provide improved options to a population of youth who may struggle with transitions post foster care.

We will also work to develop a partnership with Housing and Urban Development to decrease the number of homeless youth. There are several organizations around the state which focus on supporting youth as they exit foster care. Kids to Love, Youth Towers, My Father’s House, the BigHouse Foundation and Camp Hope all seek to serve young people statewide, with job training and preparation, housing assistance, hard services and supports to improve older youth well-being and avoidance of homelessness. Focus in this area would target those teens who participate in our traditional Independent Living apartment settings and youth needing to move out independently to better maintain stable housing by taking advantage of opportunities and programs offered by HUD. This collaboration will focus on the access to and availability of funding needed for this unique population of young people. We began work with Mobile in June 2017 on a project they have started in hopes to replicate the proposed housing model in other areas of the state.

We have worked closely with our Medicaid Agency to ensure that young people who are eligible for the extension of Medicaid coverage to age 26 are made aware of this opportunity. The information regarding the expansion was provided to all Department staff and they were advised to share that information to all eligible youth. We have coordinated training for our staff and youth making them aware of their eligibility and directing them to Alabama's Medicaid website to re-enroll for insurance coverage. Training has been provided to caseworkers and youth, and will be presented to county supervisors at
upcoming conferences in late June and mid-July, 2017. The information and link to the website is also on our Independent Living website. As of October 1, 2016, all young people who are eligible upon their exit from out of home care will be automatically converted to the Medicaid to 26 health insurance program. The Department has been working on an interface with the Alabama Medicaid Agency to ensure that all eligible young people will continue to receive this much needed service without interruption.

County Staff, young people, community partners and foster parents have received training regarding sex trafficking. We will continue to provide this training to all stakeholders to combat this issue. We are working with a local agency to develop a possible treatment/placement facility for young people in the state who have been identified as victims of human trafficking.

Services, supports and trainings have been provided to ILP staff and young people to address homelessness. The Department works in partnership with the youth homelessness prevention programs provided through Children’s Aid Society and Youth Towers. A partnership with Housing and Urban Development with the goal of securing a partnership to provide long-term, affordable housing for former foster youth across the state will be developed.

**Determining Eligibility of Benefits**
All youth aged 14 to 21 in the foster care system or receiving services through our Protective Service Program are eligible to receive services. Foster youth age 14-21 are eligible for all benefits and services. There are no restrictions for the use of CFCIP funding for foster youth residing outside of the state.

**Participation in National Evaluations**
The State of Alabama’s Independent Living Program will cooperate and participate in any and all national evaluations required regarding the effect of the programs in achieving the purposes of CFCIP.

**Education and Training Vouchers Program**
Our young people are supported with CFCIP monies allotted for Education and Training Vouchers through our partnership with Foster Care to Success. The Department works in partnership with Foster Care to Success to ensure that the total amount of educational assistance to youth does not exceed the total cost of school attendance. Foster Care to Success maintains a web portal which our young people and their caregivers, university officials and state office staff can access 24 hours a day, seven days a week. The young people apply online, the information is verified by our office, they submit all required documentation related to their institution and are awarded ETV funds based on their need. Foster Care to Success provides comprehensive support to include care packages, school supplies, and equipment. Our young people are required to check in with an identified staff member once monthly to report their progress. There were 169 young people participating in FY2017. The data collected by Foster Care to Success assists us in improving the provision of services to our young people. Current data shows that college and technical school graduation is an area of needed concern and focus. Our number of freshman enrolling far outnumbers our seniors near completion. We will work with our partners at the State Department of Education, the National Social Work Enrichment Program, Alabama Reach, Casey Family Programs and NSORO to improve our college completion success rate through better preparation for college and additional supportive services while participating in post-secondary education. Staff has been advised at all trainings to have their young people as early as their junior year in high school to complete the ASVAB. In our consultations moving forward, the focus moving forward will be improved permanent connections and support and increased financial support through tuition waiver. The Fostering Hope Scholarship legislation with the additional staff we have hired will have a positive impact on college success. We have worked closely with colleges and universities to ensure college success for our young people. When providing counties with funds for their ILP services, each are reminded that Appropriations Law precludes the use of Chafee funds to supplement the $5,000 per-year ceiling for a youth in the Chafee Educational and Training Voucher (ETV) program.

Alabama’s Youth participating in the Program received an average of $3357 per year. There are 169 current and former foster Youth participating in the program, attending 56 colleges, universities, training and technical schools. Chafee funds may be used for activities that are outside the scope of an institution’s definition of “cost of attendance,” and are not covered by the ETV program. Funds are also available for the Poarch Band of Creek Indians Tribe if they have youth in custody. In order to address the low completion/graduation rate, we are working in partnership with our ETV provider, Foster Care to Success, the Alabama Reach Project the National Social Work Enrichment Program, the Alabama National Guard, Kids to Love, KTech, The Alabama Department of Education, Career Coaches, Counselors and the Department of Labor to develop strategies to improve matriculation. Current and former foster and adopted youth began receiving funds to cover the cost of college tuition and all required fees in the fall of 2016. All young people who graduate while in foster care or were adopted from Alabama’s foster care system at age 14 or older are eligible to receive the college assistance up to age 26. There are 157 young people currently participating the Scholarship program.
Consultation with Tribes
We consult on a regular basis with our one Federally recognized Tribe, the Poarch Band of Creek Indians. Our DREAM Ambassadors spent a day on the reservation and presented training to the young tribal members. It is our goal to expand this partnership by planning an annual convening of our youth leaders and tribal youth leaders. The Tribe is an active partner in our Child Welfare Collaborative Initiative (CWCI) with full access to all information regarding services and supports available to young people. There are no restrictions with regard to the Tribal members accessing any benefits or services available to all other youth in the state.

CFCIP Program Improvement Efforts
Our plan will continue to involve youth. Our Youth Leaders (DREAM Ambassadors) meet once monthly during the school year and participate in camps, leadership trainings and state and local conferences annually. They set and develop goals based on information received from youth during their monthly meetings which occur in a different county each month. They provide training to their peers at their monthly meetings and serve as junior camp counselors for their peers at the summer camps/conferences. They develop strategies related to their goals and consult with ILP staff and our Children’s Aid Society partners to effect the change that they would like to see. Our focus on the youth voice will continue and will be enhanced by more leadership and training opportunities related to working with the Legislature and effective youth advocacy. Youth serve as Pages in our State Legislature for a week each year. A DREAM Ambassador participates as their representative each year. They use this opportunity to both represent their peers and to share their experiences in Foster care. This has been very well-received by our state lawmakers and we will continue to support this opportunity. As is typically the case, having the voice of an actual youth in person resonates with leaders and has been helpful in garnering global support for children in care.

CFCIP Training
We will continue to provide comprehensive, innovative and relevant training to our youth, providers, county and state staff, foster parents, judges and interested community stakeholders. We will conduct annual networking opportunities for ILP staff, providers and community stakeholders. We will continue to provide regional trainings to the county related to Independent Living policy and procedures and NYTD. We will provide online trainings as deemed appropriate using our LETS training system. We will improve our capacity to provide training upon request to counties and community stakeholders as staffing allows. Youth will be provided annual leadership and ILP training. Youth will participate in national conferences annually and in monthly trainings around the state.

Older Youth Input
Youth Development is the most integral part of the success of the Independent Living Program. It is our goal that our youth are sufficiently trained and prepared to deliver the message that all children in foster care want, need and deserve all the best the Child Welfare system can offer them with regard to permanency options, education, health care services and placement stability. Youth involvement in the development of policies and practices is viewed as key to addressing the needs of this population. Therefore, state level participation in the State Youth Advisory Committee (DREAM Council) is being designed to provide updates and gain input from the youth around key issues impacting permanency planning for older youth and ILP services. As a result the youth have organized a Youth Speakers Bureau to be available to speak to various key stakeholder groups to provide insight into how youth experience the system and provide suggestions to improve practice in engaging the youth population in permanency planning. This has involved speaking to Judges, County Administrators, foster and adoptive provider groups along with facilitating workshops at State conferences.

The State has hired two Youth Specialists who are Foster Care Alumni through a contract with Children’s Aid Society. These young people act as liaisons to the youth in foster care. Current and alumni youth have been engaged to provide presentations locally, statewide and nationally on the issues identified in the PIP specific to strengthening the engagement of youth, identifying the needs of youth, and strategies to support positive outcomes for youth. In FY 2016 the ILP DREAM Ambassadors provided training in Jefferson, Lauderdale, Cullman, Etowah, Talladega, and Madison Counties. The trainings included human trafficking awareness and prevention, social media and internet safety, ISP and court participation, credit reporting, self-advocacy, education and ETV, law enforcement, college and career preparation and strategic sharing. The DREAM Ambassadors participated on several GPS Panels around the State. They served on Youth Panels at Judicial Summits and our annual meeting with the Managers of Region 4 of the Children’s Bureau. That year, the DREAM Council hosted their 5th Annual Celebration of Scholars commending the accomplishments of the 118 high school graduates in the state in Lauderdale county. The 6th Annual Celebration of Scholars Celebrating both the 150 foster youth who graduated from high school or received their GED was held in Montgomery on the campus of Troy University on May 6, 2017.

Our youth continued to provide training to their peers, judges, foster parent panels and stakeholders across the State. Unduplicated persons totaling 464 were served by the ILP Program in partnership with our CAS ILP Team and our DREAM Ambassadors. Young people provided direct training at both youth camps held in July 2015 and in Montgomery, Jefferson, Tuscaloosa, Lauderdale counties, to complete their years’ service.
1. Help youth transition to self-sufficiency:
The number of foster youth in care 18 years and older has increased to 28.5%. This is consistent with the overall increase in our state of young people in out of home care in all age categories. It is encouraging that more of the young people are completing high school and transitioning to college, training programs and work. We have worked diligently to establish a partnership with the Alabama National Guard. The partnership has raised the young people’s awareness of careers, increase mentorship opportunities and increase the opportunities for positive permanent connections available through the armed forces. Staff, youth, foster parents, our Quality Assurance Committee and CWCI Team have all been provided information and have provided input regarding services and supports to our older youth, through dual degree program and vocational programs available at high schools across the State, training opportunities available through partnerships with Kids to Love and local employment agencies. During the fiscal year, the Program has worked to improve self-sufficiency outcomes through expanded collaboration with the Alabama National Guard, the implementation of the Fostering Hope Scholarship and partnerships with community partners, such as Casey Family Programs and Foster Care 2 Success to develop Communities of Hope to serve the youth beyond foster care.

All of our new partners have worked with us throughout the year, participating in all of our DREAM Ambassador meeting across the State. They have provided training at our 2016 Supervisors Conferences and our 2017 Strategic Planning Meeting and our 2017 ILP Networking Conference. We will provide training to the young people regarding the Reasonable and Prudent Parent Standard and continue to provide periodic review and monitoring through the NYTD data collection, case review and special studies. We will continue efforts to reduce the number of young people in congregate care by reviewing 25 young people each quarter and monitoring the progress of the first cohort, review October 2015 through February 2016. As noted above, the congregate care study has been expanded to include 53 additional youth for a total of 78 youth interviewed, as of this writing. Staff has been encouraged to increase supports to youth in congregate care setting, with the goal of returning them as quickly and safely as possible to a more family-like setting. As a result of this renewed focus on the safe reduction of our reliance on the use of congregate care, 30 young people have been stepped down to less restrictive and more family-like settings.

2. Help youth receive the education, training, and services necessary to obtain employment:
See chart below. The program’s goal is to help students attend, succeed, and graduate from post-secondary schools, ready to enter the workforce (Source Foster Care to Success). Alabama had 115 foster youth graduate from high school in 2015.
3. Help youth prepare for and enter post-secondary training and educational institutions, ETV Statistics:

NSEP (National Social Work Enrichment Program) is an initiative to engage youth around education and career opportunities through a six-week program in which youth stay on campus at a local university and attend workshops, do community work and experience and learn about campus life in preparation for career choices with a specific focus around social work. Since 2010, NSEP has graduated 209 participants. NSEP has had five former participants graduate college and several others currently attending. The Alabama ETV is a comprehensive student support system developed to help youth attend and succeed in post-secondary education. The program recognizes that funding to attend school must be coupled with the consistent and specific help and guidance that young people need to navigate the college experience and mature into confident, well-rounded young adults.

Care Packages:
In addition to ETV funding, AL ETV students receive three care packages during the school year, the packages are themed: Fall/Back to School, Valentine’s Day, End of the Year/Exams. Receiving Care Packages not only tells the students they are cared about but it sends a tangible message that the community recognizes them as hard working and deserving college students.

Toolkits
All AL ETV students receive ASP toolkits. These materials are specifically written to help foster youth manage and thrive in Independent Living specific to college life. Money management for college students includes understanding and managing student loans and grants, time management, health and nutrition, etc. Students leaving foster care may not understand the college culture, so the toolkits were developed to help them navigate in this new setting.

Scholarships and Internships- in 2014-2015 three Alabama students received a total of $12,000 in funding. Three participated in the Aim High summer internship program formerly known as InternAmerica. During the 2015-2016 school year four of our young people received $10,000 in scholarships provided through Foster Care to Success. In the 2016-17 school year, five Alabama young people received $11,049 in scholarships.

Provide personal and emotional support to youth exiting care through mentors and the promotion of interactions with dedicated adults: Alabama Department of Human Resources in the past has provided personal and emotional support through mentors and the promotion of interactions with dedicated adults. Currently the State does not have a mentor program. The Program has instead shifted to a combination of services and service models which will improve permanency outcomes and foster long-term success. The current model involves empowering youth to identify, enhance and improve relationships; their permanent connections through the Roundtable process; Youth Centered Roundtables; and relationship training provided by the Alabama Department of Public Health.

Attending and making academic progress towards completing a degree or certificate is the goal of the AL ETV Program. To help students progress academically, Foster Care 2 Success developed its Academic Success Program (ASP) so educational Mentors can provide targeted and specific academic and career guidance to students. The tiered program was developed to meet the needs of all students by recognizing that they range from struggling with basics to academically gifted, are incoming freshmen, through graduating seniors. ASP offers students mentors who provide moral support and consistently focus on the students’ academic goals, progress and success. Students receive resources based on their individual profile, including: parenting, test-taking, time management, career planning, employment readiness, access of on-campus resources, and others. By reviewing each student’s academic transcript, ASP identifies those who
are failing classes or are in remedial classes and works with them throughout the semester to help them develop the skills and means to pass and progress academically.

5. Provide financial, housing, counseling, employment, education, and other appropriate support and services to former foster care recipients between 18 and 21 years of age to complement their own efforts to achieve self-sufficiency and to assure that program participants recognize and accept their personal responsibility for preparing for and then making the transition into adulthood: Youth of all ages are entitled to receive age-appropriate services, including opportunities to learn Independent Living skills and receive unique services as determined by the child and family planning team. Youth may stay in care by State of Alabama law until their 21st birthday. Aftercare assistance is available to youth who leave care between their 18th and 21st birthday in the form of financial assistance or services. Alabama provides each youth exiting the foster care system with a one-time stipend of $1,000.00 for startup costs. Aftercare financial assistance and support services continue to be available to youth who leave the system prior to their 21st birthday. For youth who leave care on or after their 18th birthday, policy allows for the youth to re-enter foster care if the need arises. If the youth needs to re-enter foster care or remain in his own home, financial, housing, counseling, employment, education and other appropriate support and services are also to be provided as needed until the 21st birthday. Room and board payments are available for youth who choose to remain in care after their 18th birthday or for those who leave care after their 18th birthday on a case-by-case basis. County staff must make such requests to their State ILP Specialist to ensure no more than 30% of the State funds are used for room and board. Room and board funds may be used to assist with dorm room deposits or to make limited payments on rent when a plan is in place to ensure the youth will continue to have housing available after the assistance is no longer available.

Though total number of youth in foster care has increased 8% since the same reporting period last year, the number of 14 to 21 year old youth in our foster care system continues to decline. However, we experienced our smallest decline in the population of one percent between FY2015 to the same time period in FY 2016. Permanency outcome data will continue to be closely monitored.

6. Make available vouchers for education and training, including postsecondary education, to youth who have exited foster care due to their age: See chart under #3, page 66.

7. Provide services to youth who, after attaining 16 years of age, have left foster care for kinship guardianship or adoption. What is available to this population involves financial subsidies to the family as well as eligibility for ETV to provide educational support for youth to access post-secondary education. The adoptive parents and caretaker become responsible for the youth upon exit from care. Services provided by our Alabama Pre and Post Adoptive Services Program are also available to these youth free of charge. Youth and their families may also participate in the free family support services provided by our extensive network of Family Service Centers. Foster youth who have exited foster care to adoption after age fourteen are now eligible for our Fostering Hope Scholarship, which provides eligibility up to age 26. The Alabama Foster and Adoptive Parents Association offers scholarship opportunities for young people exiting foster care. There are also supportive services offered to these youth by BigHouse Foundation, Kids to Love, and Youth Tours.

NEW CFCIP PROGRAM PURPOSE FOR 2016 APSR:
8. Ensure children who are likely to remain in foster care until 18 years of age have regular, ongoing opportunities to engage in age or developmentally-appropriate activities as defined in section 475(11) of the Act.

We will continue to provide supportive services to those youth likely to remain in foster care until age 21. We will work with all stakeholders, community providers, AFAPA and foster youth to develop policy to encourage participation in age and developmentally-appropriate activities.

The number of foster youth aged 14-21 decreased only 1% from the same reporting period in 2015. As if March 31, 2016, our older youth, age 18 and older, represent 28% of our overall ILP population. There have been no changes in the percentage of young people 18 and older choosing to remain in foster care. Young people who choose to remain in foster care past age 18 experience that process without interruption in services or supports and reside in placements ranging from traditional foster homes to college dormitories. These young people are strongly encouraged to take advantage of education, training and vocational opportunities available to them while encouraging their participation in their transition planning. Staff, youth, foster parents, the Department’s Quality Assurance Committee and CWCI Team have all been provided information and have provided input regarding services and supports to our older youth. During the fiscal year, the Program has worked to improve self-sufficiency outcomes through expanded collaboration with the Alabama National Guard, the implementation of the Fostering Hope Scholarship and partnerships with community partners, such as Casey Family Programs and Foster Care 2 Success to develop Communities of Hope to serve the youth beyond foster care.
FIVE-YEAR PLAN: 2015 – 2019, OBJECTIVES

GOAL: Independent Living services will be provided to all youth ages 14-21 as the means by which to successfully transition into adulthood with appropriate supports and services. All Youth, who are currently in the planning responsibility of the Public Child Welfare system, will receive the services and supports needed to become successful interdependent adults.

1. OBJECTIVE
The Independent Living Program will conduct, coordinate, and provide consultation and training for all county social workers with ILP responsibilities, community providers, transitional and Independent Living providers, congregate care providers, foster parents and Federally recognized Tribes and community stakeholders to develop programs to promote successful outcomes for youth.

The Office of Foster Care and Independent Living will work to expand support to counties in building capacity to understand and serve older youth needs through funds available through Chafee. There is currently one State Office staff serving as a Specialist for our Program. Having one staff person serving 67 counties is a challenge. We will continue to seek to expand the program. Adding additional staff will enhance our ability to serve the counties, provide a dedicated Specialist to focus on our NYTD Data Collection, and enhance our ability to assist those youth who are exiting our System of Care due to their age. We will continue to provide annual trainings and regional consultations for state office and county staff, Tribal staff, foster parents and community stakeholders. In order to enhance our capacity to properly consult and train around permanency and transition goals, IL Specialists will complete one site visit per quarter to assess current practices and programs provided to older youth served by the transitional and Independent Living programs and congregate care facilities. We will use the feedback provided to the county site to include recommendations and strategies to improve outcomes through the IL program. With strong support from our partners, we have been able to provide training in both a large and small group settings utilizing The ILP Regional Consultation Model coupled with the Annual ILP Networking Conference.

The Annual ILP Networking Conference was held April 4-6, 2017 at Fort McClellan as a part of our partnership with the Alabama National Guard. Staff members and 15 older youth service providers were provided training information regarding PL-113-183, College Readiness, Effectively Working with Foster Parents, Innovations Related to Working with Older Foster Youth, Internet and Social Media Safety, Permanency for Older Youth, Human Trafficking Services and Effective Strategies for Serving Children in Congregate Care. The ILP Regional Trainings began in November 2016 in Montgomery County and and concluded in April 2017, with ILP consultation being provided to all 67 counties.

The congregate care study was expanded to include 53 additional youth: for a total of 78 youth interviewed, as of this writing. The interview has remained consistent and the Office of QCWP has joined the Office of Foster Care in conducting the interviews, providing case consultation and processing the data. The trends related to positive permanency are encouraging as 30 youth have stepped down to less restrictive placements, post our initial contacts. There are concerns related to the five youth who have required more restrictive placement. The Office of Foster Care and ILP and the Office of QCWP will continue to work jointly to safely facilitate appropriate transitions for these young people. We will continue to monitor the progress of our youth in congregate settings and will expand the process to youth currently in intensive residential placement.

2. OBJECTIVE
Safely reduce the number of Youth who have APPLA as a permanency goal.
Improved policy regarding positive permanency, focused transition planning, placement stability, a focus on positive permanency through family, sibling and community connections are the keys to reducing the numbers of Young People who have a permanency goal of Another Permanent Planned Living Arrangement. We partner with community stakeholders and our ILP Youth and Alumni, develop a Transition Toolkit that not only addresses the global needs related to safety, health, transportation, education and the financial competency of our Youth, but one that focuses on individual goals of Youth with emphasis placed on their input to the overall transition plan. This will also be a focus on quarterly monitoring of transition plans for older youth. Improving placement stability through the use of appropriate matching and assessment tools is essential. The DREAM Council has the development of a placement assessment tool as a goal of their work this fiscal year. Appropriate matching has been identified as a barrier to their overall success. We will work with our Foster Parent Association to deliver additional training to those parents who are interested in serving older Youth and seek their input in the development of a placement matching tool. We will emphasize the use of the permanency tools delivered in the Achieving Permanency through Roundtable, formerly Permanency Roundtables consultation model supported by our partnership with Casey Family Programs. That training was successfully delivered to all 67 counties. We will also focus on
tools to support older Youth in their current placement, reducing placement moves and enhancing their ability to manage and mitigate crisis. We will partner with our member agencies, Office of Adoption, AFAPA, CAS, the Poarch Creek Band of Indians and our DREAM Council to develop additional training for all stakeholders serving our Youth in an effort to improve placement stability with an emphasis on the changes and development typical to teens based on current research. Focus on increasing responsibility and accountability balancing safety, crisis stabilization and increased autonomy regarding foster parent decision making and permissions will be essential. We will train Youth regarding the importance of permanency at our monthly and annual Youth trainings. We will also employ the Youth Centered Roundtable process to improve positive permanency outcomes. Youth will be provided all documents as outlined in PL-113-183 at the time of discharge.

The number of youth in foster care with APPLA as a primary permanency goal has had its most significant decrease related to the PL-113-183 legislation. The Program will continue to provide consultation and support to reduce the APPLA permanency goal through increased support of young people related to the Reasonable and Prudent Parent Standard, recruitment and development of therapeutic-style foster/adoptive placements, and specialized older youth ISP planning and support. As described above, though the number of youth 16 to 21 has increased, the number with APPLA as a permanency goal has decreased again this fiscal year by nearly 3%

3. **OBJECTIVE**
   ILP teens will have access to information about policies and program development along with activities and opportunities that will be supportive as youth transition to adulthood. Youth Leadership will be promoted and enhanced. The DREAM Council will receive and provide leadership training to their peers on a monthly and annual basis. The State ILP staff will assist Children’s Aid Society, (ILP partners) with providing relevant and appropriate content for our www.ILConnect.org. This website will provide pertinent information and helpful tips for teens regarding foster care policy, educational and vocational information, scholarship opportunities, peer achievements, information regarding camps and conferences, NYTD portal, policy relevant to foster parents, Independent Living and transitional living providers, congregate care providers and the community at large. The site is regularly updated. Our peer to peer training model has yielded success. Youth have been empowered through training and advocacy to participate in ISPs and Judicial proceedings.

4. **OBJECTIVE**
   Improve educational outcomes for ILP Youth partnering with our education systems to provide additional supports and services.
   We have continued to focus on positive educational outcomes for our older foster youth in out of home care. The Children’s Aid Society, NSEP, NSORO and Alabama Reach and ASU Connect Programs have all worked to promote higher education, increase interest in trade and technical schools, and dual enrollment in high schools. The Kids to Love Foundation, which has focused on positive foster youth outcomes, has also expanded their services to include intensive job training and placement services exclusively for former foster youth. KTech has provided training to three former foster youth, all of whom successfully completed the program and were employed within 22 days of completion. The Fostering Hope Scholarship was implemented Fall 2016, with all eligible current and former foster and adoptive youth receiving scholarships to cover the cost of their tuition and fees to any state, public two or four year institutions. Registration for the program began May 2016. Eligible young people began submission of applications through our Foster Care 2 Success website on July 1, 2016. There are 943 eligible youth. The Department initially provided two trainings to college and university partners, one in September 2015 and a second in May 2016. Foster Care 2 Success will provide online and webinar style trainings to foster and adoptive parents, DHR staff and community stakeholders.

5. **OBJECTIVE**
   The Department will enhance its system to track youth exiting care due to age from the System of Care in order to meet National Youth in Transition Data requirements to monitor outcomes for youth transitioning out of care. Enhanced aftercare services will be available to all teens eligible and served for participating in the ILP Program.
   The Independent Living Program is currently developing a plan to continue to support around activities and monitoring of NYTD requirements. NYTD information gathered will be used to develop needed services and to craft more intensive aftercare services based on recent studies regarding the full maturation of young adults occurring at age 26. The Department will continue to monitor trends in youth who request or need aftercare services beyond our monitoring period and work to develop resources in communities and connect youth to available supports. This objective continues to present challenges as young people exit care due to their age but refuse our requests for information that would allow them to participate in the NYTD survey. We have sought and will continue to seek input from our ILP teens at the summer camps and conferences and at our DREAM Council meetings to enhance our ability to stay connected with this group of young people to not only improve outcomes, but also their relationship with the Department.

The Program provided effective youth engagement training at both the 2017 ILP Networking Conference and the 2017 Permanency Conferences. An ILP Specialist was assigned to the NYTD project which resulted in improved outcomes in
both the initial baseline population successfully completing the survey at age 21 and the subsequent new 17 year old cohort population participation. Alabama will participate in a NYTD review in August 2017.

6. **OBJECTIVE**
The Department considers all children as “Alabama’s Children” without regard to race or culture. The Department continues to strengthen services to Indian youth who reside on reservations and need access to benefits and services under the Chafee Foster Care Independence Program. Families and tribes are included in the ISP for the child when the Department is working with Indian youth living off the reservation and Independent Living services are being provided. Indian youth living off the reservation have access to services and benefits under the Chafee Foster Care Independence Act as would any other child. The Department will collaborate with all tribal entities located in Alabama to provide information and obtain input in the support of Indian youth and their families. See also under Item 38.2, “The Department’s goals in regards to work with the Poarch Band of Creek Indian Tribe and other Federally recognized tribes located outside the state”, which is located in the report section of the APSR.

**WELL-BEING Outcome 1 - Families have enhanced capacity to provide for children’s needs**

**Item 12. Needs/services of child, parents and foster parents**

**Purpose of Assessment:**
To determine whether, during the period under review, the Agency (1) made concerted efforts to assess the needs of children, parents, and foster parents (both initially, if the child entered foster care, or the case was opened during the period under review, and on an ongoing basis) to identify the services necessary to achieve case goals and adequately address the issues relevant to the Agency’s involvement with the family, and (2) provided the appropriate services.

**2018 APSR ASSESSMENT**
Skills around parenting and child development through services provided by the Behavioral Analysts has continued. These services have shown much success as documented in the Tools of Choice program. The work in the TOC courses was published in 2013, based on research for the time frame of 2006 – 2009. A synopsis of the data from that research, which confirms the success of keeping children in their homes, is located in Appendix 8. In addition, Family Service Centers continue to offer a range of services to families throughout the state (see Appendix 9).

Fatherhood programs (through ADCANP) continue to provide needed services to fathers throughout the state. During the 2015-2016 program year, 20 fatherhood programs were funded. One new program was established in Macon County during the 2017 program year for a total of 21 programs across the state. The Fatherhood Programs are funded with TANF dollars through an Interagency Agreement (MOU) between DHR and ADCANP (Children’s Trust Fund). All TANF Fatherhood programs are funded through a non-competitive process. Each program focuses on (1) job development/placement and (2) parent education/support. Referrals to the program are made primarily via court order (child support court) as an alternative to incarceration. The non-custodial parent (NCP) is assessed immediately upon referral (by a case manager). The NCP must attend weekly parenting classes and job development components as directed by the case manager. These components may include, but are not limited to: Job placement, GED classes, short-term skills training, job readiness classes, job search, drug rehab, career center registration, and other adult education/training components. The goals are to help the NCP develop the skills needed to financially and emotionally support their children. Participation is mandatory. Participants are referred to the court if they fail to comply. Failure to participate often results in incarceration for failure to pay child support.
Staff from the Office of QCWP provide individual county coaching and mentoring around the ISP, and they have also conducted specific ISP training. The Child Welfare Judicial Summits; the Supervisors Conferences, the Permanency Conference and other venues over the last year have been utilized to specifically teach DHR staff and partners about the ISP process; policy; the actual meeting(s), etc.

In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for ISP was 4.82 (cf to 2016–4.91; 2015–4.93; 2014–4.80; 2013–4.69; 2012–4.80; 2011–4.90; 2009–5.03).

**Item 13. Child/family involvement in case planning**

**Purpose of Assessment:**
To determine whether, during the period under review, concerted efforts were made (or are being made) to involve parents and children (if developmentally appropriate) in the case planning process on an ongoing basis.

**2018 APSR ASSESSMENT**

The Specialists conducted a behavioral parent training that proved effective in improving the skill performance of foster caregivers and biological parents of dependent children during role-play assessments. To date, however, no studies have examined the impact of behavioral parenting skills training on child placement outcomes. Behavioral Analysts conducted a quasi-experimental archival analysis of the case files of 171 biological parents who completed a behavioral parent training program and 171 control families who did not participate in the program but were matched on the county of service and time of Child Protective Services involvement in Alabama. Results indicate that parents were not only able to demonstrate use of the new skills after behavioral parent training, but that skill acquisition was associated with better placement outcomes for their children compared to control families and a greater number of closed cases for the state service-delivery system. A copy of that analysis is available as needed.

It will be important to continue to strengthen the knowledge base of line workers regarding developmental disabilities, as well as their awareness of community resources that are available to assist children and families to deal with these issues. Additionally, finding ways to facilitate and promote networking among (and between) related/foster care givers and Department staff will enhance the work being done in this area. Another way to promote improved outcomes in this area will be to continue to focus on ensuring that the membership of county QA committees is reflective of varying disciplines (e.g. law enforcement, educators, etc.) as well as the community at large.

Through the OQCWP record review process and subsequent feedback, attention has been focused on strengthening the ISP process. There continues to be feedback around ISP’s and what is needed to strengthen the planning in the cases reviewed. The Office of QCWP in 2016/2017 has implemented a Continuous Quality Improvement Process that will build capacity around the Comprehensive Family Assessment and the Individualized Service Plan. OQCWP will assist in ensuring this process is carried out by providing support to counties through random record reviews, supervisor capacity building and support, peer reviews, support of the County Improvement Plan prep work and meetings, and the County Bi-Annual Self Assessment, and individual working agreements with each County Director and Supervisor staff. OQCWP has 1 Program Manager, 2 Program Supervisors, and 8 Program Specialists. QCWP has reviewed a total of 1,500 child welfare cases during the 20% review process, in a total of 10 counties in the CQI process. There are 10 more counties scheduled for review in the 2017 year, and the projected number of cases to review is 1.200. *Counties will continue to be added and reviewed based on the CQI process.*

**Continuous Quality Improvement Process (CQI):**
The Office of QCWP, in partnership with The Office of Quality Assurance has initiated a Continuous Quality Improvement Process, with the intent of improving practice across the State and monitoring for outcomes. As part of the CQI process
QCWP will complete a 20% random record review six months following the State QA review. Thus far the key areas identified in the CQI process are engagement/assessment, understanding of protective capacity/ safety, ISP’s, and ILP. QCWP will address these key focus areas in the County Improvement Plan.

**Review Tools:**
At the time of the review, Directors and Supervisors are provided a review tool on each case reviewed. The Director/Supervisors are expected to follow through with the recommendations to ensure best case practice and child safety. The CPS and Foster Care review tool captures type of case, case name, worker/supervisor name, child name, child age, date the case was opened, reason case opened, safety/well-being, family assessment, ISP, Education, Narrative/Contacts, ICPC, additional foster care information (MEPA, ASFA, Permanency, Connections for after-care, court hearings, placement, visitation, and siblings placed together) and the final recommendations. The CA/N and Prevention Review Tool provides case name, type of case, worker/supervisor name, Intake information, preparation for initial assessment, documentation/interviews, analysis/decision making, safety, strengths and recommendations, and reviewer gives opinion if child is safe.

**Summary/Report:**
After every 20% random record review a summary of the review tools is provided to the county within 30 days. The record review report identifies strengths and needs in each area of child welfare practice. The report condenses recommendations that are provided in the review tool and how the areas of need should tie back to the County Improvement Plan.

**67 County Improvement Plans Reviewed or Completed:**
Directors in each county have met with a Child Welfare Practice Specialist in regards to their County Improvement Plan and the key focus identified in their recent reviews. The Specialist works with the county director and supervisors to ensure the areas needing improvement are in the CIP. The CIP will be monitored for success in these key practice areas.

**67 Working Agreements Completed:**
As part of the reset in 2016/2017, QCWP has met with each county director and developed a working agreement based on primary focus areas identified in the County Improvement Plan. This agreement is based on a plan to improve practice and clearly identifies the role of the practice Specialist. The role of the Specialist is to participate in random record reviews, provide planned/purposeful technical assistance, and supervisor capacity building.

**Supervisor Capacity Building:**
The goal is to build capacity within supervisors to improve casework, ensure adherence to policy, and support retention of staff. Supervisory Management Classroom Training was provided to all Supervisors in the State and QCWP will follow through with implementation of the training. Supervisors will understand the importance of worker/supervisor conferences/working agreements, how to utilize ERD (Electronic Distribution Reports), how to review a case using the child welfare practice review tool, accountability, time management and self-care among others.

2016-2017 OQCWP Program Specialists are collecting and using data on well-being to focus on areas of need, and provide support through the working agreement in regards to how to best address those needs in the County Improvement Plan. Random Record Reviews will be conducted in these counties and training and supportive work will focus on the needs identified from the reviews.

---

**Item 14. Caseworker visits with child**

**Purpose of Assessment:**
To determine whether the frequency and quality of visits between caseworkers and the child(ren) in the case are sufficient to ensure the safety, permanency, and well-being of the child(ren) and promote achievement of case goals.

2018 APSR ASSESSMENT

Caseworker Visits With Child
In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Caseworker Visit with Child was 5.32 (cf. to 2016 - 5.25; 2015 - 5.20; 2014 – 5.24; 2013 – 4.69; 2012 – 4.80; 2011 – 4.90; 2009 – 5.03).

It should be noted that Alabama calculates caseworker visit data on a month by month basis vs. the Federal method, i.e. calculating all 12 months of a fiscal year. The Department captures caseworker visits using FACTS. Workers are required to register their contacts with children in out-of-home care every month. The information captured on FACTS relative to children in out-of-home care is used to report information to HHS/ACF in the AFCARS report. Alabama chose to use a sampling methodology when reporting Federal caseworker visit data for FY2008 – FY2014. The Children's Bureau provided a sample of children from the AFCARS submissions from which calculations are determined. Beginning in FY2015 and continuing for FY2016, the calculations were based on our total applicable foster child population taken from our AFCARS Submissions. A Caseworker Visit Report is submitted each year. The data are as follows:

Alabama standards for Meaningful Caseworker Visits include children in foster care, homes of relatives, emergency shelters, residential facilities, childcare institutions and pre-adoptive homes as well as children in ICPC placements. Quality Caseworker Visits continue to be consistently made each month and planned through the ISP process to include scheduled and unannounced visits to the child’s living environment. Visits include exploration of goals and examination of any changes. Workers are supportive and prepared to deal with any changes or challenges through individualized assessment and skill building so that the child and family feel prepared and safe to explore both known and new opportunities. Visits are carefully documented with plans for follow up and continuing ongoing assessment of strengths and needs. Caseworkers continue to contact children and families through telephone calls. Visits to children in other settings may occur to provide opportunities for private discussions. Visits to parents and caretakers may also occur in other settings for the same reason, however these types of visits in no way take the place of the required face to face in home monthly visits. When the goal is reunification, the workers continue to visit parents and caretakers monthly where they live. Caseworkers are able to assess strengths and needs on an ongoing basis and they are able to identify these through the ISP process to support the child and family in meeting their goals. Workers visit foster homes, related homes, pre-adoptive homes and other providers on a monthly basis at their location or residence. These visits are scheduled or unannounced and may occur when visits to the child are made. Documentation in the record includes narrative that reflects the substance and quality of casework. It includes monitoring of child’s safety and wellbeing, engagement of birth and foster parents in development and involvement of the ISP, assessment, of permanency options on an ongoing basis, monitoring progress and helping children to perceive their wellbeing is a priority to the caseworker.

The Office of QCWP will continue to provide training to County staff in regard to Meaningful Caseworker visits. The Practice Specialist staff have incorporated Meaningful Casework Visit Training with ISP and CFA training, as best practice is that
these should flow seamlessly in the ISP process. Practice Specialists will coach and model to County Supervisors in training County front line staff to understand the importance of the meaningful visits with children and families.

**Use of Caseworker Visit (CW) Funds (See also Training Plan, Checklists)**
In the State’s Training Plan, which has been submitted, further details are provided on the initiatives listed below, with the exception of item twelve (12), which is related to equipment purchased to enhance the training of child welfare staff.

**Tools of Choice Parenting Program**
The Tools of Choice Parenting Program is designed to help strengthen the parent-child relationship in order to preserve or reunify families or help the child to be accepted into a permanent living situation. The program is offered in five areas of the state. One area is served through a Memorandum of Agreement with Auburn University. Three areas are served by employees of the Department and one area is jointly served by the Auburn employee and a state employee. This program has been so successful that it has been replicated through a Memorandum of Agreement with the University of South Alabama. All classes are taught by Specialists. There are five, three-hour classes in each session. Biological, foster and adoptive parents and other caregivers are taught behavior management tools. Classes are also provided for DHR staff. The parents/caregivers/staff learn how to focus on the child’s desirable behaviors by modeling the behaviors they would like to see more often and motivating the child to do those by reinforcing the desirable behaviors. After the parents/caregivers learn the tools, they are then observed using the skills in their homes. There are three to five in-home sessions for each family. The Specialists work very closely with each parent/caregiver so that the skills are mastered while using them with their own children. The outcomes of the original research have been published and demonstrated as contributing to increased safety, permanency and case closure (see Appendix 8). The program is regularly offered to caseworkers to directly support the families they serve and refer to the program as well as improve case practice decision making. See Training Checklist in the Alabama 2018 Training Plan.

The critical nature of family relationships has been reiterated many times with staff at every opportunity; including onsite case reviews from Specialists, and trainings such as Permanency andSupervisory Conferences. OQCWP will provide support through the CQI process and support to County Supervisors and Staff. CFA, ISP, and Meaningful Caseworker Visit training is provided by the Specialist. A renewed focus has been placed on the importance of engagement with families, and how it ties into the ongoing assessment of the families’ strengths and needs. OQCWP also has on staff a Board Certified Behavioral Specialist (BCBA) who provides support to parents and caregivers around the child’s behavior and ways to modify behavior. This is achieved through the Tools of Choice Parenting Program and Individual Referrals that are received from county workers. The BCBA also oversees two fellowship positions and interns from two major Alabama Universities. These fellowship positions and intern positions are an important aspect of the focus on engagement of families that will lead to the best outcomes, in line with policy and best case practice.

**Item 15. Caseworker visits with parents**

**Purpose of Assessment:**
To determine whether, during the period under review, the frequency and quality of visits between caseworkers and the mothers and fathers of the child(ren) are sufficient to ensure the safety, permanency, and well-being of the child(ren) and promote achievement of case goals.

**2018 APSR ASSESSMENT**
Specialists continue services within the OQCWP relative to work with parents. Their supports include individual consultation with families to assess the need for behavioral services, helping the parents manage the child’s behavior in the home, and conducting a five-week parenting training for the parents. Their services show success as documented through the Tools of Choice Parenting Program outcomes. These classes are provided to any caregiver of a child involved with the Department of Human resources to include relative, biological parents, foster parents, and adoptive parents. Parents learn seven core skills to appropriately manage the behavior of a child who has experienced trauma.
The OQCWP continues a record review process providing feedback with a focus on strengthening the ISP process. They assess all areas of child wellbeing and recommendations are made. Specialist support continues to be offered to counties on specific cases and training offered to counties as needed and requested. Feedback is provided directly to the county by the use of a review tool being provided to the Management Team of Family Services and the County Director to use to enhance capacity and skills to their staff. The Specialists continue to conduct behavioral training that proves effective in improving the skills and performance of foster caregivers and biological parents and other family members of dependent children during role-play assessments. Through continued analysis of the program we are confident that further use of these analysts will indicate that parents are able to demonstrate use of the new skills from the training as well as skill acquisition associated with improved placement outcomes for their children. Efforts to strengthen line workers’ knowledge base regarding developmental disabilities continue, and our work to promote awareness of community resources that are available to assist children and families continues to be strengthened. Networking with other agencies and providers continues to prove essential in accessing these important resources and services.

In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Caseworker Visit with Birth Parent/Relative was 5.07, (cf to 2016 - 5.00; 2015 – 4.96; 2014 – 5.24; 2012 – 4.87.

See also: WELL-BEING OUTCOMES 1, 2 & 3 – STAKEHOLDER COLLABORATION

WELL-BEING Outcome 2: Children receive appropriate services to meet their educational needs

Item 16. Educational Needs of the Child

Purpose of Assessment:
To assess whether, during the period under review, the Agency made concerted efforts to assess children’s educational needs at the initial contact with the child (if the case was opened during the period under review) or on an ongoing basis (if the case was opened before the period under review), and whether identified needs were appropriately addressed in case planning and case management activities.

2018 APSR ASSESSMENT
In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Education, was 5.23 (cf to 2016 - 5.22; 5.08 in 2015, 5.03 in 2014, and 5.01 in 2009 (ratings on Education have not been requested each year).

Assessment of educational needs for children continues through record reviews and child-specific directives and consultation conducted by OQCWP. Workers are prompted to know the child’s grade level and reading level, and to monitor their progress through the ISP. Cases with outstanding examples of advocacy are highlighted such as ISP’s held jointly with IEP’s, holding ISP’s at school to encourage more education participation, and communication with teachers through emails and telephone calls. This is encouraged through every opportunity for more consistency across the state.

WELL-BEING Outcome 3: Children receive adequate services to meet their physical and mental health needs

Office of QCWP

Item 17. Physical Health of Child

Purpose of Assessment:
To determine whether, during the period under review, the Agency addressed the physical health needs of the children, including dental health needs.

QA Baseline: 98%  QA Benchmark #1: 94%
5 Year Goal: 99%  QA Benchmark #2: 96%
Interim Goals:
FY 2015 98.1%  QA Benchmark #3: 95%
FY 2016 98.3%
FY 2017 98.5%
FY 2018 98.8%
FY 2019 99%
Total 99%

2018 APSR ASSESSMENT
In (approximately 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Physical Well-Being, was 5.43 (cf. to 2016 - 5.48, 5.41 in 2015, 5.27 in 2014, and 5.36 in 2009 (ratings on Physical Well-Being have not been requested each year).

Proper focus on the physical health and well-being of our children and families is stressed by Specialists across Family Services and the Quality Assurance Division. As part of the CQI process QCWP completes a 20% random record review six months following the State QA review. At the time of the review, Directors and Supervisors are provided a review tool on each case reviewed. The director/supervisors are expected to follow through with the recommendations to ensure best case practice and child health and well-being.

The CPS and Foster Care review tool steps out type of case, case name, worker/supervisor name, child name, child age, date the case was opened, reason case opened, safety/physical and emotional well-being, family assessment, ISP, Education, Narrative/Contacts, ICPC, additional foster care information (MEPA, ASFA, Permanency, Connections for after care, court hearings, placement, visitation, and siblings placed together) and the final recommendations.

The CA/N and Prevention Review Tool provides case name, type of case, worker/supervisor name, Intake information, preparation for initial assessment, documentation/interviews, analysis/decision making, safety, strengths and recommendations, and reviewer gives opinion if safety, permanency and child well-being is appropriately addressed.

Item 18. Mental/Behavioral Health of the Child

Purpose of Assessment:
To determine whether, during the period under review, the Agency addressed the mental/behavioral health needs of the children.

QA Baseline: 77%  QA Benchmark #1: 67%
5 Year Goal: 79%  QA Benchmark #2: 74%
Interim Goals:
FY 2015 77.25%
FY 2016 77.5%
FY 2017 77.75%
FY 2018 78.25%
FY 2019 79%
Total 79%
2018 APSR ASSESSMENT

In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Emotional Well-Being, was 5.07 (cf to 2016 - 5.12, 5.05 in 2015, 4.93 in 2014, and 5.06 in 2009 (ratings on Emotional Well-Being have not been requested each year).

State staff review hundreds of cases and have greatly supported improving the behavioral health of children in our custody and those at risk. The Behavioral Specialists continue to provide significant support to counties in assisting them to meet the mental health needs of our children. OQCWP random record reviews continue to provide counties with assessment of progress in meeting the physical and mental health needs of our children and families.

OQCWP will work in conjunction with Family Services to address the emotional needs of children in congregate care, and what is necessary to step the foster child down into a less restrictive environment. Seventy-six children in congregate care have been assessed for step down and 151 more children in congregate care are currently being assessed for step down. The counties will receive this detailed information and data that will provide insight on what is necessary to step these children down from congregate care.

The Agency will continue to improve and support these factors by:

- Family Services staff conducting and coaching effective Individualized Service Plans to address appropriate needs of the families that we serve.
- QCWP staff training county staff on the ISP process.
- One element of support in regard to meeting our children’s emotional needs is an expectation that the counties monitor their medications including, but not limited to, psychotropic medication. This includes the dosage and the effects that these medications have on our children. Additionally, ISP’s are required to reflect an assessment of the child’s emotional needs and the referral to appropriate mental health or other services if indicated.
- Regarding meeting the physical needs of our children, the county agencies will receive coaching and policy reminders or development around their responsibility to monitor all screening, including EPSPT screenings to ensure that all preventable immunizations have been completed on a timely basis and that any other health concerns are addressed.

* This is different from QSR data, and reflects the frequency with which a given Best Practice Indicator (from the 51 indicators) is determined to be a strength in onsite QA reviews.

WELL-BEING OUTCOMES 1, 2, & 3 – STAKEHOLDER COLLABORATION

ADCANP will continue to promote the educational and job opportunities through DHR on the county level. ADCANP-funded programs will also assist in educating DHR caseworkers and the local court system of the benefits of the TANF funded programs. Below is a summary of individuals served through the TANF program:

* Data as of April 2017

DHR continues the work with the Specialists Fellowship Program at Auburn University and the University of South Alabama. The collaboration with these two schools supports our work with our emotionally and behaviorally challenged children. Also, the Specialists continue to review management plans upon special assignment on a case by case basis. Casey Family Programs has collaborated with Jefferson County DHR and the Department of Child Abuse and Neglect Prevention to support a volunteer mentoring program that will offer support and teach parenting skills to new mothers in or at risk of entering the child welfare system who have children birth to age three.

See also Appendix 10: Feedback from State QA Committee and CWCI Team
**Systemic Factor I: Statewide Information System**

**Item 19. Statewide information system**

**2018 APSR Assessment**

Alabama implemented an automated child welfare information system, known as Family, Adult and Child Tracking System (FACTS) statewide in January 2009. The system has the capability to comply with Federal reporting requirements. Federal submission from FACTS includes: yearly NCANDS submissions and Federal Caseworker Visits Reports, and bi-annual AFCARS and NYTD submissions. FACTS captures and reports all AFCARS-required foster care and adoption data elements. An AFCARS review in April 2011 resulted in an AFCARS Improvement Plan that continues. Management and statistical reports are produced for all program areas and are available to all FACTS users. Ad hoc report capability has been achieved to provide weekly AFCARS data for foster care and finalized adoptions. Children in permanent custody with a plan of adoption are tracked through the adoption process. Analysis is provided around permanency achievement as well as entry into care from queries developed. A permanency achievement query provides valuable information used in the case review system. Specific safety and permanency queries are produced for evaluation of program and staff effectiveness. Many queries have been developed to address data needs within the Agency and to assist stakeholder and Agency partners with data requests, such as the Administrative Office of Courts, State Department of Education, Department of Public Health, Drug Court Assessments, The Alabama State Legislature, Alabama Network of Advocacy Centers, Alabama District Attorneys Association, VOICES (Alabama Kids Count) and Casey Family Programs initiatives. Monthly Data is also provided to support the work of the Statewide System Reform Project, which strives to expand and improve Family Drug Courts.

Two independent ACCESS data bases are maintained. The Child Death Database captures all child deaths reported per policy to the state office. The Quality Assurance Database captures all county and state quality service review data. Queries from this system provide qualitative data measures.

Strategies for improvement of data quality include:

- Complete implementation of the AFCARS Improvement Plan through enhancements to FACTS, extraction program updates and data quality improvement steps.
- NCANDS Mapping Work Group will assess and improve data quality for all 154 data elements. Work began on this in FY2014 and continues into FY2017.
- Continue FACTS system enhancements identified in the SACWIS Assessment Review.
- Regional Training for FACTS users with emphases on data quality. Training will began in June 2015 and continued to April 2016 to provide training to workers in every county.
- Prioritize and improve key management statistical reports for enhancement. Office of Data Analysis will continue advocacy for staff dedicated to management and statistical report development. The FACTS Reports Project was formulated to correct or enhance all known reports with issues of concern. In addition, eight new reports will be created to provide needed data for inclusion in the Statewide Assessments in readiness for the CFSR.
- Present useful introduction to Management and Statistical Reports at 2017 Supervisors Conference. The goal will be to improve the accuracy, completeness and timely entry of data that affects data reporting. These are the identified barriers to data quality.

Some examples of FACTS functionality that provides status, characteristics, placement location, and permanency goals are provided in the charts below.
Gender of Children in Foster Care for FY 2016

- Male: 51.38%
- Female: 48.63%

Custody Status of Children in Foster Care as of 9/30/2016

- Temporary Custody: 78.7%
- Permanent Custody: 9.8%
- Summary Removal: 11.0%
- Agreement for Foster Care: 0.5%

Permanency Goals for Children in Foster Care FY 2016

- Reunify With Parent(s) or Principal Caretaker(s): 46.68%
- Relative Placement: 17.85%
- Adoption: 19.26%
- APPLA: 1.47%
- Emancipation: 7.72%
- Kinship Guardianship: 0.00%
- Not Yet Established: 2.60%
Race of Children in Foster Care  
as of 9/30/2016

- White: 66.62%
- Black or African American: 37.76%
- Two or More Races: 6.25%
- Asian: 0.58%
- Unable to determine: 0.75%
- Native Hawaiian/Pacific Islander: 0.17%
- American Indian or Alaska Native: 0.23%

* Total exceeds 100% due to the number of children who identify with more than one Race

Hispanic Origin of Children in Foster Care  
as of 9/30/2016

90.0%

Current Placement Settings for Children in Foster Care FY 2016

- Pre-Adoptive Home: 4.20
- Foster Family Home (Relative): 13.89
- Foster Family Home (Non-Relative): 56.22
- Group Home: 6.48
- Institutional: 10.25
- Supervised Independent Living: 1.17
- Runaway: 1.33
- Trial Home Visit: 5.95

Average Number of Children in Each Placement Type
Systemic Factor II: Case Review System

2018 APSR ASSESSMENT
Policy reference demonstrating this as a requirement is “Individualized Service Plan” Policy. See data chart example of “Permanency Goals for Children in Foster Care”, which is located under the Systemic Factor of Statewide Information System.

Item 20. Written Case Plan

2018 APSR ASSESSMENT
Cases are methodically reviewed as a result of Quality Assurance site visits. These are conducted throughout the year according to a detailed schedule. However, other cases are reviewed through the course of work in the Office of Quality Child Welfare Practice in particular. These Specialists work in assigned counties, often with the task of review of child welfare cases. In 2015, OQCWP worked in four targeted counties, reading, interviewing workers and supervisors, and checking SACWIS documentation for hundreds of cases. Reports regarding those targeted counties are produced, and feedback/instructions for next steps, best practice, and planning is provided for each individual case reviewed. This information is shared with county leadership, supervisors, and line workers. In addition to review and feedback from Family Services, the Division of Field Administration has frequent contact with County Directors and their upper management to review data; spreadsheets; actual case plans and reviews; and assess strengths and needs around practice relative to timely reviews and other important issues. Over the past three years, Permanency Roundtables have been conducted in all 67 counties. These called for a methodical, scheduled opportunity for each county to present for review and assessment cases that may need other perspectives or ideas from a larger group. Youth Roundtables occurred in Mobile and Jefferson Counties in 2016 which will create a systematic review schedule for that set of cases as well. In addition to scheduled onsite reviews conducted by the Office of Quality Assurance, Family Services policy helps staff understand timeframes, importance of reviews relative to expectations from the Court and state and Federal law. One important component ensuring that successful/timely case reviews occur is the presence of and compliance with existing policies as highlighted below. Best practice and legal mandates are supported by Family Services Policy.

Item 21. Periodic reviews

2018 APSR ASSESSMENT
Data is produced and evaluated for county leadership and SDHR administrators and Specialist staff regarding periodic reviews. This is another area that is assessed during QSR work; Specialist coaching and case reviews. Feedback is given or exploration of barriers that might exist with the local Court occurs. Guidance regarding Our Agency’s policies ensuring periodic reviews is found in “Out-of-Home Care Policy” – section “Permanency & Concurrent Planning”

Item 22. Permanency hearings

2018 APSR ASSESSMENT
SDHR Administration reviews reports monthly regarding permanency hearings to monitor the 12-month threshold. This information is frequently discussed with County leadership from staff in Field Administration. Our requirements around timely permanency hearings are addressed in “Out-of-Home Care Policy” – section “Permanency & Concurrent Planning”

Item 23. Termination of Parental Rights

2018 APSR ASSESSMENT
SDHR Administration reviews reports monthly regarding TPR data. The level of research is significant enough that individual cases may be discussed with SDHR Administration. This information is frequently discussed with County leadership from the Division of Field Administration. Our requirements around timely permanency hearings are addressed in “Out-of-Home Care Policy” – section “Permanency & Concurrent Planning” Policy addresses TPR hearings in “Out-of-Home Care Policy” – section “Permanency & Concurrent Planning”. Policy includes cases requiring TPR, exceptions, and compelling reasons. Our Division trains TPR and Concurrent Planning as an additional piece complementing our fundamental child welfare training. Particular jurisdictions remain challenging in regard to timely hearings of TPR petitions. Federal law and best practice information have been shared through training with Guardians-ad-Litem, judges, agency attorneys and members of the Court Improvement Program in an effort to have more consistency and urgency around these cases.
2018 APSR ASSESSMENT

Earlier we reported that Alabama has in place a “Foster Parent Bill of Rights” as well as delineated Birth Family Rights which are shared during Individualized Service Planning meetings and at other points during casework with families. Foster parents and others listed above are notified of their rights through brochure, in-person discussion, and during ISP meetings as well. This involvement of foster parents is part of what is assessed through QSR Reviews; individual case reviews from Specialists and others. This process is addressed in “Out-of-Home Care Policy” – section “Permanency & Concurrent Planning” and “Code of Alabama 12-15-307”. The completion of local (county) protocols was a R2 PIP step that was completed in Q-10 of the R2 PIP. See EOC, CC, AS 6.4, Updated.

See also Appendix 10: Feedback from State QA Committee and CWCl Team

Systemic Factor III: Quality Assurance System

2018 APSR ASSESSMENT

The QA system monitors, evaluates and provides feedback to the Department on the performance of the overall System of Care and whether services provided are of sufficient intensity, scope and quality to meet the individual needs of children and their families. In addition to examining and assessing the Department’s Best Practice Indicators, the QA system identifies areas of need and recommends corrective actions necessary to improve services, capacity, outcomes and conformity with Federal, State and Department program requirements. It also confirms strengths, identifies successful strategies, and recommends ways in which effective practice and/or system performance can be replicated and/or improved.

Technical Assistance Plans

Alabama has been in communication with the liaison from the Capacity Building Center for States, through conference calls and onsite visits. An onsite visit was held on July 16, 2015 with the liaison and the state’s Federal Region IV Program Specialist. The purpose of this visit was to work toward finalizing the capacity building assessment, which will help determine planning and next steps related to capacity building assistance that will be requested. The assessment was completed with a determination that assistance would be provided with data management and training. A meeting was held in March 2016 with the Program Specialists to identify data needs and to develop a vision for strengthening data collection, use and distribution. The Program Specialists and Deputy Commissioner for Quality Assurance are to collaborate on some next steps. After deliberation and internal discussion, the Department decided to draw upon the established and ongoing working relationship with Casey Family Programs, who recommended resources to (at this point) continue the CQI work that had been initiated. We are also calling on other states best practices for their experience and input. Collaboration with the Capacity Building Center for States continues in other respects, with future TA already under discussion.

Round Three (R3) CFSR

Alabama has chosen to have a traditional CFSR to be completed in July 2018. While we have previously shared Alabama’s case review instrument with the Children’s Bureau, we understand that the Federal Onsite Review Instrument must be used for the CFSR. The case review instrument was designed to measure child and family status and system performance using a rating scale of 1-6. There are 14 status items used to measure child and family status and 12 status items for system performance. Over the course of the last few fiscal years, the number of cases reviewed by state QA review teams is shown below. In addition to these totals, county QA review teams have reviewed many other cases, using the same instrument as that used by state QA review teams.

<table>

</tbody>
</table>
There were 14 onsite reviews completed in 2016 and it is anticipated the same number will be completed for 2017. As of April 2017, State QA has a Program Supervisor and six QA Specialists. With the additional staff, The Division of Quality Assurance is researching means to increase the number of onsite reviews and QSRs for the year 2018.

ASSESSMENT UPDATE: Alabama’s Continuous Quality Improvement Components

I. Foundational Administrative Record Structure
It is important for States to have strong Administrative Record oversight to ensure that their CQI system is functioning effectively and consistently, and is adhering to the process established by the Agency’s leadership. A functioning CQI system will ensure that:

- The State applies the CQI process consistently across the State and the single State Agency has oversight and authority over the implementation of the CQI system; there is a systemic approach to review, modify, and implement any validated CQI process.
- The State establishes written and consistent CQI standards and requirements for the State, counties, and any other public agencies operating title IV-E programs on behalf of the State, as well as any private agencies with case management responsibilities.
- There is an approved training process for CQI staff, including any contractor or stakeholder staff conducting CQI activities.
- There are written policies, procedures, and practices for the CQI process even when the State contracts out any portion of the CQI process.
- There is evidence of capacity and resources to sustain an ongoing CQI process, including designated CQI staff or CQI contractor staff.

Identify those aspects of the foundational Administrative Record structure that are perceived as STRENGTHS:

- There is a formalized state QA structure in place in the form of veteran, state QA staff (Program Supervisor and six Specialist staff) and a State QA Committee.
- All counties have an assigned state QA Specialist. These Specialists are available to their assigned counties to provide training to county QA coordinators and committees. QA Specialists provided numerous trainings to coordinators and committees throughout the year.
- The Child Welfare CQI process is implemented across the state by a single agency.
- There are written procedural and practice guides in place in the form of a QA Guide, Fifty (50) Best Practice Indicators and a QSR Protocol Instrument.
- There is an established Office of Data Analysis.
- There is a well-established county QA structure in place across all counties in the state in the form of County QA Committees and a staff person in the position of County QA coordinator.
- The county/state QA structure is long-standing and sustainable.
- Process is in place whereby SDHR Leadership can receive feedback on practice/system performance as assessed by the state QA process.
- The State has three remaining persons who completed the CQI Training Academy in 2014. Those three persons are the CFSR Coordinator, the Program Manager for the Office of Data Analysis, and a County Director with quality assurance experience.
- As of June 2017, the County Improvement Plan process has been strengthened to include multiple assessment tools, integration of more individuals in the county improvement plan process and better ways of monitoring progress.

Identify those aspects of the foundational Administrative Record structure that can be STRENGTHENED:

- Providing mechanisms and opportunities for input from county staff on all CQI foundational components.
- Standardized statewide training plans / meeting schedule for county QA coordinators and county QA committee chairpersons. Statewide meetings for county QA coordinators and QA committee chairpersons as well as State QA Committee members were held in May 2014 and January 2016. County QA systems were provided with information on revised QA forms and procedures, the Plan for Improvement, changes in training curriculum, and provided with training on the evaluation of caseworker visits. The most recent meeting was in January, 2017.
- Written guidelines as to what activities will comprise state QA onsite county reviews across all counties. The best practice indicators were revised in November 2014 to better reflect current practice expectations and to be more closely aligned with the CFSR. This resulted in an additional revision of the reporting format and revisions of some forms utilized in the onsite review process. The rating for the Best Practice Indicators was also revised to remove “Both” as an option. Remaining rating options are now “Strength” and “Area Needing Improvement”. These changes were incorporated into the QA Guide which was revised in November 2015. The additional component in
the onsite review process of review of QSRs completed by county QA committees added for 2014 remains in place. This component has enhanced the assessment of the performance of the county QA system during onsite reviews.

- Consistent and complete accountability for, and implementation / monitoring of, the County Improvement Plan process. One required subject of biannual QA reports is county improvement plans. Counties report on the status of their county improvement plan in each biannual report with review and feedback by state QA staff. The assigned District Administrative Specialist (DAS) is included on the in the feedback provided on biannual reports. A revision has been included in the QA Guide for inclusion of county QA committees in the planning process for County Improvement Plans. QA Specialists attend county improvement plan meetings and can assist in the development of measures of progress. Plans are in development for additional strengthening of the county improvement plan process – see June 2017 update above under STRENGTHS.

**Recommendations:**

1. Implement a way(s) in which county DHR staff / county QA committees can provide input for the CQI Assessment.
2. Review the County Improvement Plan process and make decisions regarding the use/improvement of the process. Check on this. Gina’s folks do this now, and this may not need to be a recommendation anymore – see June 2017 update above under STRENGTHS.
3. Examine the current guidelines for the county QA review process, and implement any needed improvements.
4. Evaluate the training plans and meeting schedule for county QA coordinators and county QA committee chairpersons and make any necessary enhancements.

**II. Quality Data Collection**

Collecting quality data, both quantitative and qualitative, from a variety of sources is the foundation of CQI systems. For data to be considered quality, it must be accurate, complete, timely, and consistent in definition and usage across the entire State. It is important for States to use data to identify areas of strengths and concerns, establish targeted strategies for improvement, and track progress toward desired outcomes. States that meet the quality data collection component will be able to demonstrate the ability to input, collect, and extract quality data from various sources, including the Statewide Automated Child Welfare Information System (SACWIS) or other information management systems, case reviews, and other sources of data. States will also be able to ensure that data quality is maintained as the State submits data to Federal databases or reports, such as the Adoption and Foster Care Analysis Reporting System (AFCARS), National Child Abuse and Neglect Data System (NCANDS) National Youth in Transition Database (NYTD), the Child and Family Services Plan, among others. A functioning CQI system will ensure that:

- The State’s case level data shows that the instruments and ratings are completed in a way that is consistent with the instrument instructions and consistent across reviewers.
- There is a clear process that the State uses to collect and extract accurate quantitative and qualitative data, and the process is consistently and properly implemented across the entire State. The collection and extracting processes are documented, and an audit mechanism is in place to verify that the process is being followed.
- There is a clear process that the State uses to identify and resolve data quality issues and informs CB as appropriate regarding data quality issues. For example, there are processes to: identify if data are being under-/over-reported and/or not being entered into the State’s information system; evaluate if data entry is reliable or unreliable and if unreliable, why; (e.g. clarity of instructions, definitions, and/or data entry screens).
- There is a process in the State for the collection of quantitative and qualitative data that addresses key issues important to the State and demonstrates how the State is functioning on systemic factors, such as training staff and resources, functioning of the case review system, and service array.
- The State monitors existing Federal requirements or guidelines and uses appropriate quality utilities and tools to ensure that data is accurate, including, but not limited to:
  - The most recent AFCARS Assessment Review findings documents and/or AFCARS Improvement Plan (AIP), if applicable, indicates whether the State is accurately collecting, mapping, and extracting the AFCARS data in accordance with the requirements in the AFCARS regulation at 45 CFR 1355.40 and steps the State is to take to correct its AFCARS collection. This includes steps to improve the accuracy of the data through ongoing training, oversight, and incorporation into a quality assurance process.
  - The most recent NCANDS data, or other safety data that impact the outcome indicators being measured, meet any CB quality guidelines.
  - The most recent data profile used for the CFSR accurately reports the status of the child welfare program as indicated by data errors falling below acceptable thresholds.
  - NYTD data meets the regulatory requirements at 45 CFR 1356.80 – 86 and other CB quality guidelines.
Identify those aspects of quality data collection that are perceived as STRENGTHS:

- State does monitor existing Federal data requirements through the use of appropriate data quality utilities and tools.
- Regular monitoring of PIP-related data is in place.
- The state met the National Standards associated with the Round 2 CFSR.
- State has demonstrated the priority of reporting data quality issues to the Children’s Bureau.
- NYTD data has met reporting requirements established by the Children’s Bureau.
- NCANDS data is close to meeting established reporting requirements.
- Some processes exist for collecting/extracting data and resolving data quality issues, and yet they vary among individual staff and units.
- Data collection / distribution has been strengthened to include distribution to
  - Consistent distribution of the Summary and Findings of state QA onsite reviews.

Identify those aspects of quality data collection that can be STRENGTHENED:

- Consistent distribution within FSD/other SDHR Divisions of the Summary and Findings of State QA Reviews. The Summary of Findings of State QA reviews is provided to the Deputy Commissioners for Field Administration Quality Assurance, and Children and Family Services, the Director of Family Services, and the two Deputy Directors. Beginning with the onsite review reports for FY2015, Program Managers in Family Services were added to the distribution list.

As a June 2017 update, it should be noted that the District Administrative Specialists (within the Field Administration Division), the Deputy Director of the Quality Assurance Division, the Program Managers of the Quality Assurance Division (formerly within the Family Services Division), and the State QA staff also receive the Summary of Findings and Recommendations from all county onsite reviews. The County Director and the County QA Coordinator also receive the Summary of Findings and Recommendations for the review that occurred in their county. The Summary of Findings and Recommendations are typically provided to the above individuals within 30 days of the completion of the onsite review. Further, the Child Welfare Practice Specialists conduct a 20% case review approximately 6 months after the onsite review, as one means of following up on the progress being made. This is now considered a STRENGTH.

- Continued attention to improving accuracy of, and clarification about, FACTS data (e.g. what constitutes the permanency hearing date). Specific details can be located in the Data Quality Plan section of the SACWIS Advance Planning Document (APD) update, which also addresses SACWIS Assessment Review (SAR) findings. The state continues to address the AFCARS Review findings through the AFCARS Improvement Plan Update (AIPU).

- Attention to promoting consistency in applying the QSR protocol ratings across all reviewers. Each QSR is debriefed onsite with the lead and co-lead for each onsite review as well as with the other case reviewers. Also present in the debriefing are the county director and county QA coordinator. Debriefings are utilized to promote consistency across reviewers.

- Process by which the collection/distribution of qualitative and quantitative information “informs” key systemic issues such as training (of staff/resource parents), policy development, adequacy of service array, etc.

Recommendations:

1. Examine the current distribution and utilization of the Summary and Findings of State QA Reviews, and make any needed adjustments.
2. Implement ways in which the feedback loop for quantitative and qualitative data can be improved/enhanced.
3. Assess the process for the qualifying of, and promoting consistency among (QSR) reviewers currently in use via training, onsite QA of the review instrument/findings, etc. and implement any needed improvements. Two QA Coordinator Trainings are scheduled for August 2017 to increase the capacity of county QA Coordinators and their ability to ensure consistent use of the QSR protocol. One of the training components will be on the review tool to promote consistency among reviewers. Plans are to provide adjunct reviewer training annually over the next four years. Adjunct reviewers are additionally required to shadow a QA Specialist prior to serving in that role in an onsite review. Eleven additional adjunct reviewers were trained individually through shadowing the onsite review process in 2015 and 13 were trained in 2016.

III. Case Record Review Data and Process

In addition to collecting and analyzing quantitative data, it is also critical that State CQI systems have an *ongoing* case review component that includes reading case files of children served by the Agency under the title IV-B and
IV-E plans and interviewing parties involved in the cases. Case reviews are important to provide States with an understanding of what is "behind" the safety, permanency and well-being numbers in terms of day-to-day practice in the field and how that practice is impacting child and family functioning and outcomes. A CQI system will ensure that:

- The State reviews cases of children based on a sampling universe of children statewide who are/were recently in foster care and children statewide who are/were served in their own homes. Samples should be sufficiently large enough to make statistical inferences about the population served by the State. The universe of cases reviewed will also include the title IV-B and IV-E child population directly served by the State Agency, or served through title IV-E agreements (e.g. with Indian Tribes, juvenile justice, or mental health agencies).
- The sample is stratified to include a proportion of cases that reflect different age groups, permanency goals, and other considerations, such as varying geographic areas of the State, as appropriate.
- The State conducts case reviews on a schedule that takes into consideration representation of the populations served by the State, including the largest metropolitan area, and the significance of other demographic and practice issues.
- Case reviews collect specific case-level data that provides context and addresses agency performance.
- Case reviews are able to detect the quality of services for the children and families served and therefore focus on the assessment and monitoring of how child and family functioning is progressing in relation to the services provided.
- Case reviews include the completion of interviews specific to each case, such as the child/youth, birth parent, caregiver, caseworker or supervisor, and as indicated, health, mental health and other service providers, educators, and guardian ad litem (or child's attorney).
- Case reviews are conducted by staff who go through a uniform and consistent training process and whom the State determines are qualified to conduct reviews, with a preference for staff and stakeholders with direct service experience.
- The process prevents reviewer conflict-of-interest and promotes third-party (unbiased) review of cases, i.e. cases are not reviewed by caseworker or supervisor responsible for cases or who had previous involvement in the cases, as well as those who may have a personal interest in the case.
- Policies, written manuals, and instructions exist to assist in standardizing completion of the instruments and the implementation of the case review process.
- Inter-rater reliability procedures are implemented to ensure consistency of case ratings among reviewers.
- There is a process for conducting ad hoc/special reviews targeting specific domains when analysis and other data warrant such reviews.

**Identify those aspects of quality data collection that are perceived as STRENGTHS:**

- There is a QA review process that is operable at both the county and state level that includes the conducting of QSR’s, whereby individual interviews are conducted with relevant stakeholders involved in the case, including the identified child/youth and family.
- At the state level a stratified sampling process is utilized for the identification of cases to be reviewed and the state QA review schedule includes varying geographic areas of the state, including the largest metropolitan area.
- The state QA review process is designed to prevent reviewer conflict-of-interest and the QSR protocol (review instrument) contains rating guide information that is designed to assist the reviewer in making rating determinations and guided appraisals.
- The state QA review process includes several components designed to strengthen the practice assessment and better inform the resulting findings and recommendations. These include a review of a sample of resource records, QSRs completed by the county QA committee, as well as a safety assessment and permanency assessment that are distinct from the QSRs that are also conducted.
- There is a means by which State QA staff review and provide feedback on the QSR write-ups and ratings of practice/systemic items that are conducted by county QA committee reviewers.
- There is a data base maintained in Family Services, whereby QSR rating information conducted by county and state reviewers is entered.
- There is an ability to conduct ad hoc/special studies at both the county and state level.
- The state QA review process includes an assessment of the status of services to children and families, the effectiveness of monitoring, and the progress toward effective family functioning.

**Identify those aspects of quality data collection that can be STRENGTHENED:**

- While at the state level there are ways of giving attention to rating consistency, the process for ensuring inter-rater reliability can be strengthened. State QA staff continue to train county QA committee members on the use of the
rating instrument. County QA committees are encouraged to debrief cases during committee meetings to promote rating reliability. State QA staff will continue to train county QA committee members in the use of the rating instrument. Two QA Coordinator Trainings are scheduled for August 2017 to increase the capacity of QA Coordinators and their ability to ensure consistent use of the QSR protocol.

- A process is currently being used to train state reviewers; however, having a uniform and consistent training process that qualifies reviewers to serve in that role could be strengthened. See Item II, Quality Data Collection, recommendation #3.

**Recommendation:**
- See Item II, Quality Data Collection, recommendation #3.

### IV. Analysis and Dissemination of Quality Data

Although most States have the ability to collect data from a variety of sources, States have varying capacities to track, organize, process, and regularly analyze information and results. A functioning CQI system will ensure that:

- The State has consistent mechanisms in place for gathering, organizing, and tracking information and results over time regarding safety, permanency, well-being outcomes and services (at the child, caseworker, office, regional and state level, as appropriate).
- The State has a defined process in place for analyzing data (both quantitative and qualitative), and the State provides training to staff and determines that they are qualified to conduct such analyses.
- The State aggregates Statewide and local data and makes it available to stakeholders for analysis.
- Agency decision makers, courts, tribes, and other stakeholders are involved in analyzing and understanding the data and in providing feedback on analysis and conclusions.
- The State translates results (trends, comparisons and findings) for use by courts, tribes, and a broad range of stakeholders, and the State disseminates results through understandable or reader-friendly reports, websites, etc.

**Identify those aspects of the analysis and dissemination of data that are perceived as STRENGTHS:**
- There are numerous data sets in operation across various program units and there is agency capacity to provide information on many data elements.
- All management/statistical (MS) reports available through ERD are scheduled to run on a regular basis.
- Tracking of data related to NYTD, AFCARS and NCANDS are operative (see also data collection).
- Qualitative data is maintained via a QA database, which serves as a repository for state and county QSR ratings.
- There is a process for analyzing and commenting upon qualitative data in the form of QSR write-ups which are provided to QA coordinators, county workers and supervisors.
- Some informal means of aggregating results related to the Best Practice Indicators has been utilized.
- There is some discussion of dissemination of data through website posting and provision of data reports to staff.
- Data profiles are developed/used for onsite (state) QA reviews. Data profiles were revised in 2014 to include the data utilized for county director evaluations.

**Identify those aspects of the analysis and dissemination of data that can be STRENGTHENED:**
- Emphasis / training on and monitoring of, effective use of data as a child welfare management tool related to impacting outcomes of safety, permanency and well-being. One of the best practice indicators was developed to assess and make recommendations on the county utilization of data to assess, plan and monitor their child welfare program. Specific recommendations will continue to be provided when this indicator is not determined to be a strength of practice.
- Tracking / distribution of (qualitative/quantitative) data across regions of the state, child demographics, etc.
- Emphasis / training on and monitoring of, complete, accurate, and timely data entry by county staff. One of the best practice indicators was developed to assess and make recommendations on the timely and correct entry of data. Specific recommendations will continue to be provided when this indicator is not determined to be a strength of practice. The Office of Data Analysis provided AFCARS Data Quality Training to all foster care and/or adoption workers and supervisors statewide beginning in June 2015 in order to improve the quality of the data. The training was completed in April 2016.
- Consistent provision of information as to where to look for data outside of FACTS.
- Determining ways in which CFSR outcome data can be explained/distributed (once the R3 data sets are established).
- Consistently involving other SDHR Divisions and external stakeholders (partner agencies/groups) in meaningful discussion, analysis, and dissemination of quantitative and qualitative data. Practice meetings (now referenced as “CQI Meetings”) were initiated early in 2014 for the Family Services Management Teams to review data, assess
practice, and develop the Plan for Improvement. These (CQI) meetings continue, with present plans to maintain regular data discussions. Also, the Department continues to provide data to the State QA Committee at its quarterly meetings.

**Recommendation:**
1. Develop a comprehensive plan for quantitative/qualitative data analysis and dissemination that includes consistent internal/external stakeholder involvement/feedback/input related to trends and findings, as well as a focus on monitoring, training, and use of data in managing for best practice outcomes and improved collaboration/system performance. The resulting plan may require incremental implementation. A summary of the findings from onsite reviews by best practice indicator is revised at the completion of each onsite review. Distribution of this data was recently expanded to include applicable program managers within Family Services as well as program supervisors with the Office of Child Welfare Consultation.

**V. Feedback to Stakeholders and Decision-makers and Adjustment of Programs and Process**

Collecting information and analyzing results are important steps in CQI; however, *how* States use this information is a critical component to driving change within the organization and is key to improving outcomes for children and families. A functioning CQI system will ensure that:

- Results (i.e., trends, comparisons and findings) are used by agency leadership/top management, courts, tribes, entities with title IV-E agreements, and other stakeholders to help guide collaborative efforts, inform the goals and strategies of the CFSP and other State plans for Federal funds such as the Court Improvement Program strategic plan, and to improve practice, services and monitor/track progress toward goals.
- Supervisors and field staff understand how results link to daily casework practices; results are used by supervisors and field staff to assess and improve practice.
- Results are used to inform training, policy, practice, community partnerships, service array (service gaps, quality, etc.), automated system development, and other supportive systems.
- The CQI process itself is adjusted as needed over time as results indicate a need for additional study, information and/or analysis.
- Resource Management Staff and others are actively reviewing current 2017 data as a result of the opioid addiction crisis in an effort to assess possible changes in service development

**Identify those aspects of quality data collection that are perceived as STRENGTHS:**

- By design, there is an expectation that the bi-annual county QA report is to be shared with the county QA committee, and signed by the county QA committee chairperson.
- Of the 49 Best Practice Indicators, there are items that address data collection and planning. The Best Practice Indicators were revised in November 2014 to 50 indicators. Two of the indicators directly address data collection and utilization for assessment and monitoring of child welfare practice.
- Data is utilized as a factor in the evaluation of 28 of the 50 Best Practice Indicators in determining whether the indicator is primarily a strength of practice or systemic performance or an area needing improvement.
- On a monthly basis data related to child protective services, child abuse and neglect reporting and permanency, are provided to the District Administrative Specialists (DAS), who are to reference/use the data in their work across all 67 counties.
- For each state QA review that is conducted, the Office of Data Analysis provides a data profile to the state QA team on the county that is being reviewed.

**Identify those aspects of quality data collection that can be STRENGTHENED:**

- Ensuring consistency between the data provided to counties and that provided to the state QA review team. Data profiles developed for onsite reviews were revised in 2014 to include the data utilized for county director evaluations.
- Assessment/provision of data needs/request from the state QA review team and the Family Services Management team.
- Distribution of both quantitative and qualitative data trends, comparisons, findings, results and recommendations (from various sources) to key external and internal stakeholders in order to better inform collaboration, system performance and ongoing practice monitoring. Data on some safety and permanency indicators (e.g., CAN and Prevention assessments received and disposed, reports pending over 90 days, children in foster care, open CPS cases, etc.) is regularly provided to the State QA Committee at their quarterly meetings. The State QA Committee will continue to be afforded the opportunity to provide comment and recommendations on data information. This distribution of data continued throughout 2015 and early 2016 and will continue through 2017.

**Recommendations:**

- See IV, Analysis and Dissemination of Quality Data, recommendation #1.
Systemic Factor IV: Staff and Provider Training

Item 26. Initial staff training

2018 APSR ASSESSMENT
Alabama Child Welfare Training (ACT I) has been the initial staff development and training program for staff. Generally, the majority of new staff completed ACT I training no later than 3-6 months upon employment. In the past five years there have been approximately 620 staff who have completed ACT I.

The Office of Child Welfare Training is currently revising the Child Welfare Pre Service Training, formerly ACT I. The new training, Striving Toward Excellent Practice (STEP), will have more focus on such areas as Trauma, Meaningful Casework Visits, Sexual Trafficking, Use of Psychotropic Medications, and the Involvement of Fathers.

The new design will include “Steps” of development. The first “Step” will be the foundational tools all workers need. “Steps” 2 and 3 will include specific modules for staff based upon their particular duties at DHR. (Striving Toward Excellent Practice in Intake, Striving Toward Excellent Practice in Investigation, etc.). The new design will also incorporate more online resources. The classroom modules will be designed for the specific duties of the worker, saving time spent away from the office. Additionally our SACWIS system, FACTS, will be incorporated into the Child Welfare Curriculum, so that staff will not have to go to a separate training and they will be able to see how the work they do in the field is incorporated and supported in our FACTS system.

The new curriculum began pilot in May 2017. Eight sessions of STEP: Foundations are currently planned for the rest of the fiscal year and more will be added as new staff are hired. Four sessions of Step 2 modules and two sessions of Step 3 are planned for this fiscal year. Since last year (2016) the OCWT has had no waiting lists for training. We anticipate that we will continue this trend with STEP as we are working closely with Field Administration to be sure that as soon as staff are hired, they are able to get into the necessary pre-service training.

Additionally we are working with our largest county, Jefferson, to certify some of their staff as STEP trainers, so that they will be able to train their new workers as they are hired in Jefferson. They currently have a training unit of six persons who will manage the training needs of their county.

Alabama Child Welfare Training (ACT I) Strengths
- Participant evaluations reflect an overall satisfaction of ACT I.
- Participants are enrolled in Pre-Service training as soon as they are hired and added to our Learning Management System (LETS)
- Prerequisite work is online.
- The Office of Child Welfare Training developed and was successful with a plan to clear the ACT I backlog prior to the upcoming fiscal year 2017.
- The Office of Child Welfare Training explored ways to include more pertinent information in preservice training related to Domestic Violence, Trauma, Engaging Fathers, and Psychotropic Medications and included this material in the update to ACT called STEP.
- The OCWT has been working with The Child Welfare Policy and Practice Group, based in Montgomery, regarding the content of STEP.

Alabama Child Welfare Training (ACT I) Challenges
1. Throughout the first module of ACT I, participants viewed several videos that demonstrated the use of interpersonal helping skills when working with family members. The videos are one of the many tools used in training to reinforce learning points, as well as to afford individuals the opportunity to visualize the usage of skills needed as child welfare workers. Videos are very effective method to use for training. Many people are visual learners. The videos are quite dated and we are exploring creative options on updating the video content for ACT I training. For STEP, at this time, the trainers are modeling these skills live until we are able to produce more videos.

2. In FY2015 new staff were averaging 24 new workers a month. In FY 2016, new staff averaged 32 new workers a month, increasing the need for Pre-Service Training. So far, the numbers for FY 2017 have been the same as they were for FY 2016.

3. Turnover for the county staff has been very high. It is hoped that more timely and pertinent Pre-Service Training will help to ease the turnover rate.
**Item 27. Ongoing staff training**

In 2016, OCWT and The Child Welfare Policy and Practice Group worked together to develop a new Supervisor’s curriculum called DHR Supervisory Management Training. This training was developed, piloted, and presented to all of the County Directors and Supervisors by December 2016. The OCWT will continue to present this training as new supervisors are hired at DHR. So far two sessions are planned for 2017.

With the updating of ACT I into STEP, the ACT II modules, in their current form, will no longer be presented. However, much of the information from ACT II: Substance Abuse, Child Protective Service, Child Sexual Abuse, Underlying Conditions has been integrated into the STEP modules.

We are working with the Child Advocacy Center to contract with them to present Child Protective Service and Child Sexual Abuse training for our workers. Our original ACT II modules for CPS and Child Sexual Abuse were developed by the CAC. As they receive training from the CAC, workers will benefit from their expertise in this field and their involvement will ensure that the curriculum stays current.

**2018 APSR ASSESSMENT**

See 2017 Alabama Training Plan.

**Item 28. Foster and adoptive parent training**

**2018 APSR ASSESSMENT**

The OCWT continues to offer the three day update and the full eight day certification training for TIPS (Trauma Informed Partnering for Safety), our foster and adoptive parent pre-service curriculum. We anticipated that we would need two years to update the certification for current GPS leaders to TIPS. At this point we are on target to complete this within the two-year timeframe.

We partnered with the Alabama Foster and Adoption Parent Association (AFAPA) as we continue the transition from GPS to TIPS. They have assisted us greatly in providing support through editing our county based handouts, and providing foster/adoptive parent co-leaders for counties who have struggled to get a co-leader.

Until all counties and agencies are converted to TIPS, some counties and agencies will continue to use GPS. Once they have capacity for TIPS, they will begin and continue to use the new program.

**GPS Co-Leader Certification Training / TIPS (Trauma Informed Partnering for Safety)**

**Strengths**

- The Department requires successful completion of a pre-service curriculum for foster/adoptive applicants. This same curriculum is utilized by County Departments and agencies with which we contract for traditional and Therapeutic Foster Care as well as adoptive resource homes.
- The Department requires continuing education hours for both traditional and therapeutic foster families. This training requirement is intended to improve the skills necessary to parent children victimized by abuse and/or neglect.
- Resource Record Reviews are now a component of on-site reviews conducted by State QA.
- The Department has a contract with AFAPA that provides supports and services to foster/adoptive parents statewide including training.
- CAS/APAC (post-adoption service provider) provides on-site and webinar-based training at no-cost to foster and adoptive parents.
- Participant evaluations reflect an overall satisfaction of the GPS Co-Leader and TIPS Co-Leader Certification training.
- OCWT/Department staff coordinates and partners with the various contract providers who need the training for their staff.
- Staff and foster/adoptive parents attend the training together and build positive relationships.
- Participants develop an understanding of the skills required for successful application of the 12 core skills needed for approval and mutual selection process for foster and adoptive parents.
- Participants learn a variety of training and facilitation skills to enhance, empower and engage prospective foster and adoptive parents’ experience and appreciation for their role in the lives of children who have experienced abuse, abandonment and neglect.
- The Office of Child Welfare Training has begun training TIPS (Trauma-Informed Partnering for Permanency and Safety) certification training for leaders, certifying foster/adoptive parents and providers of residential services to our children as TIPS Leaders. TIPS incorporates trauma-informed research, philosophy, and practice related to the
roles of foster and adoptive parents. Input and materials from the National Child Traumatic Stress Network (NCTSN) are incorporated throughout.

GPS Co-Leader Certification Training / TIPS (Trauma Informed Partnering for Safety)

Challenges

- State QA reviews indicate that some (but not all) counties do not have a consistent method for tracking completion of on-going training hours.
- Findings from the resource record reviews conducted during on-site State QA reviews indicate that the material for which families are given credit does not always agree with the intent of continuing education training requirement (i.e., credit is sometimes given for reading material that is of a fictional nature, etc.) – this is true in some, but not all counties.
- Not all counties consistently have trained foster/adoptive parent co-leaders for GPS.
- Due to high turnover, newer, inexperienced workers are being placed in resource worker positions in some counties. Therefore, workers are dependent on the curriculum and not real-life experience and observations for delivering information to foster/adoptive parent applicants.
- Although the current Learning Management System has the capability to register county staff for GPS Co-Leader Certification training, in its current state, it is unable to register foster/adoptive parents and contract providers, nor give them credit upon completion of the training.
- OCWT must maintain certified trainers to train the GPS Co-Leader Certification Training. There are several steps involved to become a certified trainer and the process takes about 1-2 years from beginning to certification. As certified trainers are lost, OCWT has to be sure to fill the gaps, in order to maintain capacity within OCWT. At this time there are only two Certified Master GPS Trainers who can certify Trainers for the Department. Once these two have retired, the State may need to contract with the Children’s Alliance of Kansas to conduct the certification process.

Program Support

Describe the state’s training and technical assistance provided to counties and other local or regional entities that operate state programs and its impact on the achievement of CFSP/APS plans and objectives since the submission of the 2015-2019 CFSP. Describe training and technical assistance that will be provided by the state in the upcoming fiscal year.

Staff from the Office of Quality Assurance provides periodic training to county quality assurance systems based on the needs and requests of the counties. Training is provided to new quality assurance coordinators as well as county quality assurance committee members from the duties of coordinators to the completion of QSRs. Additional technical assistance includes Specialist review of QSR write-ups and county biannual reports to provide feedback on the merits of those reporting formats as well as on practice issues as needed. Program Specialists and program supervisors in the Office of Adoption provide training and technical assistance to counties and stakeholders in the following manner:

Adoption Intake Specialist – provides telephone support to county workers, supervisors, attorneys, probate judges’ offices on a variety of adoption-related tasks. The Intake Specialist also completes tasks related to the State’s Putative Father Registry, the portion of the Office of Adoption’s work dealing with Alabama’s probate court system, e.g. Notice of Hearings, Petitions to Adopt, Receipt of Final Decrees. The Intake Specialist is also responsible for AAICAMA-related activities for families entering the state that are recipients of subsidy and need Alabama Medicaid. During the 2016-2017 portion of this reporting period, the Intake Specialist was appointed to serve on an Adoption Sub-committee for the Alabama Law Institute. The Sub-committee comprised of a number of judges, attorneys, law professors and other representative from the Department has been charged with the task of reviewing Alabama’s Adoption Code and recommending changes as indicated. It is estimated that this sub-committee’s work will take the next two years.

Adoption Program Specialists with recruitment and/or placement responsibilities participate in ISPs, provide one-on-one technical assistance to workers and supervisors on recruitment, adoption planning and placement activities. Adoption Program Specialists provide on-site assessment of county staff’s adoption skills and provides training and technical assistance where need indicates. The Adoption Program Specialists with placement responsibilities provide training and technical assistance to counties, upon request, on a variety of adoption policies and processes. The Adoption Program Specialists, Adoption Subsidy Specialist, and the Adoption Intake Specialist all participated in mandatory Child Welfare Policy Training during this reporting period. The Adoption Subsidy Specialist has also provided training during the statewide conference of the Alabama Foster & Adoptive Parent Association.

Adoption Program Supervisor positions are currently vacant. The Program Manager currently provides phone support as well as on-site training to counties in the area of diligent recruitment planning and then implementing those plans. Further, the Program Manager participates in select staffings to discuss best practice, appropriate matches, and other permanency issues.
Describe the technical assistance and capacity building needs that the state anticipates in FY 2016 in support of the CFSP/APS goals and objectives. Describe how capacity building services will assist in achieving the identified goals and objectives.

The Office of Adoption plans to submit a request to the NRCDR for assistance in developing policies and procedures for use of social media in recruitment. During planning meetings with the Capacity Building Center, review of our Adoption Subsidy policies has discussed. This need has also been expressed to the Atlanta Regional Office. Alabama began work with the Capacity Building Center for States in July 2015 with an abbreviated meeting to gather information for assessment. Jacqueline Melton is Alabama’s assigned liaison with the Center. Our Children's Bureau Regional Office Specialist, Donna Dummett, was in attendance, as well as state leadership and management. An assessment summary was produced which captured agency strengths and needs and the potential areas for capacity building. A Work Plan was developed for deeper problem exploration. A Capacity Building Work Planning Meeting was held on August 18, 2015 for the purpose of reviewing the Assessment Summary and the Theory of Change. In so doing, a high level Theory of Change was created for work related to capacity building for our state.

In September 2015, a meeting was held to formulate a State Integrated Capacity Building Plan. Two areas, Training and Data Analysis were chosen as the initial areas for which specific goals and steps would be formulated. The final Capacity Building Center for States Assessment Summary for Alabama was produced in November 2015 and updated in February 2016. The Office of Child Welfare Training began working with the Capacity Building Center for States in December 2015, when our outline for our new Child Welfare Curriculum was shared with the CBCS along with the work plans for each module. We continued our discussions with the Center in January 2016 through a conference call where we described our needs related to the development of the curriculum. Our immediate needs were to finish our research into other states and agencies to see what curriculum was being used nationwide. The gaps in our research were shared with the Center who provided us with a Specialist, Julie Breedlove, who helped provide questions to use with our work groups who were assisting with the design of the training. Responses were integrated into the training design.

After following up in May 2016, the Center agreed to provide technical assistance related to the measuring of the transfer of learning. Michelle Greaf was assigned to be our Specialist with this task. As of June 2016, we were in the process of setting up phone consultations as part of our work with the Center in the task of measuring the transfer of learning. In terms of Data Analysis, a conference call was held on 2/3/2016 with Ms. Melton and Specialist Lynn Dupree and DHR Staff, including management, Data Analysis and FACTS staff. On March 8, 2016, a meeting was held to continue to build working partnerships, determine information needed to inform practice, Data Management Strategy and the data needs and Data Visualization facilitated discussion. An internal meeting was held on April 29, 2016 to discuss our needs around data to inform staff and management on practice issues and assistance needed from the CBC. Next steps included a formulation of data needed to be displayed in a “dashboard”; and a further conversation between Deputy Commissioner Simpson and Ms. Melton, with the Capacity Building Center for States. Jacqueline Melton was also in attendance at the Spring APSR Joint Planning Meeting with State leadership and the Children’s Bureau Regional Office Staff in both 2015 and 2016.

2017 Update: After deliberation and internal discussion, the department decided to draw upon the established and ongoing working relationship with Casey Family Programs relative to this work. Casey- recommended resources are to continue the CQI work that had been initiated. We are also calling on other states’ best practices for their experience and input. Collaboration with the Capacity Building Center for States continues in other aspects, with future TA very much a consideration.

Describe child and family services related research, evaluation, management information systems, and/or quality assurance systems that have been or will be updated or implemented since the development of 2015-2019 CFSP. Specify any additions or changes in services or program designs that have been found to be particularly effective or ineffective based on the state’s evaluation of programs. (See 45 CFR 1357.16(a)(5).)

The framework for the evaluation of practice, the Best Practice Indicators, was revised in 2014 to be consistent with information assessed in the CFSR as well as with county director evaluations. This also resulted in a revision in the data profiles utilized in the assessment of practice. Reports providing the findings of onsite reviews are shared with the director of the county reviewed, the Deputy Commissioners for Children and Family Services, and the Director, three Deputy Directors, and Program Managers for Family Services.
Systemic Factor V: Service Array & Resource Development

**Item 29. Array of services**

2018 APSR ASSESSMENT
According to feedback received from the completed county QA committee and DHR staff surveys, a general theme appeared to be one of identifying various service array needs. A fairly diverse listing was identified that included: substance abuse services (inpatient treatment, support groups, etc.), transportation, and an array of mental health services. In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Service Array, was 4.57, compared to 4.54 that was noted for 2016 and 4.54 for 2015.

See also Appendix 10: Feedback from State QA Committee and CWCI Team

**Item 30. Individualizing Services**

2018 APSR ASSESSMENT
Some of the below information consists of collective data and collaborations with State Resource Management and the Office of QCWP. In addition to family foster homes, our Agency has an array of residential services/options to be used relative to the recommendations/findings of the ISP Team. Those resources include:

- 800 Therapeutic Foster Care Homes
- 39 Child Care Institutions,
- 28 Group Homes
- 4 Shelters
- 30 Child placing Agencies

These facilities are licensed and appropriately able to provide and/or access appropriate services for the children with greater needs than can be met in a foster family home setting. Thus selected information below reflects the strengths and needs of these Providers, which are vital in achieving best outcomes for the children we serve.

Work continues on refining the Provider Query in an effort to get meaningful information on our Foster Family and Adoptive Resource Homes. The Managers of the Offices of Data Analysis and Adoption have reviewed and discussed the query results at length. Multiple issues and questions have been noted as a result of these reviews. A meeting is planned for 207 with functional staff from FACTS (our SACWIS), the Resource Management Division, the Office of Data Analysis, Adoption and Foster Care.

| The Department supports keeping our particularly troubled children close to home or at least within the | }
State.

- Providers adapt their programs/services to the child’s emotional, behavioral, and educational level.
- Programs are monitored for the length of stay and providers are required to share a child’s barriers to progress with the counties and the State Office.
- Therapeutic Foster Care providers are continuously recruiting for homes that will accept teens with behavioral issues.
- When discharge notices are received, we gather the information on why the placement has disrupted. We then use the feedback to recruit homes to handle those behaviors.
- Services for children/youth are individualized by the ISP (Individualized Service Plan). The ISP team determines the needs of the child and their family.
- The ISP Team led by the County DHR Office contacts providers and determines which providers can best meet the child and family’s needs, especially when focusing on Out of Home care.
- The Multi-Dimensional Assessment, (MAT), is completed on children whom the County DHR office is referring to our Therapeutic Foster Care providers and moderate providers. The County Agency provides information to the assigned assessor. This information consists of: a current psychological with the DSM V Axis 1 diagnosis, and a review of their current behaviors, along with a case summarization of their needs.
- The Certificate of Need (CON) from a physician and concurrence from the ISP team, along with the Office of Utilization and Review, is needed to ensure appropriate intensive placement for a child/youth.
- Work is moving forward on the Provider (FFH/AR) Query. Initial business rules have been developed and the query is running monthly.
- TIPS has been developed, which provides a training-informed curriculum for prospective resource families – see Systemic Factor of Training.

OQCWP is working with counties by completing case record reviews, providing recommendations, and consultation. These reviews focus on the Individualized Service Plans and services being provided and what services could be offered. Suggestions will be made on communication with providers to ensure services are addressing identified family needs. All services should be individual and determined by the ISP team. Special support is being provided to county staff on how to identify underlying needs and individualizing services to address those underlying needs.

Title IV-B 2, Promoting Safe and Stable Families - Provide the following services using PSSF funds:

**FAMILY PRESERVATION**

- Family Outcome-centered Unification Services (FOCUS) contracts; Family Service Center contracts.
- Family Service Center contracts

**FAMILY REUNIFICATION:**

- Family Outcome-centered Unification Services (FOCUS) contracts (In FY 2017 IIHS, see Child & Family Continuum below)

**Title IV-B (2) fund expenditures:**

- The following services will be offered under each category in IV-B, subpart 2.

**Family Preservation:** Family therapy; family group decision-making; in-home support; parenting classes; intensive family intervention services; legal services; parenting time; in-home respite; drug testing; and stabilizing the family environment.
**Family Support**: Intensive family intervention services; high-risk infant; health education; legal services; transportation and visitation; mental health services; foster family respite; family group decision-making; foster parent training; foster parent support; youth companion; parent education; crisis intervention; and drug testing.

**Family Reunification**: Supervised visitation; transportation; mental health services; legal services; family and individual counseling; respite; anger management evaluation and treatment; parenting time and parent education; interpreter services and intensive family services.

**Adoption Support and Promotion**

Adoption Promotion and Support Funds are used primarily to support two staff positions, in the Family Services Division (Office of Adoption assigned to provide consultation to counties). These staff are also responsible for adoption planning and placement of children with TPR and a goal of Adoption No Identified Resource (ANIR). The contract with Children’s Aid Society for the APAC (post-adoption) program continues to be funded from Adoption Promotion and Support Services. This includes an annual permanency conference which provides an opportunity for front-line workers with foster care and adoption responsibilities statewide to improve their capacity around assessing families and children and providing supports needed to achieve permanency in a timely manner. This post-adoption services contract provides counseling, adoptive family groups, an annual summer camp for children/youth that have been adopted and other post-adoption services and support to families. A statewide public awareness campaign coordinated in partnership with the Alabama Broadcaster's Association is also funded from the adoption promotion portion of these funds.

**Juvenile Justice Transfers - Children Exiting Care to Department of Youth Services (DYS)**

The number of children exiting DHR custody and committed to DYS has been tracked for the last ten years, from a low of one child in FY2006 to a high of twenty two (22) children in FY2011. The population is generally defined as children who have committed a delinquent act. This transfer of custody is not simply an administrative procedure, but rather is done only after a hearing in which all due process rights are protected. During FY 2015, fourteen (14) children were committed to DYS from DHR custody. This number remained constant from FY 2014. Ages ranged from 13 to 18 years. The average age when these children entered DHR custody was 15 years and the average age at commitment to DYS was 16 years. During FY 2015, two of these children returned to DHR custody. During FY2016, fourteen (14) youth in DHR custody were committed to DYS. Two of these youth reentered foster care during FY2016. The average age at entry to foster care was 14 and at commitment age 16. Ages of children committed to DYS ranged from 14 to 19.

**Child & Family Services Continuum**

Beginning on 10/01/16, the Department combined services formerly provided under the Continuum of Care and FOCUS contracts within a new Intensive In Home Services (IIHS) contract. The services are available in all 67 counties and increased total slots available slightly. The services focus on achieving the outcome of successful permanency for children in a family setting through either family preservation or reunification. These programs have the flexibility to design individualized services that are family driven and youth/child focused. All services are customized for delivery in the least restrictive manner. When a family is referred to IIHS, the program will provide the majority of the services that are needed to achieve a permanency outcome.

The CARES program is part of a SAMHSA grant which is designed to help children overcome the trauma they have experienced through child abuse/neglect, family violence or sexual assault. The CARES team uses Trauma Focused-Cognitive Behavior, an evidence based treatment approach to address the unique needs of children ages 3-18 who are experiencing distress, depression, behavior problems and/or difficulties related to traumatic experiences. As part of a four year grant, the goals focus on the reduction of trauma reactions in children and training the community in trauma informed/focused services. The Deputy Commissioner for Children and Family Services and a Deputy Director for Family Services represent the Department as stakeholders/partners.

**Family –Based Treatment Services**

TFC and TFC with Enhanced Services: These providers continue to work with our counties in placing our children in need of Therapeutic Foster Care in the most appropriate settings. We currently have over 799 children in Therapeutic Foster Care; this includes 101 children in TFC with Enhanced Services. These services are tailored to each child’s needs which may include, but not limited to:

- Frequent transportation to clinics, hospitals, or other providers
- Behavioral analytical assessments and hands-on services from experts in Behavioral Analysis.
- Frequent visits by the provider to the classroom and provision/support/maintenance of any special equipment a child may need.
- Participation in the child and family’s Individualized Service Planning process
Residential Services
Our residential providers continue to work with the counties to place our children in the most appropriate and least restrictive placements. We have average numbers within various providers as follows: 195 children with “Basic” providers; 183 children with “Moderate” providers; 61 children in “Transitional Living Placements”; 54 children who are receiving “Independent Living” services; 629 children with “Intensive” providers, which includes three (3) providers that offer sexual behavior treatment; and, 26 children in the “Mothers and Infants” Program. The “Rise Program” serves an average of 24-26 consumers. These youth are typically 14-18 years of age and present with challenging behaviors and mental illness diagnoses.

The Crisis Intervention Placement services are provided in a congregate setting and provide a basic array of services in a temporary setting. This service is used in rare circumstances when more permanent planned placement services are not feasible due to extenuating circumstances such as unknown family history, disruption, or late hour coming into care. Services for these children include scheduling psychological evaluations, obtaining supporting documentation for the subsequent placement and obtaining a Multi-dimensional assessment to assist in determining the most appropriate placement.

The Basic Residential Services are provided in a congregate care setting and the program provides an array of services for a child with mild and/or occasional emotional and/or behavioral management issues that interfere with the child’s ability to function in the family, school and/or community setting in other than a residential environment. This type placement is limited to children whose needs cannot be met in their own home, traditional foster home, or children who have reached their treatment goals in a more restrictive setting and are ready to “step down”. Children in this type program usually do not require constant adult supervision, have peer relations that are generally positive and respond favorably to nurturing, structured programs.

The Transitional and Independent Living Programs provide foster youth (ages 16-21) with opportunities to practice Independent Living skills in a variety of congregate settings with decreasing degrees of care and supervision. Services for Transitional Living may be offered in a foster home or congregate setting. The Independent Living Programs are offered in an alternative living arrangement whereby youth live in community-based housing rather than in a foster home or a group home setting. This type of living arrangement allows the youth the opportunity to continue the decreased care and supervision needed so that the youth will ultimately be responsible for their care and be prepared to live on their own in the same location when they leave the Department of Human Resources care.

The Mothers and Infants Programs are provided in a group living arrangement to pregnant teens or in a specialized foster home, which allows the young mother and her infant to remain in the placement after the birth of her child. The programs must assist with care for the infant during the hours that the young mother is developing her skills in parenting and preparing for Independent Living.

The Moderate Residential Care Programs are provided in a congregate setting for a child with moderate emotional and/or behavioral management problems that interfere with the child’s ability to function at home, school or in the community. The children placed in a moderate level setting require 24-hour awake staff for proper supervision to prevent/respond to the inappropriate behaviors such as inability to sleep and wandering around, fighting, attempted runaway behaviors. These children require a DSM diagnosis to enter into this level of care. Children at this level of care have a need of: 1) clinical treatment to be able to function in school, home or community because of multiple problems; 2) or have not responded successfully to less intensive treatment and/or have been denied admission or discharged from various less restrictive placements.

The Intensive Residential Programs are for children with a DSM Diagnosis requiring active treatment which means implementation of a professionally developed and supervised individual plan of care for individuals who have been prior approved and certified by an independent team as meeting medical necessity for this level of care. Children eligible for this program must have problems that pose a severe level of impairment to overall functioning in multiple areas. These children have been unable or unwilling to commit to a healthier lifestyle and they need intensive support and/or interventions to cultivate new, more appropriate methods of coping and behaving.

The Sexual Rehabilitation Services for Youth (formally Services for Youth Exhibiting Predatory Sexual Behaviors) Programs treat youth who pose a threat of harm to themselves or others due to problems in controlling sexual behaviors. The program treats varying degrees of sexual behaviors, including sexual predatory activity, mutual agreeable but harmful sexual activity and sexually reactive behaviors. The youth are placed in single occupancy rooms in a congregate setting, and younger children who are experiencing sexual reactive behaviors are placed in a specialized treatment foster home. Admission into this program must have the approval from the independent team as meeting medical necessity for this level of care.
The Rehab Intervention Service Enrichment (RISE) is for children with a DSM-V diagnosis within the range of 290-316, that have the mental and physical functional capacity to participate in the services or be identified by a mental health professional as having serious emotional, mental illness and behavioral problems and treatment from other programs was not successful due to the severity of the behaviors. These youth are in need of a highly individualized level of care due to struggling with a wide range of difficulties. They need a comprehensive treatment environment in which they can overcome the full spectrum of personal obstacles and, in time, can become whole again. The RISE Program provides a safe environment that facilitates behavioral stabilization, positive relationship building, and new learning experiences so children can be reunited with their families or moved to a less restrictive setting.

Service Coordination
Services for children/youth are recommended through the ISP (Individualized Service Plan). The ISP team determines the needs of any child and family. The ISP team is led by the County DHR office, and in partnership with others from the community, determines which providers can best meet the child and family needs, especially when focusing on out-of-home care. The Multi-Dimensional Assessment, (MAT), is completed on children whom the County is referring to our Therapeutic Foster Care providers and moderate providers. The County DHR office provides information to the assessor. This information consists of a current psychological with the DSM Axis 1 diagnosis, and a review of their current behaviors, along with a case summarization of their needs. The Certificate of Need from a physician and concurrence from the ISP team, along with the Office of Utilization and Review, is needed to ensure appropriate intensive placement for a child/youth. The Division of Resource Management monitors all contract provider services. The gaps in services are determined by length of stay, discussion with counties about trends and issues they see, and reviewing data regarding placements, (regions, age, etc.). Current gaps that are seen are services for youth 17-20 who are mentally ill and behaviorally challenged, and children with a diagnosis of Autism Spectrum, (all ages) that have an IQ under 70 and have behavioral challenges in the home, as well in the community.

Service Decision-Making Process for Family Support Services
The Request for Proposal (RFP) is utilized. The RFP process includes a review of each proposal submitted by the potential providers, and grading of each proposal by select county and state office staff. The scores are submitted to the Office of Procurement and a selection process is used to determine the awarded contracts. The sites are located where there is a high concentration of families needing services to address their safety and stability issues.

Systemic Factor VI: Agency Responsiveness to the Community

Item 31. State engagement and consultation with stakeholders pursuant to CFSP and APSR

2018 APSR ASSESSMENT
OQCWP has begun their schedule of random case record reviews. The review tool used provides detailed information that will be beneficial to the supervisor to use during worker/supervisor conferences. These reviews give OQCWP the opportunity to work one on one with supervisors to help them understand how to engage and empower their workers to produce family centered case work that is in line with policy. In turn workers feel heard, valued and become invested in good outcomes for the children and families they serve. Those outcomes should be beneficial to staff retention, thus offering stability with families and community partners.

The Office of Adoption partners with a number of stakeholders in public awareness activities and in their efforts to recruit additional foster and/or adoptive families. These stakeholders include the staff, members and volunteers of Heart Gallery Alabama, Children’s Aid Society’s APAC program, Kids to Love Foundation and the Alabama Foster and Adoptive Parent Association. At a quarterly “partners meeting” the leaders of each of these groups, including the Manager of the Office of Adoption, jointly coordinate and share their organization’s activities in the area of training, public awareness and recruitment events/activities. Each of these organizations provides content for updating the Annual Progress Services Report. Each partner has an exhibit/display booth at the annual permanency and supervisor conferences, to help market their programs to front line permanency staff and supervisors. Heart Gallery Alabama and CAS/APAC provide data to the Department related to the number of children featured in recruitment, the number of inquiries received from potential foster/adoptive resource families and the units of services provided to the public.
Consultation with Community Stakeholders through Quality Assurance

The Alabama Department of Human Resources has continued with its process for community consultation through its quality assurance operations. Each County Department of Human Resources has an independently functioning county quality assurance committee with Jefferson County having an additional committee for their Bessemer region. Committee membership is encouraged to be reflective of the county population and generally consists of representatives of service providers, other public and private agencies, allied professionals, the courts, and community stakeholders. While each county QA committee completes quality service reviews to measure and monitor outcomes for children and families, it is an expectation that each committee also complete stakeholder interviews annually to measure and monitor systemic issues. Stakeholders interviewed include juvenile court judges, juvenile probation officers, foster parents, law enforcement, education personnel, service providers (including mental health and child advocacy centers), attorneys and Guardians-Ad-Litem, and Agency staff. Information and any resulting recommendations from QSRs and stakeholder interviews are provided to each County Department to strengthen their practices toward better outcomes. The completion of QSRs and stakeholder interviews are required reporting elements of county biannual reports which are reviewed by State Quality Assurance staff. It is an expectation that State QA staff review and provide feedback to County Departments on their biannual reports.

The Office of Quality Assurance routinely conducts onsite reviews to evaluate the quality of services and the outcomes achieved by children and families. One component of onsite reviews is the completion of stakeholder interviews to evaluate systemic functioning. The same community stakeholder groups are interviewed as noted above with the addition of an interview with the county QA committee. Information gained from these interviews is used in conjunction with the completion quality service reviews, a safety assessment, a resource record review, and a permanency assessment in counties with a foster care population greater than 25 to determine the status of the County Department’s functioning on each indicator of best case practice. These indicators provide the framework for providing feedback to each County Department on strengths and needs in the provision of child welfare services. Three of those indicators are directly linked to the partnership with others including Departmental participation in mandated interagency forums as well as collaboration with community stakeholders in meeting the needs of children and families. Information obtained from internal and external stakeholders is utilized as a factor in determining the status of all Best Practice Indicators at the time of onsite reviews. From June 1, 2016 through May 31, 2017 the Office of Quality Assurance conducted 13 onsite reviews.

Other Ongoing Involvement/Consultation in Planning

In addition to the regular and in-depth involvement of internal and external parties in Quality Assurance, Family Services Division relies on a range of individuals and groups to assist in providing input into the ongoing planning and service delivery system. The Child Welfare policy development process involves both internal and external individuals and groups to provide input as new policy is formulated and existing policy is revised. New policies are initially written by policy Specialists in the Office of Child Welfare Policy and then sent to the program area for review and comment. Following finalization from State Office staff, the policy may be sent out for review and comment to county directors/child welfare supervisors, select community stakeholders and others prior to the final release. Conference calls with community stakeholders and Department staff can be made to resolve policy issues arising from the review and comment. If necessary, meetings may be conducted to discuss policy issues. Resource Management solicits feedback from a number of groups and individuals. These include directors of a number of child care institutions, members of the Alabama Association of Child Care Agencies (AACCA), and the network of Therapeutic Foster Care providers (FFTA). The Office of Adoptions has included groups such as the following: Alabama Foster and Adoptive Parent Association, adoptive parents, foster care youth currently or previously in out of home care system, pre and post adoption service agencies and other consumers among its stakeholders.

Alabama Judicial & Child Welfare Collaborative

The Alabama Judicial & Child Welfare Collaborative began the fiscal year with a statewide convening October 25-27, 2016, at Point Clear, AL. Twenty-four teams comprised of juvenile judges, local and state child welfare directors, supervisors, and attorneys attended. At this Summit the guardians ad litem who represent Alabama’s dependent children as well as parent attorneys were invited to join their respective county teams. Over 186 attendees heard presentations on permanency, a youth panel comprised of foster care alumni as well as children currently in care, as well as child trauma and local team presentations. The session concluded with each team devising their respective team action plan.
The Collaborative focus this year is on peer learning collaborations. On March 3, 2017, the first peer team collaborative was held in Montgomery with 19 teams participating. Several i-CAN Teams presented updated their local work and the tools implemented to safely remove children in care to forever families. Utilizing the most current child welfare data, each team was presented a cadence list of their children in care and targeted individual children on whom to focus their activities to locate a permanent plan.

The second peer team collaborative will be held August 3-4, 2017, at a retreat venue in Columbiana, AL. Twelve teams have currently indicated their plans to attend. Agenda topics will be kinship/guardianship, the challenge of long stayers in care, and data-driven planning.

Alabama currently has sixteen teams of child welfare and judicial members who are dedicated to the mission of this collaborative: to safely reduce the number of children in out of home care and place them in forever families. One team has already reduced the number of children in care by 59% with others well on their way to safe reductions.

**Alabama Law Institute**
A committee of the Alabama Law Institute has been established to review in detail, Alabama’s Adoption Statutes and, where determined necessary, recommend changes. The committee met for the first time in May 2016. It is comprised of a number of attorneys and probate judges with personal adoption experience. Alabama DHR has four staff participating in the work of the committee. These staff include: State DHR legal counsel, Office of Child Welfare Policy and two staff from the Office of Adoption. Working (topic-specific) committees are being appointed to review sections of the Adoption Code and bring back suggestions to the overall Adoption Law Committee. This work is to take place in the summer of 2017 with recommendations due to the overall committee in the fall.

**Three – Branch Institute**
In June, 2016, Alabama learned that we were one of eight states awarded a grant from the Three Branch Institute through the National Governors Association; the National Council of State Legislatures, and Casey Family Programs. This is a sweeping initiative involving many partners in service to children and families, including DHR, the Administrative Office of Courts, the Legislature of the State of Alabama, and state and local agencies including the State Department of Education; Alabama Law Enforcement Agency; the Department of Public Health; the Office of Governor Kay Ivey and others. Long-term goals outlined in Alabama’s response to the grant application were:

- A reduction in the number of child fatalities due to child abuse or neglect.
- A drop in child maltreatment.
- Greater uses of preventive or immediate services, including in-home services, to help children safely remain at home.
- Greater clarity and consistency around child and family interview protocols used by law enforcement officers and social workers from DHR.
- Reduced numbers of children in foster care.

Alabama’s team included a state Senator, state Legislator, Juvenile Court Judge, Child Death Prevention Coordinator from the Alabama Department of Public Health; Alabama’s Court Improvement Program coordinator, and Family Services Director and Deputy Director. This group has worked well together toward goals, but there have been challenges around maintaining momentum and priority. The team is attending a status meeting in Nashville, Tennessee in late June, 2017 and will present Alabama’s progress and lessons learned to the other seven states and sponsoring agencies. While the grant concludes in December, 2017, we are confident that our experiences with stakeholders will only be strengthened to continue through then and beyond.

**Adoption Recruitment Partners – See also Permanency Outcomes 1 & 2 – Stakeholder Collaboration**
The success in recruitment, matching and placement of children in permanent custody with a goal of Adoption No Identified Resource (ANIR) is greatly due to the high level of cooperation and collaboration among the recruitment partners that help us promote the need for more adoptive families. Quarterly a “partners” meeting is held that includes staff with recruitment responsibilities from the Office of Adoption, Heart Gallery Alabama, Children’s Aid Society/APAC’s pre-adoption program, and volunteers from the Alabama Foster & Adoptive Parent Association. During these meetings each agency/organization represented gives an update on the recruitment opportunities they have held over the past quarter and together these same agencies plan/coordinate date and locations for upcoming recruitment events. Earlier in this progress report a detailed listing of HGA exhibits as well as recruitment activities implemented by CAS/APAC are given. The program manager for the Office of Adoption participates in a two different Peer-to-Peer networks coordinated by Specialists on staff with the NRCDFRAP. One P2P network has periodic calls and webinars directed at a variety of recruitment topics. One helpful Webinar in which Alabama participated was hosted June 16, 2016: “Using Social Media to Recruit, Develop and Support Resource Families”. The other network is for agencies that have conducted (or plan to conduct) Market Segmentation work
as a diligent recruitment strategy.

**Recruitment and Retention of Resource Families Collaboration**

Since completion of the market segmentation research work several years ago, information about the same has been shared utilizing county-specific information with several counties (upon request from the counties). Many counties have included foster and adoptive parents and other stakeholders in these working sessions alongside county staff that have resource development/resource worker responsibilities. Stakeholder participation has appeared to be more significant in smaller counties. From FY 2014 through the mid-point of FY 2017, a number of counties have held on-site diligent recruitment planning sessions that utilize market segmentation life style group information along with the counties’ demographic information to develop diligent recruitment plans. The appendix section of this document contains a map that illustrates which counties have completed this work along with the counties where working sessions are planned. The portions of the agency’s round 2 CFSR PIP addressing recruitment & retention of foster/adoptive resource families was developed by a recruitment and retention task force. Many of the staff and foster parents that were involved in that task force are no longer in their positions or have retired. However, the recommendations in their plan are still used in shaping the interventions and strategies for recruiting and retaining foster/adoptive parents. Although the recruitment partners group mentioned earlier provides great insight and feedback into the recruitment needs and activities of the agency, a new recruitment task force/planning group is needed. We plan to explore this further in 2018. Membership should include stakeholders, including more foster family/adoptive resource families who are currently fostering our children or who have recently adopted children from foster care. Stakeholder input indicates we need more homes willing/able to care for children with special health care needs and developmental disabilities. Organizations that are currently providers of enhanced foster care homes are interested in partnering with us on developing plans for specialized foster care homes, therapeutic adoptive homes, etc.

**Collaboration with Foster Parents – Conflict Resolution Team**

The Out of Home Care Policies & Procedures Manual includes a section on Supports to Foster Parents. A process for dealing with conflicts that may occur between foster parents and the Department is outlined in this policy which was updated in May 2017. The state Conflict Resolution Team (CRT) is comprised of staff and foster/adoptive parent representatives. Thorough review of cases that are referred to the CRT are conducted; case-specific and systemic recommendations are sometimes made when indicated. This feedback will shape the retention work included in our CFSP over the next five years. The State Conflict Resolution Team heard five complaints in FY 13 and FY 14 one complaint in FY2016 that either could not be resolved at the local county level. or were complaints regarding the closure of a foster home. As of June 2015, the state team has heard three five complaints. A fourth was scheduled; however, the foster family withdrew their complaint the day of the meeting. Foster Parent Advocates are available regionally to help foster parents at the time they file a complaint with their county office. Due to the advocates’ involvement in the local process, many more complaints are resolved locally rather than referred to the State Team. One referral received by the state team in 2015, was intercepted by a foster parent liaison, as she felt she could help resolve the issues based on her relationship with the county. There has been only one referral received thus far in 2016. Feedback from the meeting indicated success with local resolution. The Alabama Foster Adoptive Parent Association is available to provide county social workers and foster parents training on the Conflict Resolution Process and Alabama’s “Foster Parent Bill of Rights”. Several counties have invited the Alabama Foster Adoptive Parent Association to meet with their counties following a referral to the state team. Additionally, some counties have consulted with the State Liaison at a time of concern about a foster family hoping to work through issues before conflict arises between the county and foster parent.

**Alabama Child Welfare Collaborative Initiative (ACWCI)**

The Alabama Child Welfare Collaborative Initiative (ACWCI) is a team of Department and other Agency staff that typically meet on a quarterly basis. In addition to Family Services staff and staff from other Divisions within SDHR, partner agencies that are represented in the membership include the Alabama Court Improvement Program staff, Department of Child Abuse/Neglect Prevention (includes CBCAP); the Department of Rehabilitation Services; the Alabama Foster and Adoptive Parent Association; the Alabama Network of Children’s Advocacy Centers; the Poarch Band of Creek Indians and the Department of Youth Services. A useful outcome has been sharing across agencies information regarding current activities, upcoming training sessions, etc. This group also is a stakeholder group from which input has been sought for the APSR and current CFSP.

**The State Quality Assurance Committee**

The State Quality Assurance Committee (SQAC) is an independent body of statewide representatives of the child and family service delivery system whose functions include monitoring outcomes and Agency performance from a statewide perspective; serving as a link between the community and the State Department of Human Resources; promoting an effective child welfare system that supports positive outcomes for children and families served by the Department; and issuing reports as a part of its Citizen Review Panel responsibilities or for any other purpose. The SQAC is also a stakeholder group from which input has been sought for the APSR and current CFSP. The committee meets quarterly.
(March, June, September and December). Data information and updates from Family Services are provided at each meeting. More detailed information on the work of the SQAC can be located in the Alabama State Quality Assurance Committee Annual Report.

**County QA Committee Input**
Over much of the time frame of the 2015-2019 CFSP, and planned for upcoming years, surveys have been distributed to county offices to forward to the local QA committee. Typically, input will be sought on the outcome areas and the ISP process and some feedback on other areas is sought as well. For the 2018 APSR, results from approximately 92 completed surveys, representing 32 counties, are noted. Additionally, a meeting of county QA coordinators and county QA committee chairpersons (from across the state) took place in January 2017 which provided the opportunity for input from participants related to county committee functions as well as staff retention. The importance of participation from QA committees in the survey for the 2018 APSR was stressed. They were encouraged to access the APSR from previous years on the website. County QA committee members were again provided with an opportunity to complete surveys that highlighted several key areas for input.

**Children’s Justice Task Force**
The Alabama Children’s Justice Task Force has also recognized the need for continued training in areas that were identified as needs for all CPS staff. Those areas include Family Violence and Safety in Child Protective Services (CPS), and Multidisciplinary Team Building Training.

Children's Justice funds are awarded to counties applying for funds for Multi-disciplinary teams to attend the International Symposium on Child Abuse in Huntsville, AL. Some counties will instead arrange for and conduct regional conferences. The information provided for estimated total costs are the estimated compilations of both the counties sending participants to the International Symposium and those conducting regional conferences.

**Family Violence and Safety in CPS** is a curriculum that was offered for the first time in FY 2014 and will continue to be offered in FY 2018. Each of the 2, two day training sessions will focus on providing basic information on the complex dynamics of Family Violence and a basic understanding of how domestic violence impacts children's lives & what that means for CPS intervention. The two day training is provided for to County Multidisciplinary Team members, Other State Agencies, DHR State Office Staff & County Staff.

**Multidisciplinary Team Building Training** is a training that is being planned for FY 2018. It is a one-day training that is planned to be delivered at four (4) training sites across the state. County DHR Multidisciplinary Teams on Child Abuse will be invited to attend the training sessions. The goals of the training are to strengthen the relationships among team members and increase the effectiveness of the teams.

Former Alabama Governor, Robert Bentley, and the Department of Human Resources Commissioner, Nancy T. Buckner supported the development of a successful interactive online training for individuals who are Mandatory Reporters of Child Abuse and Neglect. The training is on the DHR website @www.dhr.alabama.gov.

**Alabama Department of Child Abuse and Neglect Prevention**
The Alabama Department of Child Abuse and Neglect Prevention (ADCANP) secures resource to fund evidence-based community programs committed to the prevention of child maltreatment, and advocates for children and the strengthening of families. In program year (2016-2017), ADCANP is supporting 136 child abuse and neglect prevention programs throughout the State of Alabama, awarding ($6.4) in funding. Two staff representatives from ADCANP serve as members of the Alabama Child Welfare Collaborative Initiative (see ACWCI), and ADCANP's Executive Director is a member of Alabama’s State QA Committee.

**Consultation with Community Stakeholders through Quality Assurance**
The Alabama Department of Human Resources has continued with its process for community consultation through its quality assurance operations. Each County Department of Human Resources has an independently functioning county quality assurance committee with Jefferson County having an additional committee for their Bessemer region. Committee membership is encouraged to be reflective of the county population and generally consists of representatives of service providers, other public and private agencies, allied professionals, the courts, and community stakeholders. One of the functions of county committees is to complete annual stakeholder interviews to assess the service delivery system as well as the relationship with community partners.
COLLABORATION WITH THE TRIBE

CONSULTATION AND COORDINATION BETWEEN STATES AND TRIBES The Department’s goals in regards to work with the Poarch Band of Creek Indian Tribe (PBCI) and other Federally recognized tribes located outside the state (Indian Child Welfare Act): As of June 2017, the one Federally recognized tribe in Alabama is the Poarch Band of Creek Indians, whose office is in Atmore, Alabama (Escambia County). Alabama’s Indian Child Welfare Policy and Procedures has been in effect since September, 2007, with the latest revisions being made in September 2013. This is a substantive policy that provides counties with a knowledge base for working with Native Americans. While counties continue to contact the Office of Child Welfare Policy and the Office of QCWP for assistance, they do have policy that directs their work with Indian children and families. At the initial involvement with a child and family, the issue of whether the child has any Native American ancestry is to be addressed. To facilitate this, a “notification of involvement” should be sent to the Poarch Band of Creek Indians in Alabama during a child abuse/neglect investigation or prevention assessment. The “notification of involvement” process is used to consult with the PBCI Tribe and allows relevant information to be obtained from the Tribe. The process also provides an opportunity for the Tribe to be involved in case planning early in the investigation. It is considered best practice to notify the PBCI Tribe of Departmental involvement with an Indian child and family and seek Tribal involvement in case planning. Specifically, Amanda Montgomery, the Director of the Family Services Department of PBCI is notified. The “notification of involvement” is not the formal notification to a child’s Tribe required by the Act itself. When County Departments are working with a child and family who fall under the ICWA requirements, Indian parents, Indian custodians and Tribes must be notified. In 2008, a revision was made to the Department’s Out-of-Home Policies and Procedures to require child welfare workers to address, in removal situations, relative resources, and identify whether children and families are members or eligible to become members of certain Indian tribes, as well as identifying such tribes. Native American ancestry should have been established and formal notice given to the child’s tribe before removal of an Indian child from their home. The only exception to this occurs when an Indian child is removed to prevent physical damage or harm to an Indian child. Child welfare staff shall provide protection and meet the immediate safety needs of Indian/Alaskan native children when emergency situations occur. In April 2010, work was completed that allowed FACTS to generate the required notices to Indian parents, Indian custodians and Indian Tribes. When the system captures that a child is a member or eligible for membership in an identified, Federally recognized tribe, child welfare workers are prompted that notification procedures are necessary. As of April 2014, PBCI has an impressive multi-systems complex where families can have medical, dental, mental health, financial, and other typical needs met in one convenient location.

2018 APSR: Collaboration / Coordination between the State and the Tribe
Poarch Band of Creek Indians (PBCI) & Alabama Department of Human Resources (DHR)
2017 Annual Meeting Summary  Date of Meeting: May 3, 2017  Location of Meeting: PBCI Office

Participants
On the above date a meeting was held at the PBCI Office, with the following individuals in attendance:

PBCI Staff
• Jim Sweat, Chief of Staff
• Martha Gookin, Division Director, Tribal Member Services
• Amanda Montgomery, Director, Family Services
• Michealine Deese, Child and Family Welfare Coordinator
• Wanda Fowler Hadley, Adult Services Coordinator
• Crystal Hadley, Financial Services Coordinator
• Lena White, Community Services Coordinator
• Thad Evans, PCI Student Intern/UA MSW Field Placement

Child Advocacy Center
• Gina South, State Director and Board Member, Native American Children’s Alliance (NACA)

Escambia County DHR:
• Gail Cooper, Senior Service Worker

SDHR, Family Services/Legal/Quality Assurance:
• Jim Loop, Family Services - Deputy Director
• Kanoschu Campbell, Family Services - ILP
• Valencia Curry, Family Services - Foster Care
• Harold Brown, Family Services – Child Protective Services
Larry Dean, Family Services – Federal Coordination and Reporting

The results of the annual meeting, held on May 3, 2017, are reflected in the content that follows.

I. **Inter-agency Agreement (IA)**
   There was mutual agreement to proceed with finalizing the draft IA, and preparing it for signature. In order to ensure that PCI and DHR were working from the same document, PCI staff sent by email the current draft version to FSD for review. After that review was completed, the document was forwarded to SDHR Legal for final review. With concurrence from Tribal and DHR Legal staff, the IA has been prepared for signing by both the Chair of the Tribal Council and the DHR Commissioner. Coordination of dates for a formal signing will be initiated in July, with hopes of it occurring in July or August, 2017.

II. **Guidelines for State Court Indian Child Custody Proceedings**
   These guidelines were discussed at the 2015 Annual Meeting of PBCI and DHR staff. As comments have been (nationally) received on these guidelines, and as they are not yet final (even as Guidelines, as distinct from Statute), no discussion occurred on them on this date. After such a document is finalized, and the legal ramifications reviewed, joint discussion between PBCI and DHR staff can occur. **2017 UPDATE:** This plan continues in effect.

III. **ICWA Compliance**
    A tentative plan is to conduct an ICWA educational session at the PBCI Office for DHR staff from the southern counties. As a part of the agenda for that day, a cultural presentation would also occur for attendees. The staff of PBCI will determine what date options there are for use of their facilities in this regard and provide that information to Family Services. Family Services Leadership will decide on the details of informing the selected counties, seek the necessary approvals and coordinate with PBCI staff and Escambia County DHR staff on program plans. ICWA policy will also be addressed in the policy training offered by SDHR, Family Services Division. **2017 UPDATE:** PCI staff will be presenting ICWA information at the DHR Supervisor Conferences that are scheduled for summer 2017. It was agreed at the annual meeting on 5/3/17 that the Department will send the current ICWA policy to PCI for review to ensure concurrence of ICWA compliance (or needed updates). Subsequent to the meeting the Department’s ICWA policy was emailed to PCI staff.

IV. **Program Improvement Plans (PIPs) Related to PL 113-183**
    Copies of the already approved PIP on Successor Guardian and draft PIP for PL 113 were distributed, along with copies of the legislation that was introduced regarding various aspects of PL113-183. Some contextual information regarding the respective content pieces were discussed, and further information on the PL 113 PIP will be provided as it is approved and planning proceeds. **2017 UPDATE:** Both of the identified PIPs are scheduled for completion over the summer of 2017. Upon confirmation of their completion from the Children’s Bureau, copies of each will be provided to PCI staff.

V. **Plan for Improvement (PFI)**
    Copies of the PFI were distributed, and participants were encouraged to submit any comments, suggestions, or questions on the PFI to Family Services. In particular, any activity that is already in place, or occurring, that could help address any of the goals or objectives, would be important to include in the plan. **2017 UPDATE:** Prior to the annual meeting, a copy of Alabama’s approved 2017 APSR (which contains the PFI) had already been provided to PCI staff. Additionally, PCI staff are members of both the State QA Committee, as well as the CWCI Team and thereby receive information on the PFI by virtue of such membership. The Department welcomes any ideas that PCI staff may have for inclusion in the PFI.

VI. **Round 3 (R3), Child and Family Services Review (CFSR)**
    The general plans for the R3, CFSR were provided. Family Services will definitely include PBCI in the focus group of stakeholders that are interviewed for the CFSR. Although it is too early to determine review team membership, PBCI staff may be included for this component of the review as well. **2017 UPDATE:** The Tribe remains a significant stakeholder in the work carried out by DHR staff, and will be involved in the CFSR process. Further conversation on the CFSR and the various components will occur as planning moves ahead. While PCI staff will have opportunities for CFSR discussion via participation in the CWCI Team and State QA Committee, discussions between staff from both agencies will also occur.

VII. **Chafee Foster Care Independence Program (CFCIP)**
    An updating of ILP events and activities was provided. Additionally, an ILP staff member will be contacting PBCI to set up a date and time for members of the State’s DREAM Team (older youth) to come to PBCI for a time of information sharing and discussion. **2017 UPDATE:** As a result of last year’s meeting, the members from the IL DREAM Council
did meet with PCI staff last year. The PCI staff expressed interest in this occurring again, and DHR IL staff will coordinate with PCI staff in setting up a date/time for this to occur again. At the meeting, information was also provided on various aspects of the Department’s IL program.

VIII. **Training Collaboration**

Information on Trauma Informed Partnering for Permanency and Safety (TIPS), which is the Department’s pre-service preparation curriculum for prospective foster parents (replacing GPS) was distributed. Also, progress on the new worker training that is being piloted, Striving Toward Excellent Practice (STEP), which will replace ACT as the new worker training curriculum, was also discussed. The training schedule for March – July was also distributed. PBCI staff may sign-up for either training opportunity, and interest was expressed in participating in planned TIPS training sessions. The staff from PBCI re-iterated their willingness and desire to host training events for southern Alabama at their office. **2017 UPDATE:** Information was distributed on STEP, the new training curriculum for newly hired child welfare staff. Also, subsequent to the meeting, information regarding TIPS, the training for prospective foster and adoptive parents, was transmitted to PCI staff. Furthermore, PCI staff again made available the PCI Office for a training site for TIPS. Efforts were made this past year to convene a training session at PCI; however, due to conflicts it did not occur. The goal of using the PCI facilities for a training site will continue to be pursued.

IX. **Miscellaneous**

- At the meeting on 5/3/17, PCI staff indicated an interest in further collaboration with the Department and Education on truancy issues. PCI staff will provide more specifics on these concerns to Family Services’ foster care management staff and coordination for a follow-up meeting will occur.

- At the annual meeting on 5/3/17, PCI staff indicated some difficulty from time to time in obtaining needed information from DHR staff when PCI is faced with possible child maltreatment allegations. As a follow-up on this matter, PCI staff committed to provide Family Services Leadership with more details and further attention will be given as to ways in which resolution can occur.

- Training involving the Alabama Network of Child Advocacy Centers (ANCAC) was also discussed, and information on these events are as follows:
  
  1. Subsequent to the meeting, on May 23rd, ANCAC provided *Darkness to Light Stewards of Children* Training for the 90 PCI volunteers that will be working with children this summer.
  
  2. Also, on July 26, 2017, a “*Listen and Learn*” Conference will be held at the PCI Offices. The intended participants are the state’s Multi-Disciplinary Team members (and any other interested parties). The purpose of the conference is to provide an opportunity for MDT members of Alabama to visit with the PCI Tribe, and learn more about their culture. It is free to attend, but space is limited, and attendees must pre-register. Registration will open on June 12th, and ANCAC will send out the registration link.

  **2017 UPDATE:** Only brief discussion occurred on the below matters at our recent visit. However, as either the Tribe or the Department desire to engage in follow-up discussion, opportunities for such (conference calls, in-person meetings, exchange of documents, etc.) will be promptly provided.

- An emphasis on services for children under the age of six, for whom therapeutic foster care placements are being sought, was also presented. Family Services is seeking community partners and county staff to be a part of a workgroup to identify plans and strategies for addressing the needs of this group of children. Staff from PBCI and Escambia County DHR were invited to participate.

- PBCI was invited to become a part of the Cakes and Cupcakes across Alabama Project. This project was introduced by Family Services on March 18, 2016. It will be an ongoing project throughout the state and is designed to provide a cake or cupcakes to children in foster care for their Birthday. Wal-Mart and Publix Headquarters, along with other local community partners, will also be contacted for their support. All 67 counties were notified and are currently responding with the names of their office representatives for the statewide team. The Office of Foster Care is leading this project.

- A brief update on the stakeholder group that has been formed to address sex trafficking was presented and an invitation extended to PBCI staff to join this stakeholder group. Also, Family Services Leadership is willing to formally present information on the issue to the Tribal Council if so desired. The PBCI staff will explore this
possibility and communicate with Family Service Leadership in this regard.

- The Department's desire to maintain and enhance collaboration was expressed, and, as reflected in this summary, a number of opportunities are being explored. Both (county/state) DHR staff and PBCI staff are encouraged to continue to seek such avenues for cooperation and maintain communication with each other regarding ways to do so.

- In terms of providing information/training/education to PBCI staff on Mandatory Reporting of Child Abuse and Neglect, the online mandatory training module was suggested. Using this format would offer to individuals the opportunity to do so on a schedule convenient to them. If, after utilizing this method, further in-person training is desired, PBCI can contact Family Services and/or Escambia County DHR. The online training can be accessed by clicking on the link below (the interactive training also has a quick link from the DHR website).

  2016 Child Abuse Mandatory Reporters Training

X. Process for gathering input for the 2018 APSR

NOTE: For updates to the below content, please see the 2016 annual meeting summary provided above.

- The Tribal Members Services Division Director, as well as the Director of Family Service for the Tribe are member of the CWCI Team. The Tribal Members Services Division Director, is also a member of the State QA Committee, which also provide ongoing opportunities for exchange of information, collaboration, etc., with both the Department and other agencies represented on the team/committee.

- The Director of Family Services for the Tribe participated in the 2015 Joint Planning Conference, conducted with staff from the Children's Bureau Regional Office in April 2015.

  2017 Update: PCI staff continue to be members of both the CWCI Team and State QA Committee and are thereby afforded opportunities for input. Also, the APSR collaboration content has been provided to PCI staff as a means to highlight any APSR area or content for which the Tribe would like to have further discussion.

XI. State's Plan for Ongoing Coordination and Collaboration with PBCI and Compliance with ICWA

- The race and ethnicity of children is captured on FACTS, Alabama’s SACWIS system. Race is a required field in FACTS and when American Indian/Alaskan Native is selected as the race, additional fields are required to specify the child’s tribe, membership status, and parent/custodian/tribal notification. FACTS is operating state-wide. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. 2017 Update: The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

- The Department must formally and in writing notify the Indian child’s parents or Indian custodian and the child’s tribe of pending legal proceedings involving foster care or termination of parental rights. Notification is by registered mail with return receipt requested. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. 2017 Update: The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

- DHR policy provides that tribes have an absolute right to intervene in those child custody proceedings defined in ICWA. Tribes may decline jurisdictional transfer, but retain the right to request updates and participate in planning activities for development of the Tribal/Department plan for the child. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. 2017 Update: The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

- There are two placement categories for Indian children: foster care/pre-adoptive placements and adoptive placements. Foster care/pre-adoptive placements include members of the child’s extended family; foster homes which are licensed, approved or specified by the child’s tribe; and Indian foster homes licensed or approved by an authorized non-Indian licensing authority; or institutions for children which are approved by an Indian tribe or operated by an Indian organization which has a suitable program. Adoptive placements include a member of the child’s extended family; other members of the Indian child’s tribe; or other Indian families. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. 2017 Update: The goal of
Prior to initiating court proceedings to remove Indian children from their homes, active efforts are made to maintain the Indian family unit. Active efforts are defined as “making active attempts to assist in alleviating the problem that causes the need for removal.” Active efforts are more intense than reasonable efforts and require remedial services and rehabilitation programs for family members to prevent placement and are made before out-of-home placement is considered. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. **2017 Update:** The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

The Tribal Court for the Poarch Band of Creek Indians (PBCI) has exclusive jurisdiction over child custody proceedings defined in ICWA for children who reside on the Reservation or are domiciled on the Reservation. PBCI Tribal court or any other tribal court of an Indian child not living or domiciled on the tribal reservation has a right to intervene at any point in the state court proceedings for both foster care placements and termination of parental rights proceedings. State courts are responsible for transferring jurisdiction to the Tribal Court, absent good cause or absent the objection of either parent. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. **2017 Update:** The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

### XII. Description of Responsible Party for Providing Child Welfare Services and Protections for Tribal Children (e.g. pre-placement prevention services, services to facilitate reunification (or, if not possible, adoption, legal guardianship, or APPLA), and Obtaining Credit Reports for Tribal children Age 16 and Older.

### XII. Description of Responsible Party for Providing Child Welfare Services and Protections for Tribal Children (e.g. pre-placement prevention services, services to facilitate reunification (or, if not possible, adoption, legal guardianship, or APPLA), and Obtaining Credit Reports for Tribal children Age 16 and Older.

- PCI, the only Federally recognized tribe in Alabama, maintains records on children and families to whom the Tribe provides services. Reports of child abuse/neglect that occur on the Reservation are investigated by the Tribal caseworker. The Tribe maintains a case review system for those children for whom the Tribe has custody. PCI has established a Child Protection Team to review cases. Additionally, PCI has an annual review performed by the Bureau of Indian Affairs. There are some cases in which the County Department and the Tribe work jointly with a child and family, e.g., an incident occurred off the reservation, but the child resides on the reservation. In these cases, both the Tribe and the County Department maintain records and the Department is required to do an ISP on any open case. The Department’s efforts to involve the PCI in developing policies affecting the Tribe and efforts to join with the Tribe in providing services is positive for Indian children living in Alabama. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP. **2017 Update:** The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.

- The Department and the Tribe will explore the possibility of a IV-E Agreement with the Tribe or whether the Tribe will apply directly to the Secretary for IV-E funds. Related to this goal is the determination of whether a IV-E agreement or direct IV-E funding to the Tribe is necessary to access CFCIP and ETV funds for Indian Youth. **Update 2014:** Discussion around IV-E determinations was held, but clarity around these funds is still needed. Family Services staff agreed to get back with PBCI for more details around what questions or concerns remain and some further discussions have occurred on this issue. In September, 2013, counties were notified that certain information relative to an Indian child’s IV-E eligibility is required to be provided to a Tribe Title IV-E Agency or a Tribe with a IV-E agreement with the state Title IV-E Agency in which the Tribe is located. Federal Law 45 CFR 1356.67 provided procedures for the transfer of such information. **Update 2015:** The matter of a IV-E Agreement with the Tribe, or the Tribe applying directly to the Secretary for IV-E funds, are not actively being considered. However, should the Tribe later desire to pursue either option, the Department stands ready to explore such prospects. **2017 Update:** See 2015 update.

- The Department will explore in conjunction with the Tribe a method for the Medicaid reimbursement for services provided by the Tribe for Indian children who are eligible for Medicaid. **Update 2014:** This was not discussed at the April 2014 meeting. A plan was made to discuss with Deputy Director and Targeted Case Management Program Manager to schedule teleconference with Ms. Gookin by July 2014. The planned deadline date for an initial discussion will be extended to November 28, 2014. **Update 2015:** During the conference call that occurred on November 6, 2014, it was unclear whether PBCI Administration had inquired about becoming a Medicaid Provider. Consideration of any next steps will occur after that determination has been made. **2017 Update:** See 2015 update.

- The Department, in collaboration with the Tribe, the Department of Child Abuse Prevention and the Regional ACF Office, will explore access to CAPTA funding from the Department of Child Abuse Prevention (Children’s Trust Fund). **Update 2014:** This was not discussed at the April 2014 meeting. There is a plan to discuss with CPS
Program Manager to schedule teleconference with Ms. Gookin by July 2014. The planned deadline date for an initial discussion will be extended to November 28, 2014. 2015 Update: This matter remains one for which next steps (if any are to occur) need to be identified. 2017 Update: See 2015 update.

XIII. Identify Sources of Data to Assess State’s Ongoing Compliance with ICWA
- See content regarding FACTS, under XI above.

XIV. Description of Steps State will take to Improve/Maintain Compliance with ICWA
- The Department, in collaboration with the Tribe and the Regional ACF Office, will review supplemental instruments to evaluate ICWA compliance, for use in the next CFSR that occurs in Alabama.
- The Children's Bureau has begun to share information/expectations around the next round of the CFSR process. Alabama is scheduled for review in 2018. There was not a significant discussion of this issue.
- 2017 Update: Should the Children’s Bureau provide to the Tribe and/or the Department supplemental review instruments to evaluate ICWA compliance, they will be promptly distributed to the intended audience, along with the expectations for their use.

XV. Information Related to the CFCIP as it Relates to Tribal Children – 2017 Update: The below remain in effect.
- The Department considers all children as “Alabama’s Children” without regard to race or culture. The Alabama Medicaid Agency has approved PCI to contract individually with residential facilities when a youth needs residential treatment services. The Department will continue to strengthen services to Indian Youth who reside on reservations and need access to benefits and services under the Chafee Foster Care Independence Program (CFCIP). Indian Youth are to have access to the benefits and services under the CFCIP on the same basis as any other child. Efforts will continue to be made to ensure that Indian Youth have access to CFCIP and Education Training Vouchers. See Section of APSR on CFCFP/ETV.
- Indian families and the Tribe are to be included in ISPs for the child/family when the Department is working with Indian children and youth living off the reservation. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.
- The Tribe continued to be interested in funding discussions, e.g. ILP. Family Services will be responding to the Tribe's ILP questions/issues by September 2014. The planned deadline date for an initial discussion will be extended to November 28, 2014, though this will be an ongoing topic of discussion.
- Update 2013: Any ILP-eligible Indian Youth in the state’s foster care system will have access to CFCIP and ETV funds as any other youth in foster care. Additionally, Indian Youth that have a high school diploma or GED, have access to Tribal monies (through the Tribal Trust Fund) to assist in paying for college expenses. Finally, SDHR and PBCI staff agreed that if a specific Indian Youth in the state’s foster care system was in need of particular services, collaboration would occur around assessing/addressing those needs, as they would for any other (non-Indian) youth in foster care. The goal of mutual collaboration will continue in effect over the time frame covered by the 2015-2019 CFSP.
- At the annual meeting in April 2015, some of the resources available for ILP-eligible youth through participation in local ILP groups were highlighted, including the fact that IL services were available to any youth age 14 and older. Ms. Gookin’s name was added to the mailing list of local counties that have active groups, so that she can be kept informed of upcoming events for those groups. Also, updated training information related to Children’s Justice training sessions and FSD’s Office of Child Welfare Training, will be sent to her.

XVI. Exchange of Copies of the 2018 APSR
- FSD has provided PBCI with a copy of the 2017 APSR.
- Upon approval of the 2018 APSRs, the exchange of documents will occur.

XVII. Other: Interagency Agreement (IA)
2014 Update - Attorneys for both PBCI and SDHR have communicated on the completing of a new IA. A goal remains for the finalizing, implementing and monitoring of a signed IA. The completion of the IA will remain a goal, and upon completion, periodic review and monitoring will continue to occur. In discussing the draft IA, PBCI, Attorney Kemmer indicated that she had no revisions to offer relative to the content of the IA itself. It was agreed that any changes deemed necessary by the revised ICWA Guidelines would be made in the Department’s ICWA Policy (which is exhibit A of the IA), not in the content of the IA itself. Still, with the possibility that revisions may be made to Department policy, the IA itself will be put on hold at the present time.
2016 Update: See summary of meeting that was conducted on April 12, 2016.
2017 Update: See under “I” above.
Systemic Factor VII: Foster and Adoptive Parent Licensing, Recruitment & Retention

In the CFSR Round 2 Final Report, issues that were cited included the following: the need to improve efforts to expand the racial/ethnic/cultural makeup of the foster and adoptive families approved by the agency to reflect the ethnic and racial diversity of the foster care population. The quality of some current homes was cited as a concern.

**Item 33. Standards applied equally**

2018 APSR ASSESSMENT

The Department and contracted providers still train, assess and approve foster homes (traditional and therapeutic) according to the Minimum Standards for Foster Family Homes. In response to the passage of PL113-183 a sub-committee was formed to address normalcy in foster care to determine what changes need to be made to the Minimum Standards and other policy documents regarding the safe and prudent parenting standard. As a result of the passage of Act 2016-19, revisions were made to the Foster Family /Adoptive Resource Home licensing policies that require successful completion of training in Reasonable and Prudent Parent Standard. The new pre-service training curriculum, TIPS, also includes a component on the RPPS. RPPS training materials were developed, including Power Point Slides, note pages and handouts. Foster/Adoptive parents, DHR staff and staff of child-placing agencies and residential facilities were trained during early FY 2017 according to the plans provided in the Plan for Improvement Document. Statewide training was provided in six rotating sites (Madison, Baldwin, Jefferson, Montgomery, Tuscaloosa, and Coffee Counties). Training was conducted jointly by staff from the Office of Foster Care, Office of Resource Management and the leadership of the Alabama Foster & Adoptive Parent Association to all current foster/adoptive resource families. Training materials were supplied to staff that will be responsible for training incoming foster parents. RPPS training will be provided to new, incoming foster parents by adding an eleventh (11th) week to the pre-service training requirements. New staff will be trained through the Departments LETS system. Materials have been developed for LETS and at the time of this report are being testing. Non-DHR staff without access to LETS will be able to access materials through the same site where TIPS materials are accessed. The Office of Child Welfare Training (in the Quality Assurance Program) will upload the materials to that site. RPPS training will be provided to new child-placing agencies and residential child care facilities as needed by the Division of Resource Management/Office of Residential Licensing.

**Item 34. Requirements for criminal background checks**

2018 APSR ASSESSMENT

A system is in place for conducting criminal background checks in accordance with Federal Regulations.

**Item 35. Diligent recruitment of foster and adoptive homes**

2018 APSR ASSESSMENT DATA

Alabama DHR continues to utilize the RRT model for responding to families requesting more information about becoming a foster/adoptive parent. The RRT is provided through contract with CAS/APAC, but their staff do not have access to FACTS. Therefore, they continue to record family Intakes into the RRT database created by AdoptUsKids. That database underwent changes a few years ago and is now known as FITT (Family Intake Tracking Tool). The Recruitment Response Team entered contact with families into the RRT database. For the reporting period 10/1/2014 through 9/30/2015 the RRT has entered 1484 new family Intakes into the FITT database. For the period 10/1/2015 through 9/30/2016, 1,124 new family Intakes were entered into FITT. For the period 10/1/2016 through 3/31/2017, 524 new family Intakes were entered into FITT. New family Intakes entered into FITT represent families who are not already approved to foster or adopt. The RRT provides information about how to become foster/adoptive parents and then routes the potential family’s contact information to county DHR resource staff for follow-up, pre-service training, etc.

Assessing the success of our recruitment efforts is challenging at the present time. Currently there is no cumulative data about the number of new families inquiring about fostering/adopting each month with County Departments. Although FFH/AR approval policies directs counties to enter inquiries into FACTS, we are unsure if this is being done consistently or with any degree of regularity. Information is, however, available for the number of inquiries to our RRT. There was a report through a previous state tracking system that gave info on providers by type and it included status types of inquiry, application, approved, etc. A similar report PVD 295A is available through FACTS. According to the Index for FS MS Reports, no defect is noted. However, the Office of Data Analysis reports that information on this report is incorrect. The Office of Data Analysis, in conjunction with FACTS staff and leadership of the Family Services Division, is currently working on reports generated by FACTS. As counties provided information about their 2016 and 2017 recruitment plans to the SDHR/FSD, they were also asked to provide information on inquiries, families that completed GPS/TIPS and the number of
new homes approved. This information can be found in the appendix section of this report along with the stand-alone diligent recruitment plan.

In the area of recruitment and retention of foster family/adoptive resource homes, we feel that timeliness of response is a key component to retaining families. Families who contact the recruitment response team reach the team either by calling our toll free recruitment hotline (1-866-4AL-Kids – 1-866-425-5437) or by submitting an inquiry form through the DHR web site (www.dhr.alabama.gov). It is our expectation that a member of the Recruitment Response Team will respond to the family asking for general information about fostering/adopting within five business days. The RRT is part of a contract with Children’s Aid Society for pre-adoption services. If the primary responder is out on leave for an extended period of time, other staff at CAS/APAC are trained to respond.

The Office of Adoption has an Administrative Assistant who has the responsibility for responding to child-specific inquiries on the following sites: www.dhr.alabama.gov (partner page with AdoptUsKids); www.adoptuskids.org and www.adoption.com. She is required to respond to child-specific inquiries within two weeks.

Our partnership with Heart Gallery Alabama has been very beneficial in raising overall awareness of the need for more adoptive families but more specifically in providing another avenue for families to submit child-specific inquiries for children featured on this site. Heart Gallery utilizes donated time and talent from photographers around the state to capture the likeness of children waiting for forever families; they also raise funds from a variety of sources (grants, fund raising, etc.) to fund the service they provide to Alabama DHR. For three years now, Alabama DHR has had a contract with Heart Gallery Alabama that primarily funds staff to provide timely response and accurate information to families who inquire about children on their web sites or featured in on-site exhibits.

Other statewide recruitment activities are detailed earlier in this report in the sections detailing how Adoption & Legal Guardianship Incentive and Adoption Promotion and Support funds are used. The 2018 APSR has a stand-alone plan that addresses diligent recruitment of foster and adoptive resources. Additional assessment and progress information is supplied in that document.

The Minimum Standards for Foster Family Homes, the Applications & Home Study section of the Adoption Policy Manual as well as the Foster Family Home/Adoptive Resources Approval Policies provide that foster parents and adoptive resources may be both single (never married or legally divorced) and married persons. Applications are not accepted from couples who are living together (neither legal nor common law marriage) or from single individuals living in a conjugal relationship. All three of the documents that guide how foster parents and adoptive resources are trained and approved contain a minimum length of marriage requirement. In order to be approved as a FFH/AR (dual), if married, the marriage must be of at least one year in duration. In order to be approved as an adoptive resource only, the minimum length of marriage is three years.

Marriages by same-gender couples were not recognized in Alabama until 2015. Because same-gender couples could not marry, applications were only being accepted from LGBTQ single individuals. A Federal judge in Alabama declared the Marriage Act unconstitutional in Alabama on January 23, 2015 Searcy et al v. Strange et al case. As a result of that decision, DHR followed the legal position that marriages were legal by same sex couples from that point forward. The U.S Supreme Court determined that a ban on same sex couples was unconstitutional on June 25, 2015 as to an Ohio case which applies to all of the States as to the impact of the decision. Since that time, Alabama DHR has recognized the marriages of same-gender couples and have held these couples to the same minimum length of marriage.

Staff reviewing studies submitted from adoption applicants are seeing more families whose narrative indicates they are willing to parent children/youth who identify as LGBT. The Agency’s “Child Characteristics Willing to Parent” form (completed by all adoption applicants) is being revised to include lesbian, gay, bi-sexual, transgender and questioning as characteristics willing to parent. Staff will also continue to participate in webinar and other training provided by the Center for States Capacity-Building Collaborative as related to this topic of LGBT. At the September 2016 meeting of the recruitment partners (stakeholders group) Eva Kendrick from the Human Rights Campaign conducted a short training on LGBTQ rights and adoption.

In (approximately) 106 survey ratings completed by county QA committee members, on a scale of 1-6 (6 being optimal), the average rating for Recruitment and Retention of Resource Families was 4.96 compared to 5.04 in 2016, and 4.51 in 2015.

See also Appendix 10: Feedback from State QA Committee and CWCI Team
### 2018 APSR ASSESSMENT

#### STRENGTHS

1. The state plans to maintain the Minimum Standards for Foster Family Homes which apply to all foster family homes. There are guides for TFC and other types of residential services.
2. Legislation has passed, effective 7/1/2016, that provides for Alabama’s Reasonable and Prudent Parenting Standard. Training for existing staff and foster parents has been completed and information/materials have been prepared to training incoming foster parents.
3. Alabama DHR already had an “Activity and Life Events” policy contained in the Out of Home Care Policies. These policies have been revised based on the RPPS requirements.
4. The Department maintains an Office of Criminal History that ensures compliance with applicable Federal Regulations in this area. Criminal History Check Letters of Suitability are on the Resource Record Review checklist referred to in #3.
5. The Department’s Administration expects counties to regularly deliver a message about the need for more foster/adoptive parents.
6. Annually in February, each county is expected to develop and implement a foster parent recruitment plan. In January of 2017, counties were asked to report on recruitment activities completed in FY 2016, recruitment activities planned for FY 2017 and to provide information on inquiries, applicants that completed GPS or TIPS and the number of new homes approved in FY 2016.
7. Many counties implement recruitment activities year round. The majority of the county recruitment plans include delivering a message to communities of faith, social and civic organizations and to other groups based on the market segmentation lifestyle grouping data we have on existing successful foster families.
8. The Department has executed a contract for recruitment of families interested in adopting children that meet the special needs definition. This vendor has coordinated recruitment efforts in communities of faith that include large churches in urban areas of the state as well as smaller rural congregations in the area of the Black belt area of the state.
9. Alabama has two Wendy’s Wonderful Kids Child-Focused Recruitment Projects. The Department has expressed to the DTFA our desire for funding for a third WWK recruiter.
10. The Department and our post-adoption services program were recognized at a national meeting for

#### CHALLENGES

1. Recruitment and Independent Living Services need to partner in a campaign focused at increasing the number of families willing/able to foster and adopt older youth in care.
2. We are not currently able to track the number of applications received or new families approved in a given period with existing ERD reports.
3. The Department needs more resource families of Hispanic ethnicity or with Spanish language skills.
4. Counties are not correctly capturing the reasons foster family homes decide to discontinue caring for our children.
5. If data as currently being entered is correct, we need to reduce the number of foster family homes that close for the reason “provider request”, exploring more specifically what this indicates.
6. We need to increase the number of foster families willing/able to parent older youth in care.
7. We need to increase the number of foster families willing/able to parent children with special health care needs.
8. We need to increase the number of foster families willing/able to parent sibling groups of three or more.
9. Review and confirm existing data collection mechanisms for families currently providing foster care services to medically fragile children/youth, and investigate/develop options for identifying and tracking foster families willing/able to accept a child with special healthcare needs.
1. Heart Gallery Alabama partnership and the services they provide continue to grow. They continue to photograph and video waiting children and allow use of these photographs and videos in other recruitment venues throughout the state.

2. The Kids to Love Foundation continues to partner with Alabama in increasing the awareness of the needs of foster and adoptive children through the medium of television.

3. Kids to Love and CAS/APAC have developed a partnership. They recruit together in the geographic area served by Kids to Love, and then APAC provides GPS training and home study services (at the Kids to Love Center in Huntsville).

4. The staff in the adoption unit in the Office of Permanency are well-versed in the use of ICPC for cross-jurisdictional adoptive placements. Children with TPR and a goal of ANIR are featured on four different web-based photo-listings. Therefore, families from all over the country can see photos, videos and written bios on our waiting children. Home studies from out-of-state families are received and processed on a regular basis. Once received, we acknowledge receipt back to the agency that sent them and then the studies are forwarded on to placement staff for review and consideration as potential matches for our children. Adoption team considers out-of-state families on a regular basis and when children are matched with potential families living out-of-state, ICPC packets are submitted. The adoption placement staff have developed good working relationships with a number of home study agencies in other states. Our Wendy’s Wonderful Kids recruiters routinely submit profiles on children in their caseloads to paper match sessions held by out-of-state agencies.

5. The Department has a policy in place for releasing courtesy copies of home studies on families approved as a potential adoptive resource through DHR to other states.

**Item 36. State use of cross-jurisdictional resources for permanent placements**

Geography is not a barrier to achieving permanency for children in the custody of the Department. The children with TPR and a goal of ANIR (Adoption No Identified Resource) are included in photo listing web sites and we receive and respond. Inquiry data from Heart Gallery Alabama is already reported earlier. The inquiries on that site are a good mix of both in-state and out-of-state families. The inquiries received and responded to through www.adoptuskids.org are primarily from out-of-state families. According to the Agency data tracker available through that site, 1,000 inquiries were received on children in active status from 10/1/2013 through 09/30/2014. From October 1, 2014 through September 30, 2015, 805 child inquiries were received and responded to. For FY 2016 445 child inquiries were received. We have one Administrative Assistant who has responsibility for responding to all families who inquire about specific children or sibling groups on the web sites. In her response to their inquiry she provides instructions on how to submit a home study to our...
Office so that the family may be considered for the specific child or sibling group. This same staff person receives all of the out-of-state studies, records receipt on a home study log, sends a courtesy acknowledgement to the Agency or social worker that sends us the study and then routes the study on to the Program Specialist assigned to the specified child/sibling group for the purposes of matching and placing. According to this home study log, from October 1, 2014 through September 30, 2015, we received home studies from 546 out-of-state families. From 10/01/2015 to 9/30/2016 we received 580 out of state studies and from 10/01/2016 – 03/31/2017, 272 out of state studies were received.

The major goal for the ICPC Office for the next five years is to process 100% of all ICPC referrals for placement within five (5) days from the date of receipt in the ICPC Office. The expeditious processing of these referrals will allow permanency for children in a timely manner and reduce delays which are a barrier to permanent placement of children. We will continue to monitor workflow of staff. The expeditious processing of the referrals will allow permanency for children in a timely manner and reduce delays which are a barrier to permanent placement of children. At least 95% of all referrals are currently processed within 5 days. Barriers to processing include case crisis; worker absence and increased workload. Workers frequently process most requests on the date of receipt.

Continue to provide ICPC training and case consultation to county staff.

ICPC training was provided in at least 45 counties in FY16. Staff across the state have been very receptive and indicated that their knowledge and skills around ICPC policy and practice were improved upon receiving the training.

Maintain interagency collaboration with American Public Human Services Association (APHSA) and other states. Continue to request permission for attendance at the Annual ICPC Conference. A Program Specialist from the ICPC Unit attended the American Association of Interstate Compact on the Placement of Children Conference on May 12-17, 2016, in White Plains, New York. The AACPCPC 2017 Conference was not attended by Alabama this year. A new Program Manager has been hired as of June 1, 2017, and a renewed focus on these kinds of opportunities is occurring.

Office of Policy Yearly Report

2018 APSR ASSESSMENT

1. Maintain up to date policies

Meeting this goal will involve the planned review of existing policies. In the past five years a number of substantive policies have been developed. There is a need to make a careful review of existing policies to locate needed changes. While policies are updated as laws and regulations change, other revisions are also needed as the Department changes program and procedures.

2015 Update: During this reporting period, revisions were made in the Out-of-Home Care Policies and Procedures to reflect residential placement Intake protocol modifications. Additional policy and guidelines included: the Adoption Policy was revised to clarify that a child who is placed in a kinship guardianship arrangement and such arrangement is dissolved that child may be eligible for title IV-E Adoption Subsidy provided the child also meets the “special needs” requirements and other requirements of the Adoption Subsidy Program. On February 2, 2015, The Adoption Policy was revised to reflect two phases of recruitment of adoption resources (1) initial recruitment & (2) child specific recruitment. Policy targets specific needs of a child or sibling group. On April 23, 2015, Adoption was revised to reflect a sibling group is two or more children and children age five or older are considered special needs. On January 21, 2015, Out-of-Home Care Policy & Procedures were revised to comply with Public Law 113-183, Preventing Sex Trafficking & Strengthening Families Act. The definition of sibling and the notification of relative’s requirements for Title IV-E and Title IV-B service were revised. On May 4, 2015, County Departments were informed of Public Law 113-183, Preventing Sex Trafficking and Strengthening Families Act was signed into law on September 29, 2014. The letter provided basic information on forthcoming policy and implementation of the law. On May 5, 2015, Out-of-Home Care Policy was revised to reflect youth exiting foster care at age 18, 19, 20, or 21 must be provided certain documents when exiting care. To comply with Public Law 113-183, Preventing Sex Trafficking and Strengthening Families Act, health insurance information and driver’s licenses or equivalent State-issued identification card was added to policy. On March 19, 2015, under the Child Abuse & Neglect Prevention & Treatment Act (CAPTA), findings and information about cases of child abuse and neglect that result in in fatalities or near fatalities are subject to public disclosure. To comply with this requirement, County Departments are to report child deaths and to immediately begin reporting near fatalities as well to SDHR. During February, March, and May 2015, the foster and/or adoption application form, foster and/or adopt financial form and the application renewal foster family home/adoptive resources were revised. On May 7, 2015, memorandum was sent to County Departments clarifying authorization for medical treatment.
The memorandum clarified County Departments are required to give permission for medical care to include hospitalizations, including psychiatric hospitalizations, surgery and other medical treatment, emergency or non-emergency as per Code of Alabama. On June 25, 2015, a Memorandum was released regarding immediate action by the counties regarding notification of SDHR relative to arrests or incarceration of children in foster care.

**2016 Update:** During this reporting period, revisions were made in several of the Department’s policies. On September 25, 2015, the Out-of-Home Care Policies and Procedures and Individualized Service Plan Policy to reflect Another Planned Living Arrangement (APPLA) may only be used for children aged 16 and over. Also, policy was revised to reflect an age appropriate child (14 and over) may now have two representatives of their choosing present in the ISP. A separate administrative letter on September 25, 2015, Out-of-Home Care Policy was revised to be in compliance with Preventing Sex Trafficking and Strengthening Families Act, PL 113-183 in regards to requiring the Department to identify and protect children and youth at risk of sex trafficking which includes locating and responding to children who run away or are missing from foster care. Also, policy was revised to reflect credit reports are now to be completed on all children in foster care age 14 rather than 16. On September 29, 2015, Foster Family Home/Adoptive Resource Policy, Adoption Policy and Procedures and Minimum Standards were revised to reflect the change in the United States Supreme Court ruling involving same sex marriages. Sections of policy that addressed husband and wife have been revised to reflect the change in law. On September 29, 2015, Pursuant to ACT #2014 – 438, CPS Policy was revised to reflect the Department must require a drug screening as a condition for some adults applying for Temporary Assistance for Needy Families. Family Assistance workers are now required to report positive findings to Family Services. On November 10, 2015, Adoption Policy subsidy forms were revised to reflect the Departments current practice as well as State and Federal law. On December 2, 2015, CPS Policy was revised to require all reports received involving foster parents where the foster parent is named as the Person Allegedly Responsible for Abuse or Neglect must be completed within 30 days. On January 4, 2016, CPS policy was revised to comply with the Preventing Sex Trafficking and Strengthening Act, PL 113-183. A definition of sex trafficking was added to policy and CA/N reports involving child sex trafficking was added to Special CA/N Procedures. On February 9, 2016, Out-of-Home Care Policy section called Supports to Foster Parents was revised to reflect payment procedure for respite providers and guidance on how to register on FACTS. On March 7, 2016, the Emergency Assistance Program for Families with Children Policy (IV-E) was revised to reflect current practice. On March 22, 2016, a CPS Policy CA/N Assessment and CPS Prevention section was revised to require home visits every 30 days on open CA/N investigations and CPS preventions. Also, CA/N Assessment policy, Deviations from the Information Collection Protocol was revised and is now Exceptions to the Information Collection Protocol. Policy now requires the County Director to obtain approval from the Family Services Director before an exception is granted. On April 5, 2016, ISP Policy was revised to clarify timeframes in safe case closure shall be reviewed within 30 days of the anticipated date of closing a family’s case. On April 6, 2016, Minimum Standards for Foster Family Homes was revised to prohibit foster parents from posting photographs or any information on a foster child and/or their parents on social networking sites. On May 2, 2016, the Financial Procedures for Out of Home Care Policy was developed into a stand-alone policy. The release of this policy obsoleted the Financial Procedures section of Family and Children’s Services Manual Chapter XI. On May 4, 2016, Adoption Policy was revised to reflect a resource or applicant pending a home study receives a child independently, gives birth to a child or applies to another child-placing agency, now allows for an exception to be requested from the Family Services Director. In April, 2016, pilot policy training was launched with an initial group of counties; after revisions, by December 31, 2016, all 67 counties will have received a four-day training specific to all Family Services policy.

**2017 Update:** During this reporting period, revisions were made in several of the Department’s policies. On July 1, 2016, the Out of Home Care Policies and Procedures, in order to be in compliance with Public Law 113-183, Preventing Sex Trafficking & Strengthening Families Act, revised the requirements to provide certain documents to youth exiting foster care. Policy has been revised to reflect these changes. On August 9, 2016, the Out of Home Care Policy, in order to be in compliance with the Fostering Hope Scholarship Act, was revised to reflect the Fostering Hope Scholarship Act. On August 3, 2016, CPS Policy, Section Special CAN Procedures, was revised to reflect non-finalized adoptive placements. Workers will now enter reports of child abuse and neglect received in the child’s birth name rather than adoptive name. On November 1, 2016, The Interstate/Intercountry Services to Children Policy and Procedures were revised to reflect Regulation 2, Regulation 7 & Regulation 12 (federal) revisions. On December 14, 2016, the Targeted Case Management Manual (TCM), Medicaid Approved TCM Training Material and TCM Regional Training Map were released. On December 14, 2016, Pursuant to ACT # 2016-306, Foster Family Home Adoptive Resource Policy, Minimum Standards for Foster Family Homes and Adoption Policy was revised to reflect the abolishment of common-law marriages. As of January 1, 2017 no couple may enter into common-law marriage status. Common-law marriages entered into before January 1, 2017, shall continue to be valid in Alabama. On January 4, 2017, Out of Home Care Policy, Section Education, was revised to comply with the Title I of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act. On March 9, 2017, Out of Home Care Policy, Section Activities and Life Events, was revised to reflect current policy as it relates to children in the custody of the Department traveling out of county or out of state. On March 16, 2017, Out of Home Care Policy, Section Placement of Children, was revised to provide guidance on the out of state placements of children in out of home care. On March 16, 2017, Out of Home Care Policy, Section Permanency and
Concurrent Planning; Adoption Policy, Section DHR Placements; and ISP Policy were revised to reflect county departments are required to obtain approval when changing the permanency plan of foster parent adoption to adoption with no identified resource.

In 2016, all 67 counties received a four-day training specific to all Family Services Policy. There were a total of nine policy training classes held throughout the state with over 800 participants.

2. **Update and maintain the Alabama Administrative Record Code (APA)**
   An offensive plan to bring the Administrative Record Code up to date must be undertaken. Currently, a re-write of the entire APA for Out-of-Home-Care is underway. The APA for Adoption services will be completed following that. Included in the goal is the plan to develop the capacity of all policy developers in any program area to be familiar with updating the APA.
   **Update 2010:** This goal continues. The APA for Out-of-Home-Care is planned for completion in the coming year. APA for Adoption Subsidy and Kinship Guardianship will be completed in the coming year. **Update 2011:** Work has been interrupted on the APA for Out-of-Home-Policies. That will continue in 2011 and Kinship Guardianship will be added to the APA. Work on the APA for Foster Family Homes has been initiated in order to assure that the APA includes only the published Minimum Standards for Foster Family Homes. The APA for Adoption Assistance will be completed in 2011 as agreed to in the Adoption Assistance Program Improvement Plan. Policy developers have received instruction on the completion of the APA. **2012 Update:** The Department continues to struggle with updates to the APA for Family Services. Legal Office points out that attorneys seeking to bring lawsuits against the Department use the APA to do so but have found that the APA and the current policy is not in sync. In this reporting period, a revision was finalized for Minimum Standards for Foster Family Homes. The APA for Adoption Subsidy Policy is about three-fourths complete and work is continuing on the Out-of-Home Care APA. This goal is a formidable goal and will require staff whose time is dedicated to this project.
   **2013 Update:** Minimum Standards APA was submitted but repealed. This is ongoing and goals will continue for APA completion. **2014 Update:** This continues in effect. **2015 Update:** Ongoing. APA for Adoption Policy sections - Adoption Subsidy and Application and Home Studies section is near finalization for submission. **2016 Update:** This goal continues. **2017 Update:** This goal continues.

3. **Automation**
   **2015 Update:** Ongoing – revisions continue to be made in policies. Adoption policy automation was finalized on December 17, 2014. **Goal has been achieved.**

4. **Child Protective Services Policy and Procedures:**
   Because this policy is the foundational policy for assuring the safety of Alabama’s children, maintaining up to date revisions remains as an objective. Revisions to CPS Policies and Procedures are made in response to new laws and regulations, needs of children, and best practice issues.
   **2013 Update:** Revisions have been made to the Child Protective Services Policy during this reporting period: (1) after hours on call procedures (2) CA/N reports involving other states (3) confidentiality. CA/N Assessment policy is being looked at for revision. Legislation passed during the 2013 session regarding mandatory reporters to include physical therapist and employees defined in the public and private post-secondary education. Policy will be revised to reflect this legislation. **2014 Update:** A workgroup comprised of line staff, county supervisory and director staff, along with state office staff was formed in 2013 to assess CPS policy. Their recommendations are under consideration by Administration at this time. **2015 Updates:** The workgroup submitted recommendations regarding changes to CPS Policy to high level administration for review; however, no feedback from upper level management has been received to implement any of the proposed changes. **2016 Update:** This goal continues. **2017 Update:** This goal continues.

5. **Financial Policies and Procedures:**
   The Conceptual Framework for Policy Development provides for a separate policy for financial procedures used to pay for services for children and families. This includes such programs as Title IV-E board payments for children in care, state board payments for children in care, Medicaid Rehabilitation Services for children receiving services, Targeted Case Management Services for children in care, Alabama Medicaid for children receiving services, Children’s Health Insurance Program (ALL-Kids) Supplemental Security Income/Social Security benefits, Veteran’s benefits, use of Flex Funds to purchase services, etc. Because of the complexity involved in developing this policy, the policy is very likely to be released in sections. Currently there exists guidance in the financial procedures in various documents which will be developed into one large policy. No date will be placed but work should begin in 2010. **2013 Update:** These goals will be carried forward. **2014 Update:** Goals are carried forward. **2015 Update:** Goals are carried forward. **2016 Update:** The Financial Procedures Chapter used to pay for services for children and families goal was met as the policy was released on May 2, 2016. **Objective has been met and will not be included in future APSR unless there is a need.**
6. DHR Partnerships with Children, Their Families, and Providers Policies:

This is policy established during the R. C. consent decree that established the basic principles for the Department's work with children and families. Although, the Department was released from the consent decree in 2006, this policy continues in effect. There have been two revisions to this policy. A complete review of the policy is needed to assure its consistency with the practice model set forth in the 2009 Program Improvement Plan. 2011 Update: This objective is continued for 2010 – 2014. Update 2012: This is carried forward. 2013 Update: The objective will continue and be carried forward. 2014 Update: Objective will continue and be carried forward. 2015 Update: This policy has been reviewed. Objectives are met and will not be included in future APSR's unless there is a need.

7. Incorporate FACTS into all policies:

In January 2009 Alabama’s SACWIS, FACTS, became operational statewide. Preliminary policy was developed during the implementation period with the expectation that all policies would be revised to incorporate needed FACTS information. For this five year CFSP this will be a planned objective. 2013 Update: FACTS updates continue to be made in the policies released and revised during this reporting period. 2014 Update: FACTS updates are made as policies are released or revised; however, Office of Child Welfare Policy will ensure in 2014 that any references to prior automation systems in older policy is updated to reflect FACTS. 2015 Update: FACTS updates were completed in the Adoption Policies and Procedures. There are two policies remaining needing updates: Referral, Admission & Discharge Procedure for Inpatient Psychiatric Services and Multiple Needs Child Policy. The Multiple Needs Policy has been reviewed and needs policy revisions. The Office of Policy is waiting direction from upper management. 2016 Update: Objective has been met and will not be included in future APSR unless there is a need.

8. Planned review of individual policies:

As the above process of incorporating FACTS into policies occurs, a review of the policy and any needed revisions can be incorporated. This is a long term objective over the next five years. 2013 Update: Policies are reviewed as needed. The objective continues. 2014 Update: this objective continues. Policy review and development have been somewhat suspended due to competing assignments within Family Services. This is an issue recognized by leadership and strategies to expedite this level of assessment are being developed. 2015 Update: Objective will continue and be carried forward. Policies are being reviewed as needed. 2016 Update: Objective will continue and be carried forward. Policies are reviewed as needed. 2017 Update: Objective will continue and be carried forward. Policies are reviewed as needed.

Office of Child Welfare Eligibility Yearly Report

GOAL:

OCWE will continue to strive to maximize the reimbursement from the Federal government for some of the costs for the care of eligible foster care children while complying with requirements set forth by Federal and state guidelines.

2018 APSR ASSESSMENT

Progress has been made related to including the required language for IV-E eligibility in court orders. The error rate of less than 5% has been maintained as evidenced by compliance with the last three Title IV-E Foster Care Eligibility Reviews. Challenges will involve continuing to assist new staff in understanding the IV-E process, as well as correcting FACTS defects and implementing FACTS enhancements to improve the productivity and adequacy in FACTS.

In order to maintain this momentum of substantial compliance, we continue to have communication with our internal (county and state office staff) and external (Administrative Office of Courts) counterparts in regards to the requirements of Title IV-E regulations

- To emphasize judicial determinations regarding reasonable efforts and contrary to the welfare

We stress the importance of timeframes and required language for a court order to be valid when opportunities emerge such as at conferences and forums with county staff including county directors and district administrative Specialists, and line workers. The Administrative Office of Courts (AOC) continues to train judges, court staff and attorneys on the importance of including the proper court language for children in foster care to meet the Federal IV-E eligibility requirements.
Children entering care through Voluntary Placement Agreements

An enhancement has been integrated in FACTS to include a date of expiration in the VPA module that changes the child’s status to state funds if the county has not documented in FACTS that a hearing addressing best interest was held within 180 days of a child entering care on a VPA. The funds will change to state funds on the 181st day.

When it comes to responsibility for placement and care of children, we continue to make sure orders include language confirming that DHR has responsibility for the child. We have never been cited on any IV-E Review for this regulation.

Eligibility for Aid to Families with Dependent Children (AFDC) under the state plan in effect July 16, 1996

OCWE staff was trained on the Title IV-E Foster Care Eligibility On-Site Review Instrument and instructions. We also incorporate examples of AFDC living with and removal from in training. A turnaround document is being edited in FACTS that will summarize the points of eligibility for IV-E. We continue to utilize income and eligibility verification as well as information imported in FACTS by the county staff.

To continue the momentum for placement in a licensed foster family home or child care institutions, and the Safety requirements for children’s foster care placement

OCWE oversees, in conjunction with the Division of Resource Management, a 100% review of all foster family homes and child placing institutions to ensure compliance with safety checks. This check is accomplished at times by sending a memorandum requesting County Departments and child care institutions to review all foster families and employees’ records to ensure that all safety checks and foster family home approvals are in the records. Once the County Departments and child agencies have completed this process, a compliance statement is forwarded to OCWE. The next check will be completed in 2017.

We are striving to improve our retro claiming process which was evident from the 2012 review to the 2015 review. We had 38 underpayments in the 2012 Review and only 3 underpayments in 2015 Review. We hope to increase the penetration rate by continuing to work with all parties involved in the IV-E process and completing determinations received in the office within 7 days from the date of submission from county offices. County offices receive alerts and a spreadsheet is sent monthly indicating the referrals that are due.

GOALS:

1. Provide Medicaid Rehabilitative Services training to individual county offices, county vendor providers and state contract providers.
2. Provide Targeted Case Management (TCM) training / refresher training to new / current county offices staff.
3. Help ensure that FACTS contains the current information required to bill TCM and Medicaid Rehabilitative Services.
4. Conduct Initial and Follow-up record reviews of DHR State Contract providers’ records and provide feedback related to Medicaid Rehabilitative Services documentation.

2018 APSR ASSESSMENT

An essential function of the Office of Financial Resources is to monitor DHR Revenue Maximization efforts to draw down Federal reimbursement for Medicaid services that would otherwise be paid with state dollars. Because of the Revenue Maximization efforts, DHR is able to save millions of state dollars each year. These efforts identify reimbursable services in the Medicaid Rehabilitative Services and TCM program in order to recoup state dollars spent to provide needed services for abused and/or neglected children and adults. To accomplish the 5-year goals, OFRM provides policy training and consultation for Medicaid Rehabilitation Services and the TCM Program for both county staff and SDHR contract providers. The training and consultation is to ensure that Medicaid Services are provided in accordance to Medicaid regulations and the documentation of services must be able to withstand a Medicaid audit. OFRM has had great success in providing training to both county staff and SDHR contract providers. OFRM has also achieved great success in correcting problems as well as working with county offices to ensure that current billing information is entered accurately and timely in FACTS. This is evidenced by the decreased number of denied and/or rejected Medicaid claims.

OFRM conducts record reviews of contract provider records for policy compliance. This review process helps the provider implement an improved process to maintain accurate records related to service documentation.
**VIII. PLAN FOR IMPROVEMENT (PFI)**

The (baseline/5 year/interim) data measurements listed for the following objectives may be modified, and objectives which have no current measures will be provided with some, based on any combination of factors, including: further internal discussion, queries, data review, Children’s Bureau release of Round 3 CFSR data measures, etc., if another measure is believed to provide a more accurate assessment of practice. This could involve keeping a given means of measurement, but adjusting an interim and/or 5 year goal, as well as using a different data measure entirely, which would entail identifying a new set of measures.

During FY 2016, the PFI has been distributed to the CWCI Team and the State QA Committee. Opportunities were also provided to the State QA Committee, CWCI Team, and the Family Services Management Team, to offer input relative to implementation supports for the PFI, and/or explanations for benchmark data.

The time frames for the respective QSR data that is cited in the PFI are as follows:

- **QA Baseline:** 10/01/12 – 09/30/13 (FY13)
- **QA Benchmark #1:** 10/01/13 – 09/30/14 (FY14)
- **QA Benchmark #2:** 10/01/14 – 09/30/15 (FY15)
- **QA Benchmark #3:** 10/01/15 – 09/30/16 (FY16)

**OVERALL DESIRED OUTCOME**

Children and families are engaged, assessed, and treated with empathy and respect as individuals with their own unique strengths, needs, and cultural identity, and are able to readily access quality, individualized services and supports accordingly.

It is important to note that, beginning in April, 2016, three Offices from the Family Services Division have been placed under the supervision of a new Quality Assurance Program. The Office of Child Welfare Consultation/Intake; The Office of Quality Assurance; and the Office of Child Welfare Training now report to this Program rather than the Family Services Division. We are committed to communication and collaboration with the QA Program, as the roles of those offices are critical to meeting the desired outcomes for children and their families.

**GOAL 1:** Children with whom the Department is involved are safe, or when safety threats exist, they are effectively managed either within, or outside the child’s home.

**Selection of GOAL**

Excellence in practice leading to successful outcomes for families has been an issue of inconsistency as evidenced by Quality Assurance Reviews; OQCWP reviews, formal SACWIS documentation, and anecdotal information received in Family Services. Individualized Service Planning is the core of our practice model, and begins with genuine engagement with families, highlighting their strengths and serving as advocates for them. This fundamental skill of engagement we believe is a logical and strong place to focus, as it is the starting point toward safety, permanency, and well-being.

**What outcome and/or systemic factor will be improved**

- As children and caregivers are treated with respect, it is believed that will promote effective engagement, which will hopefully contribute toward the willingness of family members to participate in all phases of assessment.

- As respect, engagement and thorough assessments take place it will enable more accurate safety decisions to be made, facilitate permanency planning and contribute to progress being made relative to well-being outcomes.

**Data/analysis that supports selection of the goal**

- The QSR ratings (in state QA reviews) continue to show a need for improvement.

**Objective 1:** Staff will continuously and thoroughly assess and address present and impending danger threats to children in their (present/anticipated) living situations.

**What outcome and/or systemic factor will be improved**

As improvements occur in this practice area, the outcome area of child safety will be supported/maintained.
Data/analysis that supports selection of the objective
Child safety ratings in QSRs (conducted by state QA review teams) showed improvement over the last five years. For this to be sustained, the effective/accurate assessing/addressing of present/impending dangers needs to be maintained.

Measurement: QSR Rating on CHILD SAFETY
QA Baseline: 92%
QA Benchmark #1: 89%
QA Benchmark #2: 86%
QA Benchmark #3: 87%
5 Year Goal: 93.25%

Interim Goals: FY 2017 92.75%  
FY 2018 93%  
FY 2019 93.25%

Measurement: QSR Rating on ASSESSMENT
QA Baseline: 22%
QA Benchmark #1: 22%
QA Benchmark #2: 13%
QA Benchmark #3: 22%
5 Year Goal: 26%

Interim Goals: FY 2017 24.5%  
FY 2018 25.5%  
FY 2019 26%

GOAL 1, Objective 1 – Implementation Supports
- One of the larger county DHR offices is providing ongoing safety plan training to supervisors and staff, with a particular focus on developing/monitoring safety plans that also assess the capacities of a child’s relatives.

- Also, the QA system of the county referenced in the above bullet reviewed/assessed a sample of CAN records and will use that review to provide guidance to staff on how to best follow cues in a CAN assessment to identify present and impending dangers.

2018 APSR Update:
- Ongoing reviews of safety/safety plans (with feedback to county director and staff) are occurring by virtue of the case reviews being in counties by the Office of QCWP (OQCWP) staff. OQCWP staff continue to conduct record reviews and include safety outcomes in their review. Results are shared with County Directors and any concerns on safety and/or safety plans are forwarded also to the FSD Office of CPS.

- Alabama has been implementing our plan developed as a result of our selection as a Three Branch State. Upon approval of our application and our team development work, the group has maintained communication/efforts in terms of the goals of improving front end services, improved stakeholder coordination, safe sleep/reduction of child deaths and the greater use of Kinship Guardianship as a permanency goal.

- Possible pilot for use of mobile equipment by CAN workers. Use of mobile equipment by CAN staff is coming closer to implementation.

- After hours and weekend access given to county staff for FACTS SEARCH (in final stages).

- Maintenance of Children’s Justice Task Force activities. The Children’s Justice Task Force already delivered and will conduct more training events for FY 2017 that were included in the Training Plan submitted with the APSR.

- Human Trafficking protocols and workgroup participation. The FSD workgroup on Human Sex Trafficking has been given approval to formalize and release the trafficking protocol to County
Directors. The workgroup plans to coordinate with the State DA’s Office and the U.S. Attorney’s Office regarding training events for the state. The workgroup plans to meet again in October and will spend some time on developing training plans. Data on sex trafficking victims will be due (for submission to the Children’s Bureau) in FY 2017.

**Objective 2:**

The ability of families and caregivers to create safe, stable and nurturing environments will be supported, enhanced and promoted.

**What outcome and/or systemic factor will be improved**

Safe, stable and nurturing environments will promote the improvement/enhancement of all three outcome areas of safety, permanency and well-being.

**Data/analysis that supports selection of the objective**

The data on Family Preservation and Engagement reflects the need to enhance the work being done, which would help support families/caregivers in gaining/maintaining the needed environments.

**Measurement:**

</tr>
</tbody>
</table>

**Interim Goals:**

- FY 2017: 74.5%
- FY 2018: 75%
- FY 2019: 75.5%

**Objective 3:**

Caseworker visits with children and families (birth, foster, adoptive) will occur within policy time frames, and focus on safety, permanency, and well-being.

**What outcome and/or systemic factor will be improved**

Timely caseworker visits that focus on thorough discussion of/planning about the ISP goals and steps related to safety, permanency and well-being will support ongoing engagement and assessment, thereby promoting improved results related to these outcome areas.

**Data/analysis that supports selection of the objective**

- While caseworker visits with child show promise when reviewing the QSR results, it will be important to maintain positive outcomes.
- Caseworker visits with parents shows a greater need for improvement and remains a critical component of experiencing successful outcomes relative to all three outcome areas.

**GOAL 1, Objective 3: Implementation Supports (See also Goal 1, Objective 1)**

- **2017 APSR Update:**
  Time Frames for caseworker visits with children and families will continue to be identified in the RFP/Contracts (Request for Proposal) for Family Preservation and Support Services. The expectation, in which includes time frames for caseworker visits, is outlined in the Request for Proposal.

- FACTS data is available for CW visits w/ Child. Also, FACTS has been enhanced to capture child to parent visits. Workers are able to now select “child to mother” or “child to father”, to document child to parent visits. Further, State QA already makes findings (in onsite reviews) related to the best practice indicator for CW visits.

- A prior year’s meeting of QA Coordinators and QA Committee Chairpersons included an emphasis on caseworker visits with birth parents.

- Provide training through webinars, LETS (Power Point), and on-site to workers regarding quality caseworker visits. **2018 APSR Update:** Ongoing by OQCWP staff.

- Provide training through webinars, LETS (Power Point), and on-site to supervisors so that they may support their workers in the quality of visits and not just their frequency. **2018 APSR Update:** Ongoing by OQCWP staff.

- Develop a method for tracking caseworker visits with parents/family members of children in care. **2018 APSR Update:** Ongoing by OQCWP staff.

- Explore adding more caseworker visit content to the ACT I curriculum.

  OCWT is developing a plan for incorporating additional caseworker visit content in ACT I. The former Family Services Office of Child Welfare Training now reports to the Quality Assurance Program established in 2016 by Commissioner Buckner. That Office now is in the process of establishing a new training curriculum for new workers. The training curriculum was revised and the pilot for Striving Toward Excellent Practice (STEP) began 5/1/2017. Meaningful caseworker visit content is included in the foundational module of STEP (new DHR worker training curriculum) that all new child welfare workers complete. There will be more content on the subject in the other tiers of STEP that workers will attend, depending on their work assignments and responsibilities.

  Present workshops at Supervisory Conferences focusing on the need for caseworker visits, the impact of regular visitation on successful outcomes, and Federal policy requirements/funding streams related to visits. Workshops on the importance of caseworker visits were held at the 2014 Conferences and will be presented at the 2015 sessions as well. **2018 APSR Update:** Completed; workshops on caseworker visits also took place at the 2017 Supervisor conferences.

  The 2016 Permanency Conference Agenda did not have a workshop entitled “meaningful caseworker visitation”. However, Dr. Greg Manning presented on the topic “Integrating Permanency, Loss, Attachment and Trauma in working with Youth” and in that he shared information about engagement and positive relationships with youth in care. The 2017 Permanency Conference included a session
about “Creative Solutions to Achieving Permanency”. A substantial portion of this workshop addressed visits with children and preparing them for adoption and getting their help in their own recruitment. Presenters talked about Engaging and Supporting Youth in Congregate Care and the strategies they discussed dealt with how to conduct visits with children/youth in these settings.

- Ensure that as (SDHR) Family Services reviewers examine the quantity and quality of caseworker visits that the findings on strengths, needs, and recommendations are included in the feedback that is provided to county (family services) staff.

- As a part of onsite reviews, one of the best practice indicators specifically addresses the compliance of caseworker visits with policy. Data is utilized to address the frequency of visits and information obtained from the cases reviewed addresses both the frequency and quality of visits. Feedback is provided on strengths and needs as a part of the report to each county when an onsite review is completed. Case specific recommendations are also provided as applicable. Caseworker visits may also be addressed in an additional best practice indicator regarding documentation that is reflective of the casework process. The same feedback noted is provided for this indicator as applicable.

2018 APSR Update: Ongoing reviews of caseworker visits (with feedback to county director and staff) are occurring by virtue of the case reviews being in counties by OQCWP staff. This work, by OQCWP practice Specialists, continues. One area of focus is the importance of visits of children with birth families when reunification is the permanency goal, as gaps in this area have been observed by OQCWP staff.

- A FSD Specialist provided an in-service training on the importance of caseworker visits in a mid-size county.

- Explore the development/distribution/monitoring of a priority plan for supervisory completion of the ACT II – Supervisor Training module. 2018 APSR Update: Continue.

- Develop and distribute/Implement a plan that highlights the completion of already existing FACTS fields that pertain to visits (among family members, caseworkers with children/families, etc.). 2018 APSR Update: Continue.

- Time frames for caseworker visits with children and families will continue to be identified in the RFP/Contracts (Request for Proposal) for Family Preservation and Support Services. The expectation, in which includes time frames for caseworker visits, is outlined in the Request for Proposal.

- FACTS data is available for CW visits w/ Child. Also, FACTS has been enhanced to capture child to parent visits. Workers are able to now select “child to mother” or “child to father”, to document child to parent visits. Further, State QA already makes findings (in onsite reviews) related to the best practice indicator for CW visits.

GOAL 2: Children and youth in foster care will experience stability in foster care, achieve permanency in a timely manner, and when applicable transition successfully into adulthood.

Selection of GOAL

- The need to improve the timeliness with which permanency is achieved for children was identified in both rounds 1 and round 2 of the CFSR. It continues to be an important area on which to focus.

- Older youth was one of the principle themes of the round 2 PIP and addressing successful transition to adulthood continues to be a point of need/emphasis.

- Our Agency has had a significant focus on achieving permanency through adoption for the past several years. Having this focus—which has achieved noted successful outcomes—sets the stage for more adoptions and stronger monitoring.

What outcome and/or systemic factor will be improved

As this goal is realized, it will result in improved outcomes in both permanency and well-being.

Data/analysis that supports selection of the goal

Data that supports the selection of this goal is given below with the applicable objectives.

Objective 1: Children will live in their own home or with relatives, when available, while in foster care.

What outcome and/or systemic factor will be improved
As children live with their own families, with relatives, or in relative foster care, the outcome area of permanency will be strengthened.

**Data/analysis that supports selection of the objective**
The data reflects a need to make improvements in this area.

**Measurement:** FACTS Data: As of end of respective FY's
Children in own home, related home, & related foster home.

</tbody>
</table>

**GOAL 2, Objective 1 – Implementation Supports**

- Continue to work with judges/court personnel to secure bench orders for parents to provide names and contact information for relatives at the time children enter care.  **2018 APSR Update:** Continue.

- Provide training on the importance of timely placement with relatives, thorough relative search (to always include paternal relatives). Emphasize the benefits of kinship guardianship to relative resources at the time children enter care.  **2018 APSR Update:** Continue

- Continue to provide training and technical assistance to county staff around use of kinship guardianship and Guardianship Assistance Payments (GAP).

**2018 APSR Update:**
The 2015 and 2016 Permanency Conferences both included sessions sharing information on Kinship Guardianship. At the 2016 conference a foster care worker from Madison DHR spoke about the strategies they have implemented to help in their county’s use of Kinship Guardianship. At the end of FY 2016, 194 children, with 85 related providers, were receiving kinship guardianship subsidy. As of 3/31/2017, 207 children with 91 related providers were receiving kinship guardianship subsidy. While we are pleased with this slight increase, our plan is to place much more emphasis on kinship for 2018/2019 as a goal from our Three Branch Work and our Court Improvement Program shared goal with AOC and others.

**Objective 2:** Children experience placement stability while in foster care

**What outcome and/or systemic factor will be improved**
The outcome area of permanency should be positively impacted as placement stability shows improvement.

**Data/analysis that supports selection of the objective**
The data seems to reflect the importance of maintaining a focus on placement stability.

**Measurement:** QSR Rating on STABILITY

| QA Baseline:          | 79%    |
| QA Benchmark #1:     | 81%    |

**GOAL 2, Objective 2 – Implementation Supports**
• Provide training to resource staff and supervisors to help them recruit and train foster families willing and able to address the special care needs of youth in care, thereby providing better matches of foster youth to providers. (Also included in Recruitment Plan).

• The development or the selection of a trauma assessment tool is a part of the newest Psychotropic Medication Model. The Alabama Psychotropic Medication Review Team (APMRT) with Auburn University has presented evidenced based options for use with all young people entering foster care to better inform regarding placements, services and support. The Department will be reviewing and adopting one of the tools presented with a projection for use beginning October 1, 2017.

• Develop a program through which foster family/adoptive resource families will be better prepared to care for children and youth in care by requiring them to complete educational training on trauma, reactive attachment disorder and sexual safety in placements.

• Develop additional training and targeted supports to foster families interested in fostering older teens.

2018 APSR Update

• At the 2016 Permanency Conference, there were two “town hall” sessions held. At this session counties shared creative methods they are implementing to get the message out for the need for more foster/adoptive parents. Our recruitment partners, Heart Gallery Alabama and CAS/APAC are working with Children’s of Alabama and UAB in an effort to get a display in common areas in an effort to recruit providers with special health care experience. Heart Gallery Alabama has secured funding for digital display monitors that will be placed in various locations that will provide information about the need for more foster/adoptive families. As the 2018 update is being completed they are still working on securing commitments for locations for placing these monitors.

• A meeting was recently held in fiscal year 2016 with Digital Booster. Currently, we do basketball arena advertising through this vendor. Digital Booster is expanding their marketing options to include web site banner advertising on the web sites of the colleges and universities where they have a presence. Organizations that participate in the web advertising program will have an opportunity to have an on-campus presence during busy times in the school calendar to display information about the need for more foster/adoptive families. Although college students may not typically be a “target market” for potential foster/adoptive parents, there are programs at the two year (Junior) colleges where adult students can be targeted (e.g., nursing schools). We have had no further follow-up on this project on the part of Digital Booster and are currently assessing the benefit of pursuing additional services from the company.

• The Department is in the process of transitioning to a new model of pre-service training for all of our foster/adoptive parents. TIPS (Trauma Informed Partnering for Permanence and Safety) is the new training curriculum. We have recently embarked on a training plan where co-leaders are being trained in the new model. It is expected to take two years to roll out fully statewide.

• At the 2017 Permanency Conference, we included information on trauma and its impact on the children and how services and supports should be structured to help with the stability of placements. Two such sessions, both presented by Dr. Wayne Duehn were:

  Keynote: “Let’s Get It Right: Multi-dimensional Assessments in Home Study and Post Adoption Services”. This presentation explored the “cutting edge” of recent methodological assessment approaches to adoptive home selection and post-placement services delivery through a conceptual framework which bridges systemic and behavioral interactional perspectives and techniques. The presenter argued for the necessity of multilevel-multisystem assessment procedures that match the system level of the family being assessed, and emphasize that assessment judgments should be based both on what people say and how they behave. In addition, methods for assessing ongoing safety issues following placement will be addressed.

  Breakout “Creating Sexual Safety in Foster and Adoptive Families”
This workshop explored the skills and techniques required to parent a child victim of sexual abuse and how to develop foster/adoptive parents and providers who are proficient in these parenting skills. When such skills are learned, knowing parents can make the most crucial difference for a child recovering from the trauma of sexual abuse. This workshop reviewed the traumatic effects of sexual abuse, discuss the special needs of sexually abused children in adoption/foster care and how to create safe, healing environments that promote resilience and recovery.

**Objective 3:** Reliance on placements in congregate care settings will be reduced.

**What outcome and/or systemic factor will be improved**
If further analysis reflects needs in this area, it is believed that improvements would be made in the outcome area of permanency as dependence on congregate care settings is decreased.

**Data/analysis that supports selection of the objective**
Further analysis will occur based on the practice principle that placement setting/structure are of critical importance to stability and timely permanency achievement.

</table>

The reliance on the use of congregate care trended upward slightly during the reporting period. This reliance often hampers permanency efforts. We are actively conducting case-specific assessments regarding a percentage of children in congregate care to assess their permanency goals. Further, formalized partnering with the congregate care providers and developing foster homes to meet the needs of older youth are integral strategies to improve our ability to step young people down from such placements, while preserving effective well-being outcomes.

**Objective 4:** Appropriate use of congregate settings will occur (New Objective)
The Department will continue to explore a (qualitative and/or quantitative) means of measurement for this objective.

* Did not obtain the minimum number of QSRs (10 during the baseline and 5 for BM #1)

**GOAL 2, Objectives 3 & 4 – Implementation Supports**
- ILP Unit to work more closely with congregate care providers offering Achieving Permanency through Roundtables. The initial training, a train the trainer session occurred in Montgomery, Alabama, the week of August 3-7, 2015, with 25 staff participating. Staff were also trained to implement the Youth Centered Roundtable process in the counties. This plan is designed to begin the process of reducing the number of young people who have APPLA as their permanency goal, and to focus on moving young people out of congregate care back home, with relatives, or into a foster home. There are also plans to work with AFAPA and Family Services’ staff to recruit and especially train foster parents who are willing to care for older youth.

- Working with county staff and congregate care providers to strongly encourage parental visitation, develop visiting resources for young people increasing their chances at positive permanency.
- The congregate care study has been expanded to include 53 additional youth: for a total of 78 youth interviewed, as of this writing. The interview has remained consistent and the Office of QCWP has
joined the Office of Foster Care in conducting the interviews, providing case consultation and processing the data. The trends related to positive permanency are encouraging as 30 youth have stepped down to less restrictive placements, post our initial contacts. There are concerns related to the five youth who have required more restrictive placement. The office of Foster Care and ILP and the Office of QCWP will continue to work jointly to safely facilitate appropriate transitions for these young people. We will continue to monitor the progress of our youth in congregate settings and will expand the process to youth currently in intensive residential placement.

Objective 5: Improve the timeliness of achieving permanency.

What outcome and/or systemic factor will be improved
- Children will not remain in foster care any longer than is absolutely necessary.
- Children will return to their own home or will be placed with relatives rather than living with non-related providers.

Data/analysis that supports selection of the objective
While the data seems to indicate that important progress has been made, it reflects the continuing importance of maintaining a strong focus on the timely achievement of permanency (see below).

NOTE: Further data will be provided with the Statewide Assessment.

GOAL 2, Objective 5 - Implementation Supports (See also Goal 2, Objectives 1 - 4)
- The development or the selection of a trauma assessment tool is a part of the newest Psychotropic Medication Model which has gone on to the Division Director.
- Collaborate with the Administrative Office of Courts on training for professionals in the court system in an effort to achieve permanency through timely TPR and permanency through adoption.
- Implement/continue special recruitment projects focused at recruiting families willing/able to adopt children that meet the Department’s Special Needs Definition.
- **2018 APSR Update**: The Pre & Post Adoption Services Contract was due for a new RFP in FY 17. The request for proposals was released in the spring 2017 and a new contract was recently signed. Changes included termination of the child-specific recruitment component (because outcomes were not being achieved) and the number of special need adoptive homes was increased from 50 annually to 75.
- Provide training to staff on youth-centered round tables.
- Provide opportunities for youth to conduct/participate in youth-centered round tables.
- The Program opted to focus on young people in congregate care.
- Develop and implement a process by which we identify children, age 14 and older, with TPR and a goal of APPLA and have adoption workers and recruiters work with these children to:
1. Identify reasons youth do not want to be adopted.
2. Provide information to youth about what it means when they choose not to consent to adoption.
3. Secure youth’s consent to recruit for potential adoptive parents.

**2018 APSR Update:**
The Office of Data Analysis did a query and provided a list of youth that meet this criteria. The query was re-run and when space permits we will select two youth from each area that meet the criteria, with whom the recruiters can work.

- Explore ways in which Children’s Rehabilitation Services (CRS) and/or Vocational Rehabilitation Services (VRS) can be utilized early in the process of the work done with children/youth who could benefit from CRS/VRS involvement.
- One of the state’s larger counties is emphasizing the importance of connecting older youth, including a focus on youth in group homes, to a mentor, or person/family with whom a permanent connection can be established, prior to transitioning out of foster care. This will support the achievement of Goal #2 listed above.

**2018 APSR Update:**
Continuum of Care Services are offered to address the needs of children and their families in order to achieve permanency in a timely manner. Vendors provide a range of services from moderate care to intensive in-home services, including basic care, transitional or Independent Living programs, therapeutic foster care and traditional foster care. Reunification and preservation Services are provided by Family Outcome-Centered Unification Services (F.O.C.U.S) and reunification services are provided by the Continuum of Care. It is a requirement that at least 82% of children placed in permanent living environments and supported by services remain stable at the one-year anniversary of their discharge from the program. It is also a requirement that 82% of the children being served by the in-home prevention teams shall remain in their own homes or in the placement in which services were provided twelve months after the discharge from the program. The Office of Utilization and Review monitors tracking on a monthly basis. All cases are tracked up to 24 months post discharge from FOCUS and The Continuum programs. They also review monthly progress summaries of families served. The Office of Utilization and Review works with DHR and the in-home teams to ensure collaborative efforts are being made. Program Specialist/Resource Specialist in the Office of Utilization and Review identify strengths and needs during programmatic site visits that may be helpful in providing successful reunification and preservation services.

- Fostering Hope activities and development of new online application system.
- Congregate care onsite reviews (moderate placements).
- ICPC Border Agreements with GA and TN and soon FL.
- Work toward development of national ICPC NEICE interface which will make ICPC paperless for counties and cut processing times in half.
- Rewrite of the Continuum of Care and FOCUS RFPS.
- Development of a new psychotropic meds pilot.
- Participation in the SSRP Drug Court Pilot with AOC and use of new assessment tool in pilot counties.
- Judicial Summits.
- Outstanding results in the IV-E review of FY 2015.

**Objective 6:** Caseworker visits with children and families (birth, foster, adoptive) will occur within policy time frames, and focus on safety, permanency, and well-being.

| Measurement: FACTS Data - CW Visit w/ Child (FC Cases) |
| FACTS Baseline (FY13) | 88.83% |
| FACTS Benchmark #1 (FY14) | 92.32% |
| FACTS Benchmark #2 (FY15) | 92.83% |
| 5 Year Goal (FY18) | 94.0% |

| Measurement: QSR Rating on CW Visit w/ Child (FC Cases) |
| QA Baseline (FY13) | 95% |
| QA Benchmark #1 (FY14) | 91% |
GOAL 3: Workers will strengthen the Individualized Service Planning (ISP) process through the inclusion of birth/foster/adoptive families and other formal/informal stakeholders, ensuring Agency involvement that supports the family in the most normalized environment.

Selection of GOAL:
A strong ISP process is central to supporting improved outcomes across safety, permanency and well-being, and maintaining a focus on it remains important for the work being done with children and families.

What outcome and/or systemic factor will be improved
The ISP process is significant to achieving positive results in all three outcome areas (safety, permanency, and well-being).

Data/analysis that supports selection of the goal
See below.

Objective 1: Families will experience functional ISPs

What outcome and/or systemic factor will be improved
A functional ISP process is vital and relevant to improved outcomes in safety, permanency, and well-being.

Data/analysis that supports selection of the objective
See below.

Measurement: QSR Rating on ISP in state QA reviews
QA Baseline: 21%
QA Benchmark #1: 17%
QA Benchmark #2: 14%
QA Benchmark #3: 18%
5 Year Goal: 22.25%

Interim Goals: FY 2017 21.75%
FY 2018 22%
FY 2019 22.25%

Objective 2: Families will experience timely ISPs

What outcome and/or systemic factor will be improved
Timely completion of the ISP is an important component of a functional ISP process, and is thus germane to improved outcomes in safety, permanency, and well-being.

Data/analysis that supports selection of the objective
In reviewing the data (see below) it would appear that maintaining an emphasis on conducting timely reviews will be important (while also sustaining the timeliness of holding the initial ISP).

Measurement: FACTS Data
QA Baseline (FY13) Initial: 96.45% Reviews: 85.56%
FACTS Benchmark #1 (FY14) Initial: 96.74 Reviews: 88.36% 5 yr. Goal Achieved
FACTS Benchmark #2 (FY15) Initial: 95.74 Reviews: 87.16%

5 Year Goal: Initial: 97.5% Reviews: 88%
Interim Goals: FY 2015 96.50% 85.75%
FY 2016 96.65% 86%
FY 2017 97% 86.5%
FY 2018 97.25% 87.25%
FY 2019 97.5% 88%

GOAL 3: Implementation Supports
• Development of regional ISP Trainings Being Considered. 2016 APSR Update: Continue; not completed. **2018 APSR Update:** In 2017 we trained a new ISP format to a group of counties and will provide training to others when we expand and eventually roll it out statewide in 2018.

• ISP Training was provided to judges at two Child Welfare Judicial Summits. **2016 APSR Update:** Completed & continue for FY16. **2018 APSR Update:** At the Judicial Summit in October 2016, a focus was addressing trauma for children in foster care. **2018 APSR Update:** Supervisor Conferences will continue to provide workshop/training opportunities specific to ISP’s, and/or practice-related issues.

• ISP training will be provided at the 2015 Supervisors Conferences. **2016 APSR Update:** Completed & continue for FY16. **2018 APSR Update:** ISP quality was covered, but there was not specific ISP training. It was reviewed in the WE Can and What is Quality sessions provided by the QA Division Team. The subject was most related to reviewing and coaching related to ISP.

• Coaching and feedback around ISPs will occur based on Family Services onsite support and review of practice and outcomes.

• OQCWP continues to focus on strengthening the ISP process through record reviews. Feedback is provided to County Director and Management of Family Services to recommend strategies to increase skills around the ISP planning and team meetings. There is emphasis on planning to ensure inclusion of birth families, foster and adoptive families and providers and other pertinent stakeholders. Workers are encouraged to build positive working relationship with stakeholders through engagement in the process so that they feel empowered to develop and achieve goals with and for the children and families. Statewide telephone consultation and coaching are provided daily from Family Services on specific cases, which helps counties develop skills and confidence in their ability to manage their cases through the ISP process.

• OQCWP also provides training opportunities to teach important skills to staff and guide them in assessment of families and in developing the most appropriate ISP plans to fit individual needs of families and children. Through the strengths and needs assessment, workers learn how to use them to craft the best ISP plan for each individual child and family. OQCWP also offers opportunities to coach and model for county workers by attending specific ISPs as requested or recommended. They monitor the process in specific identified cases to assist in teaching skills of facilitation by coaching and modeling. They are also sometimes present to observe or even facilitate ISP’s and provide constructive feedback on the county’s ability to work through the process. OQCWP provides guidance and examples of ways to engage with other agencies and providers as well as informal resources to aid the family in working toward their goals. Counties are encouraged to help families and children identify informal supports that will continue to provide support when DHR is no longer involved.

• One of the state’s larger counties is providing specific training to staff on how to conduct meaningful caseworker visits, as well as how to strengthen the ISP process. **2018 APSR Update:**

• A new ISP form has been approved for pilot and will be used in eight counties. It is specifically designed to be more “family friendly”. The social worker can actually give the form to families at the conclusion of the planning session, rather than mailing it as is policy now. Staff from counties and state office have worked on this form for several months, and we are pleased that it will be piloted beginning July 1, 2017. Discussions are occurring as to how we will monitor it for effectiveness in improving outcomes.

• The Office of Utilization and Review will continue to stress the importance, as well as, requirement of Continuum providers attending ISPs as a stakeholder. Staff will educate/train providers on how to prepare for an ISP if there is a need identified during the programmatic site visit or request made by the provider or county.

**Implementation Supports Across All Goals/Objectives**

• Trained almost 600 county staff in 2015. On track to train 400 by July 2016.

• New trainings developed to replace GPS and ACT
IX. ASSURANCES

1. The CAPTA Assurance on Sex Trafficking, as signed by Alabama Governor, Kay Ivey, was provided to the Region IV, Atlanta Office, on 06/09/2017.

2. The CARA Assurance, as signed by Alabama Governor, Kay Ivey, is included in the documents being provided along with Alabama’s 2018 APSR.
X. APPENDICES
The SDHR Division of Finance submits the financial documents to the Regional Office via the ACF Online Data Collection (OLDC) system. Finance information documents are also included as attachments to the e-mail that transmits the APSR to the Children’s Bureau.
STAKEHOLDERS — STATE DEPARTMENT OF HUMAN RESOURCES (SDHR)

• Mason Hobbie, Program Supervisor – Office of QA, QAD
• Medridget Smith, Program Specialist – OCWT, QAD
• Donna Spear, Program Supervisor – OCWT, QAD
• Lori Wade, Program Specialist – OQA, QAD
• Cathy Walker, Program Supervisor – OQCWP, QAD
• Sandra Ward, Program Specialist – OQA, QAD
• Mark Williams, Program Specialist – OCPS, FSD
• Janet Winningham, Program Manager – ODA, FSD
• Jon Perdue, Program Specialist – OCS, QAD
• Julie Wilson, Program Specialist – OCS, QAD
• Teressa Momon, Program Specialist – OCS, QAD
• Renita Harrigan, Program Specialist, OCS, QAD

State Quality Assurance Committee (Current)
• Alesia Allen, Executive Assistant to the Director – Alabama Department of Youth Services
• Johnna Breland, Foster/Adoptive Parent
• Aretha Bracy, Director, Alabama Child Death Review System / Alabama Department of Public Health
• Melanie Bridgeforth, Executive Director, VOICES for Alabama’s Children
• Angie Burque, School of Social Work – Auburn University
• Christy Cain, Children's First Foundation
• Synethia Davis, Youth Specialist – Children's Aid Society
• Jennifer Edwards-Howard, Alabama DHR
• Marie Fain, QA Coordinator, Mobile County DHR
• Debra Finley, Program Director - Alabama Post Adoption Connections
• Martha Gookin, Tribal Members Services - Division Director
• Gina Harris, Jefferson County QA Committee
• Buddy Hooper, President – Alabama Foster and Adoptive Parent Association and Adoptive Parent
• Sallye Longshore, Director – Department of Child Abuse and Neglect Prevention
• Bob Maddox, AOC
• Andrea Mixson, Alabama Disabilities Advocacy Program (ADAP)
• Honorable Patrick Pinkston, Elmore County District Judge
• Gina South, Director of Operations – Alabama Network of Child Advocacy Centers, Inc.
• Betsy Prince, Director of Early Intervention Services – Alabama Department of Rehabilitation Services
• Helen Rivas, Alabama/Guatemala Partners of Americas
• Misty Samya, West Alabama Mental Health
• Mary Smith – Foster Parent
• James Tucker, (ADAP)
• Gayle Watts, Executive Director Children’s Aid Society

Other External Stakeholders
• Tiffany Anderson, Foster Parent, and member of Recruitment Response Team
• Michelle Bearman-Wolnek, Adoptive Parent and Executive Director, Heart Gallery Alabama
• Leslie Hales, Adoptive parent, and Pre-adoption Services Coordinator for APAC/CAS
• Michealine Deese, Child/Family Welfare Coordinator Poarch Band of Creek Indians
• Erica Kemmer, Assistant Attorney General, Poarch Band of Creek Indians
• Cary McMillan, Director, Family Court Division – AOC
• Amanda Montgomery, Family Services Director, Poarch Band of Creek Indians
• Alabama CWCI Team
• Casey Family Programs
• Alabama D.R.E.A.M. Council (Youth Panel)

Surveys (results are selectively incorporated into the body of the report)
• County QA Committee Surveys (approximate # of counties & surveys): @ 33 counties / 106 surveys

See also CFCIP Section Regarding Youth Involvement

* Individuals listed above are included by virtue of one or more of the following actions: 1.) being provided with an opportunity for selected content review of and/or input to the APSR; 2.) the provision of input for the APSR; 3.) involvement (since the June 30, 2016 submission) in activities related to one or more activities discussed/described in the APSR (e.g. QA measurements, work group, training, PL 113-183, etc.; 4.) participation in the (Federal/state) Joint Planning Visit (and/or other federal visits); 5.) Management Teams of Quality Assurance and Family Services Divisions.

Members of the state QA committee while possibly included in the above categories are automatically listed – this group serves as the Citizen Review Panel for Alabama.
APPENDIX 3

ALABAMA STATE QUALITY ASSURANCE COMMITTEE
ANNUAL REPORT 2016
State Quality Assurance Committee
Annual Report for 2016
MEMBERSHIP

**2015 Officers:**
Johnna Breland, Chair
Gina Harris, Vice-Chair
Debra Finley, Secretary

**State Quality Assurance Committee Membership**

- Sallye Longshore, Executive Director: Department of Child Abuse and Neglect Prevention
- Johnna Breland: Foster/Adoptive Parent
- Aretha Bracy, Director: Alabama Child Death Review System/Public Health
- Angie Burque: Auburn University
- Debra Finley: Alabama Post Adoption Connections
- Gina E. Harris: Jefferson County QA Committee
- Buddy Hooper, President: Alabama Foster and Adoptive Parents Association
- Andrea Mixson: Alabama Disabilities Advocacy Program
- Christy Cain: Children First Foundation
- Gina South, Director of Operations: Alabama Network of Children’s Advocacy Centers
- Betsy Prince, Director: Alabama Early Intervention System
- Helen Rivas: Alabama/Guatemala Partners of Americas
- Marie Fain: Mobile County QA Coordinator
- Misty Samya: West Alabama Mental Health
- Mary Smith: Foster Parent
- Gayle Watts, Executive Director: Children’s Aid Society
- James Tucker: Alabama Disabilities Advocacy Program
- Bob Maddox: Administrative Office of Courts
- Martha Gookin, Family Service Director: Poarch Band of Creek Indians
- Honorable Patrick Pinkston: Elmore County District Judge
- Melanie Bridgeforth, Executive Director: VOICES for Alabama’s Children
- Jennifer Edwards-Howard: Growing Home Southeast
- Synethia Davis, Youth Specialist: Children’s Aid Society
- Alesia Allen, Executive Asst to Director: Alabama Dept of Youth Services

**Meeting Dates for 2016**

- January 8, 2016: Montgomery
- March 11, 2016: Montgomery
- June 10, 2016: Montgomery
- September 9, 2016: Montgomery

**Standing Subcommittees:**

- Executive Officers
  - Policy Review Chair, Christy Cain
  - Service Analysis Chair, Misty Samya
  - Child Death Review Chair, Gina Harris
  - County QA Committee Coordination/Support Chair, Angie Burque
  - Public Education, Advocacy, and Nominating Chair, Buddy Hooper
  - Foster/Adoptive Parent Recruitment and Retention Chair, Debra Finley

**Purpose:**
The Committee’s authority is advisory to the State Department of Human Resources (SDHR). As such, the purposes of this Committee shall be to:

- **MONITOR** the functioning of state-directed quality assurance activities, as well as outcomes and Agency performance from statewide perspective.
- **SERVE AS A LINK** between the community and the Office of Quality Assurance, as well as SDHR; provide advocacy and education regarding the mission and work of SDHR.
- **FACILITATE** the development of, and the networking among, county QA Committees.
- **REPORT and PROMOTE** the general effectiveness of the child welfare system in supporting positive
outcomes for children and families served and/or on a specific issue which has the potential for having a significant impact on achieving positive outcomes for the children and families being served. These reports would be issued at the request of the Commissioner of SDHR and/or at the initiative of the Committee. Reports of the Committee’s activities and/or findings of studies may include recommended actions to SDHR that reflect the Committee’s findings or concerns. All reports, information or the Committee’s opinions may be made and released only as authorized by the Committee. All such authorized Committee reports shall be considered to be public documents; a mutually agreed upon process, that includes format, timeframes, etc., shall be established whereby any written report of findings and/or recommendations provided to SDHR by the Committee, shall be responded to in writing by SDHR.

- REVIEW information, data, policies, etc. related to child and family services, outcomes, and system performance in child welfare (on both the County and State levels) and the capacity of SDHR to deliver services in a manner consistent with its mission and goals.
- PROVIDE input, feedback, questions, findings and recommendations to SDHR; and
- SUPPORT advocacy for services to meet the needs of children and their families.

WORK OF THE STATE QUALITY ASSURANCE COMMITTEE

The Committee’s 2016 year continued to follow the format agreed upon in the planning and re-organizational meeting of 2012. During that meeting, the Committee agreed to review the system of welfare which included reports from SDHR and the stakeholders that comprise the Committee. The goal for 2016 was for the Committee to better utilize the expertise of the vast talent of its volunteer board and to keep the focus on the safety/permanency and long term goals of the children and families that the SDHR serve.

CURRENT STATUS OF THE STATE QUALITY ASSURANCE COMMITTEE

Overview
The Committee has By-laws. In September 2016, a change in the By-laws was proposed to address wording change of “class members and their families” to “children and their families”, to acknowledge State QA was now under The Office of QA and the deletion of the Diversity Subcommittee. The proposed changes were approved by the State QA Committee in January 2017. These By-laws delineate 14 of Alabama’s organizations/agencies and 11 named entities that comprise the Committee. In the By-laws, there are standing subcommittees that address different areas of child welfare. These subcommittees can invite other stakeholders to be apart.

Accomplishments
Stakeholder Reports:
The Committee provided a strategy for stakeholders to report on their participation in child welfare. The Committee recommended reports from stakeholders include but not limited to the following:
- The relationship with DHR (formal/ informal)
- How services are connected with Child Welfare
- Any gaps in care
- DHR awareness of how to access the stakeholder’s services
- Suggestion(s) for improvement in the relationship
- Data on services or activities (any would be helpful)

During the past five years, the process of including stakeholders’ reports allowed for all attending stakeholder groups to report.

SDHR Reports:
The Committee reviewed and received data from SDHR as well as other entities concerning children’s welfare in Alabama. For example, staff from SDHR presented data snapshots using graphs and charts and explained the variations/ fluctuations in the data for some selected safety and permanency indicators; child welfare caseloads by counties; child welfare staff separation rate by counties; and child deaths due to maltreatment.

The Committee was provided with the SDHR Plan for Improvement with revisions throughout the year. Committee members had the opportunity to review and comment at each meeting. The Committee was provided with the means by which to access the Annual Progress and Services Report (APSR) on our agency’s website, the opportunity for input for the APSR, and survey results from county QA committees utilized for the APSR.
A verbal report was provided on the recruitment and retention of foster and adoptive parents in September 2016. A written report was provided on training for child welfare staff with planned revisions for the curriculum.

**Child Death Review Subcommittee:**
The Child Death Review Subcommittee had some of the same concerns as noted in 2014.

- The subcommittee continued to note concerns regarding reports of unsafe sleeping conditions, paramours as persons allegedly responsible, significant substance addiction, and families with a history of domestic violence. The child death summaries continued to reference the need for training and supervisory support related to these critical issues. Further, the Subcommittee requested information concerning the comprehensive family assessments/assessment process, Individualized Service Plans of those related to safety risks such as repeat maltreatment, domestic violence, and substance abuse. The Subcommittee strongly recommended training, support, and mentoring opportunities be made available on a regular and on-going basis to all direct service workers and their supervisors for those targeted safety risk areas and to update the Committee on the results of the training.

- The subcommittee appreciated the provision of aggregate data on child deaths for review by the Committee at each meeting and recommends this continue.

**County QA Committee Coordination/Support Subcommittee:**
The County QA Committee Coordination/Support Subcommittee planned a one day conference in January 2016 for all county QA coordinators and chairpersons. A commitment was made by SDHR for this to be an annual conference to support county QA systems and to promote connections among county committees.

**Committee Year in Review**
Meetings consisted of stakeholder group information and reports provided by SDHR. SDHR consistently provided information requested by the Committee in a timely manner and brought the appropriate people to the meetings in order to explain and/or answer questions. The Committee also initiated revision of the membership through removing inactive members and the recruitment of new members. The relationship between the Committee and SDHR is, at an all-time high with trust and respect present between all parties.

**STATE QUALITY ASSURANCE COMMITTEE RECOMMENDATIONS**
- Provide reports on the training of child welfare staff.
- Provide reports/updates on the recruitment and retention of child welfare staff.
- Build capacities for middle management through training and support.
- Provide updates on SDHR QA onsite reviews.
- Continue to offer shadow experiences with SDHR QA onsite reviews.
- Consistently present youth with information on all available options for exiting foster care.
- Continue to recruit and train foster/adoptive parents. Be more innovative in that recruitment.
- Support a yearly conference for county QA committees.
- Explore the use of state of the art technology by caseworkers.
- Explore a mentoring program for Agency staff.

**COUNTY/LOCAL QUALITY ASSURANCE COMMITTEES**
There are 68 functioning County QA Committees throughout the State of Alabama, and these Committees serve as the Citizen Review Panels as required by the Child Abuse Preventions and Treatment Act. County QA Committees are involved in case review activities, special studies, data analysis, stakeholder interviews, child death reviews, County Biannual reports, and other community collaboration activities throughout the state.

I want to especially thank all of the volunteers who shared their time and resources with the Committee. I would also like to thank all the SDHR employees who work tirelessly to help our committee do our job. Lastly, I would like to thank Hope Skelton for keeping me on track and helping me to prepare for every meeting.

Respectfully submitted,
Johnna H. Breland – Chair
APPENDIX 4

Departmental Response to Recommendations from the ALABAMA STATE QUALITY ASSURANCE COMMITTEE
DEPARTMENTAL RESPONSES TO 2016 THE RECOMMENDATIONS LISTED IN THE STATE QUALITY ASSURANCE COMMITTEE REPORT

Provide reports on the training of child welfare staff.  
Departmnet Response:  
The commitment made to the State QA Committee (in June 2016) to provide ongoing training data continues to the present date. An update from the Office of Child Welfare Training (OCWT) was provided at the June 2017 quarterly meeting.

Provide reports/ updates on the recruitment and retention of child welfare  
Departmnet Response:  
Child Welfare Data and Separation reports are provided from The Office Data and Fiscal Analysis to the State QA Committee at each quarterly meeting. The most recent report was provided at the June 2017 quarterly meeting. In addition to the report, Kelly Lever, Director of Personnel, also provided the State QA Committee with the recruitment and retention strategies that are being implemented.

Build capacities for middle management through training and support.  
Departmnet Response:  
In 2016, the Office of Child Welfare Training collaborated with the Child Welfare Policy and Practice Group (CWPPG) to provide Supervisor Training to child welfare supervisors throughout the state. The training was designed to increase capacities of frontline supervisors in all counties. The Office of Child Welfare Training has now taken over the responsibility of ongoing training, and the training is scheduled on a continuing basis. The CWPPG is also working with the Office of Quality Child Welfare Practice to develop a “one on one” supervisor training, that will include guidance on supervisory case reviews and coaching and modeling.

Provide updates on SDHR QA onsite reviews.  
Departmnet Response:  
Data on the results of SDHR QA onsite reviews continue to be provided to the State QA Committee on a quarterly basis.

Continue to offer shadow experiences with SDHR QA onsite reviews.  
Departmnet Response:  
Offers for State QA Committee members to shadow State QA onsite reviews are made at each quarterly meeting.

Consistently present youth with information on all available options for exiting foster care.  
Departmnet Response:  
The Independent Living Program provides the opportunity for all youth in foster care to receive information regarding their options as they exit care. The DREAM Ambassadors provide peer to peer training at our monthly DREAM Council meetings scheduled across the state so that all young people, county staff, vendor/providers, and congregate care providers can receive information regarding opportunities. Young people representing all regions of the state have the opportunity to participate. The young leaders provide monthly training on completing and maintaining a transitional toolkit, developing leadership skills, self-advocacy, public speaking, education, NYTD, ETV and the Fostering Hope Scholarship. They also work with Children’s Aid Society to coordinate trainings and presentations provided by professionals representing banking, law enforcement, the health services industry, housing, mental health, employment and other community providers. The agency has growing partnerships with the Alabama National Guard, Alabama Reach, the National Social Work Enrichment Program and Kids to Love. The young people participate in our annual youth camps for 3 days each summer. One is designated for youth ages 14-16, and a second for youth ages 17-20. They also have the opportunity to receive training at the annual Daniel Memorial conference; 78 young people participated in FY2016. The www.ilconnect.org website provides 24/7 access to all ILP information, supports and opportunities available statewide.

Continue to recruit and train foster/adoptive parents. Be more innovative in that recruitment.  
Departmnet Response:  
The Program Manager of the Office of Adoption has been in several counties during this fiscal year conducting Diligent Recruitment Planning Sessions with child welfare staff and stakeholders. During these sessions market segmentation lifestyle information and county demographic information is utilized to help counties develop more targeted strategies for getting the message out about the need for more foster/adoptive parents. Since 10/1/2016 this work has occurred in 11 counties. Planning sessions were scheduled in three additional counties but required re-scheduling later in the fiscal year. The OCWT continues to offer the 3 day update and the full 8 day certification training for TIPS (Trauma Informed Partnering for Safety), our foster and adoptive parent pre-service curriculum. The OCWT partnered with the Alabama Foster and Adoption Parent Association (AFAPA) to transition from GPS to TIPS. The AFAPA greatly assisted the Department in providing support through editing our county based handouts, and providing foster/adoptive parent co-leaders for counties who have struggled to get a co-leader.
Support a yearly conference for county QA committees.
Department Response: The Office of Quality Assurance has committed to hosting an annual meeting for county QA Coordinators, and State Quality Assurance Committee members. Plans are for the meeting to occur in January each year. In January 2017, county directors were invited to attend the yearly meeting, and plans are to continue to invite county directors.

Explore the use of state of the art technology by caseworkers.
Department Response: Currently all CA/N workers and supervisors have been assigned a tablet. State DHR has contracted with Auburn University Montgomery (AUM) to develop the application which will be used on the tablets. This is an ongoing process and currently we are testing the screens as they are developed by AUM. Business rules related to the application are being written. Also we are developing roadmaps to be used by the tablet users. We are striving for the work to be completed by September. There are plans for tablets to be distributed to foster care and ongoing workers at a later date.

Explore a mentoring program for Agency staff.
Department Response: The Department is interested in finding out more regarding the State QA committee’s thoughts on this, along with any ideas the committee members have on implementation strategies. Departmental Leadership will request that this topic be placed on the agenda for one of the two remaining SQAC meetings scheduled for the current calendar year.
Appendix 5

AFCARS Improvement Plan
AFCARS Improvement Plan

The Children’s Bureau completed an onsite Adoption and Foster Care Analysis and Reporting System Assessment Review (AAR) the week of April 11 - 15, 2011. The AFCARS Assessment Review Findings report was received by the State on December 28, 2011. The Children’s Bureau’s findings are in the tables below.

NOTE: The rating definitions are as follows:
1. The system is not collecting the AFCARS data elements and the data are not transmitted to ACF;
2. Technical corrections are required;
3. Improvement in data quality is needed; and,
4. The State fully meets the AFCARS standards (no corrective is required).

The AIP applies to general requirements or data elements on which a rating factor of 1, 2, or 3 was received.

### General Requirements (22)

The State’s initial AFCARS Improvement Plan (AIP) was submitted to the Children’s Bureau on March 16, 2012. This includes plans and estimated completion dates for changes to the FACTS System, AFCARS Extraction Program code, and training of Child Welfare staff.

2015 Update: There are three FACTS enhancements and additional extraction code changes to be implemented for the AIP. The state’s estimated completion date is 12/2015. AFCARS Improvement Plan Updates were submitted on June 30, 2014, October 20, 2014 and April 20, 2015.

2016 Update: An AFCARS Update was submitted on 4/20/2015 and the response received 9/22/2015. An AFCARS Update was submitted on 12/29/2015 and the response received on 5/4/2016. Our current status is shown in the following table. We need technical improvement for 6% of our data elements, and data quality improvement on 76% of our data elements. Data Quality is being monitored by state and Federal staff. We are in compliance with 20% of our data elements.

2017 Update: See below

NEXT STEPS: The next AIPU was due on June 23, 2017. Our goal is to complete most of the tasks pertaining to AFCARS extraction code revision by this date. Tasks not completed by this date will roll over to the state’s plan for AFCARS 2.0 preparation.
For our AFCARS FY2017B submission, our Adoption file met data quality standards on all 37 elements. Our Foster Care file had two elements out of compliance. We are addressing Foster Care Element # 5 & # 57 through training and guidance with staff. Detailed data sheets have been sent to all counties showing the cases out of compliance and a monthly data sheet is made available for monitoring court hearings for FC Element # 5.

Child Welfare Staff Training and Monitoring:
AFCARS Improving Data Quality Training was provided to county staff from June 2015 to April 2016 A total of 566 staff were trained; 559 county staff representing all 67 counties and 7 state office staff, including FACTS trainers and staff in the Offices of Adoption and Foster Care. The Office of Data Analysis and FACTS Functional Staff conducted 22 sessions at 11 sites across the state. Other resources and tools utilized to provide AFCARS training to State and local Child Welfare staff is as follows.

I. Basic FACTS Training:
All FACTS users are required to attend a 5 day Basic FACTS Training course. Included in this course is an AFCARS Foster Care and Adoption session. Trainers walk trainees through the AFCARS data fields, sharing helpful guidelines, for example, that AFCARS data fields are colored blue and have a designated symbol to the side of them. A new worker training will incorporate FACTS training as it applies to different program areas. This will be implemented during FY2017.

II. FACTS Helpdesk Hints Newsletter:
The Helpdesk Hints Newsletter is an informational and training newsletter published by the FACTS Help Desk based on system identified trends, data fix requests and user questions. In addition, the newsletter is utilized as one of the avenues in which AFCARS timeliness and data quality issues are being addressed. The newsletter is published quarterly and is emailed to all FACTS users. The newsletter was not sent in FY2016, but will be revived as needed to address data quality issues.

III. FACTS Production Release Notes:
Production Release Notes is an informational document released to all FACTS users when a new enhancement(s) is implemented in a monthly production build. The document provides details of the enhancement, as well as a screen shot of the impacted screen(s).

IV. FACTS Road Maps:
All FACTS users have access to road maps directly through FACTS at Help/FACTS Help Site or through the Department's Intraweb site. Road maps are navigational documents designed to provide users step by step directions in completing action specific data entry in FACTS. Included with Adoption and Foster Care roadmaps are two AFCARS specific road maps named “AFCARS Mapping – Adoption” and “AFCARS Mapping - Foster Care”.

Resources and tools utilized to provide AFCARS monitoring for State and local Child Welfare staff.

I. Foster Care and Adoption AFCARS Validation Screens:
Internal to the FACTS System are AFCARS Validation screens located in the Foster Care Case and Adoptive Case. Foster Care and Adoption Workers are required to validate these screens monthly for children assigned to their caseload. The worker validates each of the tabs within the screen by clicking on the “Missing Info” button at the bottom of each tab. If required data is not present a pop-up message box will appear identifying missing fields. The worker is then to update the system with the missing AFCARS data.

II. Data Mart:
In July 2013 the FACTS Program implemented a data mart for use by the Division’s Office of Data Analysis as monitoring tool. The data mart, which is populated weekly with AFCARS data, is used to identify data elements of concern and to work with county staff to address these concerns. Excel reports are generated to provide weekly reports to administration for finalized adoptions.

III. AFCARS001 Foster Care Report & AFCARS002 Adoption Report:
Two Management and Statistical Report were made available for state office and county staff with detail information on each AFCARS data element for foster care and finalized adoptions in May 2015. Detailed report documentation was created to guide staff on the FACTS Location for each element. AFCARS Data Quality Training included an overview of these reports and how to implement the use of these reports to monitor data quality. An email is sent monthly to all FACTS Users with a reminder to validate all foster care cases using the AFCARS Reports.
APPENDIX 6

PIP Updates

1. Alabama Successor Guardian PIP
2. PL 113 PIP
**Alabama Successor Guardian PIP**

Act 2016-129, which included sections that addressed successor guardianship, was passed by the Alabama State Legislature and later signed/approved by former Governor Bentley on April 11, 2016. It became effective on the first day of the third month following its passage and approval by the Governor, or its otherwise becoming law, e.g. July 1, 2016.

The first PIP quarterly report was submitted to the Region IV, Children’s Bureau Office, in Atlanta, GA, on July 1, 2016. Quarterly reports have continued to be provided over the course of fiscal year 2017. Those quarterly reports may be referenced for further information, including the Evidence of Completion (EOC) that has been provided.

******************************************************************************

**Alabama PL 113 PIP**

Act 2016-129, which included sections that addressed PL 113-183 items, was passed by the Alabama State Legislature and later signed/approved by former Governor Bentley on April 11, 2016. It became effective on the first day of the third month following its passage and approval by the Governor, or its otherwise becoming law, e.g. July 1, 2016.

The first PIP quarterly report was submitted to the Region IV, Children’s Bureau Office, in Atlanta, GA on August 25, 2016. Quarterly reports have continued to be provided over the course of fiscal year 2017. Those quarterly reports may be referenced for further information, including the Evidence of Completion (EOC) that has been provided.

It is notable that DHR staff, in collaboration with the Alabama Foster and Adoptive Parent Association, trained well over 2,200 foster parents, facility staff, and DHR staff in the provisions set forth in the PL 113 PIP, including the Reasonable and Prudent Parenting Standard.
Three Branch Institute on Improving

Child Safety and Preventing Child Fatalities
May 13, 2016

Narrative of the state of Alabama’s application for the Three Branch Institute on Improving Child Safety and Preventing Child Fatalities, from Alabama’s proposed state team

STATE CONTEXT AND CHALLENGES

We appreciated the opportunity to apply to participate in the Three Branch Institute on Improving Child Safety and Preventing Child Fatalities. As we have now been selected, we expect to learn more, from our peers and from outside experts, about current best practices. For instance, we hope to learn of better ways to interview children and improve training of Caseworkers and other staff.

Alabama has had some successes in child welfare. We have completed thousands of adoptions over the last eight years and Alabama has experienced greater permanency for children, for instance. And Alabama, compared to other states, has had relatively low rates of children experiencing repeat maltreatment.

But Alabama face challenges, which the Institute could help us meet. For example:
- The state determined that the deaths of 89 children in Alabama in 2011 through 2015 were caused by child abuse or neglect.
- There has been an increase in the number of children in foster care. In April 2015, there were 4,973 children in the care of the state Department of Human Resources (DHR). There were 5,430 in March 2016.
- In February 2015, 1,721 reports of child abuse or neglect were received statewide. By January 2016, that number had climbed to 2,285.

We believe these challenges could be better addressed using best practices learned at the Three Branch Institute. For instance, we think the Institute could help Alabama better review its child protective services data, to better identify strengths and needs in areas such as policy development and training.

Alabama has several initiatives in place to improve outcomes for children and their families, and we could share lessons we have learned from them during the Institute. State team and home team members could discuss best practices learned from the Institute at these venues. For instance:

- The state has hosted three judicial summits with the assistance of the state Administrative Office of Courts and Casey Family Programs. These summits focused on support for efficient and appropriate permanency planning and on strengthening relationships between county DHR officials and local judges. A fourth summit was held in March 2017.

- DHR, through an initial grant from the Statewide System Reform Program, has worked for 18 months with the state Department of Mental Health and state Administrative Office of Courts to develop five pilot drug court sites. Eligible drug-addicted people, whose children have come into foster care or are at risk of entering foster care due to child abuse or neglect, may be sent to drug court instead of regular courts. The focus in drug courts on intense treatment, accountability, and incentives around reunification with children has made them excellent resources for some families and increased awareness of challenges facing families struggling with substance abuse.

- The state Administrative Office of Courts and DHR support an ongoing Court Improvement Project with many goals: to safely reduce the number of children in foster care; to achieve timely adoption of the children of people whose parental rights have been terminated; and to achieve greater consistency in juvenile court proceedings and orders. Because of the project, data are gathered and routinely monitored to demonstrate how well courts are achieving timely permanency. Concerns raised by judges have triggered more local training.

- A 28-member State Child Death Review Team, and child death review teams in each county that include the county health officer, county DHR director, and district attorney for the county, identify factors that put a child at risk of injury or death and focus on trends in unexplained child injuries and deaths. By law, local teams are charged with improving Agency investigations of unexpected or unexplained child deaths. The state team is charged with recommending ways to improve Agency coordination of services and investigations across Alabama.

Alabama Governor Kay Ivey is committed to strengthening services for children and families, as are DHR Commissioner Nancy T. Buckner, Mental Health commissioner Jim Perdue, Medicaid Commissioner Stephanie Azar and other state leaders. The Governor in April created an 11-member Children’s Cabinet. It includes Commissioners Buckner, Perdue, Azar, and leaders of the state departments of Education and Public Health. A goal of the Cabinet will be to align systems of
children’s programs and services, creating a unified and cohesive delivery of services and reducing duplication.

EXPECTED RESULTS OF PARTICIPATING IN THE THREE BRANCH INSTITUTE

On a broad level, Alabama’s hoped-for outcomes include:
- A reduction in the number of child fatalities due to child abuse or neglect.
- A drop in child maltreatment.
- Greater use of preventive or immediate services, including in-home services, to help children safely remain at home.
- Greater clarity and consistency around child and family interview protocols used by law enforcement officers and social workers from DHR.
- Reduced numbers of children in foster care.

Alabama expects to achieve the broader goal of improving the safety of children who are in its child-welfare system, or at risk of involvement, in part by improving the skills of workers receiving initial reports of child abuse or neglect, such as their abilities to interview children and other family members. We hope to better screen initial reports of abuse or neglect, so that more-urgent cases get the attention they need. We would expect to conduct more-thorough investigations into specific allegations of harm, and in-depth family assessments that would result in better identification and provision of services, from state or local agencies and non-profits, to help safely keep a child at home. We also hope to improve risk assessments and safety assessments. We also would expect state team and home team members to share best practices learned through the Institute with a broad range of state and local agencies that serve and protect children. And we would expect Alabama’s involvement in the Three Branch Institute to help create more-effective relationships between child-serving agencies, in part by sharing data and discussing ways to best improve practices.

TEAM LEADERSHIP AND CORE MEMBERSHIP

Executive

John C. James
Deputy Commissioner, Children and Family Services
Alabama State Department of Human Resources
50 Ripley Street
Montgomery, Alabama  36130
(334) 353-3343
john.james@dhr.alabama.gov

Mr. James is the Deputy Commissioner for Children and Family Services for the State of Alabama Department of Human Resources, and works closely with DHR Commissioner Buckner on a wide range of related issues. Programs reporting to him include those for child protective services which are the programs related to the assessment and investigation of child abuse reports in all 67 Alabama counties. Mr. James also oversees all programs at DHR related to foster care, permanency and adoption which serve children in the legal custody of the Department of Human Resources who no longer are able to reside at home. His other responsibilities include oversight for child welfare policy, child welfare training and the Interstate Compact on the Placement of Children (ICPC). Mr. James has over 25 years of social work experience and has served as a County Director in three Alabama counties as well as a Regional Manager in the State Office. He will be the state team leader.

Mr. James is also the state team’s key contact. His contact information is provided above.

Richard Burleson, Director
Injury Prevention Branch
Alabama Department of Public Health
The RSA Tower
201 Monroe Street
Montgomery, Alabama  36104
(334) 206-2951
Richard.Burleson@adph.state.al.us

Mr. Burleson is charged with assessing data around injury and child deaths, establishing policies and training for prevention, and ensuring that Alabamians know about educational opportunities provided by the department. Mr. Burleson serves on the State Child Death Review Team as the state health officer’s proxy.
Judicial

The Honorable Mike Fellows
Lee County Family Court Judge
T.K. Davis Justice Center Complex
Opelika, Alabama 36801
(334) 737-3399
mike.fellows@alacourt.gov

Judge Fellows has been a strong advocate for children’s welfare, and has worked hard in the judicial summits and court improvement project mentioned earlier. He has been an ambassador for permanency and for strong local relationships between the judiciary and DHR, and is well-respected throughout the state for his wise management of juvenile court. He also has a well-earned reputation of requiring accountability from all parties in cases set before him.

Cary McMillan, Director
Family Court Division
Alabama Administrative Office of Courts
300 Dexter Avenue
Montgomery, Alabama 36104
(334) 954-5034
cary.mcmillan@alacourt.gov

As Director of the Family Court Division of the Administrative Office of Courts, Ms. McMillan coordinates Alabama’s Court Improvement Project. In addition, a focus of a grant managed by Ms. McMillan is ensuring the prompt processing of dependency cases and cases for the termination of parental rights, so that children can achieve safe and timely permanency. She played a key role in developing the Administrative Office of Courts’ automation system.

Legislative

State Senator Vivian Davis Figures
Alabama State House Suite 736-A
11 South Union Street
Montgomery, Alabama 36130
(334) 242-7871
Vivian.figures@alsenate.gov

State Sen. Vivian Davis Figures, D-Mobile, is former chair of the Education Committee of the Alabama Senate, and was Senate minority leader in 2012-2014. She now serves on the Education & Youth Affairs, Judiciary, Rules, and Finance & Taxation – Education committees. She was the Democratic nominee for the U.S. Senate in Alabama in 2008, and has frequently sponsored child-centered legislation on issues such as guardianship, protection orders against human trafficking, and visitation of children by family members. She helped start the Mobile County Foster Grandparents Program and the Big Brothers, Big Sisters Program of Metropolitan Mobile.

State Representative April Weaver
Alabama State House Suite 417
11 South Union Street
Montgomery, Alabama 36130
(334) 242-7731
aprilweaver@att.net

State Rep. April Weaver, R-Brierfield, serves on the state Department of Mental Health board of trustees, the State Child Death Review Team, and the Statewide Health Coordinating Council. She chairs the Health Committee of the Alabama House of Representatives. She sponsored several key bills that became law this spring, including one concerning Medicaid managed-care organizations and another creating a loan program for nurse practitioners, in which they may repay student loans by working in underserved areas. She was appointed several years ago by Gov. Bentley to a task force charged with addressing prescription drug abuse.

All core team members have agreed to attend the Three Branch Institute meeting scheduled July 20-22 if Alabama is selected, and have agreed to be active participants in the Institute.
Expanded Home Team

Leaders of the Alabama Network of Child Advocacy Centers, the Alabama Law Enforcement Agency, the Alabama District Attorneys Association, the Department of Child Abuse and Neglect Prevention, and the Poarch Band of Creek Indians already have agreed to serve on Alabama's home team. They have helped identify broad areas of training suggested for state and local law enforcement agencies and other partners. Leaders who have agreed to serve on Alabama's home team know that team meetings and reviews of data, policy, and practice would be involved. State team members plan to invite more home team members.

Work Plan

After Alabama was selected, state team members met in Montgomery in summer, 2016. DHR's Family Services Division took the lead in making sure members received information beforehand on child deaths and child safety in Alabama. Members will be asked to come prepared for questions, comments, and discussion. We expect members will discuss the current roles of various agencies and organizations in child protection, discuss possible improvements and suggest ways that participation in the Institute might help bring about improvements. We also expect that members will review the Institute's requirements and discuss its opportunities.

After the Three Branch Institute meeting scheduled July 20-22, we would expect the state team to meet within a few weeks later with home team members to share information from the meeting and start joint discussions on developing specific policies to improve child safety and reduce child deaths for children in, or at risk of being in, the state's child-welfare system. Afterward, Freida Baker and other DHR Family Services Division staff will be asked to meet with members of the home team and perhaps their staffs to review information on child deaths and child safety with the aim of assessing possible shortcomings and improvements in data collection, investigations, assessments, decisions on whether children should stay in their families, and service delivery to families involved in reports of child abuse and neglect. We would aim to conclude these in-house discussions by Sept. 30. We then would ask home team members to help the state team develop next steps for improved child safety and reductions in child deaths that could help their specific agencies or organizations as well as others, with the goal of creating a more-coordinated system of prevention, education, and care statewide.

We expect state team members to attend all, and home team members to attend at least some, of the in-state technical assistance visit to be scheduled this fall or early winter. We would expect the technical assistance visit to explore, in depth, ways to improve initial interviews and assessments in investigations of child abuse and neglect, and to improve coordination among agencies and organizations for the provision of services that could keep families intact. We would hope to use information from the visit to develop better training and perhaps explore getting better assessment tools and ways to more-completely provide services to families with children at risk of removal.

We would expect work to have started on improved training and perhaps using better assessment tools at willing child-welfare agencies or other organizations by Jan. 15. State team members could meet with the Children's Cabinet on getting agency agreement. The hope would be that training and tools would be uniform across agencies and organizations more often than not. Training goals likely would include learning how to better investigate allegations, assess families, and reach right decisions about safety and the placement of children within or outside of their families.

The state team would work throughout 2017 to make sure improved training and perhaps better assessment tools reached all, or as many as financially possible, of the cooperating agencies and other organizations they needed to reach to better provide statewide protection of children. The state team also would lead efforts to coordinate provision of services to help families at risk of having a child removed for abuse or neglect, to prevent removals that could have been safely stopped with help from government or non-profits. Meeting with the Children's Cabinet might speed coordination. Also, the state team would lead assessments of whether collection and analyses of data concerning child injuries and deaths needed upgrades.

The state and home teams throughout the Institute also could assess what improvements could be made in public outreach aimed at helping Alabamians better know how report child abuse and neglect. We expect that lessons learned during the Institute would improve each involved organization's ability to protect children and improve public recognition of, and response to, the problems of child injuries and deaths.

And we would expect lessons learned to be widely shared. For instance, DHR service supervisors have a week-long conference scheduled in July 2017. These 320 or so expected attendees are responsible for the supervision of child welfare programs in all 67 counties of Alabama. The state team would plan to attend and talk with DHR supervisors about lessons learned during the Institute, improvements in progress, and improvements yet to be made and how they might be achieved.
We would expect lessons learned and implemented through work in the Institute to inform improvement efforts already underway. For instance, Alabama has a Statewide Quality Assurance Team comprised of child advocates, foster parents, adoptive parents, mental health advocates and others. We intend to inform members of this team of best practices learned through the Institute, and to ask members of this team to help with data review and quality assessment, and to recommend changes.

We believe the work of our state team and our home team will endure changes in the governor’s office and in the Legislature: State elected officials certainly support efforts to reduce child injuries and deaths in families already known to DHR and other agencies, or at risk of being known. And elected officials certainly will support greater cooperation and less duplication in furthering those efforts, as streamlining usually saves money and cooperation often improves service. We expect changes informed by the Institute to be integrated into ongoing programs to reduce child deaths, and reduce child maltreatment, in part by helping to fight sex trafficking, a battle being waged by the Alabama Law Enforcement Agency.

We appreciate the opportunity to apply for the Three Branch Institute. We believe our involvement would help improve the lives of Alabama children and the hopes of their parents, and hope it also would help improve practices in other states.

UPDATE 2017:
After 11 months of core and home team work that included meetings, training, data assessment, and other activities, our Three-Branch partners from the National Governors Association; the National Council of State Legislatures; and Casey Family Programs made a site visit to our state on **FRIDAY, MAY 19, 2017**. The agenda featured data about progress; review of legislation; updates around collaboration and other important work going on relative to our goals. Input from the core team and others was sought as to agenda and outcomes for the day. In attendance were Judge Mike Fellows of District Court in Lee County; Cary McMillan, Director of Judicial College at AOC, Richard Burleson of Alabama Department of Public Health, Director of reduction of child fatalities; John James and Freida Baker. Senator Figures and Representative Weaver were invited but unable to participate. Their input was sought and legislation pertaining to any aspect of child welfare they presented was shared with the group. Also present were Meghan McCann of the National Coalition of State Legislatures and Curtis Smith of the National Governors Organization.

Features of the day included points from our work for the year:

- Broadening conversations leads to broadening responsibility
- Small, achievable goals lead to success
- Building strong relationships within Core Team important to success
- Become data stewards

Three-Branch Goals were shared in 2016 with:

- Alabama Sheriffs’ Association*
- Alabama Association of Chiefs of Police*
- Alabama Fusion Center – ALEA
- Physicians; Nurses; Other Health Professionals
- Alabama Association of County Directors of Human Resources
- Judiciary Statewide
- Judicial Summits
- Opioid Addiction “Focus on Child Deaths” Presentation by Freida Baker at Statewide Conference
- CARA Grant Proposal through ADECA
- Statewide Attention/Conferences
- Core Team Meeting
- Home Team Meeting
- Alabama Association of School Guidance Counselors
- Alabama Interdiction for the Protection of Children
- Alabama Child Welfare Supervisors Conferences
- Training – New Juvenile Judges

**2017 LEGISLATION SPONSORED BY THREE BRANCH MEMBERS TO IMPROVE OUTCOMES FOR CHILDREN**

**Bills Sponsored by Senator Vivian Figures* – Three Branch Core Team Member**
• SB 191 – Child custody issues in a divorce case requires both parents submit a parenting plan
• SB 301 – Sex offenders’ registration and reporting (crime of distributing a private image, sexting, sexual extortion, assault with bodily fluids, etc.).

**Bills Sponsored by Representative April Weaver – Three Branch Core Team Member**

• HB 21 – to allow a dependent child to remain with a parent or legal guardian.
• HB 182 – bill would authorize the trial court to certify a fee in amount of up to $5000.00 in certain juvenile dependency cases for Guardians ad Litem representing children. Bill would require a court waiving the limit to enter an order specifying the reasons for waiver.
• HB 291 – bill would make it a crime of assault for an individual to physically injure a social worker or employee of social services agency.
• HB 344 – safe birth options act (midwifery)
• HB 373 – Alex Hoover Act (portable medical order to be created by the parent/guardian of a minor with a chronic/terminal illness)

*Unfortunately, Senator Figures became ill during the Session and was unable to present any more legislation or be present for voting.*

On the date of the meeting, the team further reviewed all child welfare legislation from the 2017 Session which had been signed by the Governor and impact our families, our agency, or both.

• 2017 R Mandatory Child Abuse/Neglect Reporting – Person in Military – SB 96

Relating to the mandatory reporting requirements of child abuse or neglect to require the Department of Human Resources to make efforts to determine the military status of the parent or guardian of the child who is subject to the child abuse or neglect allegation in the report and if the Department determines that a person or guardian is in the military, to further require the Department to notify the US Department of Defense family advocacy program at the military installation of the parent/guardian of the allegation of child abuse or neglect.

• Alabama Child Placing Agency Inclusion Act – HB 24

This Act prohibits governmental entities from discriminating or taking an adverse action against a child placing agency on the basis that the agency declines to make a child placement that conflicts with the religious beliefs of the agency, provided the agency is otherwise in compliance with the Minimum Standards for Child Placing Agencies and the Alabama Child Care Act of 1971.

• Fire Protection Sprinkler Systems – HB 66

Fire protection sprinkler systems, State Fire Marshal authorized to issue permits to certain fire protection sprinkler contractors, further authorized, system plans and any changes designed by licensed engineer, certain data collected & published by State Fire Marshal required.

• Alabama’s commitment to the right to life of unborn children – HB 98

This Act supports the rights of unborn children, namely the right to life.

Focus of the day’s discussion was ADDICTION IN ALABAMA

Law Enforcement, Public Health, AMA and others consider this Public Health Crisis #1 in our state

• #1 in prescription of painkillers in the nation
• More than 730 Alabamians died from drug overdoses in 2015 – majority from opioids including heroin and prescription painkillers.
• Child Death Reviews Occurring

Initiatives are actively underway in Alabama to address addiction. They include:

• Governor’s Task Force on Opiate Abuse
Multi-Agency Conference held 3-20-17:
“The Opioid Crisis in Alabama: From Silos to Solutions”
http://www.zeroaddiction.org/
Grant Applications – ADECA and Others
Resource Development a Priority for DHR. Fiscal/service data being reviewed by Administration relative to treatment/monitoring vs. prevention spending. Active discussions occurring around this need, as addiction is bringing children into care more than any other issue in 2016.

Also presenting information on this date was Mr. Richard Burleson from ADPH, who reported the following to the group:

- Joint efforts overseen by the Alabama Child Death Review System and the Alabama Perinatal Program (both included on home team). Some of their efforts toward this goal include:
  - Adoption and promotion of the newly revised AAP guidelines on safe infant sleep
  - Consistent messaging about Safe Infant Sleep on websites and in advertising
  - Alabama Safe Sleep Outreach Project Grant Awards and Nurses Continuing Education Program
  - Participation in the national Collaborative Improvement & Innovation Network (CoIIN) effort to reduce infant mortality
  - Alabama Safe Sleep publications
  - SUIDI curriculum and training for first responders in Alabama
  - The separation of the Injury Prevention Branch as a separate unit and the creation of the new Fatality Review Branch. The two branches still work closely together on a few projects, but there is a more defined separation of staff and duties now.
  - The addition of a new 5-year CDC grant to create the Alabama Violent Death Reporting System (AVDRS). AVDRS will review all violent deaths (homicides, suicides, some categories of undetermined deaths) in Alabama regardless of age. (In contrast, CDR reviews all non-medical deaths, but only for those under 18 years of age.) AVDRS will partner closely with Coroners, Medical Examiners, and Law Enforcement throughout the state, in addition to providing de-identified data to the national (NVDRS) registry.
  - Enhanced collaborations with partners (most notably our ADPH Perinatal Branch and our CoIIN Initiative representatives) on "Safe to Sleep" and other safe infant sleep efforts.
  - The acquisition of supplemental funding streams (both federal and private) to strengthen prevention efforts related to Child Passenger Safety, Teen Driving Safety, etc.
  - Continued efforts on multiple fronts to obtain hospital and ER discharge data statewide. This has long been needed to inform and support injury and fatality prevention efforts in Alabama. After years of little or no movement on the issue, there appears to be renewed interest in and general consensus on the value of this.
  - Inclusion of multiple topics on child abuse/neglect/victimization and prevention of same at the Alabama Public Health Association's 61st Annual Meeting and Health Education Conference last month. (Team member Richard Burleson was the VP of AIPHA for the past year and, as such, planned the conference and set the agenda/speakers.)

The group learned about DHR initiatives for 2016-2017 with focus on safety. They include:

- Child Death Focus in Policy Training for 800 Child Welfare Staff
- Guardians-ad Litem Certification/Recertification
- Permanency Conference
- AFAPA Conference
- Participation in Alabama Child Death Conference
- Baby Box
- Safety Assessment Training and Safety Planning Training occurring with DHR staff statewide in 2017

FOCUS ON KINSHIP-GUARDIANSHIP

- Primary Goal in Court Improvement Program!
- Kinship – Guardianship Research Assistance Occurring with Casey Family Programs
- Data still indicates disproportionately low number of children/youth with this permanency goal
- Workgroup convened in January to assess underutilization of this goal and what Alabama can do to increase that number
- Featured presentation at Conference of CARES Coordinators – Alabama Department of Senior Services
In conclusion, a vivid dialogue was held to discuss **lessons learned**. We agreed:

- Everyone is very busy
- Maintaining momentum as a group is a challenge
- Information can be shared in many forums
- If outcomes are clear, people can meet goals in or outside of the context of an initiative
- If you tell enough people about something, it becomes more real
- As a System, we are asking the right questions
- As a System, we are having hard/truthful conversations
- Alabama’s children have many individuals, agencies, organizations, churches and others working for their very lives

Representatives from Alabama’s Three-Branch Core Team will attend a national meeting in Nashville, Tennessee on June 27-30, 2017. Each of the eight Three-Branch States will report on activities, progress, lessons learned. We have had a wonderful experience with this initiative, and the goals mirror and support those set out in our CFSP and our annual APSR submissions.
A SYNOPSIS
Tools of Choice Positive Parenting Program
Research Results for Biological Parents

The Tools of Choice Research Project is a project in which data was collected from all the counties the Tools of Choice program is available in order to show the effectiveness of the Tools of Choice Parenting Program. Our experimental
group, which consists of approximately 200 participants, is a group of biological parents that have completed the entire Tools of Choice Program (5 week course and in home component). Our control group is a group of biological parents that have not completed any component of the Tools of Choice Program. The control group participants were selected through the FACTS database by matching dates with the experimental groups program start date and 6 month follow up date. The control participant’s cases had to be opened during the time that the experimental match began the program and ended the class component.

Data was collected on the status of the case at the time the parent started the program (e.g. in-home, foster care, relative placement) and at 6 months from the time the parent completed the entire program (e.g. in home remained, in home reunified, foster care with goal of return to parent, foster care TPR, relative placement). The same data was collected for control groups with the dates matching the experimental group dates. Data was also collected on case closures. The goal of the research was to see if parents that had completed the Tools of Choice Program had more success in their cases with the placement of the children being a positive placement and having their cases closed with the Department of Human Resources.

![Figure 1](image1.png)

Figure 1 shows the total number of cases in the experimental group (Tools of Choice) and the control group (non Tools of Choice) that were “reunified” after 6 month follow up, that “remained in the home” after 6 month follow up, that were “still not in the home” after the 6 month follow up and that had children “removed” from the home at 6 month follow up. “Intact” is a combination of reunified and remained home, and “apart” is a combination of still not home and removed from home.

![Figure 2](image2.png)

Figure 2 shows the percentages of cases that were closed for the experimental group (Tools of Choice) and for the control group (non Tools of Choice) after the 6 month follow up period. The figure shows percentage of “reunified” cases and “remained home” cases and a total of the two which is equal to the “intact” group in Figure 1. No data is shown here for “still not home” or “removed” since a case would not be closed permanently in those cases.
NOTE: The ATTACHMENTS (A – G) that are referenced in the following report can be found in the following PDF FILE, which is attached to the APSR transmittal email:

Family Preservation and Support Services  
Annual Report  
June 2, 2017

Philosophy: Children should be protected from abuse and neglect and when possible, families should be preserved and strengthened in order to nurture and raise children in safe, healthy and stable environments. Service interventions are based on a set of beliefs about children and their families:

- Children belong with their families if they can safely live at home.
- Most parents love and want their children
- Most maltreatment is an expression of an unmet need;
- Most people can change and all children need permanency in their live
- When children cannot continue to live at home, they still need family and community connections.

The Goal of FP/SS is to:

- Reduce Unnecessary entries into foster care
- Reduce re-entries into Foster
- Increase Reunification with families
- Increase families safely remaining together after intensive interventions.

Intensive in-home interventions – 9-12x months and able to extend services upon the approval by SDHR. 90 days of aftercare. Track up to 24 months

Preservation Services: interventions to help alleviate situations/conditions within families where removal of children from the homes is imminent.

Reunification Services: Services for when children have been removed from their homes and reunification with family or relatives is the permanency goal.

FOCUS: (Family Outcome-Centered Unification Services)

Number of Preservation Cases in oct 2015- Sept 2016: 610  Number of Reunification Cases: 342

Current IIHS (Intensive In-Home Services): Current: Pres: 191 Families Served  43 d/c
Adults=209
Children=335

Reunification= 170 fam Served  d/c 41  Adults=200
Children=242

Program Standards:

1. Imminence of placement or reunification to occur
2. Twenty-Four Hour/Day Availability for Intake
3. Immediate Response to Referral – DHR worker will confirm with the family the acceptance of the services and will contact the family to schedule a f/f in-home initial visit and introduction of the in-home staff to the family within 48 hours (or sooner if needed) of admission.
4. Services in the Natural Environment
5. Intensity of Services (Identified in the ISP)
6. **Brevity of Services**: 3-4 months and extensions granted upon the approval of SDHR.

7. **Twenty-Four Hour/Day Availability to clients**

8. **Up to 6 families - caseload**

9. **Team approach: Family Support and Therapist**

10. **Consultation**: Individual and Group Consultation, as well as, SDHR consults on cases as needed.

11. **Accountability**: They routinely utilize a variety of methods to ensure that they are accountable to families, referring agencies and SDHR.
   - They focus on client satisfaction. Providers have the referring worker and family complete a satisfaction survey at the end of the intervention.
   - Program Data is collected and submitted to SDHR on a monthly basis. They track families for up to 24 months. Programs are required to complete a plan of action if they fall below 80% success rate.
   - Providers update DHR on family progress on a weekly basis and a written summary is provided monthly. If there are emergencies they call immediately. Practitioners also provide DHR with a termination summary with recommendations and court summaries as needed.
   - SDHR monitors programs: site visits, reports, consultation and mediation between the county and provider if needed. (i.e., if the county did not provide the provider with appropriate documents then they would call us.

12. **Promoting Safety**: Practitioner’s assist with developing safety plans, The Practitioner has the DHR Social Worker Rate safety in the home, community and towards others entering the home at the beginning and end of the intervention.

13. **Community relations**: Providers meet with counties at least quarterly to update on any programmatic changes or educate new workers on services provided by FOCUS. In some of the smaller counties FOCUS is part of the orientation process.

14. **Flexibility**: Practitioners meet at times that are convenient for the family.

15. **Interactive Assessment and Goal Setting**: DHR is involved in the Assessment Process and the Goals are related to the ISP and family goals. The family participates in the goal setting process and rates the goals.

16. **Teaching/Skills-Based Approach**: The practitioner helps clients acquire information and skills that will enable them to more effectively manage their lives. Methods include: modeling, formal instruction, contingency management and the provision of prepared materials. The practitioner encourages practice so that clients have the greatest possible opportunity to develop
new skills and maintain changes after the intervention concludes. (parenting skills, communication skills, etc.)

17. **Concrete and Advocacy Services:** Often families have immediate and/or high priority advocacy needs which they have been unable to meet on their own. The practitioner has opportunities to teach clients how to advocate for themselves.

**Core Services Provided:**
- Schedule and coordinate the child’s treatment plan, initial treatment plan within 10 days, and comprehensive treatment plan within 30 days and reviews every 90 days. All treatment plans developed should be coordinated with the DHR county social worker and based upon the goals established in the ISP.
- Include d/c planning from the point of admission with emphasis on moving toward stability, safety and permanency as quickly as possible.
- Conduct 2 or more (as needed) in-home f/f contacts per week with the family. Minimum 1 hour duration. Preservation cases.
- Conduct one or more (as needed) in-home, f/f contacts per week with the family (minimum of one hour duration) to examine family relationships, roles and dynamics and to assess how these impact family functioning including those contacts by therapist or family worker, based on the needs identified by the ISP (Reunification Cases).
- Conduct two or more (as needed) visits per month with the out of home child/children to discuss movement toward permanency outcomes detailed in the ISP, performing in the role of child advocate when at the out of home placement. Reunification cases.
- Provide f/f or telephone contact with school, therapists or other providers, once per month or more as needed, to monitor the child and family’s progress.
- Assist in the referral to other programs/services, advocate for the child and family by accompanying them to appointments as identified in the ISP including the coordination of transportation, family visits and activities.
- Provide education and support to enhance the child and family’s ability to function independently by assisting the family with locating and appropriately utilizing community resources, services and activities (housing, food, clothing, transportation, etc.)
- Provide family support with the birth family, supervise family visitation as outlined in the ISP/Treatment Plan. (educating on the needs of the child, their illness, expected symptoms, medication management, parenting support, support educational advocacy and to encourage school success as identified in the ISP.
- Attend ISPs, IEPs, court hearings and other appointments along with the child and family to assure coordination of services.
- Provide progress/summary report to the referring DHR worker on a monthly basis and prior to any Family court hearing.
• Assist in creating a behavior management plan for the child with other members of the ISP team. (DHR shall assume the responsibility of completing behavioral management plans on all children that require them.)
• Participate in the development of the Safety Plan as needed.
• Provide Crisis Intervention services on a 24/7 days a week basis, as needed, to alleviate a crisis for the child
• Provide weekly consultation with DHR and an immediate response in the event health or safety issues pose a threat to the child.

Collaborative Efforts with DHR/Each Other:
• The provider participates in the ISP process with the family upon referral. Core Services are identified in the ISP.
• It is requested for DHR Social Worker to go with the practitioner on the first f/f visit and at termination to assist with closure and transitioning.
• The practitioner has the social worker to rate safety in the home, community and towards others entering the home. This safety rating is done at the beginning and end of the intervention.
• The Practitioner works with DHR/ISP team on establishing safety plans and behavioral plans.
• The Practitioner provides weekly feedback and monthly written summaries to update the Social Worker. They call immediately if there are any safety concerns. Practitioners have access to after hour numbers as well. Practitioners provide court summaries and case termination summaries to DHR.
• Counties allow provider’s to use office space sometimes if needed.
• Practitioners provide supervised visitation when needed.

CONTINUUM of CARE:  Intensive In-home Reunification Services is the delivery of treatment and wrap around services.
Providers:  Lee County Youth Development Center, Alliance, Seraaj, Youth Villages, SAFY and Alabama Mentor.
Counties Served:  Jefferson, Mobile, Lee, Montgomery, Madison, Calhoun, Cherokee, Dekalb, Etowah, Jackson, Marshall, Morgan, Lauderdale, Limestone, Cullman.  15 Counties
Number of Families Served:  2016 =363

SERVICE DELIVERY and CORE SERVICES:
• Services last 9-12 months and an extension may be granted upon the approval of SDHR.
• Caseloads: Therapists, max 12 families per therapist and Family Support Workers a 6- 8 families. Supervisors do not carry a caseload. There is 1 supervisor per 4 workers.
• Staff Qualifications include:  Supervisor: MA + 2 years’ experience or BA +2 years experience +supervised by MA;  Therapist: LGSW, LCSW or LPC; FAMILY Support Worker BA + 1 year.
• Make a minimum of bi-weekly contact with the therapist of the child or family to monitor progress or outcomes in counseling.

• Treatment teams must include at least one supervisor, six clinical staff, including therapists and family support workers (based upon the need of the region). Each team may serve up to 48 families per team.

• Services must be available 24/7. Staff use flexible work hours to meet the needs of the family.

• The role, function, hours of provision of services and length of intervention by the in-home worker is determined by the needs of the family as defined in the ISP.

• If the child requires out of home placement, the services will continue with family to help them adjust to this transition and work towards reunification.

• Monthly reports are sent to referring DHR describing services provided during the month and child’s progress towards goals that are outlined in the treatment plan. Weekly contact with DHR and immediate response in the event health or safety issues poses a threat to the child.

• Work with DHR to ensure the EPSDT screening is completed according to schedule.

• Ensure Children are receiving needed education services, including homework assistance (not tutoring), participation in and follow-up on children’s IEP, weekly contact with the school.

• Medication monitoring

• Provide basic living skills training/structured daily activities in accordance with outcomes identified in the ISP.

• Provide local transportation to appointments such as physicians, counseling, extra-curricular, family visits, etc. as identified in the ISP.

• Provide Support Services to the family as agreed in the ISP. (supervision of family visits, etc.)

• Crisis intervention

• Make a minimum of bi-weekly contact with the therapist of the child or family to monitor progress or outcomes in counseling.

• Provide Individual Counseling as needed and as identified in the ISP to meet the child’s treatment goals.

• Provide family counseling as identified in the family’s ISP.

• Assist in creating a behavior management plan for the child with the other members of the ISP team.

• Assist in the development of the Safety Plan as needed.

• Attend ISPs, IEPs, Court Hearings and other appointments along with the child and family to assure coordination of services, including assistance in getting the family/child to meetings when necessary.

• Assist in referrals to other programs/services. Advocate for the child

COLLABORATION WITH DHR:

• Participates in the ISP

• Assist’s with developing crisis and behavioral plans.
- Report progress to DHR on a weekly basis and provide monthly written summaries to DHR. This includes reporting progress with school issues
- Provide court summaries
- Inform of any critical incidents; continuous assessment of safety and well-being.
- Work with DHR on identifying any additional family supports or placement options if needed.
- Assist with d/c planning
- Provides SDHR monthly reports- Requests extensions, etc. (Track cases up to 24 months)
- Provides aftercare services.
- Complete Satisfaction Survey’s and makes programmatic changes as needed.
- Supervises Visitation and reports back.
- There is a DHR liaison assigned to providers as a point of contact.
- They provide recommendations regarding reunification and any ongoing advocacy needs, treatment, etc.

**CURRENT: Oct. 1, 2016**
SDHR organized a committee to complete a state assessment to determine the needs of the state in terms of Family Preservation. Alabama developed a plan that integrated the FOCUS and Continuum Program in order for every county in the state to have access to more of a team approach that was formerly in the Continuum’s model. An RFP was released in order to select providers who would provide an array of services tailored to meet the individual needs of families and designed to assist families with issues effecting safety, stability, and health. The development of Intensive In-Home Services (IIHS) which provide intensive family preservation services to families with children at imminent risk of foster care placement and Reunification Services for children who have been placed outside of the home. This model allows more of a team approach where the family would have access to an In-Home therapist, as well as a family support worker. The contracts were awarded to the providers listed below and services began Oct. 1, 2016

**See ATTACHMENT A, pg. 16-19** (Scope of the Project) for Program Description and Core Services.

IIHS programs provide **concrete services** as well. These are defined as a tangible service or good provided to a family member, such as food, clothing, money, household items or furniture, transportation to an appointment, bus tokens, etc. These services may be donated items, funds available through other funding sources, referrals to other agencies within the community or purchase orders provided by The Department of Human Resources.

All IIHS services are authorized through the Individual Service Plan (ISP) and 724 forms (Service Authorization). The roles/expectations of DHR referring worker and IIHS provider are clearly defined in the RFP. **See ATTACHMENT A, pg. 19-21**

Service Delivery is defined on **pg. 17-18 of ATTACHMENT A 3.5.**

Assessment and Treatment Planning is completed with collaboration of DHR and IIHS. Assessing for Safety throughout the intervention is also a critical aspect of the intervention. For those families referred to the program by DHR due to child/family safety issues, the referring worker must be asked to rate the situation at time of referral and at the time of case closure. **See ATTACHMENT B.** Many programs utilize the North Carolina Family Assessment Scale (NCFAS). NCFAS Scale-Preservation to assess for safety as well. **See ATTACHMENT C.** The DHR worker then is asked to use the same indicators
listed in the goal rating section to rate the family situation related to child/family safety when the referral is made. The assessment also addresses safety within the family, community and home. DHR also provides a copy of their safety plan if they have established one. The DHR worker is updated weekly on progress and a monthly summary is provided as well. *See ATTACHMENT D.* There are protocols in place with each provider to contact DHR immediately if there are any incidents, immediate concerns, etc. Safety is also identified on the summaries provided to DHR.

At the time the Individualized Service Plan is initiated with each family involved in the core services, goals are established. Each program has their own treatment plan form; however, all providers involve DHR in this process. Several programs utilize a form where ratings are rated at the beginning, interim and end of the intervention. Indicators are used for ratings.

- N/A = Situation has changed: no longer a goal.
- (-) Situation has worsened.
- 1 = The situation is desperate. A great amount of help is needed.
- 2 = The current situation is not tolerable more than half the time. Some help is needed.
- 3 = The current situation is ok more than half the time. Little help is needed.
- 4 = The current situation is very good. Things are under control. No help is needed at this time.
- 5 = Expectations have been exceeded.
- 9 = Unable to obtain (This applies to the final rating)

*See ATTACHMENT E* for an example.

Each IIHS provider has a quality assurance process in place that will be utilized in the delivery of IIHS services. Several Programs utilize Consumer Satisfaction Surveys. Quality assurance is reviewed during programmatic site visits.

*See ATTACHMENT F* for an example.

Current IIHS (Intensive In-Home Services): Current: Pres: 191 Families Served 43 d/c Adults=209  Children=335
Reunification= 170 FAM Served  d/c 41  Adults=200  Children=242

Intensive In-Home Services - Every County in the State has access to services. 526 Slots per month. 10 Regions

- Monthly Reports
- Monthly Summaries/Case Reports

**FAMILY SERVICE CENTERS** (Community-based services to support and strengthen families.)
Family Service Centers provide a broad range of home and center-based services on a continuum from prevention services to intervention and treatment. Centers provide family support and preservation services in targeted counties/communities where there is a high concentration of families in need of services that address their safety and stability issues. The goal is to alleviate stress and promote parental competencies and behaviors that will increase the ability of families to successfully nurture their children, enable families to use other resource opportunities available in the community, and create supportive networks to enhance child rearing abilities of parents and help compensate for the increased social isolation and vulnerability of families.

Family Preservation and Support Services is funded by Title IV- B subpart 2 “Promoting Safe and Stable Families:
FSC Bay Minette - Baldwin County
SAFE - Talladega County
FIRST FSC of Talladega - Talladega County
Circle of Care - Chambers County
Alfred Saliba FSC - Houston County
The Center for Families - Jefferson County
The Center for Families Montgomery/Lowndes -
FSC of Calhoun County -
Tuscaloosa’s One Place- Tuscaloosa County -
Healthy Families- Madison County -
Total Served 2016= 27,903       Intake and Referral:  38, 569
** See ATTACHMENT G
Current:  13,423  Second qtr.
- These are the totals served through family preservation funds and not a total of all they serve through other funding sources.
- Of course, all families have access to other programs in the center. They may be referred by DHR for parenting, etc. and after the assessment it may be determined they could benefit from other services being provided on site.

Program Categories Include:
Adult and Family Support Programs: such as Adult Education, Case Management, Counseling, Employment preparation; English as A Second Language; Financial Assistance (Food and clothing closets), Literacy (adult education, etc.); Marriage Enrichment; Medical; Respite Care; Supervised Visitation; Transportation
Parenting: Education and Support, Fatherhood; Home Visiting
Youth Based Programs: Academic Support, After School support, mentoring, Internet Safety, Personal Safety; Parenting Education; Pregnancy Prevention; Relationship Education; Substance Abuse Prevention and Violence Prevention.

CORE COMPONENTS:
A strengths/needs assessment and individualized service planning process that includes family members and all stakeholders involved with the family.

B. Case coordination or case management, including provision of information about, referral to, and follow-up with other child- and family-serving agencies and entities.

C. Services which support families and parents, such as preventive, educational, or respite services. For example, parents might receive in-home services to coach/teach them in anger management or conflict resolution skills, or parents might attend adult education classes or workshops which support their self-sufficiency, such as a course in money management.

D. Services which address families' survival needs, including clothing, food, housing, and transportation, among others. These services may be provided either on site or through established relationships with other community agencies.

E. Family-focused counseling, treatment and therapy to address family functioning. These services may be provided either on site or through established relationships with other community agencies.

F. A formal relationship between the county Department of Human Resources and the Family Services Center. A Department of Human Resources liaison with the family service center will link and coordinate various components of service delivery, outreach to build on the existing capacities of the community and its members, and the establishment of both the service evaluation process and the quality assurance process.
Quality Assurance/Reports:

Monthly progress

- Monthly progress reports must be provided to the county departments on cases that are currently open to services.
- Data is submitted to SDHR. If successful outcomes fall below 80% a corrective action plan must be implemented.
- Providers are involved in a peer review process and DHR is involved as part of the stakeholder’s group.

Collaboration:

- Supervised Visitation Programs.
- Providers have liaisons from DHR on their Advisory Boards who gives input into services needed to address DHR families or any known programmatic issues.
- Some providers have family rooms for visitation. Some also offer office space to DHR staff who do the jobs program etc.
- Providers participate in ISP’s and provide court summaries if needed.
- Assess for safety and well-being.

Collaboration with DHR

1. Collaborative efforts with DHR and Each Other:
   - ISPs/Treatment Planning/Goal setting
   - Establishing Safety Plan’s/Behavioral Plan’s
   - Ongoing assessment of the family (including assessing for safety on an ongoing basis: FOCUS and Family Service Centers have DHR rate safety at the beginning and ending of the intervention.
   - DHR provides office space for intake/Services for some of our providers and vice versa; DHR has space in a couple of the family service centers to use when needed. This may be for family visitation, etc.
   - DHR Workers and Providers may play a joint role in preparing a family for court, appointment, etc.
   - Weekly progress and monthly summaries are provided.
   - There is usually a DHR liaison assigned to providers who work/assist with making referrals, setting up meetings, etc. There are DHR liaisons on the FSC boards and usually it is the director. They have input into services that need to be developed to address the safety and well-being of children/families.
   - Providers and DHR staff meet quarterly to discuss any programmatic changes, needs, or to educate new DHR employees about services being offered by the provider.
   - DHR participates in providers peer reviews and satisfaction surveys.
   - SDHR will continue to consult on cases and provide case extensions as needed.
2. **Strengths and suggestions related to services for children and families that are served by the Department and the agencies:**
   - Commendable relationships between DHR and our Providers.
   - Safety is the number one concern regarding families that are served, as well as, staff providing services.
   - Increase staff/programs as funding allows.

3. **How information/data is exchanged and used:**
   - Releases are signed in order to authorize ongoing communication between the provider and DHR.
   - Providers provide weekly updates and written monthly summaries to DHR regarding families they referred. They also provide court summaries, etc.
   - Providers are given copies of the Comprehensive Family Assessment, DHR safety plan and ISP to update the provider on the history, permanency goals and goals that DHR would like for the family and the provider to work on.
   - Our providers have the family and DHR complete a satisfaction survey that is used to make programmatic changes if needed or to give staff credit for a job well done.
   - Our FSCs have peer reviews in which DHR staff participates in. They also use this information to make changes if needed.
   - Providers send monthly data to SDHR:
     - SDHR also completes programmatic site visit’s that identifies strengths and needs. Providers can use this to make changes as needed.

4. **How work can best be coordinated in assessing strengths/needs of child welfare practice, implementing strategies, monitoring progress and making necessary adjustments.**
   - We track families for up to two years. The data is also used for federal reports, etc. We also monitor the success rate and if it falls below 80% we request for the provider to complete a Program Improvement Plan. This information is used for planning for future needs. (whether to continue with certain programs, expand as funding allows, etc.
   - A representative from the Resource Management Division participates in the Child and Family Services Plan (CFSP) and Child and Family Services Review (CFSR).
   - Continue to collect monthly data and track families for 24 months.
   - Continue to complete programmatic site visits.

5. **Suggestions on ways to enhance our collaboration, the work being done with children/families, etc.**
   - Continue to advocate on behalf of children/families
   - Children and their families shall be encouraged and supported to access services.
   - Children and their families shall be encouraged and assisted to identify their own strengths, needs, goals, and services needed to meet these goals.
   - Focus on family strengths and treat families as partners in parenting.
   - Be accessible to children and families, and target services where the greatest needs exist.
Feedback from State QA Committee and CWCl Team

I. Safety

Strengths
- Timely face-to-face contacts are being made in child maltreatment reports.
Suggestions
- Thoroughly assess all allegations in child maltreatment reports.
- Obtain complete family history information prior to making first contact.
- Carefully prepare for interviews before first contact.

II. **Permanency & Case Review System**

**Strengths**
- State is becoming more “tech savvy” in terms of using resources/technology to maintain connections between a child in foster care and family/siblings.
- Later in the calendar year, a greater number of department workers may be provided with tablets to support worker productivity, management of time, etc.
- Data improvements are forthcoming from the State office that will better promote use of data for case management purposes.
- Camp Hope offers an excellent resource for families in Central Alabama in terms of providing a place/means for meaningful visits.
- The “I Can” counties have been effective in terms of those select judges/directors promoting best practices around collaboration and the timely achievement of permanency.

**Suggestions**
- Continue to recruit foster homes for larger sibling groups (groups of 3 or more).
- Continue to recruit foster homes for adolescents.
- Develop strategies to address the lack of transportation resources (which will promote children in foster care being able to visit with their families).
- Continue to emphasize (with workers/supervisors) the importance of concurrent planning to the timely achievement of permanency.
- Continue to remind supervisors of their role in ensuring accountability among workers for timely/accurate documentation.

III. **Well-Being**

**Strengths**
- Education staff are more involved in the ISP.

**Suggestions**
- Strengthen the use of *Early Intervention* as a resource for families of young children.
- Provide more assistance to families in terms of informing them about, and helping them access, available resources.
- Explore a greater use of technology in terms of involving stakeholders in the ISP meetings (Skype, webinar, etc.).
- Explore (in collaboration with the SQAC) the prospects of using principles from the “Charting the Life Course” curriculum, as a way of promoting effective decision-making by/with birth parents within the ISP process.
IV. **Service Array**

**Strengths**
- Services are seen as individualized in terms of using therapeutic resources when needed.
- Resources for IL teens have increased through the use of IL funds and the HOPE Scholarship program.

**Suggestions**
- Develop a plan to address the strong statewide need to expand substance abuse treatment resources.
- Develop strategies to address gaps caused by a lack of transportation.
- Craft a plan to increase the services for special needs children after adoption has been finalized.
- Develop ways in which workers/supervisors can stay informed of current/developing statewide/regional trends of the kinds of substances that are being used (see also bullet #1).

V. **Agency Responsiveness**

**Strengths**
- The Department is seen as very responsive (at different levels of the organization) in terms of listening to concerns and working toward solutions.
- The state QA transition of leadership has been smooth.
- Individual counties are also seen as partnering with stakeholders.

**Suggestions**
- Ensure that local coordination among service providers is effective, so that families are not overwhelmed by the number of providers in and out of the home, and there is no duplication of services.

VI. **Foster & Adoptive Parent Licensing, Recruitment & Retention**

**Strengths**
- Over the last few years the process of obtaining background checks for prospective resource families has improved.
- The Department is doing a better job at recruiting resource families to match the racial and ethnic diversity of the children needing placement.
- It is believed that the TIPS curriculum will be useful in improving the department’s ability to prepare prospective resource families for their role as foster and/or adoptive parents.
