

FORM ACF-202 – TANF CASELOAD REDUCTION REPORT

Date of Completion 11/19/2024

State: Alabama

Fiscal Year to which credit applies: 2025

1. Name of eligibility change: Non-compliance with JOBS – Recipients 3rd Incidence
2. Implementation date of eligibility change: 8/1/06
3. Description of policy, including the change from prior policy: Prior policy: 3rd incidence of non-compliance lasting more than three months resulted in 25% reduction of payment for the assistance unit size for three months followed by a six-month disqualification. New policy: 3rd incidence of non-compliance results in an immediate 12-month disqualification. Under old policy, the case would have been disqualified for six months. The new policy disqualifies the case for six additional months and eliminates the benefit reduction period.
4. Description of the methodology used to calculate the estimated impact of this eligibility change: (attach supporting materials to this form) The number of cases disqualified in each month of the fiscal year will be identified by termination reason code in the State's automated system (FACETS). The number of cases will then be used to show the effect of the change in months 1-3 and again in months 10-12 for a total of 6 months of the 12-month disqualification period which includes the previously existing 6-month disqualification (months 4-9). The number of cases each month after the first month will be adjusted by a 5% decay factor.

NOTE: For the impact of this change on the two-parent caseload, the state determined the percent of the broader caseload affected by this change and applied that percentage to the two-parent caseload thus concluding it would be similarly impacted. That impact is indicated in parenthesis.

5. Estimated average monthly impact of this eligibility change on caseload in comparison year: -52 (0)
